Support Team for the Elderly is one kind of community support services for elderly persons attached to District Elderly Community Centres. Through serving the elderly persons in need, the teams show concern and provide assistance for elderly persons so that they can live actively in the community under the support network.

To promote a sense of worthiness among elderly persons, Support Team for the Elderly has also developed the Senior Volunteer Programme to encourage elderly persons to become volunteers, to be continuously involved in community affairs and to serve other elderly persons in need.
