LWB(W)014

(Question Serial No. 1800)

Head: (170) Social Welfare Department

Subhead (No. & title): (000) Operational Expenses

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the local residential care services for the elderly, would the Government please provide the following information for the past 5 years:

1. the annual funding allocated to care-and-attention (C&A) homes and nursing homes (NH) by the Government, along with their respective manpower and number of places;
2. the number of practitioners currently engaged in elderly residential care services, and the projected number for the next 5 years;
3. the respective numbers of approved and rejected applications under the Special Scheme to Import Care Workers for Residential Care Homes (the Special Scheme) thus far; and
4. the average waiting time for residential care homes (RCHs) for the elderly (RCHEs), the number of waitlisted elderly persons, and the proportion of these waitlisted elderly persons relative to the overall elderly population in the past 5 years.

Asked by: Hon CHAN Hak-kan (LegCo internal reference no.: 37)

Reply:

1. The number of places for and total expenditure on subsidised residential care services (RCS) from 2020-21 to 2024-25 are set out at Annexes 1 and 2, respectively. Subject to compliance with the requirements of the relevant Funding and Service Agreement and the statutory staffing requirements, organisations operating subvented elderly services may determine their staffing establishment in accordance with their manpower requirements and flexibly deploy resources and employ staff. The Social Welfare Department (SWD) does not maintain manpower information of subsidised elderly service units.
2. The numbers of home managers, nurses, health workers, care workers and ancillary workers employed by RCHEs as at the end of December 2024 are set out at Annex 3. As services for the elderly are wide-ranging and involve different operation modes, SWD does not have an estimate of the overall number of practitioners engaged in elderly services.

3. The Government launched the Special Scheme in June 2023. As at December 2024, 4 rounds of applications, involving a total of 10 187 quotas, were completed. 6 439 and 749 quotas (including those for contract renewal) to import care workers were granted to RCHEs and RCHs for persons with disabilities, respectively.
4. From 2020-21 to 2024-25, the number of persons waitlisted for various subsidised RCS and their percentage out of the total elderly population, as well as their average waiting time are set out in Tables 1 and 2 of Annex 3, respectively.

Numbers of service places for subvented C&A homes and NH

Year	C&A place Note 1	NH place Note 3	No. of residential care service vouchers (RCSVs)	Total
2020-21	24 955	4 284	3 000	32 239
2021-22	26 152	4 365	3 000	33 517
2022-23	26 812	4 652	4 000	35 464
2023-24	27 687	5 048	4 000	36 735
2024-25 (as at end- December 2024)	27 830	5 157	5 000	37 987

Note 1 Including subsidised C&A places provided at contract homes, subvented C&A homes, and private RCHEs participating in the Enhanced Bought Place Scheme, as well as subsidised C&A places provided under the Residential Care Services Scheme in Guangdong (GDRCS Scheme).

Note 2 Including subsidised places provided at contract homes, subvented NHs, and self-financing NHs participating in the NH Place Purchase Scheme, as well as subsidised NH places provided under the GDRCS Scheme.

Expenditure on subsidised RCS

Year	Expenditure (\$ billion)
2020-21 (Actual)	6.9713
2021-22 (Actual)	7.2653
2022-23 (Actual)	7.4035
2023-24 (Actual)	8.4943
2024-25 (Revised estimate)	9.1890

Number of staff employed in RCHEs (as at end-December 2024)

Type of RCHE	Home Manager	Nurse	Health Worker	Care Worker	Ancillary Worker	Total
Subvented home	121	1 239	972	3 648	3 464	9 444
Contract home	51	1 043	238	1 893	1 026	4 251
Self-financing home	41	235	199	629	558	1 662
Private home	668	1 786	2 877	6 975	4 766	17 072
Total	881	4 303	4 286	13 145	9 814	32 429

Table 1: Number of persons waitlisted for subsidised RCS and their percentage out of the total elderly population ^{Note 1}

	2020-21	2021-22	2022-23	2023-24	2024-25 (as at end-December 2024) ^{Note 4}
No. of persons waitlisted for C&A places ^{Note 2 Note 3}	30 857	21 990	14 040	14 238	14 407
No. of persons waitlisted for C&A places and their percentage out of the total elderly population	2.2%	1.5%	0.9%	0.8%	0.8%
No. of persons waitlisted for NH places ^{Note 3}	5 932	4 719	2 796	2 381	2 181
No. of persons waitlisted for NH places and their percentage out of the total elderly population	0.4%	0.3%	0.2%	0.1%	0.1%

^{Note 1} The figures represent the number of elderly persons aged 65 or above at the end of the respective calendar years, as announced by the Census and Statistics Department.

^{Note 2} Currently, elderly persons using RCSVs may be admitted to RCHEs participating in the RCSV Scheme with government subsidies, without the need to wait for a vacancy.

^{Note 3} Excluding elderly persons classified as “inactive cases” on the central waiting list.

^{Note 4} The total elderly population for the year is provisional.

Table 2: Average waiting time for subsidised RCS

Service type	Average waiting time (in months) ^{Note}				
	2020-21	2021-22	2022-23	2023-24	2024-25 (as at end-December 2024)
C&A place	19	18	14	8	9
NH place	22	21	18	10	9

^{Note} The figures represent the average waiting time (in months) for elderly persons who applied for subsidised residential care places and were admitted during the last 3 months of the year concerned (except for 2024-25).

CONTROLLING OFFICER'S REPLY

LWB(W)015

(Question Serial No. 1725)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the proposal to enhance the services of Integrated Community Centres for Mental Wellness (ICCMWs) mentioned in the Programme, please provide the following information:

- 1 The staffing establishment of the 24 ICCMWs over the past 3 years, broken down by various professionals, including social workers, psychiatric nurses, occupational therapists, clinical psychologists, and supporting staff. What was the specific number of personnel for each profession, and what was the expenditure on subsidies for each ICCMW?
2. Please provide the respective headcounts of the following groups served by subsidised ICCMWs over the past 3 years: discharged mental patients aged 15 or above; persons with suspected mental health problems aged 15 or above; secondary school students in need of community mental health support services; their family members/carers; and local residents who wish to further understand/improve their mental health.
3. With respect to the measures provided by the Social Welfare Department (SWD) to enhance social work services at ICCMWs, please provide details of the training content and frequency, the number of social workers trained, and the related expenditure in the past year.
4. Please provide the specific details of SWD's plan to enhance training for social workers, as well as the estimated expenditure involved for the coming year. How many social workers are expected to participate in the training programmes?

Asked by: Hon CHAN Hoi-yan (LegCo internal reference no.: 48)

Reply:

1. The expenditure of the 24 ICCMWs subvented by SWD in the past 3 years is set out in Table 1 of Annex. The notional staffing establishment of ICCMWs is set out in Table 2 of Annex. Subject to compliance with the requirements of the Funding and Service Agreement, the operating organisations may flexibly deploy resources and employ staff to achieve the service outputs and outcomes required.

2. The numbers of secondary school students in need of community mental health support services and their family members/carers served by ICCMWs in the past 3 years are set out in Table 3 of Annex. SWD does not keep records on the number of other service users.
3. & 4. SWD enhanced the services of ICCMW in October 2024, including strengthening the early identification of persons with mental health needs and early intervention, and scaling up the training of social workers in community mental health service units to raise their capacity in handling complicated cases. These centres may arrange appropriate training/further studies for their staff based on their actual circumstances and the needs of service users. In addition, SWD commissioned the School of Professional and Continuing Education of the University of Hong Kong to organise professional training courses related to mental health for social workers in community mental health service units starting from October 2024. The course content covers common mental health disorders and severe mental illnesses, mental health issues in children and adolescents, as well as case management and crisis intervention in community mental health service units, etc. More than 1 000 social workers have been trained thus far. These training courses will continue in 2025-26, with the cumulative number of participating social workers expected to reach 2 000. The expenditure on the training courses is about \$6.7 million.

Table 1: Expenditure of ICCMWs

Year	2022-23 (Actual) (\$ million)	2023-24 (Actual) (\$ million)	2024-25 (Revised estimate) (\$ million)
ICCMW	495.7	529.7	600.8

Table 2: SE of ICCMWs ^{Note}

Scale: 1 notional team	
Rank/Post	No. of staff
Social Work Officer	2.13
Assistant Social Work Officer	12.34
Social Work Assistant	9.2
Clinical Psychologist	1.13
Registered Nurse (Psychiatric)	2
Occupational Therapist I	1.13
Occupational Therapist II	1
Occupational Therapy Assistant	2
Welfare Worker	6.13
Clerical Assistant	1
Workman II	1

^{Note} The above SE is intended solely for the purpose of calculating the amount of subvention, and should not be regarded as the standard for staffing levels or employee composition in subvented services. Subject to compliance with the requirements of FSAs, service operators can flexibly deploy resources and arrange appropriate manpower.

Table 3: Numbers of secondary school students and family members/carers with community mental health support needs served by ICCMWs

Year	2022-23	2023-24	2024-25 (as at 31 December 2024)
Secondary school student	954	780	1 762
Family member/carer	5 188	5 088	4 799

CONTROLLING OFFICER'S REPLY

LWB(W)016

(Question Serial No. 0379)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding day child care services, please inform this Committee of:

- (1) the number of qualified child care workers and their ratios to children receiving day/residential child care services and pre-school rehabilitation services, as well as the expenditure incurred on providing day/residential child care services and pre-school rehabilitation services in 2024-25;
- (2) the average salary and the percentage increase or decrease in the salary of all child care workers over the past 3 years; and
- (3) for day child care services (including standalone child care centres (CCCs) and CCCs attached to kindergartens (KGs) for children aged below 3; Occasional Child Care Service (OCCS), Extended Hours Service (EHS), and Mutual Help Child Care Centres (MHCCCs) for children aged below 6; and the Neighbourhood Support Child Care Project (NSCCP) for children aged below 9), (a) the number of service places in each district; (b) the average utilisation rate, number of service users and service fee for each type of service; (c) the number of waitlisted children; (d) the average waiting time; and (e) any other support provided to parents during the waiting period in the past 3 years.

Asked by: Hon CHAN Kapui, Judy (LegCo internal reference no.: 5)

Reply:

- (1) & (2) In accordance with the Child Care Services Regulations (CSSR) (Cap. 243A), the child care staff serving in a CCC have to be registered as child care workers upon successfully completing a training course approved by the Director of Social Welfare. In accordance with the Child Care Services Ordinance (Cap. 243) and CSSR, the manning ratio for qualified child care workers taking care of young children aged 0 to below 2 in day CCCs is 1:8, while the manning ratio for taking care of young children aged 2 to below 3 is 1:14. To improve service quality, the Government has allocated additional resources to enhance the above manning ratios to 1:6 and 1:11, respectively, since the 2019/20 school year. The manning ratios for child care workers serving in residential child care centres (RCCCs) for children aged below 6 are 1:8 between 8 a.m. and 8 p.m., and 1:12 between 8 p.m. and 8 a.m. In addition, the manning ratio for qualified child care workers serving

in special child care centres (SCCCs) for children aged 2 to 6 is 1:14. As for the staffing establishment of individual service areas, please refer to the Social Welfare Department's (SWD) webpage (<https://www.swd.gov.hk/en/ngo/subventions/suballoc/subvention/nse/>) for details.

Subject to compliance with the requirements of the Funding and Service Agreements and the relevant statutory staffing requirements, non-governmental organisations operating subvented services may determine their staffing establishment in accordance with their human resources policies, and flexibly deploy resources and employ staff to achieve the required service outputs and outcomes. SWD does not have information on the average salary or the percentage increase or decrease in the salary of all child care workers.

The Government's expenditure on RCCC, aided standalone CCCs, aided CCCs attached to KGs, OCCS, EHS, NSCCP, and pre-school rehabilitation services in 2024-25 is tabulated as follows:

Service type	2024-25 Revised estimate (\$ million)
RCCC	131.8
Aided standalone CCC	82.4
Aided CCC attached to KG	204.2
OCCS	62.4
EHS	97.1
NSCCP	226.6
On-site Pre-school Rehabilitation Services	1,311.1
Early Education and Training Centre	413.7
Integrated Programme in KG-cum-CCC	170.7
SCCC	656.0

- (3) The service fee, number of places and average utilisation rate for various types of day child care services (including standalone CCCs, CCCs attached to KGs, OCCS, EHS, MHCCCs, and NSCCP) in the past 3 financial years, broken down by District Council district, are tabulated at Annex.

The monthly fees charged by aided standalone CCCs for young children aged below 2 and the monthly fees charged by aided CCCs (including aided standalone CCCs and aided CCCs attached to KGs) for young children aged 2 to below 3 are tabulated as follows:

Table 1: Monthly fees charged by aided standalone CCCs for young children aged below 2

Year	2022-23	2023-24	2024-25
Highest monthly fee (\$)	6,710	6,720	6,735
Lowest monthly fee (\$)	4,385	4,385	4,485

Table 2: Monthly fees charged by aided CCCs for young children aged 2 to below 3

Year	2022-23	2023-24	2024-25
Highest monthly fee (\$)	6,521	6,802	7,569
Lowest monthly fee (\$)	1,831	1,831	1,831

Since parents can apply directly for the aforementioned child care services from the service operators based on their needs, without being waitlisted under a central system, and the applications are handled by the respective service operators, SWD does not have statistical information on the waiting time and the number of children waitlisted for these services.

Table 1: Service fee, number of places and average utilisation rate for standalone CCCs, CCCs attached to KGs, OCCS, EHS, MHCCCs, and NSCCP (2022-23)

Note 1 2 standalone CCCs in Tai Po and Yuen Long commenced service in January and March 2023, respectively.

Note 2 Figures provided by the Education Bureau (EDB) as at September 2022.

Note 3 13 MHCCCs in Southern, Kwun Tong, Wong Tai Sin, Sham Shui Po, Tai Po, North, Yuen Long, and Kwai Tsing districts have been re-engineered to provide after-school care service for pre-primary children. As a result, there has been a reduction in the number of service places.

Note 4 Service operators are required to provide a minimum of 53 service places in each district (i.e. the total number of places in all 18 districts should be at least 954). Service operators may flexibly increase the number of HCCS places beyond this requirement to meet the actual service demands.

N.A. - Not applicable

Note 1 2 standalone CCCs in Sham Shui Po and Kwun Tong commenced service in September and October 2024, respectively.

Note 2 Figures provided by EDB as at September 2024.

Note 3 Starting from September 2024, the service fees for HCCS and CCG are set at the standard rates of \$28 and \$20 per hour, respectively. In addition, on the basis of 1 service team in each of the 18 districts in Hong Kong, SWD has added an additional service team in districts with higher service demands, namely Kwun Tong, Sham Shui Po, Sha Tin, Tuen Mun, and Yuen Long. As a result, the number of service teams in Hong Kong has increased from 18 to 23. Each service team is required to provide a minimum of 92 service places (i.e. the total number of places in all 18 districts should be at least 2 116). Service operators may flexibly increase the number of HCCS places beyond this requirement to meet the actual service demands.

CONTROLLING OFFICER'S REPLY

LWB(W)017

(Question Serial No. 0380)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Please provide this Committee with the following information for the past 3 years:

- (1) the respective numbers of persons who benefited from adoption services and services for street sleepers, as well as the actual or revised estimated expenditure involved;
- (2) the number of persons who benefited from foster care services, as well as the actual or revised estimated expenditure involved; and
- (3) the respective numbers of persons who benefited from the services of refuge centres for women and the Multi-purpose Crisis Intervention and Support Centre (MCISC), as well as the actual or revised estimated expenditure involved.

Asked by: Hon CHAN Kapui, Judy (LegCo internal reference no.: 6)

Reply:

- (1) The number of children arranged by the Social Welfare Department for adoption in the past 3 financial years and the expenditure involved are set out in Table 1 of Annex. The number of street sleeper cases received support and the expenditure of subvented integrated services for street sleepers are set out in Table 2 of Annex.
- (2) The number of children received foster care services in the past 3 financial years and the expenditure involved are set out in Table 3 of Annex.
- (3) The number of service users and the expenditure of refuge centres for women and MCISC in the past 3 financial years are set out in Tables 4 and 5 of Annex, respectively.

Table 1: Number of children adopted and the expenditure involved

	2022-23	2023-24	2024-25 (as at 31 December 2024)
Number of children adopted	82	65	45
Expenditure (\$ million)	19.3 (Actual)	19.6 (Actual)	20 (Revised estimate)

Table 2: Number of street sleeper cases received support and the expenditure involved

	2022-23	2023-24	2024-25 (as at 31 December 2024)
Number of cases	556	759	632
Expenditure (\$ million)	32.6 (Actual)	36.5 (Actual)	38.6 (Revised estimate)

Table 3: Number of children received foster care services and the expenditure involved

	2022-23	2023-24	2024-25 (as at 31 December 2024)
Number of children received foster care services	892	863	883
Expenditure (\$ million)	237.1 (Actual)	253.3 (Actual)	367.6 (Revised estimate)

Table 4: Number of service users and expenditure of refuge centres for women

	2022-23	2023-24	2024-25 (as at 31 December 2024)
Total number of admissions ^[Note 1]	1 033	1 058	919
Expenditure (\$ million)	43.4 (Actual)	45.4 (Actual)	46.1 (Revised estimate)

^[Note 1] As service users may have multiple admissions to refuge centres in a particular year, admission is counted on a headcount basis.

Table 5: Headcount of service users and expenditure of MCISC

	2022-23	2023-24	2024-25 (as at 31 December 2024)
Total number of admissions ^[Note 2]	273	344	287
Expenditure (\$ million)	19.0 (Actual)	19.83 (Actual)	20.44 (Revised estimate)

^[Note 2] As service users may have multiple admissions to MCISC in a particular year, admission is counted on a headcount basis.

CONTROLLING OFFICER'S REPLY

LWB(W)018

(Question Serial No. 0381)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the Neighbourhood Support Child Care Project (NSCCP), please provide this Committee with:

- (1) the actual annual expenditure on NSCCP for each of the past 3 years, with a breakdown by expenditure item, including but not limited to incentive payments, staff salaries, training for child carers, administrative expenses, etc.
- (2) the following information for the 18 districts in Hong Kong in each of the past 3 years:
 - (a) the number of places and the number of home-based child carers;
 - (b) the amount of subvention for each service operator and the service fee they charge;
 - (c) the hourly wage of home-based child carers; and
 - (d) the number of service users, broken down by age groups of 0 to 2, 3 to 5, and 6 to 9; and
- (3) the increase in the number of subvented places and funding allocation, and the estimated expenditure on NSCCP for 2025-26.

Asked by: Hon CHAN Kapui, Judy (LegCo internal reference no.: 7)

Reply:

- (1) The expenditure on NSCCP in the past 3 financial years is tabulated as follows. The Social Welfare Department (SWD) allocates funding to service operators based on their expenditure on operating NSCCP, which includes staff salaries, costs for recruiting and training home-based child carers, incentive payments, service promotion costs, and subsidies for service fee waivers/reductions, etc. At the same time, service operators are required to provide a minimum number of places and employ staff in accordance with the staffing establishment stipulated in the Service Agreement (SA) for operating NSCCP. They must also meet the service output and outcome standards specified in the SA. On this basis, service operators may flexibly deploy the funding to operate NSCCP. Therefore, SWD does not have the breakdown of the expenditure on NSCCP as required in the question.

Year	Expenditure on NSCCP (\$ million)
2022-23 (Actual)	28.3
2023-24 (Actual) ^{Note 1}	88.0
2024-25 (Revised estimate) ^{Note 2}	226.6

Note 1 The increase in expenditure for 2023-24 was due to the fact that part of the funding for 2022-23 was disbursed in 2023-24.

Note 2 The increase in expenditure for 2024-25 was due to the fact that the incentive payment for home-based child carers and the number of service places under NSCCP were increased.

- (2) The information on NSCCP over the past 3 financial years, broken down by District Council district, is set out at Annex. The incentive payment for home-based child carers under NSCCP was set at the standard rate of \$25 per hour in 2022-23 and 2023-24. Starting from April 2024, the rate has been increased to \$60 per hour for carers of infants and young children aged 0 to 3 or children with special learning needs. For carers of other children, the rate has been increased to \$40 per hour.
- (3) Since September 2024, SWD has doubled the number of NSCCP places to around 2 000. The estimated expenditure for 2025-26 is about \$457.5 million, more than double that of the previous year.

Table 1: Number of places, number of home-based child carers, number of children served, service fee, and amount of subsidy granted to service operators of NSCCP (2022-23)

Kwun Tong	184	63	140	132	142	414			
Kwai Tsing	92	36	203	134	77	414			
Tsuen Wan	92	21	41	150	100	291			
Tuen Mun	184	86	164	222	188	574			
Yuen Long	184	116	274	309	271	854			
North	92	26	22	87	166	275			
Tai Po	92	86	70	160	140	370			
Sha Tin	184	52	124	172	219	515			
Sai Kung	92	29	100	133	127	360			
Islands	92	102	72	237	196	505			
Total	2 116	1 043	1 871	2 677	2 456	7 004			

Note 1 Starting from September 2024, on the basis of 1 service team in each of the 18 districts in Hong Kong, SWD has added an additional service team in districts with higher service demands, namely Kwun Tong, Sham Shui Po, Sha Tin, Tuen Mun, and Yuen Long districts. As a result, the number of service teams in Hong Kong has increased from 18 to 23. Each service team is required to provide a minimum of 92 service places (i.e. the total number of places in all 18 districts should be at least 2 116). Service operators may flexibly increase the number of HCCS places beyond this requirement to meet the actual service demands.

Note 2 A new SA for NSCCP commenced in September 2024. Some home-based child carers are currently undergoing training, and will start service later. Therefore, the number of home-based child carers will gradually increase.

Note 3 Starting from September 2024, the service fees for HCCS and CCG are standardised at \$28 and \$20 per hour respectively. Service users with social needs and/or financial difficulties can approach service operators for fee waivers/reductions.

Note 4 The annual expenditure includes the operator's administrative expenses, training costs and incentive payments for home-based child carers, and subsidies granted to service users from low-income families.

CONTROLLING OFFICER'S REPLY

LWB(W)019

(Question Serial No. 0382)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Please inform this Committee of the following for the past 3 years:

- (1) the staffing and expenditure of the Family and Child Protective Services Units (FCPSUs), as well as the proportion of their expenditure to the total expenditure of the Department;
- (2) the number of domestic violence cases handled each year, broken down by physical violence, sexual violence, psychological violence, and multiple violence;
- (3) the number of case referrals made by teachers, police officers, medical professionals, relatives, or others;
- (4) the number of child abuse cases handled and the number of abused children each year, broken down by gender and age of the child, case type (physical violence, sexual violence, psychological violence, and multiple violence), and relationship between the abuser/perpetrator and the child; and
- (5) the Department's specific measures to combat domestic violence, the effectiveness of such measures, and the expenditure or estimated expenditure involved.

