

Preface

The "Senior Citizen Card Scheme" (the Scheme) launched by the Social Welfare Department (SWD) in April 1994 aims to promote a spirit of care and respect for the elderly. Under the Scheme, Senior Citizen Cards are issued to eligible Hong Kong residents aged 65 or above for them to enjoy the concessions, discounts and priority services offered by government departments, public organizations and private companies.

The Scheme has been well received by elderly persons, companies, organizations and the community since its implementation. So far, more than 1,200,000 Senior Citizen Cards have been issued; over 90% of eligible elderly persons in the territory are Senior Citizen Card Holders (card holders); as well as over 8,000 companies and organizations, with more than 16,000 outlets, have supported the Scheme. We have uploaded and listed out the updated information on concessions provided by companies and organizations onto our webpage and in this Concession Booklet of Senior Citizen Card Scheme (concession booklet) to facilitate access to and choice of products and services by elderly persons.

To tie in with the objectives underlying elderly services, that is, to enhance the quality of life of elderly persons and help them lead an active and flourishing life in their golden years in an environment with which they are familiar, we have been proactively publicising and promoting the Scheme in the district level. Companies and organizations are encouraged to provide services, facilities and concessions to card holders living in the community with a view to strengthening their sense of belonging to the community and building a caring and loving community.

With our continuous efforts, the Scheme has gained the recognition and kind support from the business and the public sector. An array of companies and organizations offering services/concessions that meet the various needs of elderly persons in their daily life has joined the Scheme. Apart from jointly promoting the message of respect for elderly persons, the participating companies and organizations can also enhance their corporate image and fulfill their social responsibility. With longer life expectancy, the participating companies and organizations can get in touch with the fast-growing segment of elderly customers which will in turn enlarge their customer base.

The success of the Scheme hinges on the active participation and full support by the community. I sincerely thank the generous assistance from the participating companies and organizations and appeal for their continuous support. I hope the Scheme can link elderly persons more closely with the community, allowing them to feel the love and respect from others.
