

日間社區康復中心 Community Rehabilitation Day Centre

Community Rehabilitation Day Centre

Service Objectives

Community Rehabilitation Day Centre (CRDC) provides both professional rehabilitation training service and psychosocial rehabilitation service to discharged patients. It aims at enhancing the patients' physical functioning and self-maintenance abilities, strengthening their domestic living and community living skills, helping them restructure a healthy lifestyle and productive life roles so as to facilitate their integration into the community. CRDC also provides day respite care service for discharged patients, training programmes and educational courses for their family members/carers to strengthen their caring capacities and relieve their pressure so as to improve their quality of living.

Target Participants

Rehabilitation Training Service

1. Discharged patients who are -
 - aged 15 or above; and
 - suffering from stroke, neurological or physical impairments, or other physical illnesses affecting their functional performance and in need of continuous rehabilitation training.
2. Family members/carers of discharged patients as stipulated above

Day Care Service for Severely Disabled Persons

- severely mentally handicapped / severely physically handicapped persons aged between 15 and 59

Service Nature

- Time-defined centre-based individual or group rehabilitation training programmes;
- Home-based training service;
- Training programmes/educational courses/workshops for the family members/carers;
- Supportive services including the organization of mutual support groups for discharged patients, the launching of public education programmes and the provision of consultation services to support groups and rehabilitation units in the community;
- Day respite care service; and
- Day care service for severely disabled persons.

Application Procedure