Asked by: Hon CHAN Kapui, Judy (LegCo internal reference no.: 8)

Reply:

- (1) The staffing establishment of FCPSUs of the Social Welfare Department (SWD) in the past 3 years consisted of 14 Senior Social Work Officers, 155 Social Work Officers and 51 Assistant Social Work Officers. The revised estimated expenditure of FCPSUs in 2024-25 was \$325 million, which constituted about 0.3% of the total expenditure of SWD.
- (2) to (4) The number of newly reported cases of domestic violence involving spouse/cohabitant battering, with a breakdown by reporting/referring agency, and the number of newly registered child protection cases, with a breakdown by type, source of referral, and the relationship between the abuser/perpetrator and the victim/maltreated child, from 2022 to 2024, as collected by the Central

Information System on Spouse/Cohabitant Battering and Sexual Violence Cases and the Child Protection Registry of SWD, are tabulated at Annex.

- (5) SWD will continue to provide a wide range of preventive, supportive and specialised services to support victims of domestic violence (including child abuse) and families in need. These services are provided through integrated family service centres/integrated services centres, FCPSUs, Clinical Psychology Units, family support networking teams, refuge centres for women, the Family Crisis Support Centre, the Multi-purpose Crisis Intervention and Support Centre, the Victim Support Programme for Victims of Family Violence, residential child care services, and child care centres, etc. The estimated expenditure on these services in 2025-26 is about \$5.898 billion. In addition, SWD has earmarked about \$4.4 million for organising publicity and public education programmes on prevention of domestic violence (including child abuse) for 2025-26.

Spouse/cohabitant battering cases

(1) Newly reported spouse/cohabitant battering cases

Type \ Year	2022	2023	2024
Physical violence	1 649	1 528	1 310
Sexual violence	17	9	20
Psychological violence	189	153	147
Multiple violence	222	248	189
Total	2 077	1 938	1 666

(2) Type of reporting agency ^{Note 1}

Reporting agency	2022	2023	2024
SWD	963	900	916
Non-governmental organisation (NGO)	218	249	246
Hospital Authority	65	76	37
Legal Aid Department	-	-	-
Hong Kong Police Force	831	713	467
Department of Health	-	-	-
Others	-	-	-
Total	2 077	1 938	1 666

Note 1 If more than 1 agency reports the same case, the first agency to provide the information will be recorded as the reporting agency.

Newly registered child protection cases

(3) Distribution of newly registered child protection cases by type

Type \ Year	2022	2023	2024
Physical harm/abuse	652	602	595
Neglect	276	310	328
Sexual abuse	443	509	522
Psychological harm/abuse	15	7	16
Multiple abuses	53	29	43
Total	1 439	1 457	1 504

(4) Number of child protection cases newly received by FCPSUs with a breakdown by source of referral

Source of referral	2022	2023	2024
Medical professionals and medical social workers	225	207	206
Schools (including teachers and school social workers)	298	323	349
The Police	138	163	145
Social service units (including other service units under SWD, IFSCs, and NGOs, etc.)	498	458	508
Members of the public/media/SWD hotlines	2	2	4
Courts/other government departments	8	6	4
The person concerned	14	9	11
Others	16	6	8
Total ^{Note 2}	1 199	1 174	1 235

Note 2 As each case may involve more than 1 high-risk/maltreated child, the number of child protection cases newly received by FCPSUs does not tally with the total number of high-risk/maltreated children newly registered in the Child Protection Registry of the year.

(5) Gender of maltreated children

Gender \ Year	2022	2023	2024
Female	866	880	910
Male	573	577	594
Total	1 439	1 457	1 504

(6) Distribution of maltreated children by age

Age \ Year	2022	2023	2024
0-2	230	190	183
3-5	142	135	132
6-8	200	194	203
9-11	273	291	291
12-14	383	412	449
15-17	211	235	246
Total	1 439	1 457	1 504

(7) Relationship between the perpetrator and the maltreated child ^{Note 3}

Relationship with the maltreated child	Number of perpetrators		
	2022	2023	2024
Parent/Sibling/Step-parent/Grandparent/Relative	993	986	1 043
Family friend/Parent of peer/Schoolmate/Friend/Peer	193	201	191
Carer/School teacher/School personnel/Staff of boarding section of school/Tutor/Coach/Religious personnel	114	134	74
Co-tenant/Neighbour/Inmate of residential service	6	14	16
Unrelated person	159	142	141
Unidentified person/Other	50	62	100
Total	1 515	1 539	1 565

Note 3

The number of perpetrators and the number of maltreated children do not tally because a perpetrator may harm/maltreat more than 1 child and a child may be harmed/maltreated by more than 1 perpetrator.

- End -

CONTROLLING OFFICER'S REPLY

LWB(W)020

(Question Serial No. 0383)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Please provide this Committee with the following information regarding residential child care services (RCCS) for the past 3 years:

- (1) For each service operator, please provide (a) the number of places; (b) the number of service users, broken down by age; (c) the average duration of receiving services; and (d) the number of waitlisted children.
- (2) How many staff members are responsible for inspecting RCCS? What is the amount of expenditure involved, and what proportion does it represent in relation to the total expenditure of the Department?
- (3) How many times were staff members sent to inspect and supervise RCCS? What was the expenditure involved? Specifically, how the inspection and supervision of RCCS will be strengthened in 2025-26? What is the estimated expenditure involved?
- (4) How many complaints against RCCS have been handled? What are the causes for these complaints?
- (5) How many non-compliance cases have been found during inspections? What are the violations, and what penalties have been imposed?
- (6) How many non-compliance cases have been prosecuted? Please provide details of the offences and the penalties imposed.

Asked by: Hon CHAN Kapui, Judy (LegCo internal reference no.: 9)

Reply:

- (1) The number of places, the average length of stay, and the number of children waitlisted for foster care service, small group homes (SGH), and residential home for children (RHC) (including residential child care centre (RCCC), children's home, and boys'/girls' home/hostel) in the past 3 years are set out at Annex 1. The age distribution of service users of foster care service, SGH, and RHC is set out at Annex 2.
- (2) & (3) All RCCCs and residential special child care centres (RSCCCs) must be registered in accordance with the Child Care Services Ordinance (Cap. 243) and the Child

Care Services Regulations (Cap. 243A), and must comply with the requirements stipulated in the Ordinance and the Regulations mentioned above, as well as the Operation Manual for Pre-primary Institutions. The Child Care Centres Advisory Inspectorate (CCCAI) of the Social Welfare Department (SWD) conducts regular and surprise inspections at standalone child care centres (CCCs) and processes applications for the registration of standalone CCCs to ensure that the service units comply with the statutory requirements in areas such as staffing, space and design, safety measures, quality of care, etc. Since February 2022, inspectors of CCCAI have conducted at least 6 surprise inspections during office and non-office hours at subvented RCCC/RSCCs every 12 months, and will increase the frequency of inspections as necessary based on the principle of risk management.

To enhance the depth and breadth of inspections and monitoring, and to provide immediate professional advice/feedback and take follow-up actions during inspections, SWD added 2 former law enforcement officers to CCCAI through internal redeployment of manpower resources in 2022, and 1 social worker and 1 registered nurse to the staffing establishment of CCCAI in 2023-24. At present, the staffing establishment of CCCAI comprises 1 Social Work Officer, 5 social workers and 1 nurse. The staffing establishment of CCCAI and the relevant payroll costs in the past 3 years are set out at Annex 3.

- (4) To ensure CCCs comply with the statutory requirements and safeguard the well-being of children under their care, CCCAI will investigate complaints involving CCCs. In the past 3 years, CCCAI received a total of 10 complaints against RCCCs and RSCCs involving child care arrangements and suspected child abuse incidents.
- (5) & (6) If any CCC is found not complying with the statutory requirements, CCCAI will issue written advice, warnings and/or directions in light of the nature and severity of the non-compliance. If the CCC concerned persistently fails to comply with the requirements, prosecution may be initiated. The Director of Social Welfare may consider cancelling the registration of the CCC concerned where circumstances warrant it. In the past 3 years, CCCAI issued 10 written advice to RCCCs/RSCCs, reminding them to strengthen safety measures for children. In addition, it issued 3 written warnings in relation to child abuse incidents. After receiving written advice or warnings from CCCAI, the CCCs concerned have promptly implemented improvements and rectified the non-compliance or irregularities.

Number of places, average length of stay, and number of children for waitlisted foster care service, SGH, and RHC (including RCCC, children's home, and boys'/girls' home/hostel) in the past 3 years

Item	Year	Foster care services	SGH	RHC
Number of places	2022-23	1 130	954	1 832
	2023-24	1 230	978	1 832
	2024-25 ^{Note 1}	1 230	978	1 850
Average length of stay in months ^{Note 2 Note 3}	2022-23	34.90	32.27	24.57
	2023-24	38.33	35.45	23.79
	2024-25 ^{Note 4}	32.78	33.60	21.30
Number of waitlisted children (monthly average)	2022-23	289	388	296
	2023-24	292	335	274
	2024-25 ^{Note 4}	256	309	237

^{Note 1} Statistics as at 31 December 2024.

^{Note 2} The figures include both ordinary and emergency services.

^{Note 3} SWD usually calculates the average length of stay of children upon their withdrawal from RCCS in months. To ensure the consistency of information and for ease of cross reference, the above figures are also calculated in months.

^{Note 4} Statistics from April to December 2024.

Age distribution of service users of foster care service, SGH, and RHC in the past 3 years (as at end-December)

Year	Distribution by age	Foster care services ^{Note 1}	SGH ^{Note 2}	RHC
2022	Newborn to aged below 6	403	14	220
	Aged 6 to below 12	330	350	304
	Aged 12 to below 18	147	460	907
	Aged 18 or above	-	6	140
2023	Newborn to aged below 6	385	21	211
	Aged 6 to below 12	319	373	308
	Aged 12 to below 18	139	497	829
	Aged 18 or above	1	11	139
2024	Newborn to aged below 6	405	17	196
	Aged 6 to below 12	320	371	312
	Aged 12 to below 18	157	526	871
	Aged 18 or above	1	18	151

Note 1 Foster care service serves children from newborn to under 18 years of age. Under exceptional circumstances, children receiving foster care service may extend their stay with the foster families beyond 18 years of age.

Note 2 SGH serves children aged 4 to below 18. Under exceptional circumstances, children receiving service at SGH may extend their stay beyond 18 years of age.

Table 1: Staffing establishment and payroll costs of CCCAI

Staffing establishment \ Year	2022-23	2023-24	2024-25 (as at 31 December 2024)	2025-26 (Estimate)
Social worker	5	6	6	6
Registered nurse	-	1 ^{Note}	1	1
Total (Person)	5	7	7	7
Payroll costs (\$ million)	4.06	4.46	4.09	5.45

Note The registered nurse reported for duty in March 2024.

Table 2: Payroll costs for employing former law enforcement officers

Year	2022-23	2023-24	2024-25 (as at 31 December 2024)	2025-26 (Estimated expenditure)
Payroll costs (\$ million)	1.01	1.09	0.84	1.25

CONTROLLING OFFICER'S REPLY

LWB(W)021

(Question Serial No. 0385)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding day care centres/units for the elderly (DEs/DCUs), please inform this Committee of:

- (1) the latest number of persons on the waiting list; and
- (2) the number of service users, the number of persons receiving services, the average waiting time for the services, the number of elderly persons who passed away while waiting for the services, the number of service units and their staffing levels, and the average monthly cost and expenditure per service place in each of the past 3 years, broken down by the 18 districts across the territory and by age.

Asked by: Hon CHAN Ka-pui, Judy (LegCo internal reference no.: 11)

Reply:

- (1) The number of persons waitlisted for DEs/DCUs at the end of December 2024 was 2 052.
- (2) The full-year number of service users and number of persons receiving services from 2022-23 to 2024-25 broken down by District Council (DC) district are set out at Annexes 1 to 2, respectively. The Social Welfare Department (SWD) does not have a breakdown of such information by age.

The average waiting time for DEs/DCUs and number of elderly persons who passed away while waiting for DEs/DCUs from 2022-23 to 2024-25 are set out at Annex 3. SWD does not have a breakdown of such information by DC district or age.

The number of DEs/DCUs from 2022-23 to 2024-25 broken down by DC district is set out at Annex 4.

Subject to compliance with the requirements of the relevant Funding and Services Agreements and statutory requirements (if applicable), service operators may flexibly deploy manpower according to operational needs and their human resource policies. In February 2017, SWD uploaded the notional staffing establishment of subvented services to the following webpage:

https://www.swd.gov.hk/en/ngo/subventions/suballoc/subvention/nses/nses_es/index.html

The average monthly cost per service place and total annual expenditure for DEs/DCUs from 2022-23 to 2024-25 are set out below:

Year	Average monthly cost per service place (\$)	Total annual expenditure (\$ million)
2022-23 (Actual)	12,346	505.2
2023-24 (Actual)	12,965	542.3
2024-25 (Revised estimate)	13,291	569.3

Full-year number of DE/DCU service users

CONTROLLING OFFICER'S REPLY

LWB(W)022

(Question Serial No. 0386)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Please provide information on the following for each of the past 3 years:

- (1) the number of different ranks of care staff engaged by subvented elderly service units, as well as their average age and salary;
- (2) the number of training places for frontline care staff and the number of graduates;
- (3) the number of new recruits and the turnover rate of frontline care staff;
- (4) the number of foreign care staff engaged; and
- (5) details of the specific measures to attract more people to join the elderly service sector, and the effectiveness of such measures.

Asked by: Hon CHAN Kapui, Judy (LegCo internal reference no.: 12)

Reply:

- (1) & (3) Subject to compliance with the requirements of the Funding and Service Agreement and the relevant statutory staffing requirements, non-governmental organisations (NGOs) operating subvented elderly services may determine their staffing establishment and remuneration in accordance with their manpower requirements and flexibly deploy resources and employ staff. The Social Welfare Department (SWD) does not require NGOs to report the number of care staff at different ranks, their age, salary, the number of new recruits or turnover rate for each subvented elderly service unit.
- (2) As at the end of December 2024, the Director of Social Welfare has approved 31 training institutes to organise a total of 59 health worker training courses for residential care homes (RCHs) for the elderly (RCHes) and RCHs for persons with disabilities (RCHDs). In addition, there are different organisations in Hong Kong offering elderly service training courses for different types of front-line care staff. Since these courses are not provided or approved by SWD, SWD does not have relevant information on the numbers of training places or graduates of these courses. In the past 3 years (as at the end of December 2024), SWD's Training Subsidy Scheme for Staff of Residential Care Homes has subsidised a total of 217 persons to enroll in the Advanced Training for Health Workers and 2 433 persons to enroll in Training for Care Workers.

- (4) In 2022, employers in the elderly care service sector were given approval to import 3 441 elderly care workers through the Supplementary Labour Scheme (SLS).

The Government launched the Special Scheme to Import Care Workers for RCHs (Special Scheme) in June 2023. 793 care workers were approved for importation through SLS applications previously submitted by RCHE employers. A total of 2 624 and 3 815 quotas to import care workers (including those for contract renewal) were granted to various RCHEs under the Special Scheme in 2023 and 2024, respectively.

- (5) SWD implemented the Navigation Scheme for Young Persons in Care Services (Navigation Scheme) in 2015-16, and enhanced it in 2020-21 to provide a total of 1 200 training places within 5 years. Apart from receiving on-the-job training in elderly or rehabilitation service units, trainees are also provided with government subsidies to pursue a relevant 2-year part-time diploma course.

Since November 2020, SWD has launched a series of promotional activities, such as advertising on online platforms and public transport to promote the care industry, with a view to attracting more young people to join the social welfare care sector.

SWD will continue to implement the Enrolled Nurse (General) Training Programme for the Welfare Sector for 5 consecutive academic years from 2023-24 to 2027-28, and subsidise over 1 700 additional students to enrol in the training programme, with each cohort subsidising 427 places. Students are required to work as Enrolled Nurses (General) in NGOs recognised by SWD to provide elderly, rehabilitation, family and child care, or correctional services for a minimum of 3 consecutive years after completing the training programme.

In July 2023, SWD commissioned a Consultant to review the skill and qualification requirements of staff providing health and rehabilitation services in RCHs, with a view to establishing professional standards and a career progression pathway for them. In the same month, the Steering Committee on Review of Manpower for Healthcare Services in RCHs was established to offer advice and steer for the study. The relevant work was completed at the end of 2024. The consultancy report puts forth 4 key recommendations, including the establishment of a new professional rank, “Health&Care Practitioner”, specialising in the provision of care services in RCHEs, RCHDs and other elderly/rehabilitation welfare service units. This will not only attract people who aspire to pursue a career in the welfare sector, but also offer a career progression path for Health Workers, and help build up dedicated care talent for the sector. In addition, the Consultant recommended that RCH operators adopt measures to attract and retain talent, such as enhancing career development and promotion opportunities, applying information technology and gerontechnology, improving the work environment and culture, as well as establishing staff engagement and incentive mechanisms. SWD has accepted the report and will progressively implement the relevant recommendations.

- End -

Director of Bureau: Secretary for Labour and Welfare

Question:

Please provide information on the following for each of the past 3 years:

- (1) the number of staff responsible for conducting inspections at residential care homes for the elderly (RCHEs), and the related expenditure as a percentage of the total expenditure of the Social Welfare Department (SWD);
- (2) the number of inspections and regulatory visits to RCHEs and the expenditure involved, as well as the specific measures to strengthen the inspection and monitoring of RCHEs in 2025-26 and the estimated expenditure involved;
- (3) the number of complaints against RCHEs handled, along with the causes of the complaints;
- (4) the number of warning or advisory letters issued to RCHEs, along with the causes for issuing such letters; and
- (5) the number of non-compliant cases found during inspections, along with the nature of these non-compliances and the penalties imposed.

Asked by: Hon CHAN Ka-pui, Judy (LegCo internal reference no.: 13)

Reply:

- (1) The number of inspectors responsible for conducting inspections at RCHEs under SWD's Licensing Office of Residential Care Homes for the Elderly (LORCHE) and the related payroll cost in the past 3 years are set out in Table 1 of the Annex. In addition, since February 2017, SWD has recruited 8 retired disciplined service officers on contract terms to assist in carrying out inspections at RCHEs and residential care homes for persons with disabilities (RCHDs). The payroll cost so incurred, which accounted for approximately 0.06% of SWD's overall expenditure in the past 3 years, is set out in Table 2 of Annex.
- (2) LORCHE's inspectors will conduct surprise inspections at RCHEs and, having regard to the issues and nature of suspected non-compliance of each individual RCHE, formulate customised and targeted strategies and action plans. These include conducting surprise inspections at RCHEs in a flexible manner, either with

a small team or a multi-disciplinary inspectorate team, at various times during office and non-office hours. The number of inspections conducted by SWD at RCHEs in the past 3 years is set out in Table 3 of Annex. The estimated payroll cost for LORCHE inspectors in 2025-26 is \$57.26 million.

- (3) to (5) LORCHE is responsible for investigating complaints against RCHEs. In the past 3 years, LORCHE received complaints related to staffing arrangement, protection of privacy, drug management, infection control, nursing and personal care services, and fire safety, etc. The number of complaints against RCHEs is set out in Table 4 of Annex.

If RCHEs are found to be in contravention of the Residential Care Homes (Elderly Persons) Ordinance (Cap. 459), Residential Care Homes (Elderly Persons) Regulation (Cap. 459A) or Code of Practice for Residential Care Homes (Elderly Persons) in the course of handling complaints or during inspections, LORCHE will, based on the nature and severity of the non-compliance, issue advisory letters, warning letters and written directions for remedial measures, or instigate prosecution against the relevant RCHEs. The respective numbers of advisory letters and warning letters issued to RCHEs in the past 3 years are set out in Table 5 of Annex.

Table 1: Staffing establishment ^{Note} and payroll cost of LORCHE Inspectors

Year	2022-23	2023-24	2024-25 (as at end- December 2024)
Total (persons)	72	72	72
Payroll cost (\$ million)	53.14	55.59	42.95

^{Note} Excluding the 8 retired disciplined service officers employed on contract terms.

CONTROLLING OFFICER'S REPLY

LWB(W)024

(Question Serial No. 0389)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Please inform this Committee of the following for each of the past 5 years:

- (1) the number of residential care homes (RCHs) for persons with disabilities (RCHDs);
- (2) the number of staff members responsible for conducting inspections of RCHDs, and their share of the overall expenditure of the Social Welfare Department (SWD);
- (3) the frequency and expenditure of conducting inspections and monitoring of RCHDs, as well as the specific plans for strengthening inspection and monitoring in 2025-26, and the estimated expenditure involved;
- (4) the numbers of formal complaints received, cases reported to the Police and special incident reports, broken down by subvented, self-financing and private RCHs; and
- (5) the number of non-compliance cases found during inspections, along with the details of the non-compliances and the penalties imposed.

Asked by: Hon CHAN Kapui, Judy (LegCo internal reference no.: 15)

Reply:

- (1) The number of RCHDs in each of the past 5 years is set out in Table 1 of Annex
- (2) The number of inspectors responsible for conducting inspections at RCHDs under SWD's Licensing Office of RCHDs (LORCHD) and the related payroll cost in each of the past 5 years are set out in Table 2 of the Annex. In addition, SWD has employed a total of 8 retired disciplined services officers on contract terms to assist in carrying out inspections at RCHs for the elderly (RCHEs) and RCHDs since February 2017, The relevant payroll cost is set out in Table 3 of Annex.
- (3) The Government attaches great importance to the service quality of RCHDs.

Regarding strengthening the inspection and monitoring of RCHDs, SWD's inspectors will, having regard to the items and nature of non-compliance of individual RCHDs, formulate specific, concrete and targeted strategies and action plans. This includes surprise inspections to RCHDs with a small team or a multi-disciplinary inspectorate team at different times during office and non-office hours.

The number of inspections conducted at RCHDs by LORCHD in each of the past 5 years is set out in Table 4 of Annex. The estimated payroll cost for LORCHD inspectors in 2025-26 is \$20.44 million.

- (4) The number of complaints against subvented, self-financing and private RCHDs received by SWD in each of the past 5 years are set out in Table 5 of Annex. The number of special incident reports on RCHDs received by SWD in the same period is set out in Table 6 of Annex. SWD does not have a breakdown on the number of complaints by type of RCHD or the number of cases reported to the Police by RCHDs.
- (5) If RCHDs are found to have failed to comply with the requirements of the RCHs (Persons with Disabilities) Ordinance, the RCHs (Persons with Disabilities) Regulation or the Code of Practice for RCHDs in the course of handling of complaints or conducting inspections, LORCHD will consider issuing advisory letters, warning letters, written directions for remedial measures, or instigating prosecutions against the relevant RCHDs depending on the nature and severity of the irregularities. The respective number of advisory letters and warning letters issued by SWD to RCHDs in each of the past 5 years are set out in Table 7 of Annex.

Table 1: Number of RCHDs

Year	2020-21	2021-22	2022-23	2023-24	2024-25 (as at 31 December 2024)
No. of RCHDs	334	335	339	342	346

Table 2: Staffing establishment^{Note} and payroll cost for inspectors of LORCHD

Year	2020-21	2021-22	2022-23	2023-24	2024-25 (as at 31 December 2024)
Staffing establishment of inspectors (persons)	24	26	27	27	27
Payroll cost (\$ million)	16.77	17.47	19.08	19.84	15.33

^{Note} Excluding retired disciplined service officers employed on contract terms.

CONTROLLING OFFICER'S REPLY

LWB(W)025

(Question Serial No. 0390)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding pre-school rehabilitation services, including early education and training centres (EETCs), integrated programmes in kindergarten-cum-child care centres (IP), special child care centres (SCCCs), occasional child care service (OCCS) for children with disabilities and on-site pre-school rehabilitation services (OPRS), please inform this Committee of:

- (1) the number of children with special needs assessed to be in need of pre-school rehabilitation services in the past 3 years;
- (2) the number of service places, the actual number of additional service places, the utilisation rate, the service cost per person, the number of persons waitlisted, and their average waiting time for each service in the past 3 years, with a breakdown by 18 districts in Hong Kong;
- (3) the numbers of applicants, service users and persons who applied for a freeze in service allocation in the past 3 years, with a breakdown by district of residence, age group, and gender of the applicants;
- (4) the numbers of service sessions and cases followed up through OPRS in the past 3 years, as well as the manpower and expenditure involved; and
- (5) the numbers of service places and estimated expenditure for each service in 2025-26.

Asked by: Hon CHAN Kapui, Judy (LegCo internal reference no.: 16)

Reply:

- (1) The Child Assessment Service (CAS) of the Department of Health provides comprehensive professional assessment services for children under the age of 12 with suspected developmental problems. The number of case referrals by CAS to pre-school rehabilitation services and school rehabilitation services in 2022, 2023 and 2024 was 13 984, 14 972 and 11 488 (provisional figures), respectively. CAS does not maintain the number of referrals to pre-school rehabilitation services separately. Apart from CAS, non-governmental organisations and private recognised professionals also offer assessment services. Therefore, the Social Welfare Department (SWD) does not have the statistics on the number of children with special needs assessed to be in need of pre-school rehabilitation services.

- (2) The number of service places, actual number of additional service places, number of persons waitlisted, average waiting time, utilisation rate, and average monthly cost per place for various pre-school rehabilitation services (including EETCs, IP, SCCCs, OCCS for children with disabilities and OPRS) in the past 3 years, broken down by administrative district of SWD, are set out at Annex 1. As places of OPRS are available in all districts across the territory and allocated on an agency basis, SWD does not have information on the number of OPRS places broken down by district. Regarding OCCS for children with disabilities, applications can be made by parents/carers to the service operators directly or through referral by medical social workers, family caseworkers, staff of pre-school rehabilitation service centres, etc. Therefore, SWD does not have information on the number of persons waitlisted, their average waiting time or utilisation rate of the service.
- (3) The numbers of new applicants and service users of various pre-school rehabilitation services (including OPRS, EETCs, IP and SCCCs) in the past 3 years, broken down by SWD administrative district and age group, are set out at Annex 2. SWD does not have the statistics on the numbers of applicants and service users for pre-school rehabilitation services broken down by gender, or the number of persons who have applied for a freeze on service allocation.
- (4) The manpower involved in OPRS includes Social Work Officers, Assistant Social Work Officers, Social Work Assistants, Clinical/Educational Psychologists, Senior Special Child Care Workers, Special Child Care Workers, Speech Therapists, Physiotherapists I, Occupational Therapists I, Occupational Therapist Assistants, Welfare Workers, Clerical Assistants and Drivers. The expenditure involved in the past 3 years is set out at Annex 3. SWD does not have information on the numbers of service sessions and cases followed up through OPRS.
- (5) In 2025-26, the numbers of service places and the estimated expenditure for various pre-school rehabilitation services (including OPRS, EETCs, IP, SCCCs and OCCS for children with disabilities) are set out at Annex 4.

CONTROLLING OFFICER'S REPLY

LWB(W)026

(Question Serial No. 0391)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the Navigation Scheme for Young Persons in Care Services (Navigation Scheme), please provide the following information for each of the past 5 years:

- (1) the number of participants;
- (2) the respective numbers of persons who completed and dropped out of the Navigation Scheme and their reasons for dropping out;
- (3) the number of persons who articulated to other nursing courses through the Navigation Scheme; and
- (4) the specific outcomes of the Navigation Scheme, the government expenditure involved, as well as the expected number of participants, salaries, number of training places and estimated expenditure for the coming year.

Asked by: Hon CHAN Kapui, Judy (LegCo internal reference no.: 17)

Reply:

- (1) to (3) The numbers of admissions, graduates and dropouts under the Navigation Scheme, as well as the number of graduates pursuing further studies in nursing or medical service-related courses each year from 2020-21 to 2024-25, are tabulated at Annex. The reasons for trainees to drop out of the Navigation Scheme include pursuing further studies and moving on to other jobs, etc.
- (4) The Social Welfare Department launched the Navigation Scheme in 2015-16 and enhanced it in 2020-21 to provide a total of 1 200 training places within the next 5 years starting from the same year, involving a total expenditure of about \$266 million. As at the end of December 2024, the enhanced Navigation Scheme has recruited a total of 1 377 trainees, of whom 486 have graduated. According to the information provided by some trainees at the time of graduation, 283 indicated that they would continue to be employed in social welfare service units.

The final-year (i.e. 2024-25) intake of the Navigation Scheme was completed in September 2024, with a total of 141 trainees admitted. In 2024-25, trainees employed as care workers upon admission to the Navigation Scheme received a monthly salary of \$15,650, and a monthly salary of \$18,890 upon promotion to health workers. The estimated expenditure on the Navigation Scheme for 2025-26 is around \$4.2 million.

**Numbers of admissions, graduates and dropouts under the Navigation Scheme,
and the number of graduates pursuing further studies in related courses
from 2020-21 to 2024-25**

Admission year	2020-21	2021-22	2022-23	2023-24	2024-25 (as at end- December 2024)
No. of admissions	418	368	222	228	141
No. of graduates	224	168	94	In training and have not graduated yet	In training and have not graduated yet
No. of dropouts	194	200	121	124	31
No. of graduates pursuing further studies in nursing or medical service-related courses	26	27	23	In training and have not graduated yet	In training and have not graduated yet

CONTROLLING OFFICER'S REPLY

LWB(W)027

(Question Serial No. 0393)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the Innovation and Technology Fund for Application in Elderly and Rehabilitation Care (I&T Fund), please inform this Committee:

- (1) of the number of elderly and rehabilitation service units applying for the I&T Fund and the administrative expenses incurred in the past 3 years;
- (2) of the number of elderly and rehabilitation service units procuring or renting technology products with the I&T Fund, the total amount of funding approved, and the number of technology products procured or rented in each of the past 3 years; and
- (3) whether there are statistics on the main types of technology products purchased by elderly and rehabilitation service units in the past 3 years; if so, of the details.

Asked by: Hon CHAN Kapui, Judy (LegCo internal reference no.: 19)

Reply:

- (1) & (2) The Government allocated \$1 billion to launch the I&T Fund in 2018 to subsidise eligible elderly and rehabilitation service units to procure, rent or trial technology products, with a view to improving the quality of life of service users and reducing the pressure on care staff and carers. From 2022-23 to 2024-25 (as at the end of February 2025), grants totalling around \$350 million have been approved under the I&T Fund to subsidise about 1 600 elderly and rehabilitation service units to procure or rent over 12 500 items of technology products. Relevant information is set out at Annex.

In 2018-19, the Social Welfare Department (SWD) set up a secretariat to co-ordinate the operation of the I&T Fund. The average annual expenditure of the secretariat from 2022-23 to 2024-25 is about \$6.85 million. In addition, since 2018, SWD has commissioned the Hong Kong Council of Social Service to promote the use of technology products among social welfare organisations and carers, involving an annual expenditure of about \$3.75 million.

- (3) The types of technology products more commonly applied for procurement by service units include equipment, assessment tools and accessories for occupational therapy/physiotherapy/speech therapy; smart hospital bed and accessories; computer software; security equipment; and hoist/raiser/lifter/climber, etc.

**Information pertaining to the approval of applications under the I&T Fund

CONTROLLING OFFICER'S REPLY

LWB(W)028

(Question Serial No. 0662)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Social Welfare Department (SWD) provides family and child welfare services and programmes. It has, among other initiatives, strengthened the home-based child care service under the Neighbourhood Support Child Care Project (NSCCP) and increased the level of incentive payment for home-based child carers and the number of service places. In this regard, please inform this Committee of:

1. the estimated expenditure and staffing establishment involved in the past 3 years;
2. the numbers of home-based child carers and service users as well as utilisation rate in each district in the past 3 years; and
3. whether SWD has provided professional training for service operators and home-based child carers and set key performance indicators to ensure service quality; if yes, the details; if no, the reasons.

Asked by: Hon CHAN Kin-por (LegCo internal reference no.: 24)

Reply:

1. The expenditure on NSCCP in the past 3 financial years is tabulated as follows. In 2022-23 and 2023-24, the Social Welfare Department (SWD) required the service operators to provide a minimum number of service places and employ staff in accordance with the staffing establishment, i.e. at least 2 registered social workers, 1 child care worker, and 2 support staff, for operating NSCCP. Since September 2024, SWD has been subsidising non-governmental organisations (NGOs) to operate NSCCP under Lump Sum Grant subvention mode. The staffing establishment for each service team under NSCCP comprises 2 Assistant Social Work Officers, 2 Social Work Assistants, 1 Child Care Worker, and 2 Welfare Workers. Subject to compliance with the requirements of the Funding and Service Agreements, service operators may flexibly deploy resources and employ staff to achieve the required service outputs and outcomes.

Year	Expenditure on NSCCP (\$ million)
2022-23 (Actual)	28.3
2023-24 (Actual) ^{Note 1}	88.0
2024-25 (Revised estimate) ^{Note 2}	226.6

Note 1 The increase in expenditure for 2023-24 was due to the fact that part of the funding for 2022-23 was disbursed in 2023-24.

Note 2 The increase in expenditure for 2024-25 was due to the fact that the Government increased the incentive payment for home-based child carers and the number of service places under NSCCP.

2. The number of home-based child carers and the number of children served under NSCCP in the past 3 financial years, broken down by District Council (DC) district, are set out at Annex. Since NSCCP has no service quota limit, SWD does not have information on its average utilisation rate.
3. SWD adopts a “quality-based approach” in selecting NGOs to operate NSCCP, and requires them to meet the service output and outcome standards specified in the Service Agreement (SA). According to the SA, service operators have to provide enhanced training courses for home-based child carers. Starting from September 2024, SWD has required trainees to undergo 14 hours of basic training, the content of which is standardised and formulated by SWD. Home-based child carers who are arranged to take care of children with special learning needs must receive an additional 4 hours of advanced training to learn the related knowledge and skills. Service operators are required to evaluate the child care skills and knowledge of home-based child carers after they have completed the training, assess their confidence in providing care services, and determine whether their home environment is suitable for providing care services before arranging them to provide services. The incentive payment for home-based child carers also varies based on the age of the child in their care and whether the child has special needs.

To ensure service quality, SWD has consistently required service operators of NSCCP to establish mechanisms for recruiting, assessing, selecting and training home-based child carers, as well as service matching. Social workers from service operators are required to conduct monthly home visits to home-based child carers currently providing services, while child care workers will provide home-based child carers with individual training/supervision. In addition, service operators are also required to continuously evaluate and follow up on the performance of home-based child carers to ensure the quality of services delivered by them. Statistics related to the amount of training/supervision provided are included in the service quality indicators, and service operators are required to submit relevant statistical information to SWD on a quarterly basis. SWD will also conduct regular and surprise visits to assess whether service operators are in compliance with the requirements specified in the SA.

**Numbers of home-based child carers and children served under NSCCP
in the past 3 financial years by DC district**

CONTROLLING OFFICER'S REPLY

LWB(W)029

(Question Serial No. 2826)

Head: (170) Social Welfare Department

Subhead (No. & title): (000) Operational Expenses

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Paragraph 201 of the Budget Speech states that the Government will provide an additional annual provision of \$186 million to increase emergency places for residential child care and strengthen professional support for child abuse victims and their families. It is also mentioned that the Social Welfare Department (SWD) will enhance training and promulgate guidelines for practitioners in the relevant professions to facilitate early identification of child abuse cases and strengthen support for child abuse victims and their families. In this regard, please advise:

1. Regarding the increase in emergency places for residential child care, how will the 18 districts be covered, what will be the average number of places per district, and what is the expenditure involved for each district?
2. To better implement the Mandatory Reporting of Child Abuse Ordinance (the Ordinance), has the Government established key performance indicators to enhance the training of relevant professionals? What are the staffing arrangements and work schedules planned for the next three years?

Asked by: Hon CHAN Man-ki, Maggie (LegCo internal reference no.: 17)

Reply:

To dovetail with the operation of the Ordinance in January 2026, the Government will, starting from 2025-26, allocate an additional annual provision of \$29.07 million to increase the number of emergency residential child care places, and \$157.4 million to strengthen professional support for child abuse victims and their families, amounting to a total of approximately \$186.5 million. In 2023-24, the Government allocated an additional provision of \$24.1 million (additional full-year provision of \$24.2 million from 2024-25 onwards) to create 41 permanent posts to enhance the Government's enforcement and support capacity, provide appropriate training for practitioners in relevant professions and strengthen promotion and public education efforts on child protection, with a view to dovetailing the commencement of the Ordinance.

In terms of emergency residential child care places, 2 new residential child care centres located in Tuen Mun and Kwun Tong districts respectively, will commence operation before the Ordinance takes effect, adding a total of 96 emergency care service places and catering for about 380 children each year.

Regarding training, the Government has set up an e-learning platform to provide training and information on child protection for relevant professionals. The Child Protection Online Training offers online self-learning courses. Module 1 was launched in February 2024 to provide training on the basic knowledge on child protection. Module 2 is scheduled for phased rollout starting in July 2025, and will cover basic knowledge on the legal and reporting matters related to the new legislation. Besides, the Government also organised 3 webinars in 2024 to provide enrichment programmes for professionals to study different topics related to child protection and to enhance cross-sectoral professional collaboration. These webinars also incorporated Q&A sessions to address training needs and encourage interactive learning. In addition, in the first quarter of 2025, the Government has commenced organising 10 seminars for management of institutions of the social welfare, education, and healthcare sectors. These seminars introduce the key aspects of the new legislation, enabling heads of different organisations to review and, where necessary, update their internal guidelines, workflows, staff training, and devise measures to facilitate specified professionals in fulfilling their legal obligations. A task force comprising the Labour and Welfare Bureau, the Education Bureau, the Health Bureau, and the Security Bureau has been established to set targets for the number of training programmes, their implementation timelines, and target groups, while conducting regular monitoring of these programmes.

The above initiatives are jointly planned and implemented by the relevant policy bureaux and government departments. SWD does not maintain a breakdown of the related staffing establishment.

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Programme (1) mentions that the Social Welfare Department (SWD) has continued to provide additional places of aided child care centre (CCC) for children aged below 3. In this regard, please advise:

1. For 2024, how many additional aided standalone CCCs have been established, and how many service places for children aged below 3 have been provided through these centres; and
2. For the current year, how many aided standalone CCCs will be established, and how many service places for children aged below 3 will be provided through these centres?

Asked by: Hon CHAN Man-ki, Maggie (LegCo internal reference no.: 22)

Reply:

SWD will set up a total of 11 more aided standalone CCCs in phases within 3 years starting from 2024. Among these, the 4 CCCs at Queens Hill Estate and Wah Ming Estate in Fanling, the Treasury Building in Sham Shui Po, and Shun Lee Estate in Kwun Tong have commenced service in 2024, providing a total of 344 service places. A total of 160 places in another 2 aided standalone CCCs, namely 100 places at Cheung Shun Street in Sham Shui Po and 60 places at Kwai Fong Estate in Kwai Tsing, will also be put into service in 2025-26.

(Question Serial No. 0633)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (2) Social Security

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

In 2025-26, the recurrent expenditure of the Social Welfare Department (SWD) on provision under Subhead 184 Traffic Accident Victims Assistance (TAVA) Scheme is \$58,267,000, which represents an increase of 20% over the revised estimate for 2024-25. In this connection, would the Government please provide this Committee with the following information:

1. The numbers of TAVA applications received and approved, and the average amount of assistance paid for the approved applications in each of the past 5 years.
2. The current accumulated surplus of the TAVA Fund.
3. The number of cases involving fraudulent claims of TAVA identified by SWD and the average amount of assistance involved in each of the past 5 years; among these cases, the respective numbers of arrests, prosecutions and convictions made by law enforcement agencies, the average penalty imposed on convicted cases, as well as whether the amount of assistance involved in convicted cases was fully recovered.
4. The Government has stated that it will conduct a review of the eligibility criteria and scope of assistance for the Scheme, with a view to ensuring that traffic accident victims with genuine needs receive timely assistance while preventing abuse and severely punishing criminals who commit fraud. What is the current progress of this review? When are the results expected to be announced? Is there a specific implementation timetable?

Asked by: Hon CHAN Pui-leung (LegCo internal reference no.: 34)

Reply:

1. The numbers of TAVA applications received and approved from 2020-21 to 2024-25 are set out in Table 1 of Annex. The amount of assistance paid to each victim under the Scheme varies depending on the severity of their injury and their level of disability. The average amount of assistance paid, which is calculated based on the number of applications approved and the amount of entitlements, is set out in Table 2 of Annex.
2. The accumulated surplus of the TAVA Fund as at 31 March 2024 was about \$1,454 million.

3. The Scheme aims at providing speedy financial assistance to road traffic accident victims or the surviving dependents of deceased traffic accident victims. To guard against abuse and fraud, SWD strictly verifies every application, including seeking written confirmation from the Police on whether a traffic accident is involved and maintaining close liaison with the Hospital Authority and the Department of Health to ensure the injuries sustained by the applicants are related to the traffic accidents concerned. Actions are taken to strengthen the review of income proof during the processing of application for Interim Maintenance Grant under the Scheme. In addition, SWD also verifies whether the applicants have made any claim for damages or compensation through other means for the same traffic accident and informs insurance companies in writing on the disbursement of payment in a timely manner to avoid double compensation.

Obtaining TAVA by deception is a criminal offence. Applicants may be prosecuted under the Theft Ordinance (Cap. 210 of the Laws of Hong Kong) and are liable, upon conviction, to a maximum sentence of 14 years' imprisonment. From 2020-21 to 2024-25, SWD referred 698 cases suspected of TAVA fraud to the Police for follow-up. During this period, the Police arrested 339 individuals on suspicion of TAVA fraud. Of these, 6 were prosecuted, while the remaining cases are still under investigation. In addition, in 2024, the Independent Commission Against Corruption prosecuted 2 individuals for defrauding the Scheme. They were sentenced to 24 months and 14 months of imprisonment, respectively. The amounts of assistance involved were about \$300,000 and \$150,000, respectively. SWD will continue to cooperate with law enforcement agencies in their investigations, and will seek to recover the overpaid assistance amounts from the individuals involved. This work is ongoing. SWD does not have the other information sought.

4. To enhance the integrity of the Scheme and ensure the proper use of public funds, the Government is currently reviewing the eligibility criteria and scope of assistance under the Scheme, with a view to ensuring that they align with the Scheme's original intent, while preventing abuse and imposing severe penalties on those who commit fraud. The review is expected to be completed within this year.

Table 1: Numbers of TAVA applications received and approved from 2020-21 to 2024-25

Year	Number of applications received (cases)	Number of applications approved (cases)
2020-21	10 371	9 013
2021-22	10 500	8 320
2022-23	10 236	8 848
2023-24	11 265	9 146
2024-25 (as at end-December 2024)	8 152	5 926

Table 2: Average amount of assistance paid per TAVA case from 2020-21 to 2024-25

Year	Average amount of assistance paid per case (\$)
2020-21	46,544
2021-22	49,916
2022-23	50,554
2023-24	53,838
2024-25(as at end-December 2024)	55,484

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Under Matters Requiring Special Attention in 2025-26, it is mentioned that the Social Welfare Department (SWD) will prepare for the setting up of 4 Community Parents and Children Centres (CPCCs) on a pilot basis and increase service places of residential child care centre (RCCC) continuously. In this connection, please advise:

1. What is the current progress of preparing for the establishment of these CPCCs, when are they expected to be completed, what are the related staffing establishment and estimated expenditure, and what are these CPCCs' duties and types of services to be provided?
2. How many additional RCCC service places will be provided in 2025-26, and what is the estimated expenditure involved? After increasing the number of service places, how will the Government ensure that the service quality of RCCCs will not be affected?

Asked by: Hon CHAN Pui-leung (LegCo internal reference no.: 42)

Reply:

1. SWD will set up 4 CPCCs on a pilot basis by re-engineering existing children and youth centres located in the Eastern, Wong Tai Sin, Sha Tin, and Yuen Long districts. These CPCCs will adopt a play-based approach to promote parent-child interaction and educate parents on positive parenting methods, provide support to families with parenting needs, and refer families with other needs to appropriate government and community services.

SWD will begin renovation works in the second quarter of 2025, with the 4 CPCCs scheduled to commence operations progressively starting from 2026. The provision amounts to around \$96.9 million over a 5-year period, from 2025-26 to 2029-30. The staffing establishment will comprise social workers, nurses, family aide workers, and child care workers, etc.

2. SWD will set up 1 additional RCCC in Kwun Tong district in 2025-26, providing 48 emergency care service places at an estimated annual operating expenditure of about \$28.28 million. Organisations operating subvented welfare services are required to comply with the relevant requirements and standards stipulated in the Service

Agreements (SAs), including service quality standards, essential service requirements, and service output and outcome standards. SWD will monitor the performance of the service units in accordance with existing mechanisms, and conduct scheduled or surprise visits by random selection to assess whether the organisations are in compliance with the terms and requirements of the SAs.

(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

According to the Budget, the Social Welfare Department (SWD) will continue to enhance support for carers in 2025-26, including promoting the Designated Hotline for Carer Support (the Carer Hotline). In this connection, would the Government please inform this Committee of:

- (1) the specific measures and the actual expenditure for promoting the Carer Hotline by SWD since its launch in September 2023; the estimated expenditure for promotion in 2025-26; whether there are any new measures for promotion; if so, the details;
- (2) the number of calls received by the Carer Hotline since its launch, the types of services sought by callers, the number of cases for each type of services, and the respective numbers of cases required referrals and outreaching visits;
- (3) whether SWD has information on the staffing of the Carer Hotline, and its staffing establishment during daytime and late-night hours;
- (4) whether SWD has information on the average time it takes for callers to be connected and the average time for handling cases by the operators; and
- (5) whether the Government has reviewed the effectiveness of the Carer Hotline; if so, the details; if not, the reasons for that.

Asked by: Hon CHAN Wing-kwong (LegCo internal reference no.: 11)

Reply:

SWD has commissioned the Tung Wah Group of Hospitals (TWGHs) to launch the 24-hour Carer Hotline in September 2023, with 30 phone lines answered by over 100 professional social workers on shift duties. The expenditure of the Carer Hotline is set out in Table 1 of Annex. TWGHs may flexibly deploy manpower during daytime and late-night hours to achieve the required service outputs and outcomes. SWD does not have information about the staffing level of the Carer Hotline at different times.

As at 31 December 2024, the Carer Hotline has received a total of about 62 800 calls with an average of about 130 calls daily, and the average duration of each call is about 20 minutes.

The Carer Hotline has referred about 1 100 cases to relevant community support service units, and provided emergency support for over 90 cases through outreach services. The nature of calls received, the types of services referred, and the types of cases that required emergency support/outreach visits are set out in Tables 2, 3 and 4 of Annex respectively.

SWD and TWGHs promote and publicise the Carer Hotline through various channels, including producing television and radio announcements in the public interest, posters, service leaflets and publicity materials; placing advertisements in newspapers, online media and public transportation; and organising various publicity events at the district level, etc. These promotional efforts constitute part of the 3-year territory-wide “Care the Carers” publicity campaign launched in 2023, with a total expenditure of approximately \$15 million over 3 years. In addition, the funding allocated to TWGHs by SWD for operating the Carer Hotline includes expenses for promotion, and TWGHs can flexibly deploy the funding. SWD does not have information on TWGHs’ expenditure on promoting the Carer Hotline.

The Carer Hotline currently has sufficient capacity to meet service demands. SWD will continue to review the Carer Hotline’s operations and service needs.

Table 1: Expenditure of the Carer Hotline

Year	2023-24 ^{Note} (Actual) (\$ million)	2024-25 (Revised estimate) (\$ million)

Question:

The Estimates states that, in 2025-26, the Social Welfare Department (SWD) will continue to enhance support for carers by promoting the Information Gateway for Carers (the Information Gateway) and implementing the territory-wide Care the Carers Campaign. In this regard, please advise:

- (1) Since the launch of the Information Gateway on 30 November 2023, what specific promotional efforts have been undertaken by SWD, and what was the expenditure involved? What is the estimated promotional expenditure for 2025-26?
- (2) What is the hit rate of the Information Gateway since its launch?
- (3) What are the estimated expenditure, details of activities conducted, and the expected number of people to be reached under the Care the Carers Campaign?

Asked by: Hon CHAN Wing-kwong (LegCo internal reference no.: 12)

Reply:

- (1) & (2) SWD launched the Information Gateway (carers.hk) on 30 November 2023. It provides information on services for elderly persons, persons with disabilities (PWDs) and their carers, caring skills, community activities and resources for carers, etc. As at 31 January 2025, the Information Gateway had a cumulative website traffic of about 2.40 million.

SWD will continue to promote the Information Gateway through various means. These efforts include producing television and radio announcements in the public interest, posters, service leaflets and publicity materials; placing advertisements in newspapers, online media and public transportation; as well as organising various publicity events at the district level. Promoting the Information Gateway constitutes part of SWD's "Care the Carers Campaign" and the related expenses are not recorded separately.

- (3) SWD has launched a 3-year territory-wide publicity campaign called the "Care the Carers Campaign" since 2023-24, with the total expenditure of approximately

\$15 million for 3 years. Activities are held under different themes each year. In the first year, under the theme of “Helping Carers Help Themselves”, the publicity focused on encouraging carers to help themselves. In the second year, under the theme of “Walk with Carers”, the publicity emphasised standing by carers. In the third year, under the theme of “Fostering a Carer-Friendly Community”, the publicity will focus on fostering a community environment that supports carers. The Government has organised different publicity activities in line with the annual themes, including the kick-off ceremony for the “Care the Carers Campaign”, the “Say Thank You to Carers” event, a thematic short video competition, “Walk with Carers at Palace Museum”, etc. Over the past 2 years, the 11 District Social Welfare Offices of SWD, in collaboration with non-governmental and local organisations, held over 1 000 different kinds of district activities to support carers. Furthermore, SWD has also promoted the “Care the Carers Campaign” to the public in Hong Kong through various means, including television and radio announcements in the public interest.

Subhead (No. & title): ()

Programme: (3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

According to the Estimates, in 2025-26, the Social Welfare Department will extend the District Services and Community Care Teams (Care Teams) - Supporting Elderly and Carers Scheme (the Scheme) to all 18 districts to help identify households of singleton and doubleton elderly, carers of elderly persons and carers of persons with disabilities (PWDs) with welfare needs, provide them with support and make referrals to welfare units as appropriate, and assist needy households to install emergency alarm systems (EAS). In this connection, please advise:

- (1) What is the estimated expenditure for implementing this initiative?
- (2) Has the Government established specific key performance indicators for this initiative? If yes, please provide the details. If not, what are the reasons?

Asked by: Hon CHAN Wing-kwong (LegCo internal reference no.: 13)

Reply:

The Government launched the Scheme in March 2024. Taking Tsuen Wan and the Southern District as pilot points, Care Teams are engaged to help identify high-risk households of singleton and doubleton elderly, and carers of elderly persons and PWDs through visits and outreach. Cases requiring assistance are then referred to social welfare service units for follow-up. They also assist in referring eligible elderly persons and PWDs to install and use EAS (known as "Safety Bell") with government subsidy. The total expenditure of the Scheme for 2024-25 was about \$9.20 million.

Encouraged by the positive outcomes of the Scheme during its pilot phase, the Chief Executive announced in the 2024 Policy Address that the Scheme would be extended to all 18 districts across the territory in the second quarter of 2025 to provide support to more elderly persons and carers. It is expected that in the 12-month implementation period of the Scheme, the Care Teams will contact over 60 000 households in need. The Scheme is expected to incur a total expenditure of about \$107.9 million for 2025-26.

CONTROLLING OFFICER'S REPLY**LWB(W)036****(Question Serial No. 2891)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (3) Services for The ElderlyControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

The Estimates indicates that the Social Welfare Department (SWD) will enhance the Residential Care Services Scheme in Guangdong (GDRCS Scheme) in 2025-26. In this connection, please provide information on the following:

- (1) The number of elderly persons who participated in the GDRCS Scheme over the past 3 years, and the percentage they represent of the total elderly persons waitlisted for subsidised residential care places;
- (2) The expenditure involved in implementing the GDRCS Scheme over the past 3 years, along with the estimated expenditure for 2025-26; and
- (3) Whether the Government plans to review the effectiveness of the GDRCS Scheme, and if so, what are the details of such a review?

Asked by: Hon CHAN Wing-kwong (LegCo internal reference no.: 35)Reply:

- (1) The number of new elderly participants in the GDRCS Scheme and their proportion among elderly persons waitlisted for subsidised care and attention (C&A) places from 2022-23 to 2024-25 are as follows:

	2022-23	2023-24	2024-25 (as at end- December 2024)
No. of elderly participants	6	78	172
No. of elderly participants as a percentage of the no. of elderly persons waitlisted for subsidised C&A places	0.04%	0.55%	1.20%

- (2) The expenditures involved in implementing the GDRCS Scheme in the past 3 years and the estimated expenditure for 2025-26 are as follows:

Year	Expenditure (\$ million)
2022-23 (Actual)	13.1
2023-24 (Actual)	18.9
2024-25 (Revised estimate)	32.1
2025-26 (Estimate)	162.1

- (3) The response to the GDRCS Scheme from both Hong Kong elderly persons and service operators in Hong Kong and the Mainland has been very positive. The number of elderly participants in the GDRCS Scheme has been steadily increasing in recent years, rising from 124 elderly residents in 2 participating residential care homes for the elderly (RCHEs) as at the end of December 2022 (during the pandemic) to 316 elderly residents across 11 RCHEs at the end of December 2024. Moreover, starting from March 2025, the number of participating RCHEs under the GDRCS Scheme will increase to 15, distributed across 6 Mainland cities within the Greater Bay Area, namely Shenzhen, Guangzhou, Foshan, Zhaoqing, Zhongshan and Jiangmen. SWD will continue to monitor the implementation of the GDRCS Scheme, with a view to providing an additional option for Hong Kong elderly persons interested in cross-boundary retirement.

(Question Serial No. 2893)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

According to the Budget, the Social Welfare Department (SWD) will increase the number of Residential Care Service Vouchers (RCSVs) from 5 000 to 6 000 in 2025-26. In this connection, please advise:

- (1) The expenditure of the RCSV Scheme for the Elderly (RCSV Scheme).
- (2) The respective numbers of RCSV applicants and recipients in the past 3 years, as well as the number of elderly persons who were not issued RCSVs and the reasons for this.
- (3) The cumulative number of elderly persons who left the RCSV Scheme in the past 3 years, along with their reasons for leaving.
- (4) The manpower and actual expenditure involved in the RCSV Scheme in the past 3 years and the estimated figures for 2025-26.

Asked by: Hon CHAN Wing-kwong (LegCo internal reference no.: 36)

Reply:

- (1) to (3) The expenditure of the RCSV Scheme, the numbers of RCSV applicants and recipients, the numbers of persons who were not issued RCSVs and those who left the RCSV Scheme, and the reasons for not being issued RCSVs or leaving for the past 3 financial years (i.e. 2022-23 to 2024-25) are set out at Annex.
- (4) In the past 3 financial years (i.e. 2022-23 to 2024-25), staff from a total of 33 posts within SWD, including those from the Social Work Officer Grade, Social Security Officer Grade, Clerical and general supporting grades, were involved in the implementation of the RCSV Scheme. SWD has not separately calculated the payroll costs for staff of the RCSV Scheme alone as they also handle other duties.

Table 1: Expenditure of the RCSV Scheme

Year	Expenditure (\$ million)
2022-23 (Actual)	465.2
2023-24 (Actual)	750.4
2024-25 (Revised estimate)	1,055.8

Table 2: Numbers of RCSV applicants and recipients

Year	No. of RCSV applicants	No. of RCSV recipients
2022-23	2 296	1 309
2023-24	3 408	2 007
2024-25 (as at end-December 2024)	3 400	1 886

Table 3: Number of RCSV applicants not being issued RCSVs and reasons

Reason for not being issued RCSVs	No. of persons		
	2022-23	2023-24	2024-25 (as at end-December 2024)
Deceased	147	127	133
Withdrawn application	790	1 202	1 136
Ineligible	44	56	21
Total	981	1 385	1 290

Table 4: Cumulative number of elderly persons who left the RCSV Scheme and reasons

Reason Note	Cumulative No. of persons who left		
	2022-23	2023-24	2024-25 (as at end-December 2024)
Having no need for residential care services (e.g. being taken care of by family members or domestic helpers, etc.)	294	404	490
The preferred recognised service provider (RSP) was full/no suitable RSPs	143	185	210
Chose to wait for subsidised residential care places	90	129	166
Refused to accept the co-payment arrangement	46	56	60
Others (e.g. long-term hospitalisation, out of town, etc.)	59	78	94
Total	632	852	1 020

Note Excluding elderly persons who passed away after joining the scheme.

- End -

CONTROLLING OFFICER'S REPLY**LWB(W)038****(Question Serial No. 3005)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (7) Young PeopleControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

According to the Budget, the Social Welfare Department (SWD) will continue to implement the Strive and Rise Programme (the Programme) to lift underprivileged students out of intergenerational poverty in 2025-26. In this regard, please inform this Committee of:

- (1) the total expenditure and staffing establishment involved since the implementation of the Programme;
- (2) the numbers of participating mentees and mentors, the number of activities organised, the number of participants and the attendance rates of these activities, the average number of mentor-mentee interactive sessions, and the number and percentage of mentees who have withdrawn from the Programme since its implementation; and
- (3) the estimated expenditure for taking forward the Programme in 2025-26.

Asked by: Hon CHAN Wing-kwong (LegCo internal reference no.: 38)Reply:

- (1) & (3) The expenditure of the Programme since its implementation is as follows:

Expenditure (\$ million)			
2022-23 (Actual)	2023-24 (Actual)	2024-25 (Revised estimate)	2025-26 (Estimate)
23.5	61.8	113.5	131.0

SWD implements the Programme by deploying existing manpower. As the staff involved are also responsible for other youth services, a breakdown of the staffing establishment dedicated solely to implementing the Programme is not available.

- (2) The numbers of mentees admitted, withdrawn and participated in the Programme since its implementation are tabulated as follows:

	The first cohort	The second cohort	The third cohort (as at February 2025)
Number of mentees admitted	2 800	3 885	4 000
Number of mentees withdrawn	21 (0.75%)	55 (1.42%)	0 (0%)
Number of mentees participated	2 779	3 830	4 000

The numbers of mentors matched with a mentee, withdrawn and participated in the Programme since its implementation are tabulated as follows:

	The first cohort	The second cohort	The third cohort (as at February 2025)
Number of mentors matched with a mentee	2 800	3 339 ^{Note 1}	3 434 ^{Note 1}
Number of mentors withdrawn	16 (0.57%)	76 (2.28%)	0 (0%)
Number of mentors participated	2 779 ^{Note 2}	3 263	3 434

Note 1 Some mentors are matched with 2 mentees.

Note 2 Apart from 16 mentors who withdrew from the Programme, 5 mentors did not complete the Programme due to the withdrawal of their mentees.

The number of activities organised, the number of participants, and the average attendance rates of these activities in the first and second cohorts of the Programme are tabulated as follows:

	The first cohort		
	Number of activities	Number of participants	Average attendance rate
Orientation	29	8 105	96%
Basic training for mentees	232	10 553	98%
Group activities	545	21 891	75%

	The second cohort		
	Number of activities	Number of participants	Average attendance rate
Orientation	30	10 403	96%
Basic training for mentees	119	11 794	84%
Group activities	730	31 764	86%

An array of activities for the third cohort of the Programme is still ongoing. As at end-February 2025, the number of activities organised, the number of participants and the average attendance rates of these activities are tabulated as follows:

	The third cohort (as at end-February 2025)		
	Number of activities	Number of participants	Average attendance rate
Orientation	19	6 893	88%
Basic training for mentees	33	2 717	80%
Group activities	20	931	84%

The mentees who completed the first and second cohorts of the Programme had an average of 12 and 14 interactive sessions with their mentors, respectively.

(Question Serial No. 3009)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Budget mentions that the Social Welfare Department (SWD) will continue to strengthen the support and training for foster families in 2025-26. In this connection, please inform this Committee:

- (1) of the number of places, the utilisation rate, the age distribution of service users, their average length of stay, the number of waitlisted children, and the average waiting time for various foster care services in the past 3 years;
- (2) of the expenditure involved in providing various foster care services for the past 3 years, and the estimated expenditure for 2025-26; and
- (3) whether the Government will consider introducing additional incentives to encourage more members of the public to become foster parents; if yes, of the details; if not, of the reasons.

Asked by: Hon CHAN Wing-kwong (LegCo internal reference no.: 39)

Reply:

- (1) The number of places, the utilisation rate, the average length of stay, the number of waitlisted children, and the average waiting time for foster care services in the past 3 years are set out in Table 1 of Annex. The age distribution of children receiving foster care services is set out in Table 2 of Annex.
- (2) The expenditure on foster care services for the past 3 financial years and the estimated expenditure for 2025-26 are set out in Table 3 of Annex.
- (3) The Government has implemented a series of enhancement and improvement measures to bolster support for foster care services, including substantially increasing the incentive payment for foster parents starting from April 2024 to encourage more dedicated individuals to become foster parents. Moreover, starting from January 2025, the Government has allocated additional resources to provide extra support for foster families caring for children with special learning or care needs, arrange early assessments and appropriate professional rehabilitation therapy and training for foster children, enhance training for foster parents to strengthen their skills in caring for foster children, and continue to implement flexible recruitment and caring arrangements. At

the same time, SWD will also strengthen its publicity efforts and continue to collaborate with non-governmental organisations that provide foster care services to promote foster care through different and multi-faceted channels and media to recruit more foster families.

Table 1: Number of places, utilisation rate, average length of stay, number of waitlisted children, and average waiting time for foster care services

Year	2022-23	2023-24	2024-25 ^{Note 1}
Number of places	1 130	1 230	1 230
Utilisation rate ^{Note 2}	78%	72%	72%
Average length of stay (month) ^{Note 2}	34.90	38.33	32.78
Number of waitlisted children ^{Note 3}	289	292	256
Average waiting time (month) ^{Note 3 Note 4}	1.82	2.04	1.75

Note 1 Statistics as at 31 December 2024.

Note 2 The figures include both ordinary and emergency foster care services.

Note 3 The figures exclude foster care (emergency) service. Regarding emergency service, caseworkers may directly enquire with foster care agencies that provide emergency service, and arrange children for admission as soon as suitable foster families with vacancies are available. Therefore, SWD does not have the statistics on the number of waitlisted children and the average waiting time for foster care (emergency) service.

Note 4 The figures only refer to cases that were successfully matched within a 3-month period but not cases with matching difficulties.

Table 2: Age distribution of children receiving foster care services

Year (as at end-December)	Age	Number of foster children
2022	Newborn to below 6	403
	6 to below 12	330
	12 to below 18	147
	18 or above ^{Note}	-
2023	Newborn to below 6	385
	6 to below 12	319
	12 to below 18	139
	18 or above ^{Note}	1
2024	Newborn to below 6	405
	6 to below 12	320
	12 to below 18	157
	18 or above ^{Note}	1

Note Under exceptional circumstances, children receiving foster care services may extend their stay with the foster families after reaching 18 years old.

Table 3: Expenditure on foster care services

Year	Expenditure (\$ million)
2022-23 (Actual)	237.1
2023-24 (Actual)	253.3
2024-25 (Revised estimate)	367.6
2025-26 (Estimate)	403.7

- End -

(Question Serial No. 2211)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Social Welfare Department (SWD) launched the Information Gateway for Carers (Information Gateway) and the Designated Hotline for Carer Support (Carer Hotline) in 2023 to better support carers. In this connection, would the Government please provide the following information regarding carers:

- (a) the number of visits to the Information Gateway and the number of calls received by the Carer Hotline since their launch, and the respective numbers of cases in which carers have been successfully assisted, presented in a table;
- (b) the cost and staffing establishment for operating the Information Gateway and the Carer Hotline separately; and
- (c) the publicity methods used by the Government to promote the Information Gateway and the Carer Hotline, and the respective costs involved.

Asked by: Hon CHAN Wing-yan, JoePHY (LegCo internal reference no.: 9)

Reply:

- (a) & (b) SWD launched the Information Gateway on 30 November 2023. It provides information on services for elderly persons, persons with disabilities (PWDs) and their carers, caring skills, community activities and resources for carers, etc. As at 31 January 2025, the Information Gateway had a cumulative website traffic of about 2.40 million. The funding for running the Information Gateway comes from The Hong Kong Jockey Club Charities Trust for the first 3 years. SWD does not have information on the manpower or estimated expenditure involved.

SWD has commissioned the Tung Wah Group of Hospitals (TWGHs) to launch the 24-hour Carer Hotline in September 2023, with 30 phone lines answered by over 100 professional social workers on shift duties. The expenditure of the Carer Hotline is set out in Table 1 of Annex.

As at 31 December 2024, the Carer Hotline has received a total of about 62 800 calls with an average of about 130 calls daily, and the average duration of each call is about 20 minutes. The Carer Hotline has referred about 1 100 cases to relevant community support service units, and provided emergency support for

over 90 cases through outreach services. The nature of calls received, the types of services referred, and the types of cases that required emergency support/outreach visits are set out in Tables 2, 3 and 4 of Annex respectively.

- (c) SWD and TWGHs promote and publicise the Carer Hotline and the Information Gateway through various channels, including producing television and radio announcements in the public interest, posters, service leaflets and publicity materials; placing advertisements in newspapers, online media and public transportation; and organising various publicity events at the district level, etc. These promotional efforts constitute part of the 3-year territory-wide “Care the Carers” publicity campaign launched since 2023, with a total expenditure of approximately \$15 million over 3 years. In addition, the funding allocated to TWGHs by SWD for operating the Carer Hotline includes expenses for promotion, and TWGHs can flexibly deploy the funding. SWD does not have information on TWGHs’ expenditure on promoting the Carer Hotline.

Table 1: Expenditure of the Carer Hotline

Year	2023-24 ^{Note} (Actual) (\$ million)	2024-25 (Revised estimate) (\$ million)
Expenditure	11.00	20.40

Note

The Carer Hotline commenced operation in September 2023.

Table 2: Nature of calls received by the Carer Hotline

Nature of call	No. of calls (as at 31 December 2024)

CONTROLLING OFFICER'S REPLY

LWB(W)041

(Question Serial No. 2212)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (5) Services for Offenders

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Ex-offenders often find it difficult to reintegrate into society. However, those who have rehabilitated seek to gain social acceptance. In this connection, would the Government please inform this Committee of:

- (a) the number of persons accessing services for ex-offenders, and the types of activities provided for ex-offenders in the past 5 years (presented in tabular form);
- (b) the respective numbers of ex-offenders who received employment counselling and successfully secured employment in the past 5 years, broken down by age and length of sentence (presented in tabular form); and
- (c) the expenditure and staffing establishment for each service provided to ex-offenders by the Government.

Asked by: Hon CHAN Wing-yan, JoePHY (LegCo internal reference no.: 10)

Reply:

- (a) The Social Welfare Department (SWD) provides a range of services for offenders, including probation and community service order (CSO) services, the Tuen Mun Children and Juvenile Home (TMCJH), the Post-Release Supervision of Prisoners Scheme (PRSS), and the Young Offender Assessment Panel (YOAP). SWD also subsidises non-governmental organisations (NGOs) through the Lump Sum Grant Subvention System to provide counselling, group activities, hostel services, pre-release preparation services (PRPS), employment development services, and other support at the community level. These services aim to assist ex-offenders in reintegrating into society and leading law-abiding lives.

The number of recipients of the aforementioned services for offenders in the past 5 years is set out at Annex 1.

- (b) The numbers of ex-offenders who received employment counselling services provided by subvented organisations and those who successfully secured employment in the past 5 years are tabulated at Annex 2. SWD does not have information on the age or length of sentence of the service users, nor the number of those who successfully secured employment.

- (c) In 2024-25, the expenditures and staffing establishment for various services for offenders provided by SWD are tabulated at Annexes 3 and 4, respectively.

Subject to compliance with the requirements of the Funding and Service Agreements and the relevant statutory staffing requirements (if applicable), NGOs operating subvented welfare services may determine their staffing establishment in accordance with their own human resources policies, and flexibly deploy resources and employ staff to achieve the service outputs and outcomes required. Therefore, SWD does not have information on the number of staff employed by subvented NGOs to deliver services for offenders.

CONTROLLING OFFICER'S REPLY

LWB(W)042

(Question Serial No. 0736)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Last year, the Bureau engaged the District Services and Community Care Teams (Care Teams) in Tsuen Wan and Southern Districts on a pilot basis to help identify singleton and doubleton elderly, carers of elderly persons and carers of persons with disabilities (PWDs) with welfare needs in the 2 districts, provided them with support and made referrals to welfare units as appropriate, and assisted needy households to install emergency alarm systems (EAS).

- 1) What were the actual manpower and expenditure involved?
- 2) How many elderly persons and PWDs benefited?
- 3) The District Services and Community Care Teams (Care Teams) – Supporting Elderly and Carers Scheme (the Scheme) will be extended to all 18 districts in the coming year. What are the estimated manpower and expenditure involved? How many elderly persons and PWDs are expected to benefit from it?

Asked by: Hon CHAN Yung (LegCo internal reference no.: 30)

Reply:

- 1) The Government launched the Scheme in March 2024. Taking Tsuen Wan and the Southern District as pilot points, Care Teams are engaged to help identify high-risk households of singleton and doubleton elderly, and carers of elderly persons and PWDs through visits and contacts. Cases requiring assistance are then referred to social welfare service units for follow-up. They also assist in referring eligible elderly persons and PWDs to install and use EAS (known as “Safety Bell”) with government subsidy. The total expenditure of the Scheme for 2024-25 was about \$9.20 million.
- 2) As at end-January 2025, a total of 36 Care Teams in Tsuen Wan and the Southern District have visited or contacted over 7 000 households of singleton and doubleton elderly and carers of elderly persons and PWDs, and have made over 1 190 referrals for welfare services under the Scheme. In addition, a total of 272 elderly persons and 11 PWDs have installed Safety Bells and received related subsidies through the referral of the Care Teams.

- 3) Encouraged by the positive outcomes of the Scheme during its pilot phase, the Chief Executive announced in the 2024 Policy Address that the Scheme would be extended to all 18 districts across the territory in the second quarter of 2025 to provide support to more elderly persons and carers. It is expected that in the 12-month implementation period of the Scheme, the Care Teams will contact over 60 000 households in need. The Scheme is expected to incur a total expenditure of about \$107.9 million for 2025-26.

- End -

CONTROLLING OFFICER'S REPLY**LWB(W)043****(Question Serial No. 0737)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (2) Social SecurityControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

Please provide:

- 1) the number of cases in the past 3 years where elderly persons returned to Hong Kong and left the Guangdong (GD) Scheme and the Fujian (FJ) Scheme;
- 2) the main reasons for elderly persons to return to Hong Kong;
- 3) the number of enquiries and assistance requests made by elderly persons who returned to Hong Kong in the past 3 years under the GD Scheme and the FJ Scheme; and if there are no relevant statistics, whether the Government has any plans to collect such data to better follow up the Schemes; and
- 4) the current manpower and expenditure involved in caring for elderly persons who returned to Hong Kong under the GD Scheme and the FJ Scheme.

Asked by: Hon CHAN Yung (LegCo internal reference no.: 31)Reply:

- 1) & 2) From 2022-23 to 2024-25, the number of elderly persons who left the GD Scheme and the FJ Scheme to return to Hong Kong are set out in the table below:

Year	2022-23	2023-24	2024-25 (up to end-December 2024)
GD Scheme	937	1 745	1 003
FJ Scheme	77	133	112

The Social Welfare Department (SWD) does not have information on the reasons for their return to Hong Kong.

- 3) SWD will provide information and services to elderly persons who have returned to live in Hong Kong after leaving the GD Scheme and the FJ Scheme, ensuring they receive the same level of support as other elderly persons ageing in Hong Kong. SWD does not have separate statistical breakdowns for these returnees.
- 4) The Social Security Branch and the Social Security Field Units of SWD are responsible for administering the Comprehensive Social Security Assistance Scheme and the Social Security Allowance Scheme (including the Old Age Living

Allowance, the Old Age Allowance, the Disability Allowance, the GD Scheme, and the FJ Scheme). Handling cases involving elderly persons who have returned to Hong Kong after leaving the GD Scheme and the FJ Scheme is part of the day-to-day work of the aforementioned personnel. SWD cannot separately account for the manpower and expenditure involved in these cases.

CONTROLLING OFFICER'S REPLY

LWB(W)044

(Question Serial No. 0741)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the plan to “increase the number of vouchers under the Residential Care Service Voucher Scheme for the Elderly by 1 000” with a total annual expenditure of about \$1,710 million, please provide this Committee with the following information:

- 1) What was the expenditure on Residential Care Service Vouchers (RCSVs) in the previous year? Were there any discrepancies between the actual expenditure and the estimate? If so, please explain the reasons.
- 2) Has the value of the newly added vouchers been adjusted? If so, please explain the basis for the adjustment and the expected impact on the quality of services for the elderly.
- 3) How will the Government ensure that the number of participating residential care homes (RCHs) is aligned with the elderly population density in different districts? What is the estimated expenditure for implementing the related demand assessment mechanism?

Asked by: Hon CHAN Yung (LegCo internal reference no.: 35)

Reply:

- 1) The expenditure on RCSVs is affected by factors such as the number of applicants, the number of participants who left the scheme, and the actual amount of care subsidies approved for users. The revised estimate of expenditure for 2024-25 is \$1.06 billion, which is lower than the original estimate of 1.39 billion.
- 2) The voucher values of RCSVs for Care & Attention and nursing home places are \$16,764 per month and \$21,657 per month, respectively, in 2025-26. The Social Welfare Department (SWD) will adjust the voucher value of RCSVs annually with reference to changes in the Composite Consumer Price Index.
- 3) The numbers of recognised service providers (RSPs) and places for RCSV services have been steadily increasing, growing from 21 in 2017 to 221 by the end of December 2024, covering all districts across Hong Kong. The supply of RCSV services is mainly driven by market demand. SWD will review the service supply from time to time and encourage more RCHs for the elderly that meet the requirements to participate in the RCSV Scheme as RSPs.

CONTROLLING OFFICER'S REPLY

LWB(W)045

(Question Serial No. 2833)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the Residential Care Service Voucher (RCSV) Scheme for the Elderly (RCSV Scheme) and the Community Care Service Voucher (CCSV) Scheme for the Elderly (CCSV Scheme), would the Government please inform this Committee of:

- (1) the current number of RCSV holders;
- (2) For the past 2 years and up to the present, the number of new applications for the RCSV Scheme, the number of persons issued with RCSVs, and the expenditure involved;
- (3) For the past 2 years and up to the present, the number of first-time RCSV users who decided to withdraw from the scheme during the 6-month trial stay period, and the main reasons for their withdrawal;
- (4) The current number of CCSV users, and the distribution of users across the 6 co-payment levels;
- (5) For the past 2 years and up to the present, the number of new applications for the CCSV Scheme, the number of persons issued with CCSVs, and the expenditure involved;
- (6) For the past 2 years and up to the present, the number of persons who were issued CCSVs but have not used them, and the reasons for this.

Asked by: Hon CHAU Siu-chung (LegCo internal reference no.: 9)

Reply:

- (1) As at the end of December 2024, there were a total of 5 126 RCSV holders.
- (2) From 2022-23 to 2024-25 (as at the end of December 2024), the numbers of RCSV applicants and recipients, and the amount of subsidy disbursed, broken down by year, are set out in Table 1 of Annex 1.
- (3) From 2022-23 to 2024-25 (as at the end of December 2024), the cumulative number of first-time RCSV users who left the RCSV Scheme during the 6-month trial stay period, and their reasons for leaving are set out in Table 2 of Annex 1.
- (4) In 2024-25 (as at the end of December 2024), the number of CCSV users, broken down by their co-payment level, is set out in Table 1 of Annex 2.

- (5) From 2022-23 to 2024-25 (as at the end of December 2024), the numbers of new applicants and recipients under the CCSV Scheme, and the amount of subsidy disbursed are set out in Table 2 of Annex 2.
- (6) As CCSV holders have the flexibility to choose when to receive or suspend services based on their needs, the Social Welfare Department does not maintain records of the number of CCSV holders who have never used the services or their reasons for not using them.

**Table 1: Numbers of RCSV applicants and recipients,
and the amount of RCSV subsidy disbursed**

Year	No. of RCSV applicants	No. of RCSV recipients	RCSV subsidy (\$ million)
2022-23	2 296	1 309	465.2
2023-24	3 408	2 007	750.4
2024-25 (as at end-December 2024)	3 400	1 886	1,055.8 ^{Note}

^{Note} Revised estimate for 2024-25.

CONTROLLING OFFICER'S REPLY

LWB(W)046

(Question Serial No. 2843)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding various types of child care services, please advise:

- (1) (i) the number of service places and (ii) service users; and (iii) the average utilisation rates for various types of day child care services (including standalone child care centres (CCCs), CCCs attached to kindergartens (KGs), Occasional Child Care Service (OCCS), Extended Hours Service (EHS), Mutual Help Child Care Centres (MHCCCs), and the Neighbourhood Support Child Care Project (NSCCP)) for the past 2 years and the current year to date, broken down by District Council (DC) district;
- (2) the locations of the aided CCCs to be established this year and in the next 2 years, and the number of service places to be provided; and
- (3) the number of centres currently participating in the After School Care Programme for Pre-primary Children [ASCP(PC)], along with the respective numbers of service places, and the Government's estimated distribution of service places across all 18 districts in Hong Kong by the end of this financial year and the next financial year.

Asked by: Hon CHAU Siu-chung (LegCo internal reference no.: 10)

Reply:

- (1) The numbers of service places and service users, and the average utilisation rates for standalone CCCs, CCCs attached to KGs, OCCS, EHS, MHCCCs, and NSCCP for the past 3 years, broken down by DC district, are tabulated at Annex 1.
- (2) The Social Welfare Department (SWD) will set up a total of 11 more aided standalone CCCs in phases within 3 years starting from 2024, providing about 1 000 additional places. Among these, 4 CCCs at Queens Hill Estate and Wah Ming Estate in Fanling, the Treasury Building in Sham Shui Po, and Shun Lee Estate in Kwun Tong have commenced service in 2024, providing a total of 344 places. The 100 additional places at Cheung Shun Street in Sham Shui Po and 60 places at Kwai Fong Estate in Kwai Tsing will commence service in 2025-26, whereas the 100 additional places each at the joint-user government office building in Area 67 of Tseung Kwan O, Sai Kung and Lei Yue Mun Ancillary Facilities Block in Kwun Tong are planned to be put into service in 2026-27.

- (3) SWD will extend ASCP(PC) to cover all districts in Hong Kong in phases within 3 years starting from 2024. The number of centres participating in ASCP(PC) will increase from 16 to 28. The first phase of service extension has been completed, under which the 4 centres in Eastern, Kowloon City, Sha Tin, and Tai Po districts have commenced service in February 2025. The estimated number of places available in various districts upon the full service extension is set out at Annex 2.

Note 1 2 standalone CCCs in Tai Po and Yuen Long commenced service in January and March 2023 respectively.

Note 2 Figures provided by the Education Bureau (EDB) as at September 2022.

Note 3 13 MHCCCs in Southern, Kwun Tong, Wong Tai Sin, Sham Shui Po, Tai Po, North, Yuen Long, and Kwai Tsing districts have been re-engineered to provide after-school care service for pre-primary children. As a result, there has been a reduction in the number of service places.

Note 4 Service operators are required to provide a minimum of 53 service places in each district (i.e. the total number of places in all 18 districts should be at least 954). Service operators may flexibly increase the number of home-based child care service (HCCS) places beyond this requirement to meet the actual service demands.

Note 1 2 standalone CCCs in Sham Shui Po and Kwun Tong commenced service in September and October 2024 respectively.

Note 2 Figures provided by EDB as at September 2024.

Note 3 Starting from September 2024, on the basis of 1 service team in each of the 18 districts in Hong Kong, SWD has added an additional service team in districts with higher service demands, namely Kwun Tong, Sham Shui Po, Sha Tin, Tuen Mun, and Yuen Long districts. As a result, the number of service teams in Hong Kong has increased from 18 to 23. Each service team is required to provide a minimum of 92 service places (i.e. the total number of places in all 18 districts should be at least 2 116). Service operators may flexibly increase the number of HCCS places beyond this requirement to meet the actual service demands.

CONTROLLING OFFICER'S REPLY

LWB(W)047

(Question Serial No. 2845)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding subsidised care services for persons with disabilities (PWDs), would the Government please inform this Council of the following:

- (1) For various residential services for persons with intellectual or physical disabilities (including hostels for severely mentally handicapped persons (HSMH), hostels for moderately mentally handicapped persons (HMMH), hostels for severely physically handicapped persons (HSPH), care and attention homes for severely disabled persons (C&A/SD), supported hostel (SHOS), and small group homes for mildly mentally handicapped children [SGH(MMHC)]) over the past 3 years, please provide: (i) the number of available places, (ii) the average occupancy rate, (iii) the number of waitlisted persons, and (iv) the average waiting time;
- (2) The number of inspections conducted at residential care homes for PWDs (RCHDs), as well as the number and nature of any non-compliance cases identified during these inspections, over the past 3 years;
- (3) The number of complaints received regarding RCHDs, along with the number of substantiated cases after investigation, over the past 3 years;
- (4) A list of RCHDs that have received warnings or penalties on more than 1 occasion for repeated violations of the Code of Practice for RCHDs over the past 3 years; and
- (5) Since the launch of the Incentive Scheme to Encourage Provision of Residential Care Homes for Persons with Disabilities in New Private Developments (the Scheme), in December 2023, how many applications have been received, and what are the locations, types, and projected number of residential places for these RCHDs?

Asked by: Hon CHAU Siu-chung (LegCo internal reference no.: 11)

Reply:

- (1) The numbers of service places, the average occupancy rates, the numbers of waitlisted persons and the average waiting time for HSMH, HMMH, HSPH, C&A/SD, SHOS and SGH(MMHC) from 2022-23 to 2024-25 are set out in Tables 1 to 4 of Annex respectively.

- (2) & (4) In the course of inspections or complaint handling by the Social Welfare Department's (SWD) Licensing Office of RCHDs (LORCHD), if RCHDs are found to have failed to comply with the requirements of the Residential Care Homes (Persons with Disabilities) Ordinance, the Residential Care Homes (Persons with Disabilities) Regulation or the Code of Practice for RCHDs, LORCHD will consider issuing advisory letters, warning letters, and written directions for remedial measures, or instigating prosecutions against the relevant RCHDs depending on the nature and severity of the irregularities. To increase the transparency of the monitoring mechanism for RCHDs, SWD will upload the warning records of non-compliant RCHDs onto its website and the Information Website for RCHDs, and the records will be kept for 12 and 24 months, respectively, for public inspection.

The number of inspections conducted at RCHDs by LORCHD, and the number and nature of advisory letters and warning letters issued to non-compliant RCHDs by LORCHD in the past 3 years are set out in Table 5 of Annex.

- (3) The number of complaints received by LORCHD regarding RCHDs in the past 3 years is set out in Table 6 of Annex. As complaints generally involve different reasons and vary in nature, and their details may overlap, SWD does not maintain statistics on the investigation results.

- (5) The Government launched the Incentive Scheme to Encourage Provision of Residential Care Homes for Persons with Disabilities in New Private Developments (the Scheme) in December 2023 to allow private developers, in the course of land transactions relating to lease modification, land exchange or private treaty grant for new private developments (excluding industrial developments), to be exempted from payment of land premium, on the condition that they comply with certain lease conditions and obtain support from SWD.

Private developers' participation in the Scheme may depend on the state of the property market, commercial considerations, and other relevant factors. As at the end of December 2024, one year after the Scheme's launch, the Lands Department has yet to receive any applications. We will continue to promote the Scheme and keep its implementation under review.

Table 1: Number of service places of various residential services for PWDs

Service type	Number of service place		
	2022-23	2023-24	2024-25 (as at end-December 2024)
HSMH	4 112	4 523	4 573

CONTROLLING OFFICER'S REPLY

LWB(W)048

(Question Serial No. 2846)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the promotion and application of gerontechnology, please advise:

- (1) For the 8th to 10th tranches of applications under the Innovation and Technology Fund for Application in Elderly and Rehabilitation Care (I&T Fund), what are the number of approved private organisations and the number of technology products they procured, rented, and trial? Please provide a breakdown by organisation type (i.e. private residential care homes for the elderly (RCHEs) under the Enhanced Bought Place Scheme (EBPS), private residential care homes for persons with disabilities (RCHDs) under the Bought Place Scheme (BPS), nursing homes (NHs) under the Nursing Home Place Purchase Scheme (NHPPS), recognised service providers (RSPs) under the Community Care Service Voucher (CCSV) Scheme for the Elderly (CCSV Scheme), RSPs under the Pilot Scheme on Residential Care Service Voucher (RCSV) for the Elderly (Pilot Scheme on RCSV), and other private or self-financing RCHEs and RCHDs);
- (2) What were the most commonly applied-for types of technology products for procurement, rental, and trial in the past 3 tranches of applications; and
- (3) Since the Government extended the scope of CCSVs to cover the rental of assistive technology products in September 2023, what is the cumulative number of elderly persons who have used such rental services?

Asked by: Hon CHAU Siu-chung (LegCo internal reference no.: 12)

Reply:

- (1) The requested information is set out at Annex.
- (2) In the most recent 3 tranches of applications (as at the end of February 2025), the types of technology products most commonly applied for procurement or rental by service units based on approved funding amounts included equipment, assessment tools and accessories for occupational therapy/physiotherapy/speech therapy; smart hospital bed and accessories; computer software; security equipment; and hoist/raiser/lifter/climber, etc. As for applications for trial use of products, as at the end of February 2025, a total

of 7 projects were approved, including a fall prevention management system, a smart bedside intelligence management system, an interactive rehabilitation assessment and training system, a smart glasses device that can transmit instant video and audio signals, a smart transportation robot suite, the trial version of eREACH-HK and a sleep management system.

- (3) As at the end of December 2024, the cumulative headcount of CCSV users renting assistive technology products was 647, and a total of 853 assistive technology products had been rented out to them.

**Table 1: Information on the 8th to 10th tranches of applications under the I&T Fund
(as at 28 February 2025)**

Tranche no. of application	Type of organisation applying for the grant	No. of organisations approved for the grant	No. of products approved
8	Private RCHE under EBPS	69	585
	Private RCHD under BPS	8	37
	NH under NHPPS	1	17
	RSP under CCSV Scheme	12	29
	RSP under Pilot Scheme on RCSV	7	57
	Other private or self-financing RCHE	288	3 311
	Other private or self-financing RCHD	19	104
9	Private RCHE under EBPS	50	306
	Private RCHD under BPS	3	33
	NH under NHPPS	1	1
	RSP under CCSV Scheme	14	45
	RSP under Pilot Scheme on RCSV	3	8
	Other private or self-financing RCHE	111	1 091
	Other private or self-financing RCHD	10	72
10 ^{Note}	Private RCHE under EBPS	48	329
	Private RCHD under BPS	3	6
	NH under NHPPS	0	0
	RSP under CCSV Scheme	13	38
	RSP under Pilot Scheme on RCSV	5	17
	Other private or self-financing RCHE	120	808
	Other private or self-financing RCHD	17	105

^{Note} The vetting of the 10th tranche of applications is still underway.

CONTROLLING OFFICER'S REPLY

LWB(W)049

(Question Serial No. 2848)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (2) Social Security

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the Support for Self-reliance (SFS) Scheme under the Comprehensive Social Security Assistance (CSSA) Scheme, would the Government please advise:

- (1) In each of the past 3 years and this year up to the present, how many CSSA recipients had their approved CSSA payments terminated for themselves and their family members by the Social Welfare Department (SWD), or were required to repay overpaid CSSA amounts, due to non-compliance with the items listed in the Job Seeker's Undertaking (the Undertaking);
- (2) In each of the past 3 years and this year up to the present, how many CSSA recipients participated in the Employment Support Services (EmSS), and among them, the number and percentage of those who left the CSSA net after securing employment;
- (3) The expenditure involved on implementing EmSS in each of the past 3 years and this year up to the present; and
- (4) Regarding the 2-year Support Programme for the Unemployed (SPU) to be launched in September this year, what are the estimated annual expenditure and number of participants?

Asked by: Hon CHAU Siu-chung (LegCo internal reference no.: 13)

Reply:

- (1) In general, unemployed able-bodied CSSA recipients aged 15 to 59 are required to receive EmSS unless they have justifiable reasons for not being able to work (such as pursuing studies, or having to look after young children, sick or disabled family members at home), and sign the Undertaking to indicate that they fully understand their obligations to comply with relevant requirements. Unemployed able-bodied CSSA recipients aged 60 to 64 may receive EmSS on a voluntary basis.

Among unemployed able-bodied CSSA recipients aged 15 to 59 who received EmSS, the headcounts of persons whose CSSA payments were stopped or who were required to repay overpaid CSSA payments due to failure to comply with the requirements stated in the Undertaking from 2021-22 to 2024-25 are tabulated below. SWD does not have information on the number of CSSA applications that were not processed further because applicants refused to sign the Undertaking.

Year	Headcount of persons whose CSSA payments were stopped or who were required to repay overpaid CSSA payments due to failure to comply with the requirements stated in the Undertaking
2021-22	633
2022-23	616
2023-24	584
2024-25 (as at end-December 2024)	409

- (2) The headcounts of persons who received EmSS, the headcounts of those who left the CSSA net owing to securing employment, and their percentages out of the headcounts of persons who received EmSS in 2023-24 and 2024-25 are tabulated below. SWD does not have a breakdown of the headcounts and relevant percentages by year prior to April 2023.

Year	Headcount of persons who received EmSS	Headcount of persons who left the CSSA net owing to securing employment and their percentage out of the headcount of persons who received EmSS
2023-24	16 480	489 (3.0%)
2024-25 (up to end-December 2024)	14 022	311 (2.2%)

- (3) The expenditure incurred by SWD on commissioning NGOs to provide EmSS from 2021-22 to 2024-25 is tabulated below:

Year	Expenditure (\$ million)
2021-22 (Actual)	153
2022-23 (Actual)	157
2023-24 (Actual)	159
2024-25 (Revised estimate)	162

- (4) SWD will replace EmSS with SPU starting from October 2025. SPU will be operated on a pilot basis for 2 years by NGOs and/or other organisations. SWD estimates that there will be about 10 000 participants during the initial implementation of SPU. The estimated expenditure on the 2-year SPU is around \$98 million. SWD will commission SPU operators through invitation for proposals. NGOs operating EmSS are free to submit their proposals.

- End -

CONTROLLING OFFICER'S REPLY

LWB(W)050

(Question Serial No. 1545)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: Not Specified

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the Lump Sum Grant (LSG) Subvention System (LSGSS), would the Government please inform this Committee of the following:

1. Please provide a list of non-governmental organisations (NGOs) operating subvented welfare services under LSGSS in 2024-25, along with the actual amounts of subvention received by them during the year, presented in tabular form.
2. Please provide a list of NGOs operating subvented welfare services under LSGSS in 2025-26, along with the provisional amounts of subvention to be received by them during the year, presented in tabular form.
3. Please provide the names of NGOs that were required to refund the Government due to their cumulative LSG reserve having exceeded 25% of operating expenditure for the respective year, along with the corresponding amounts involved for 2023-24 and 2024-25, respectively.

Asked by: Hon CHOW Man-kong (LegCo internal reference no.: 29)

Reply:

1. & 2. The list of NGOs operating subvented welfare services under LSGSS, along with the amounts of subvention received by them, in 2024-25 and 2025-26 is set out at Annex 1.
3. Information is not available for 2024-25 as the Annual Financial Reports (AFRs) for 2024-25 are not yet due for submission. The names of NGOs that were required to refund the Government due to their cumulative LSG reserve having exceeded 25% of operating expenditure for 2023-24, along with the corresponding amounts involved, are set out at Annex 2.

	Total Note 2	15,407,140

Note 1 The amount of refund from LSG reserve payable to the Government is calculated on the basis of SWD's examination of the AFRs submitted by individual NGOs. The figures are subject to revision upon subsequent submission of supplementary information. Besides, under the relief measures of the Productivity Enhancement Programme, NGOs with provisional LSG subvention of \$50 million or more for 2024-25 might retain reserves exceeding the LSG reserve ceiling in 2023-24. The list above does not include these NGOs.

Note 2 Individual figures may not add up to the total due to rounding.

CONTROLLING OFFICER'S REPLY

LWB(W)051

(Question Serial No. 1712)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

- (1) On average, how many complaints were filed by service users against Integrated Family Service Centres (IFSCs) operated by subvented and private organisations in each of the past 3 years? How many of these complaints were substantiated and resolved?
- (2) Further to the question above, on average, how many complaints were filed by third parties other than service users (including but not limited to Legislative Council Members' offices and other organisations) against IFSCs operated by subvented and private organisations in each of the past 3 years? How many of these complaints were substantiated and resolved?
- (3) It is understood that there is no established mechanism for handling complaints about service operations filed by individuals and organisations other than service users. What feasible approaches and measures are in place to handle such cases and ensure that subvented organisations and their staff meet the required performance standards?

Asked by: Hon CHU Kwok-keung (LegCo internal reference no.: 25)

Reply:

According to the prevailing Social Welfare Services Lump Sum Grant (LSG) Subvention Manual, non-governmental organisations (NGOs) operating subvented welfare services are required to put in place an effective mechanism for handling LSG-related complaints pertaining to the NGOs or their subvented service units. Complaints that cannot be satisfactorily addressed at the NGO level are referred to the LSG Independent Complaints Handling Committee (the Committee), which comprises non-governmental independent members. Detailed information about the Committee's complaint handling mechanism, terms of reference, and methods for lodging complaints is uploaded on the Social Welfare Department's website (<https://www.swd.gov.hk/en/ngo/subventions/comp/ichc/>).

Between 2022-23 and 2024-25 (up to the end of December 2024), the Committee received 28 and 1 complaints regarding IFCS/Integrated Service Centres from service users/their family members, and other individuals respectively. The Committee handled these complaints in accordance with the established mechanism. Taking into account the scope, nature, and content of the complaints, as well as their impact, if any, on service quality, the Committee recommended appropriate follow-up actions to the relevant service units and provided responses to the complainants.

CONTROLLING OFFICER'S REPLY

LWB(W)053

(Question Serial No. 1161)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the Government's plan to set up 10 more aided standalone child care centres (CCCs) in phases starting this year, please provide this Committee with the following information:

- 1) Which districts will be prioritised for the new CCCs and after-school care services? How will the Government ensure the provision of balanced services across districts?
- 2) Will the Government provide information or resources to help parents understand these new services? Are there plans to conduct promotional activities?
- 3) Are these measures part of the Government's long-term planning in early childhood education and care? Does the Government have any other similar expansion plans for the future?

Asked by: Hon HO Kwan-yiu, Junius (LegCo internal reference no.: 32)

Reply:

- 1) & 3) The Social Welfare Department (SWD) will set up a total of 11 more aided standalone CCCs in phases within 3 years starting from 2024. Among these, 4 CCCs at Queens Hill Estate and Wah Ming Estate in Fanling, the Treasury Building in Sham Shui Po, and Shun Lee Estate in Kwun Tong have commenced service in 2024. In addition, the CCCs at Cheung Shun Street in Sham Shui Po and Kwai Fong Estate in Kwai Tsing will commence service in 2025-26. The CCCs at the joint-user government office building in Area 67 of Tseung Kwan O, Sai Kung and Lei Yue Mun Ancillary Facilities Block in Kwun Tong are planned to commence service in 2026-27, whereas the remaining 3 CCCs, proposed to be set up in districts such as Kowloon City and Kwun Tong, are expected to put into service by the end of 2027.

Besides, SWD will extend the After School Care Programme for Pre-primary Children [ASCP(PC)] to cover all districts in Hong Kong in phases within 3 years starting from 2024. The number of centres participating in ASCP(PC) will increase from 16 to 28, with 16 of them located in 8 districts (including Central and Western, Southern, Kwun Tong, Wong Tai Sin, Sham Shui Po, North, Yuen

Long, and Kwai Tsing districts). SWD is extending the service to cover the remaining 10 districts in phases. The first phase of service extension has been completed, under which the 4 centres in Eastern, Kowloon City, Sha Tin, and Tai Po districts have commenced service in February 2025.

SWD will take into account the overall situations of child care services and the characteristics of individual districts, including the available CCC places, service utilisation, ratio of subsidised to private child care services, land supply situation, and service demand as a result of demographic changes, etc. when conducting service planning, in order to better meet the service demand in the community. The key of child care/education is to meet children's developmental needs. SWD will continuously review the service planning and implement different measures, such as increasing the number of service places, etc., to further address the developmental needs of children.

- 2) Service operators will organise promotional activities in various districts, and promote their services and recruit service users through online searches/social media/websites, setting up street booths, distributing leaflets, and hanging promotional banners, etc. SWD will also regularly produce and distribute publicity materials to promote various types of day child care services.

(Question Serial No. 1163)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The financial provision for subvented/private sector organisations for 2025-26 amounts to \$4.434 billion, reflecting an increase of 11%.

1. Please provide information about these subvented/private sector organisations.
2. How can it be ensured that the services provided by private sector organisations meet the required standards?

Asked by: Hon HO Kwan-yiu, Junius (LegCo internal reference no.: 34)

Reply:

1. Under the Programme of Family and Child Welfare, the estimated expenditure for subvented/private sectors in 2025-26 is approximately \$4.433 billion, representing an increase of about \$439 million (or 11%) over the revised estimate for 2024-25. The expenditure will mainly be used for strengthening support services related to day and residential child care services and child protection, and implementing service enhancement measures, including setting up 2 additional residential child care centres, strengthening foster care services and the home-based child care service under the Neighbourhood Support Child Care Project, and extending the After School Care Programme for Pre-primary Children in phases to cover all districts in Hong Kong, etc. A list of organisations subvented by the Social Welfare Department (SWD) and providing family and child welfare services is at Annex.
2. All subvented/private sector organisations are required to comply with the relevant requirements and standards stipulated in the Service Agreements (SAs), including essential service requirements, service output and outcome standards, and service quality standards. SWD will review the operation of the services and monitor the performance of the service units in accordance with existing mechanisms, and conduct scheduled or surprise visits by random selection to assess whether the organisations are in compliance with the terms and requirements of SAs.

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Paragraph 6 under Brief Description mentions that the Department increased the Child Care Centre Parent Subsidy to alleviate parents' financial burden.

What expenses does this subsidy cover?

Asked by: Hon HO Kwan-yiu, Junius (LegCo internal reference no.: 35)

Reply:

The Government introduced the Child Care Centre Parent Subsidy in February 2020 to alleviate the financial burden on parents by partially subsidising the service fees of full-day aided child care centres (CCCs). To strengthen support for working families in childbearing, starting from April 2024, the Child Care Centre Parent Subsidy has been increased from a maximum of \$600 to \$1,000 per month, which is applicable to all government-aided standalone CCCs and CCCs attached to kindergartens.

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Are there eligibility requirements for placement in the following centres or subvented organisations, such as age limit for children, family means tests, etc.?

- Foster Care
- Small Group Homes (SGHs)
- Residential Homes for Children

Asked by: Hon HO Kwan-yiu, Junius (LegCo internal reference no.: 36)

Reply:

Residential child care services (RCCS) subsidised by the Social Welfare Department (SWD) provide transitional residential care and protection for children and young persons under the age of 21 who temporarily cannot be adequately cared for due to sudden family crises, behavioural or emotional problems. RCCS is categorised into institutional and non-institutional services. Institutional service includes residential child care centres (including residential crèches and residential nurseries), children's homes, children's reception centres, boys'/girls' homes, and boys'/girls' hostels. Non-institutional service includes foster care service and SGHs, which provide family-like care environments for children in need of residential care. Individuals in need must have their applications submitted through the central referral system by the social workers responsible for the cases. RCCS is non-means-tested. For details about various RCCS, please visit SWD's website:

https://www.swd.gov.hk/en/pubsvc/family/cat_childcareservice/residchildcare/index.html

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

For the following subvented services, with no increase in the number of places in 2025-26 compared to 2024-25 and an unchanged estimated enrolment rate, what factors contribute to the increase in the estimated cost per place per month in 2024-25?

Foster Care (a 7% increase in estimated cost in 2024-25)

Small Group Home (SGH) (a 3% increase in estimated cost in 2024-25)

Asked by: Hon HO Kwan-yiu, Junius (LegCo internal reference no.: 37)

Reply:

The Government has implemented a series of enhancement and improvement measures to bolster support for foster care services. These measures include increasing the incentive payment for foster parents starting from April 2024; and allocating additional resources from January 2025 to provide extra support for foster children with special learning or care needs, arrange early assessments and appropriate professional rehabilitation therapy and training for foster children, enhance training for foster parents, and increase manpower in foster care service agencies to facilitate the implementation of these enhancement measures. Moreover, starting from October 2024, the Government has allocated additional resources to strengthen manpower deployment in SGHs, in order to strengthen care and support for children under care and enhance service quality. As a result, the average monthly cost for both foster care services and SGHs have increased since 2024-25.

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Paragraph 20 of the Estimates references the implementation of the Arts Development Fund for Persons with Disabilities (Arts Fund) to foster arts development for persons with disabilities (PWDs).

- When will it be implemented and how will it be executed?
- What is the estimated expenditure?

Asked by: Hon HO Kwan-yiu, Junius (LegCo internal reference no.: 38)

Reply:

In March 2019, the Social Welfare Department (SWD) introduced the \$250 million Arts Fund to support non-profit making non-governmental organisations or groups with relevant expertise in promoting arts development projects for PWDs. It aims to facilitate PWDs to have access to the arts, unleash their potential, and support talented PWDs in pursuing a career in the arts. The subsidised arts projects encompass a wide range of artistic media and disciplines, including visual arts (e.g., watercolour, ceramics, and murals), as well as music and performing arts (e.g. drama). These projects are designed to encourage PWDs to explore artistic creation from various perspectives and to nurture their diverse talents. SWD has established a Management Committee to oversee the use of grants distributed under the Arts Fund, advise on investment strategies, review applications, and make recommendations on funding approvals. As at March 2025, the Arts Fund has approved 168 applications, benefiting 99 service units with a total subsidy of nearly \$95 million.

(Question Serial No. 1587)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (2) Social Security

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the Social Security Allowance (SSA) Scheme administered by the Social Welfare Department (SWD), please inform this Committee of:

1. the number of recipients, their total number, and all related expenditure associated with the Old Age Allowance (OAA), the Old Age Living Allowance (OALA), the Guangdong (GD) Scheme, and the Fujian (FJ) Scheme in each of the past 5 financial years; and
2. the trends in the number of recipients, their total number, and all related expenditure associated with OAA, OALA, the GD Scheme, and the FJ Scheme in each of the coming 10 financial years.

Asked by: Hon HONG Wen, Wendy (LegCo internal reference no.: 12)

Reply:

The number of recipients and expenditure for OAA, OALA, the GD Scheme, and the FJ Scheme from 2021-21 to 2024-25 are set out in Tables 1 and 2 of Annex, respectively.

As at the end of December 2024, SWD paid the above allowances to about 1.14 million of persons aged 65 or above, representing about 65% of the elderly population in the same age group in Hong Kong. The estimated recurrent expenditure for 2025-26 is about \$52.2 billion.

The above allowances are specifically provided for different groups with genuine needs. OALA aims to supplement the living expenses of elderly persons aged 65 or above who are in need of financial support; OAA aims to help elderly persons aged 70 or above meet special needs arising from old age; while the GD Scheme and the FJ Scheme aim to provide OALA or OAA to eligible elderly persons in Hong Kong who choose to retire in the GD or FJ provinces. A significant number of elderly persons use the above allowances to cover their daily expenses.

According to the established mechanism, the Government seeks approval from the Finance Committee of the Legislative Council (the Committee) each year to adjust the allowance rates under the SSA Scheme based on the movement of the Social Security Assistance Index of Prices. During the current term of the Legislative Council, all Government proposals to adjust the allowance rates according to this mechanism have been approved by the Committee.

With the continued ageing of Hong Kong's population, the number of elderly recipients of the above allowances and the related expenditures are expected to keep rising. The Government will continuously review the implementation of the relevant measures, taking into account the long-term financial sustainability and the impact on the recipients.

Table 1 Number of recipients of OAA, OALA, the GD Scheme, and the FJ Scheme from 2020-21 to 2024-25

Type of allowance	2020-21	2021-22	2022-23	2023-24	2024-25 (as at end-December 2024)
OAA	291 228	312 218	326 456	345 727	358 408
OALA ^{Note 1}	605 574	637 016	687 331	729 289	757 071
GD Scheme	19 257	19 509	22 034	25 011	25 736
FJ Scheme	1 949	1 963	2 116	2 447	2 475
Total	918 008	970 706	1 037 937	1 102 474	1 143 690

Table 2 Expenditure on OAA, OALA, the GD Scheme, and the FJ Scheme from 2020-21 to 2024-25

Type of allowance	Expenditure ^{Note 2} (\$ million)				
	2020-21 (Actual)	2021-22 (Actual)	2022-23 (Actual)	2023-24 (Actual)	2024-25 (Revised estimate)
OAA	5,198	5,530	6,021	6,535	7,133
OALA ^{Note 1}	27,741	28,857	31,999	35,718	39,457
GD Scheme	685	686	740	951	1,058
FJ Scheme	73	74	79	97	108
Total	33,697	35,147	38,839	43,302	47,756

^{Note 1} The Normal and Higher OALAs were merged in September 2022. The merged OALA adopts the more lenient asset limits of the Normal OALA and the payment rate of the Higher OALA.

^{Note 2} The actual expenditure for 2020-21 includes the payment of 1 additional month of the allowances in the year. The actual expenditures for 2021-22, 2022-23 and 2023-24, and the revised estimate of expenditure for 2024-25 include the payment of an additional half-month of the allowances in the year.

Individual figures may not add up to the total due to rounding.

CONTROLLING OFFICER'S REPLY**LWB(W)062****(Question Serial No. 1589)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (2) Social SecurityControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

Regarding the Integrated Employment Assistance Programme for Self-reliance, please inform this Committee of:

1. the number of participants, the respective numbers of participants who successfully secured employment or returned to mainstream education, and the expenditure involved in each of the past 5 financial years;
2. the number of unemployed Comprehensive Social Security Assistance (CSSA) recipients who had their CSSA applications that were not processed further by the Social Welfare Department (SWD), further CSSA payments to other members of their households stopped by SWD, or who were required by SWD to repay overpaid CSSA payments due to their refusal to sign the Job Seeker's Undertaking (the Undertaking) or failure to comply with any of the requirements stated in the Undertaking in the past 5 financial years; and
3. the Government's estimated annual expenditure and staffing arrangements for the newly launched Support Programme for the Unemployed (SPU), and the expected number of participants in SPU.

Asked by: Hon HONG Wen, Wendy (LegCo internal reference no.: 14)

Reply:

1. The headcounts of persons who received the Employment Support Services (EmSS) and those who had secured employment or returned to mainstream education for at least 1 month upon receiving EmSS in 2023-24 and 2024-25 are tabulated as follows. SWD does not have a breakdown of the headcounts by year prior to April 2023.

Year	Headcount of persons who received EmSS	Headcount of persons who secured employment for at least 1 month	Headcount of persons who returned to mainstream education for at least 1 month
2023-24	16 480	1 891	110
2024-25 (up to end-December 2024)	14 022	1 307	93

The expenditure incurred by SWD on commissioning non-governmental organisations (NGOs) to provide EmSS from 2020-21 to 2024-25 is tabulated below:

Year	Expenditure (\$ million)
2020-21 (Actual)	152
2021-22 (Actual)	153
2022-23 (Actual)	157
2023-24 (Actual)	159
2024-25 (Revised estimate)	162

2. In general, unemployed able-bodied CSSA recipients aged 15 to 59 are required to receive EmSS, unless they have justifiable reasons for not being able to work (such as pursuing studies, or having to look after young children, sick or disabled family members at home), and sign the Undertaking to indicate that they fully understand their obligations to comply with relevant requirements. Unemployed able-bodied CSSA recipients aged 60 to 64 may receive EmSS on a voluntary basis.

Among unemployed able-bodied CSSA recipients aged 15 to 59 who received EmSS, the headcounts of persons whose CSSA payments were stopped or who were required to repay overpaid CSSA payments due to failure to comply with the requirements stated in the Undertaking from 2020-21 to 2024-25 are tabulated as follows. SWD does not have information on the number of CSSA applications that were not processed further because applicants refused to sign the Undertaking.

Year	Headcount of persons whose CSSA payments were stopped or who were required to repay overpaid CSSA payments due to failure to comply with the requirements stated in the Undertaking
2020-21	514
2021-22	633
2022-23	616
2023-24	584
2024-25 (up to end-December 2024)	409

3. SWD will replace EmSS with SPU starting from October 2025. SPU will be operated on a pilot basis for 2 years by NGOs and/or other organisations. SWD estimates that there will be about 10 000 participants during the initial implementation of SPU. The estimated expenditure on the 2year SPU is around \$98 million. SWD will commission SPU operators through invitation for proposals. NGOs operating EmSS are free to submit their proposals.

The Social Security Branch (SSB) and the Social Security Field Units (SSFUs) of SWD are responsible for the work relating to SPU, which includes monitoring the operation of relevant services by operators. Since implementing SPU is part of the day-to-day work of SSB and SSFUs, SWD cannot separately account for the manpower and expenditure involved.

- End -

CONTROLLING OFFICER'S REPLY**LWB(W)063****(Question Serial No. 1590)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (2) Social SecurityControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

Regarding the prevention of misuse of social security assistance, please provide this Committee with the following information about the assessment of applicants for Comprehensive Social Security Assistance (CSSA):

1. The respective numbers of CSSA fraud and abuse cases (including suspected cases reported, established fraud cases and prosecuted cases) in the past 5 financial years.
2. The Social Welfare Department (SWD) has appointed agents to help elderly persons who cannot return to Hong Kong due to health reasons to complete the application procedures for retirement in the Mainland. How many suspected and established fraud cases were discovered during the annual case review process conducted by these agents in each of the past 5 financial years?

Asked by: Hon HONG Wen, Wendy (LegCo internal reference no.: 15)Reply:

1. SWD adopts a multifaceted approach to combat CSSA fraud. The number of fraud cases related to CSSA from 2020-21 to 2024-25 is tabulated below.

	2020-21	2021-22	2022-23	2023-24	2024-25 (up to December 2024)
Number of suspected cases reported by members of the public	1 685	1 143	1 968	2 322	1 523
Number of established fraud cases upon SWD's in-depth investigation (the percentage out of the total CSSA cases as at end-March of the year)	370 (0.2%)	323 (0.1%)	367 (0.2%)	589 (0.3%)	344 (0.2%)
Number of prosecuted cases	45	24	21	24	17

The above figures indicate that CSSA fraud is not common as a matter of fact. SWD will conduct in-depth investigation and take follow-up action on all suspected fraud

cases, while referring more serious cases to law enforcement agencies for further investigation. SWD will require the recipients to repay the overpayments (if any) as soon as possible, regardless of their eligibilities for CSSA. Anyone who knowingly or wilfully provides false statements or withholds any information to obtain CSSA by deception commits an offence. Apart from being disqualified from CSSA, he/she may be prosecuted under the Theft Ordinance (Cap. 210), liable to a maximum penalty of 14 years of imprisonment upon conviction.

2. SWD has appointed agents to assist in the implementation of the Portable CSSA (PCSSA) Scheme, and the Guangdong (GD) Scheme and the Fujian (FJ) Scheme under the Social Security Allowance Scheme in GD and FJ provinces. Apart from helping elderly persons who cannot return to Hong Kong due to health reasons to complete the application procedures of the GD Scheme and the FJ Scheme, the agents have to conduct annual case reviews by means of home visits and written reviews for all cases under the PCSSA Scheme, the GD Scheme and the FJ Scheme to ascertain recipients' continued eligibility for the allowances. The agents also have to provide enquiry services to recipients, report changes in their personal circumstances to SWD on their behalf, identify suitable appointees for recipients in need and recommending them to SWD, assist SWD in recovering overpayments from recipients and investigating suspected fraud cases, etc. Over the past 5 financial years (up to end-December 2024), 1 suspected fraud case was identified by an agent. Upon SWD's investigation, it was confirmed that the case did not involve fraudulent elements.

CONTROLLING OFFICER'S REPLY**LWB(W)064****(Question Serial No. 3297)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (2) Social SecurityControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

Regarding the Old Age Living Allowance (OALA) under Subhead 180 Social Security Allowance Scheme, please advise:

1. the number of OALA recipients and the actual expenditure involved for each of the past 10 years;
2. the number of public rental housing (PRH) residents among OALA recipients, and the actual expenditure they incurred. Please provide the information using the following table:

Financial year	Overall number of cases (recipients)	Amount of allowance paid (\$)	Number of PRH elderly cases (recipients)	Amount of allowance paid (\$)
2015-16				
2016-17				
2017-18				
2018-19				
2019-20				
2020-21				
2021-22				
2022-23				
2023-24				
2024-25				

3. Has the Government estimated the increase in the number of eligible OALA recipients in the next 5 years (2025-26 to 2029-30) and the year-on-year percentage increase in funding?

Asked by: Hon HONG Wen, Wendy (LegCo internal reference no.: 24)Reply:

The number of OALA recipients, the related expenditure, and the number of OALA recipients residing in public housing estates from 2020-21 to 2024-25 are set out at Annex. The Social Welfare Department (SWD) does not have information on the expenditure of OALA paid to recipients residing in public housing estates.

OALA aims to supplement the living expenses of elderly persons aged 65 or above who are in need of financial support. As at end-December 2024, SWD paid OALA to about 780 000 elderly persons, representing about 44% of the elderly population in the same age group in Hong Kong. The estimated recurrent expenditure for 2025-26 is about \$44.5 billion. A significant number of elderly persons use the above allowance to cover their daily expenses.

According to the established mechanism, the Government seeks approval from the Finance Committee of the Legislative Council (the Committee) each year to adjust the allowance rates under the Social Security Allowance Scheme based on the movement of the Social Security Assistance Index of Prices. During the current term of the Legislative Council, all Government proposals to adjust the allowance rates according to this mechanism have been approved by the Committee.

With the continued aging of Hong Kong's population, the number of elderly recipients of the above allowance and the related expenditure are expected to keep rising. The Government will continuously review the implementation of the relevant measures, taking into account the long-term financial sustainability and the impact on the recipients.

Number of OALA recipients, expenditure involved, and number of OALA recipients residing in public housing estates from 2020-21 to 2024-25

Year ^{Note 1}	Number of recipients ^{Note 2}	Expenditure ^{Note 2 Note 3} (\$ million)	Number of OALA recipients residing in public housing estates
2020-21	618 573	28,345	353 255
2021-22	650 298	29,469	375 105
2022-23	702 837	32,664	405 805
2023-24	747 752	36,594	430 004
2024-25	776 200	40,441	446 549

Note 1 The number of recipients in 2024-25 refers to the figure as at the end of December 2024. The expenditure for 2024-25 is a revised estimate.

Note 2 Including the Guangdong Scheme and the Fujian Scheme. The Normal and Higher OALAs were merged in September 2022. The merged OALA adopts the more lenient asset limits of the Normal OALA and the payment rate of the Higher OALA.

Note 3 The actual expenditure for 2020-21 includes the payment of 1 additional month of the allowance in the year. The actual expenditures for 2021-22, 2022-23 and 2023-24, and the revised estimate of expenditure for 2024-25 include the payment of an additional half-month of the allowance in the year.

CONTROLLING OFFICER'S REPLY

LWB(W)065

(Question Serial No. 1304)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

It is mentioned under Matters Requiring Special Attention in 2025-26 that the Social Welfare Department (SWD) will enhance the Residential Care Services Scheme in Guangdong (the GDRCS Scheme). In this regard, would the Government please inform this Committee of the following:

1. What were the number of elderly persons receiving subsidies under the GDRCS Scheme and the amount of subsidies approved by the Government in each of the past 3 financial years?
2. What are the current number of residential care homes for the elderly (RCHEs) participating in the GDRCS Scheme; the total numbers of home for the aged places, care-and-attention (C&A) places and nursing home (NH) places provided; the occupancy rate of each participating RCHEs; and the estimated numbers of additional participating RCHEs and places for this year?
3. Have any elderly persons opted to leave the Mainland RCHEs during the 6-month trial stay period since its introduction in October 2023? If so, how many elderly persons have left, and what are their reasons for doing so?
4. What measures does the Government have to promote the GDRCS Scheme to the elderly or their relatives? What was the publicity expenditure for last year, and what is the estimated expenditure for this year?
5. The Government is going to engage organisations to provide care services for elderly persons participating in the GDRCS Scheme. When will these services be implemented, and what is the estimated expenditure for this year?

Asked by: Hon IP LAU Suk-ye, Regina (LegCo internal reference no.: 29)

Reply:

1. SWD purchases service places from RCHEs participating in the GDRCS Scheme based on the actual number of elderly persons enrolled in the scheme. The cumulative number of elderly persons receiving subsidies under the GDRCS Scheme, and the expenditure involved in each of the past 3 years are as follows:

Year	Cumulative no. of elderly persons receiving subsidies	Expenditure (\$ million)
2022-23	150	13.1 (Actual)
2023-24	195	18.9 (Actual)
2024-25 (as at end-December 2024)	343	32.1 (Revised estimate)

2. As at the end of December 2024, a total of 11 RCHEs were participating in the GDRCS Scheme, including 2 RCHEs that provided both C&A places and NH places. The number of places provided by these RCHEs under the GDRCS Scheme, as well as the number of elderly persons admitted, are set out at Annex.

Starting from March 2025, 4 additional RCHEs have joined the GDRCS Scheme as recognised service providers. This will bring the total number of participating RCHEs under the GDRCS Scheme to 15, and increase the number of Mainland cities within the Greater Bay Area (GBA) with participating RCHEs to 6 (i.e., Shenzhen, Guangzhou, Foshan, Zhaoqing, Zhongshan and Jiangmen). These additions will provide more options for elderly persons interested in retiring in Mainland cities within the GBA.

The Government has invited Hong Kong-based non-governmental organisations (NGOs) with experience in providing subsidised residential care services and a good track record to apply for participation in the GDRCS Scheme. At the same time, in accordance with the cooperation agreement outlined in the “Letter of Intent on Collaboration to Expand the Residential Care Services Scheme in Guangdong”, signed between the Labour and Welfare Bureau and the Department of Civil Affairs of Guangdong Province in November 2023, the Government continues to liaise with relevant departments in Mainland cities within the GBA, with a view to identifying suitable Mainland RCHEs for inclusion in the GDRCS Scheme.

3. Starting from October 2023, a 6-month trial stay arrangement was introduced under the GDRCS Scheme. As at the end of December 2024, a total of 9 elderly persons withdrew from the scheme due to deteriorating health conditions or difficulties in adaptation. These individuals were either cared for by family and friends or admitted to local RCHEs.
4. SWD has been promoting the GDRCS Scheme to elderly persons and the general public through various channels. These include providing the latest information about the scheme on SWD’s website, uploading introductory videos of participating RCHEs to SWD’s YouTube channel, and holding briefing sessions to introduce the scheme to caseworkers from referring offices who handle elderly persons’ applications for long-term care (LTC) services so that they can promote the scheme to eligible elderly persons and their families. In addition, in November 2024, SWD broadcast a 4-episode promotional video series titled “灣區安老知多啲” on television. The videos have been uploaded to SWD’s YouTube channel for continuous viewing, and are being shown at all LTC referring offices to ensure elderly persons and their families understand the scheme’s services and the conditions of participating RCHEs. SWD will continue to publicise and promote the GDRCS Scheme. SWD does not have information on the related publicity expenditure or the estimated expenditure.

5. SWD will engage a Hong Kong-based NGO experienced in Mainland social services to provide care services for elderly persons participating in the GDRCS Scheme and their families. In addition to supporting elderly persons in adapting to life in RCHEs in GD, the NGO will conduct standardised care need assessment for elderly services for elderly persons from Hong Kong who have settled in Mainland cities within GBA, and follow up on the applications of eligible elderly persons to join the GDRCS Scheme. These services are expected to be rolled out in May 2025, with an estimated expenditure of about \$3.2 million in 2025-26.

CONTROLLING OFFICER'S REPLY

LWB(W)066

(Question Serial No. 1259)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Budget Speech mentioned that the Government would provide an additional annual provision of \$186 million to increase emergency places for residential child care and strengthen professional support for child abuse victims and their families. In this connection, would the Government please inform this Committee of the following:

- (1) How many additional emergency residential child care places does the Government plan to provide, and how will these additional places be allocated across different districts? How will the Government ensure that the allocation effectively addresses the actual needs of different districts, avoiding uneven distribution of resources, particularly considering the varying child population densities in different districts? Please provide detailed statistics on the number of additional places allocated to each district as well as the rationale behind the allocation.
- (2) What funding is planned to provide adequate ancillary facilities (e.g. medical facilities, educational facilities, play equipment, etc.) for the additional places? How many professional staff, such as social workers, counselling staff, healthcare workers, etc., will be deployed to support the additional places?
- (3) How will the additional provision of \$186 million be distributed among various support programmes, such as social work, psychological counselling, medical, and legal aid services, etc.? Please provide the estimated provision for each programme and specific details of the services they offer.
- (4) What indicators will the Government use to evaluate the effectiveness of the professional support services? How will the actual benefits these services provide to child abuse victims and their families be measured?

Asked by: Hon KONG Yuk-foon, Doreen (LegCo internal reference no.: 21)

Reply:

To dovetail with the operation of the Mandatory Reporting of Child Abuse Ordinance (the Ordinance) in January 2026, the Government will, starting from 2025-26, allocate an additional annual provision of \$29.07 million to increase the number of emergency residential child care places, and \$157.4 million to strengthen professional support for child abuse victims and their families, amounting to a total of approximately \$186.5 million.

In terms of emergency residential child care places, 2 new residential child care centres (RCCCs) located in Tuen Mun and Kwun Tong districts respectively, will commence operation before the Ordinance takes effect, adding a total of 96 emergency care service places and catering for about 380 children each year. Emergency placements for residential child care services are arranged based on the specific circumstances of individual families or children. The Social Welfare Department (SWD) will continue to encourage more families to participate in foster care services, including emergency foster care, and identify suitable locations across various districts to set up new RCCCs. With the addition of new emergency residential places, combined with the existing emergency residential care services provided by RCCCs, small group homes, foster care services, children's homes, and children's reception centres in various districts in Hong Kong, the total provision of emergency residential care places will increase from 298 to 394. The 2 new RCCCs must be equipped with ancillary facilities suitable for providing training and services to children below the age of 6 in accordance with SWD's Schedule of Accommodation. The estimated annual operating expenditure for the 2 RCCCs is about \$56.84 million, with the respective professional staffing establishments tabulated below:

RCCC (Tuen Mun)	
Position/Rank	Number
Assistant Social Work Officer	1
Social Work Assistant	3
Registered Nurse	2
Enrolled Nurse	4
Clinical Psychologist	0.8

RCCC (Kwun Tong)	
Position/Rank	Number
Assistant Social Work Officer	1
Social Work Assistant	3
Registered Nurse	2
Enrolled Nurse	3
Clinical Psychologist	0.8

Regarding strengthening professional support for child abuse victims and their families, SWD has subsidised non-governmental organisations (NGOs) to set up 6 service teams under the Child Protection Support Service (the service teams) in March 2025. The service teams, comprising social workers, psychologists, nurses, and other supporting staff, will provide a range of support services, including home visitation support, therapeutic/psycho-social groups, educational and family enrichment programmes, etc., to provide targeted intervention and professional support for children who have been abused or are at risk of abuse, as well as their families. NGOs operating subvented services have to comply with the relevant requirements and standards stipulated in the Service Agreements (SAs), including essential service requirements, output and outcome standards, and service quality standards. SWD will review the operation of the service teams and monitor the performance of the service units in accordance with existing mechanisms, and will conduct scheduled or surprise visits by random selection to assess whether NGOs are in compliance with the terms and requirements of the SAs.

(Question Serial No. 1260)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

It is mentioned in the Budget Speech that starting from the third quarter of this year, the Government will regularise the Pilot Project on Enhancing Vocational Rehabilitation Services (the Pilot Project) to enhance the service and training model of sheltered workshops (SWs)/integrated vocational rehabilitation services centres (IVRSCs), thereby building a better vocational rehabilitation and training ladder for persons with disabilities (PWDs). The annual expenditure involved is about \$100 million. In this regard, please provide the following information:

- (1) How many PWDs participated in the Pilot Project in the past 2 years? How many of them successfully secured employment? What were the employment situations for different types of PWDs (such as persons with visual impairment, hearing impairment and physical disabilities)?
- (2) What was the total expenditure of the Pilot Project in the past 2 years? How will the Government assess the effectiveness of regularising the Pilot Project? What indicators will be used for the assessment?
- (3) What are the differences between the Pilot Project, the Work Extension Programme (WEP) and the Supported Employment Training for Persons with Disabilities (SET) in terms of service targets, service content and service modes? How will these 3 programmes be co-ordinated and aligned with each other to provide more comprehensive vocational rehabilitation services?
- (4) Please provide the number of participants for each programme and their respective employment rates upon completion in the past 3 years.

Asked by: Hon KONG Yuk-foon, Doreen (LegCo internal reference no.: 22)

Reply:

- (1) The Social Welfare Department (SWD) launched the 2-year Pilot Project in July 2023, with a view to enhancing the service and training model of SWs and IVRSCs by providing training tailored to the individual interests and abilities of trainees. It also seeks to strengthen the development of relevant networks to establish different job types and enhance market promotion, thus ensuring that the content of advanced training

courses aligns with the practical requirements of open employment. The goal is to build a better vocational rehabilitation and training ladder for PWDs. The trainees participating in the Pilot Project include persons with intellectual disability, physical disability, and hearing/speech impairment, as well as those in mental recovery. The participating SWs and IVRSCs have organised over 2 000 work placement sessions for them, spanning fields such as arts and design, computer and technology applications, catering, facilities management, sales and retail, packaging and assembly, logistics and warehousing, as well as general office administration. The Pilot Project has benefited about 1 100 persons. As at January 2025, 43 trainees successfully transitioned to supported employment training or open employment after completing training under the Pilot Project. SWD does not have a breakdown of the trainees' employment situations by type of disability.

- (2) The estimated expenditure for the 2-year Pilot Project is about \$25 million. SWD has reviewed the effectiveness of the Pilot Project by examining service and employment data collected from the participating SWs/IVRSCs, as well as the feedback from the service units, service users and their families, job attachment providers, and employers.
- (3) SET provides PWDs who are not yet able to take up open employment with individual service plans that integrate counselling, job-related training, job attachment, job trial and post-placement support. Under the Pilot Project, SWs/IVRSCs will provide advanced training courses and work placements for trainees with potential, and arrange for them to take part in SET based on their personal interest and abilities, with a view to enhancing their future employment prospects. WEP targets service users of SWs/IVRSCs who are no longer able to participate in regular work training due to old age or a decline in work abilities. Services provided under WEP include activities to sustain residual work abilities, social and developmental programmes, and caring activities to address the health and physical needs of trainees.
- (4) The numbers of WEP and SET service users, as well as the number of those who successfully secured employment for more than 6 months in the past 3 years are set out at Annex.

Number of vocational rehabilitation service users

Service type/ Year	No. of service users		
	2022-23	2023-24	2024-25 (as at 31 December 2024)

Supported Employment (SE) ^{Note}	1 954	1 983	-
On the Job Training Programme for PWDs (OJT) ^{Note}	432	430	-
Sunnyway - On the Job Training Programme for Young PWDs (Sunnyway) ^{Note}	319	305	-
SET ^{Note}	-	-	2 359

^{Note} SE, OJT and Sunnyway were integrated as SET in April 2024.

Number of vocational rehabilitation service users who successfully secured employment for more than 6 months

Service type/ Year	No. of service users who successfully secured employment for more than 6 months		
	2022-23	2023-24	2024-25 (as at 31 December 2024)
WEP	Not Applicable ^{Note 2}	Not Applicable ^{Note 2}	Not Applicable ^{Note 2}
SE ^{Note 1}	271	246	-
OJT ^{Note 1}	161	178	-
Sunnyway ^{Note 1}	166	157	-
SET ^{Note 1}	-	-	260

^{Note 1} SE, OJT and Sunnyway were integrated as SET in April 2024.

^{Note 2} WEP targets service users of SWs/IVRSCs who are no longer able to participate in regular work training due to old age or a decline in work abilities.

- End -

CONTROLLING OFFICER'S REPLY

LWB(W)068

(Question Serial No. 1268)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (2) Social Security

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The provision of \$57.948 billion under Subhead 180 Social Security Allowance (SSA) Scheme represents an increase of \$6.63 billion (12.9%) compared to the revised estimate for 2024-25. The Government has stated that this is mainly due to the expected increase in Old Age Living Allowance (OALA) cases as well as an upward adjustment of 1.3% in the rates of allowances under the SSA Scheme. In this regard, would the Government inform this Committee:

- (1) Over the past 3 years, what were the respective numbers of cases and the corresponding expenditures for the Old Age Allowance (OAA), Normal Disability Allowance (NDA), Higher Disability Allowance (HDA), OALA, as well as OALA and OAA provided through the Guangdong (GD) Scheme and the Fujian (FJ) Scheme?
- (2) Given Hong Kong's continuously ageing population, expenditure on the SSA Scheme is expected to keep increasing. Has the Government undertaken any long-term financial sustainability analysis to evaluate the financial impact of the SSA Scheme over the next 5 years or even the coming decades? Moreover, are there any long-term financial plans in place to address this growing expenditure?

Asked by: Hon KONG Yuk-foon, Doreen (LegCo internal reference no.: 30)

Reply:

- (1) From 2022-23 to 2024-25, the number of cases and expenditure for the SSA Scheme by type of allowance are set out in Tables 1 and 2 of Annex, respectively.
- (2) The majority of allowance recipients under the SSA Scheme are elderly persons. As at the end of December 2024, the Social Welfare Department paid social security allowances to about 1.18 million of persons aged 65 or above, representing about 67% of the elderly population in the same age group in Hong Kong. The estimated recurrent expenditure for 2025-26 is about \$53.7 billion.

The allowances are specifically provided for different groups with genuine needs. OALA aims to supplement the living expenses of elderly persons aged 65 or above who are in need of financial support; OAA aims to help elderly persons aged 70 or above meet special needs arising from old age; and the Disability Allowance aims to help

persons assessed to have severe disabilities meet special needs arising from disability. A significant number of elderly persons use the above allowances to cover their daily expenses.

According to the established mechanism, the Government seeks approval from the Finance Committee of the Legislative Council (the Committee) each year to adjust the allowance rates under the SSA Scheme based on the movement of the Social Security Assistance Index of Prices. During the current term of the Legislative Council, all Government proposals to adjust the allowance rates according to this mechanism have been approved by the Committee.

With the continued ageing of Hong Kong's population, the number of elderly recipients of the above allowances and the related expenditures are expected to keep rising. The Government will continuously review the implementation of the relevant measures, taking into account the long-term financial sustainability and the impact on the recipients.

Table 1 Number of cases under the SSA Scheme from 2022-23 to 2024-25 by type of allowance

Type of allowance	2022-23	2023-24	2024-25 (as at end-December 2024)
OAA	326 456	345 727	358 408
OALA ^{Note 1}	687 331	729 289	757 071
OAA under the GD Scheme	8 008	8 314	8 415
OALA under the GD Scheme ^{Note 1}	14 026	16 697	17 321

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the Innovation and Technology Fund for Application in Elderly and Rehabilitation Care (the I&T Fund), please inform this Committee:

- (1) of the annual total funding of the I&T Fund since its launch in 2018, as well as detailed year-by-year data for the actual annual funding amounts, the number of projects approved, the average funding per project, the average processing time per project, and the respective numbers of elderly persons and persons with disabilities (PWDs) who benefited each year, broken down by type of service unit and operation mode, presented in tabular form;
- (2) of the current balance of the I&T Fund;
- (3) of the Government's future plans for the I&T Fund; and
- (4) whether the Government has evaluated the effectiveness of using gerontechnology products in residential care homes (RCHs) operated by service units of different types and operation modes, such as the rate of continued usage of approved technology products, the number of products left idle or phased out after being used for some time, and the reasons for these products being idle or phased out, and whether the Government has considered recovering or redistributing such products.

Asked by: Hon KONG Yuk-foon, Doreen (LegCo internal reference no.: 31)

Reply:

- (1) & (2) The requested information is set out at Annex.

The Social Welfare Department (SWD) does not keep records of the average amount of grant approved and the average processing time for applications. In addition, as the I&T Fund is open to applications from elderly and rehabilitation service units only, SWD does not keep records of the number of beneficiaries. As at the end of February 2025, the balance of the I&T Fund was about \$1.16 billion.

- (3) SWD plans to accept a new tranche of applications in March 2025, and will implement enhancement measures, which include increasing the amount of grant for each eligible elderly and rehabilitation service unit by 50%. In addition, non-governmental organisations operating subvented elderly and rehabilitation community service units will also be allowed to apply for extra funding to procure technology products suitable for elderly persons or PWDs and their carers to borrow and use at home.
- (4) SWD has been continuously reviewing the operation of the I&T Fund, and collecting feedback on the I&T Fund and technology products from applicant organisations, service users and care staff through on-site visits, questionnaires and other means to evaluate the effectiveness of the I&T Fund. Respondents have provided positive feedback on the technology products funded by the I&T Fund in their service units. They considered that these products could enhance the functioning of service users in daily activities and enhance the occupational safety and health of staff. SWD will continue to collect stakeholders' feedback.

**Information pertaining to the approval of applications under the I&T Fund
(as at 28 February 2025)**

Tranche no.	Operation mode	Type of service unit	No. of products approved	Amount of grant approved (\$ million)

CONTROLLING OFFICER'S REPLY

LWB(W)070

(Question Serial No. 1270)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Budget Speech mentioned that the Government would increase the residential care service vouchers (RCSVs) and community care service vouchers (CCSVs) by 1 000 each in the next financial year. This will bring the totals to 6 000 RCSVs and 12 000 CCSVs, with annual expenditures of about \$1,710 million and \$900 million, respectively. In this connection, please provide:

- (1) the number of recognised service providers (RSPs), the number of service places, the respective numbers of applicants and recipients, the amount of subsidy, the number of current voucher users, and the number of persons who left the 2 schemes, along with their reasons for leaving, under the RCSV Scheme for the Elderly (RCSV Scheme) and the CCSV Scheme for the Elderly (CCSV Scheme) over the past 3 years;
- (2) the headcount of persons renting assistive technology products with CCSVs thus far; the distribution of demand among various types of assistive technology products (e.g. aids for walking or toileting, etc.) among the rented products; and whether the Government has set specific targets for the utilisation rates or the number of beneficiaries for assistive product rental services; and
- (3) whether the Government will consider carrying out targeted publicity and resource allocation for different groups, particularly singleton elderly persons or elderly persons who lack family support, to ensure they receive sufficient information and are able to rent assistive technology products through the CCSV Scheme in a timely manner.

Asked by: Hon KONG Yuk-foon, Doreen (LegCo internal reference no.: 32)

Reply:

- (1) From 2022-23 to 2024-25, the number of RSPs, the number of service places, the numbers of applicants, recipients and users, the amount of subsidy, and the number of persons who left, along with their reasons for leaving, under the RCSV Scheme and CCSV Scheme, are set out in Tables 1 to 4 of the Annex, respectively.
- (2) Since September 2023, the scope of CCSVs has been extended to cover the rental of assistive technology products. As at the end of December 2024, a cumulative

headcount of 647 persons had rented such products, with 853 products rented out in total. The utilisation of assistive technology products rented with CCSVs, broken down by product category, is set out in Table 5 of Annex.

- (3) The Social Welfare Department (SWD) has enhanced its support for CCSV holders of singleton and doubleton elderly households by proactively reaching out to provide case management services for them. These services include introducing the rental service of assistive technology products under the CCSV Scheme. SWD will continue to promote and encourage the use of assistive technology products among the elderly and their carers, with a view to improving their quality of life and reducing the pressure on the carers.

Table 1: Service statistics^{Note 1} on the RCSV Scheme

Year	No. of RSPs	No. of service places	No. of applicants	No. of RCSV recipients	No. of users	Subsidy amount (\$ million)
2022-23	186	4 000	2 296	1 309	2 621	465.2
2023-24	203	4 000	3 408	2 007	3 738	750.4

CONTROLLING OFFICER'S REPLY

LWB(W)071

(Question Serial No. 1665)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Financial Secretary proposed an additional annual provision of \$186 million to increase emergency places for residential child care services and to strengthen professional support for child abuse victims and their families. In this connection, please inform this Committee of:

1. the number of residential child care service (RCCS) places, the number of waitlisted children, their average waiting time, and their average length of stay in the past 3 years, as well as the projected numbers for the next year;
2. the provision for additional emergency residential child care places, the estimated number of places to be provided, and the potential reduction in waiting time; and
3. the specific measures proposed to strengthen professional family support, the staffing establishment and expenditure involved, and the implementation timetable.
4. The Government previously released the Report of the Second Phase Review of Residential Child Care and Related Services, which outlined 39 improvement measures and recommendations. However, the report does not address solutions for certain acutely undersupplied services, such as foster care, small group home (SGH), and residential home for children (RHC), where significant number of children remain on waiting lists. Does the Government have any targeted measures to address these issues, such as developing "family-based residential care homes"? If so, what are the details? If not, what are the reasons?

Asked by: Hon KOON Ho-ming, Peter Douglas (LegCo internal reference no.: 22)

Reply:

1. The number of places for various types of RCCS in the past 3 years and the estimated number of places to be provided in 2025-26 are set out in Table 1 of Annex 1. The average number of waitlisted children, the average waiting time and the average length of stay for various types of RCCS are set out in Table 2 of Annex 1. As the number of waitlisted children, waiting time and length of stay for RCCS can be affected by various factors, including applicants' choice of district, and the specific circumstances of the children and their families, it is not possible to predict the figures for the coming year.

2. & 3. To dovetail with the operation of the Mandatory Reporting of Child Abuse Ordinance (the Ordinance) in January 2026, the Government will, starting from 2025-26, allocate an additional annual provision of \$29.07 million to increase the number of emergency residential child care places, and \$157.4 million to strengthen professional support for child abuse victims and their families, amounting to a total of approximately \$186.5 million.

In terms of emergency residential child care places, 2 new residential child care centres will commence operation before the Ordinance takes effect, adding a total of 96 emergency care service places and catering for about 380 children each year. As various types of emergency RCCS accept direct applications without a central referral system, the Social Welfare Department (SWD) does not have information on the waiting time or the number of waitlisted children, nor can it estimate the potential reduction in waiting time.

Regarding strengthening professional support for child abuse victims and their families, SWD has subsidised non-governmental organisations to set up 6 service teams under the Child Protection Support Service (service teams) in March 2025. The service teams, comprising social workers, psychologists, nurses, and other supporting staff, will provide a range of support services, including home visitation support, therapeutic/psycho-social groups, educational and family enrichment programmes, etc., to provide targeted intervention and professional support for children who have been abused or are at risk of abuse, as well as their families. The staffing establishment of a service team used for calculating funding allocations is set out at Annex 2.

4. In response to the recommendations in the report of the Committee on Review of Residential Child Care and Related Services to increase RCCS supply, SWD added a total of 54 SGH places and 7 emergency/short-term care places in SGHs in New Territories East and Hong Kong Island East in 2022-23 and 2023-24, with a plan to add another 30 SGH places and 4 emergency/short-term care places in SGHs in Kowloon City in 2026-27. Meanwhile, SWD added 100 foster care places in 2023-24, including 15 emergency care places, raising the total number of foster care places from 1 130 to 1 230 and emergency care places from 115 to 130. SWD will continue to monitor the demand for and utilisation of various types of RCCS, and reallocate or increase resources as necessary to meet service needs. In addition, SWD will enhance publicity efforts to promote foster care service in order to encourage and recruit suitable individuals to become foster families, thus enabling children to receive appropriate care and protection in a family-like environment.

Table 1 Number of places for various types of RCCS and estimated number of places to be provided in 2025-26

Item	Year	Foster care service	SGH	RHC	Total
Number of places	2022-23	1 130	954	1 832	3 916
	2023-24	1 230	978	1 832	4 040
	2024-25	1 230	978	1 898	4 106
Estimated number of places to be provided	2025-26	1 230	978	1 946	4 154

CONTROLLING OFFICER'S REPLY

LWB(W)072

(Question Serial No. 1666)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

According to the Budget Speech, 1 280 additional day community rehabilitation and home care service places will be provided for persons with disabilities (PWDs), involving approximately \$160 million in additional annual expenditure. In this connection, please advise:

1. The number of places for day community rehabilitation services, the number of waitlisted persons, and the average waiting time over the past 3 years and the coming year, broken down by Integrated Community Rehabilitation Centre (ICRC). In addition, please provide the estimated reduction in waiting time following the introduction of the additional service places.
2. Regarding the Policy Address's proposal to establish an additional District Support Centre for PWDs (DSC) in New Territories East, what are the expected staffing establishment (SE), the expenditure involved, and the implementation timetable?
3. Given that the prevailing support services for PWDs are primarily provided during daytime hours, with very limited evening or emergency support, will the Government consider providing 24-hour emergency support services to deliver home-based support or care services for PWDs in need? If so, what are the details? If not, what are the reasons?

Asked by: Hon KOON Ho-ming, Peter Douglas (LegCo internal reference no.: 23)

Reply:

1. Non-governmental organisations (NGOs) are subsidised by the Social Welfare Department (SWD) to operate Home Care Service (HCS) for Persons with Severe Disabilities, Integrated Support Service for Persons with Severe Physical Disabilities (ISS) and Community Rehabilitation Day Centres (CRDCs), providing 4 450 places for HCS and 330 places for day community rehabilitation. SWD launched a 2-year pilot project in the third quarter of 2023 to set up 2 ICRCs, integrating the services of CRDCs and home care service, with a view to providing PWDs requiring medium to high level care with flexible support through a case management approach. Tailored support is also offered based on the individual needs and rehabilitation progress of each PWD. As the above community support services for PWDs are session-based, PWDs can access these services through referrals or by applying directly to the centres. There are no central waiting lists for these services.

SWD will set up 14 ICRCs across the territory in phases to provide services for PWDs in all districts. This includes regularising the operation of the 2 ICRCs set up under the pilot project starting from the third quarter of 2025, while enhancing the functions of the 4 existing CRDCs and converting them into ICRCs progressively with integration of HCS for Persons with Severe Disabilities and ISS. This measure will create an additional 1 280 community rehabilitation and HCS places, bringing the expected total to 6 060 service places.

2. SWD will establish 1 additional DSC in New Territories East in the third quarter of 2026, involving an annual expenditure of about \$17 million. The SE of the centre is set out at Annex.
3. SWD operates a 24-hour hotline to provide immediate support and consultation services for people in need (including PWDs). To strengthen support for carers, SWD has commissioned the Tung Wah Group of Hospitals to launch the 24-hour Designated Hotline for Carer Support 182 183 (the Carer Hotline) in September 2023. In addition to answering calls, social workers managing the Carer Hotline also provide outreach services for crisis management or emergency support.

SE of DSC ^{Note}

Rank/Post	No. of staff
Social Work Officer	1
Assistant Social Work Officer	1
Senior Social Work Assistant	1
Social Work Assistant	4
Clinical Psychologist	0.5
Physiotherapist I	0.5
Occupational Therapist I	1
Speech Therapist	1
Enrolled Nurse	0.5
Personal Care Worker	7

CONTROLLING OFFICER'S REPLY

LWB(W)073

(Question Serial No. 1667)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: Not Specified

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Under Matters Requiring Special Attention in 2025-26, it is mentioned that the Labour and Welfare Bureau will oversee the purchase of premises for the provision of welfare facilities. The initial target is to acquire approximately 160 welfare facilities across 18 districts. In this regard, please advise:

1. Since obtaining funding approval by the Finance Committee, please provide details of the purchased premises including (a) the number of premises, (b) their locations, (c) types of services provided, and (d) the expenditure involved.
2. For the next financial year, what is the amount of funding earmarked for related work? Please also provide (a) the number of premises to be purchased, (b) their locations, (c) types of services to be provided, and (d) the expenditure involved.
3. Although private property prices have declined from their peak, the number of welfare facilities purchased still falls far short of the target. Have any difficulties been encountered in this process? Will additional measures be considered to address these challenges or accelerate progress towards meeting the targets? For example, could existing social services, such as youth centres, be relocated to commercial buildings, thereby allowing ground-floor or lower-floor social welfare properties to be reserved for services requiring stricter fire safety compliance, such as elderly centres or childcare services? If so, what are the details? If not, what are the reasons?

Asked by: Hon KOON Ho-ming, Peter Douglas (LegCo internal reference no.: 24)

Reply:

1. With the assistance of the Government Property Agency (GPA), the Social Welfare Department (SWD) is striving to identify suitable premises for purchase through different channels. As at 28 February 2025, SWD has incurred about \$240 million in actual expenditure on the “purchase of welfare premises” under the Capital Works Reserve Fund, covering the payment for 5 premises. 2 of these premises are located in Sham Shui Po District, while the remaining 3 are located in Central and Western District, Eastern District and Kwun Tong District respectively. These premises are for operating a Parents/Relatives Resource Centre, a Support Centre for Persons with Autism and a neighbourhood elderly centre, as well as for providing on-site pre-school rehabilitation services.

2. & 3. SWD and GPA are continuing their efforts to identify and purchase suitable premises, and have earmarked \$250 million for related work in 2025-26. The progress of purchasing premises depends on the availability of suitable properties in the market and various external factors, including whether the properties for sale have fire safety and barrier-free access facilities, whether the size and location meet operational requirements, whether the surrounding land uses are compatible with welfare uses, and whether the selling prices fall within the acceptable price range determined by GPA with reference to market value. If market conditions permit, the goal of SWD and GPA is to purchase as many premises as possible in order to provide more welfare facilities. SWD will continue to implement and review the scheme, including exploring the feasibility of purchasing new premises as replacements so as to free up ground-floor or lower-floor spaces in existing premises for welfare facilities. The goal is to purchase more suitable premises for welfare purposes whenever possible.

CONTROLLING OFFICER'S REPLY

LWB(W)074

(Question Serial No. 1668)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the phased extension of the After School Care Programme for Pre-primary Children [ASCP(PC)] to cover all 18 districts in Hong Kong, please provide this Committee with the following information:

1. The expenditure for extending ASCP(PC), including the administrative costs and manpower involved;
2. A detailed account of the estimated number of children who have benefited from ASCP(PC) over the past 3 years, their age distribution, service utilisation rate, and the number of waitlisted children, broken down by District Council (DC) district;
3. The timetable, details and estimates for extending the service to all 18 districts in Hong Kong; and
4. Given the ongoing shortage of child care workers, and considering the aforementioned service extension, will the Government consider implementing measures to provide more training places to enhance the quality of child care services and supplement manpower supply? If so, what are the details? If not, what are the reasons?

Asked by: Hon KOON Ho-ming, Peter Douglas (LegCo internal reference no.: 25)

Reply:

1. The extension of ASCP(PC) involves an additional annual expenditure of about \$14.2 million, including administrative and salary expenses of participating centres.
2. The number of places and the average utilisation rate of ASCP(PC) for the past 3 financial years, broken down by DC district, are set out at Annex. Parents can apply directly for the service from service operators without being waitlisted under a central system. The Social Welfare Department (SWD) does not have information on the numbers of children waitlisted for the service and children who have benefited from the service as well as their age distribution.
3. SWD will extend ASCP(PC) to cover all districts in Hong Kong in phases within 3 years starting from 2024. The number of centres participating in ASCP(PC) will increase from 16 to 28, and the number of service places will increase from 672 to 1 176. The

16 centres are located in 8 districts (including Central and Western, Southern, Kwun Tong, Wong Tai Sin, Sham Shui Po, North, Yuen Long, and Kwai Tsing districts). SWD is extending the service to cover the remaining 10 districts in phases. The first phase of service extension has been completed, under which the 4 centres in Eastern, Kowloon City, Sha Tin, and Tai Po districts have commenced service in February 2025. The estimates on ASCP(PC) for 2025-26 is about \$41.6 million.

4. In accordance with the Child Care Services Regulations (Cap. 243A), any person must complete a training course approved by the Director of Social Welfare before he or she can apply for registration as a child care worker. Institutions will adjust the number of training places offered based on demand. Nevertheless, each centre of ASCP(PC) has a staffing establishment consisting of 1 Assistant Social Work Officer and 2 support staff, and there is no requirement to employ child care workers. The operating expenditure of the service is subsidised under the Lump Sum Grant subvention mode. Subject to their compliance with the requirements of the Funding and Service Agreements, service operators may flexibly deploy resources and employ staff to achieve the required service outputs and outcomes.

Number of places and average utilisation rate of ASCP(PC)

N.A. - Not applicable

Note 1 13 centres in Southern, Kwun Tong, Wong Tai Sin, Sham Shui Po, Tai Po, North, Yuen Long, and Kwai Tsing districts commenced service in August 2021, February 2022, and February 2023.

Note 2 5 centres in Central and Western, Southern, Yuen Long, and Kwai Tsing districts commenced service in August 2023 and February 2024.

Note 3 All 18 centres were in operation in February 2024, but 2 of them, which commenced service in August 2021, ceased operation after March 2024. The remaining 16 centres provided a total of 672 service places (42 places per centre).

Note 4 To meet the needs of the respective districts, some centres provide additional service places at specific time slots or additional opening sessions on Saturdays, Sundays or public holidays. The average utilisation rate may exceed 100% as the headcounts for additional services are also included.

LWB(W)075

(Question Serial No. 1669)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

It is mentioned under Matters Requiring Special Attention in 2025-26 for this Programme that the Social Welfare Department (SWD) will prepare for the setting up of 4 Community Parents and Children Centres (CPCCs) on a pilot basis. In this regard, please inform this Committee of:

1. the current work progress, related expenditures, and estimates for next year;
2. the distribution of these CPCCs, additional staffing requirements, and the estimated number of persons to be served; and
3. the criteria and indicators by which the Government will measure and evaluate the effectiveness of this initiative. If the pilot programme proves successful, will the Government consider establishing CPCCs in all 18 districts of Hong Kong?

Asked by: Hon KOON Ho-ming, Peter Douglas (LegCo internal reference no.: 26)

Reply:

SWD will set up 4 CPCCs on a pilot basis by re-engineering existing children and youth centres located in the Eastern, Wong Tai Sin, Sha Tin, and Yuen Long districts. These CPCCs will adopt a play-based approach to promote parent-child interaction and educate parents on positive parenting methods, provide support to families with parenting needs, and refer families with other needs to appropriate government and community services. SWD will begin renovation works in the second quarter of 2025, with the 4 CPCCs scheduled to commence operations progressively starting from 2026, benefiting about 10 000 persons in the first year.

The provision for these CPCCs amounts to around \$96.9 million over a 5-year period, from 2025-26 to 2029-30. The staffing establishment will comprise social workers, nurses, family aide workers, and child care workers, etc. SWD will draw up service agreements for operating CPCC services, stipulating the relevant requirements and standards, including service quality standards, essential service requirements, service output and outcome standards. SWD will monitor the CPCCs' performance in accordance with existing mechanisms, and examine the way forward for the initiative.

- End -

CONTROLLING OFFICER'S REPLY**LWB(W)076****(Question Serial No. 1670)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (1) Family and Child WelfareControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

Regarding the implementation of the Mandatory Reporting of Child Abuse Ordinance, please provide this Committee with the following information:

1. The number of child abuse cases reported in the past 3 years, with a breakdown by category.
2. The estimated additional manpower and expenditure required for implementing the Ordinance next year, and what proportion of the Department's overall expenditure will this represent.
3. The Financial Secretary has proposed an additional annual provision of \$186 million to increase emergency places for residential child care and to strengthen professional support for child abuse victims and their families. Please provide details of the related measures and the estimated expenditure involved.
4. Will the Government consider adopting innovative technologies to enhance child protection, such as subsidising welfare organisations to install artificial intelligence (AI)-powered closed-circuit television (CCTV) systems capable of monitoring and detecting early signs of inappropriate behaviour? If not, what are the reasons?

Asked by: Hon KOON Ho-ming, Peter Douglas (LegCo internal reference no.: 27)

Reply:

1. The number of newly registered child protection cases from 2022 to 2024, as collected by the Child Protection Registry of the Social Welfare Department (SWD) by type of abuse, is as follows:

Type \ Year	2022	2023	2024
Physical harm/abuse	652	602	595
Neglect	276	310	328
Sexual abuse	443	509	522
Psychological harm/abuse	15	7	16
Multiple abuses	53	29	43
Total	1 439	1 457	1 504

2. The Government has allocated an additional provision of \$24.1 million (additional full-year provision of \$24.2 million from 2024-25 onwards) to create 41 permanent posts to enhance the Government's enforcement and support capacity, provide appropriate training for practitioners in relevant professions, and strengthen promotion and public education efforts on child protection, with a view to dovetailing the implementation of the mandatory reporting regime for child abuse cases.
3. In addition, the Government will, starting from 2025-26, allocate an additional annual provision of \$29.07 million to increase the number of emergency residential child care places, and \$157.4 million to strengthen professional support for child abuse victims and their families, amounting to a total of approximately \$186.5 million. In terms of emergency residential child care places, 2 new residential child care centres (RCCCs) will commence operations before the Mandatory Reporting of Child Abuse Ordinance takes effect, adding a total of 96 emergency care service places and catering for about 380 children each year. Regarding strengthening professional support for child abuse victims and their families, SWD has subsidised non-governmental organisations to set up 6 service teams under the Child Protection Support Service (service teams) in March 2025. The service teams, comprising social workers, psychologists, nurses, and other supporting staff, will provide a range of support services, including home visitation support, therapeutic/psycho-social groups, educational and family enrichment programmes, etc., to provide targeted intervention and professional support for children who have been abused or are at risk of abuse, as well as their families.
4. In 2024, SWD was funded by the Lotteries Fund to assist 12 RCCCs and residential special child care centres in Hong Kong (including 2 that are expected to commence operations soon) in introducing the AI monitoring systems into their CCTV systems, so as to enable a more comprehensive monitoring of childcare condition and a more effective identification of staff's improper behaviour for follow-up. NGOs operating these RCCCs have engaged service providers to carry out system development, design, coding, and technical testing according to the service environments and needs of individual centres. The AI monitoring systems are expected to be applied in these centres starting from mid-2025.

LWB(W)077

(Question Serial No. 1671)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

It is mentioned under Matters Requiring Special Attention in 2025-26 that the Government will enhance the Residential Care Services Scheme in Guangdong (GDRCS Scheme) by implementing measures such as increasing the number of participating residential care homes for the elderly (RCHes). In this regard, would the Government please inform this Committee of the following:

1. the estimated additional expenditure and specific plans for increasing the number of participating RCHes;
2. a breakdown of the number of elderly persons participating in the GDRCS Scheme in each of the past 3 years, and the number of elderly persons expected to participate following the enhancement of the GDRCS Scheme; and
3. whether the Government plans to regularise the 3-year pilot scheme to subsidise elderly Comprehensive Social Security Assistance (CSSA) recipients to reside in designated RCHes in the Guangdong (GD) Province, as proposed by the Chief Executive in his Policy Address, in order to address the huge demand for elderly services driven by the rapidly ageing population; if so, the details; if not, whether an assessment in this regard will be conducted as soon as possible.

Asked by: Hon KOON Ho-ming, Peter Douglas (LegCo internal reference no.: 28)

Reply:

1. The Government continues to expand and enhance the GDRCS Scheme. In addition to increasing the number of participating RCHes, the Social Welfare Department (SWD) will engage a Hong Kong-based NGO experienced in Mainland social services to provide care services for elderly persons participating in the GDRCS Scheme and their families. In addition to supporting elderly persons in adapting to life in RCHes in GD, the NGO will conduct standardised care need assessment for elderly services for elderly persons from Hong Kong who have settled in Mainland cities within the Greater Bay Area, and follow up on the applications of eligible elderly persons to join the GDRCS Scheme. These services are expected to be rolled out in May 2025. Moreover, SWD will implement a pilot scheme to share part of the medical costs incurred by elderly participants of the GDRCS Scheme in GD. The annual subsidy is

capped at RMB10,000 per person for outpatient services, and RMB30,000 per person for inpatient services. The Government is currently finalising the implementation details of the pilot scheme, which is expected to be launched in the second half of 2025 for a period of 2 years. The above enhancement measures are expected to incur an additional expenditure of about \$170 million in 2025-26.

2. Since the expansion of the GDRCS Scheme in July 2023, the number of elderly participants has continued to grow. The relevant figures are tabulated as follows:

Year	Cumulative no. of participants
2023-24	195
2024-25 (as at end-December 2024)	343

The GDRCS Scheme offers eligible Hong Kong elderly persons interested in cross-boundary retirement a greater variety of options for Mainland cities and RCHEs. SWD will pay service fees based on the actual number of participating elderly persons residing in RCHEs.

3. The Government will launch a 3-year Pilot Scheme for Elderly CSSA Recipients to Reside in Residential Care Homes in Guangdong (Pilot Scheme) in 2025. The Pilot Scheme will subsidise non-frail elderly persons who choose to retire in GD to reside in RCHEs under the GDRCS Scheme. The Pilot Scheme is expected to launch in the third or fourth quarter of 2025. SWD will review the effectiveness, subsidy amount and way forward of the Pilot Scheme before the conclusion of its trial period.

CONTROLLING OFFICER'S REPLY

LWB(W)078

(Question Serial No. 1672)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding support for foster care services, please provide this Committee with the following information:

1. The number of places, the utilisation rate, the age distribution of service users, the average length of stay, the number of waitlisted children, and the average waiting time for foster care services in the past 3 years.
2. The number of enquiries about becoming foster families and the number of registered foster families in the past 3 years.
3. Despite the number of foster care service places and the utilisation rate for subvented organisations remaining at 1 230 and 72% respectively, for 3 consecutive financial years, the average monthly cost has jumped from \$22,776 to \$35,022. What are the reasons for this significant increase?
4. The Chief Executive announced in his Policy Address that the incentive payment for foster families will be substantially increased. Please provide the estimated expenditure involved, the expected number of new foster families, and the anticipated reduction in the average waiting time for the coming year. Moreover, will the Government evaluate the effectiveness of this measure in achieving its intended objectives? If so, how will this evaluation be carried out?

Asked by: Hon KOON Ho-ming, Peter Douglas (LegCo internal reference no.: 29)

Reply:

1. The number of places, the utilisation rate, the average length of stay, the number of waitlisted children, and the average waiting time for foster care services between 2022-23 and 2024-25 are set out in Table 1 of Annex. The age distribution of children receiving foster care services in the past 3 years is set out in Table 2 of Annex.
2. The number of enquiries about becoming foster families and the number of registrations between 2022-23 and 2024-25 are set out in Table 3 of Annex.

3. The Government has implemented a series of enhancement and improvement measures to bolster support for foster care services. These measures include increasing the incentive payment for foster parents starting from April 2024; and allocating additional resources from January 2025 to provide extra support for foster children with special learning or care needs, arrange early assessments and appropriate professional rehabilitation therapy and training for foster children, enhance training for foster parents, and increase manpower in foster care service agencies to facilitate the implementation of these enhancement measures. As a result, the average monthly cost of foster care services has increased since 2024-25.
4. The estimated overall expenditure on foster care services (including the incentive payment for foster parents) for 2025-26 is \$403.7 million. The Social Welfare Department (SWD) has provided an addition of 100 foster care places since 2023-24, and has implemented the abovementioned enhancement measures since April 2024. The time required for matching a child with a suitable foster family varies and depends on multiple factors, such as the characteristics of the child and the circumstances of the case, whether the foster family can meet the special needs of the child, the birth family's choice of region, and the foster family's personal preferences. Therefore, the potential reduction in the waiting time cannot be estimated. SWD will keep in view the utilisation of foster care services and the implementation of the new measures to ensure that the services meet development needs.

Table 1: Number of places, utilisation rate, average length of stay, number of waitlisted children, and average waiting time for foster care services

Year	2022-23	2023-24	2024-25 ^{Note 1}
Number of places	1 130	1 230	1 230
Utilisation rate ^{Note 2}	78%	72%	72%
Average length of stay (month) ^{Note 2}	34.90	38.33	32.78
Number of waitlisted children ^{Note 3}	289	292	256
Average waiting time (month) ^{Note 3 Note 4}	1.82	2.04	1.75

Note 1 Statistics as at 31 December 2024.

Note 2 The figures include both ordinary and emergency foster care services.

Note 3 The figures exclude foster care (emergency) service. Regarding emergency service, caseworkers may directly enquire with foster care agencies that provide emergency service, and arrange children for admission as soon as suitable foster families with vacancies are available. SWD does not have the statistics on the number of waitlisted children and the average waiting time for foster care (emergency) service.

Note 4 The figures only refer to cases that were successfully matched within a 3-month period but not cases with matching difficulties.

Table 2: Age distribution of children receiving foster care services

Year (as at end-December)	Age	Number of foster children
2022	Newborn to below 6	403
	6 to below 12	330
	12 to below 18	147
	18 or above ^{Note}	0
2023	Newborn to below 6	385
	6 to below 12	319
	12 to below 18	139
	18 or above ^{Note}	1
2024	Newborn to below 6	405
	6 to below 12	320
	12 to below 18	157
	18 or above ^{Note}	1

Note Under exceptional circumstances, children receiving foster care services may extend their stay with the foster families after reaching 18 years old.

Table 3: Number of enquiries about becoming foster families and number of registrations

Year	2022-23	2023-24	2024-25 ^{Note}
Number of enquiries about becoming foster families	296	422	459
Number of registered foster families	952	978	1 041

Note Statistics as at 31 December 2024.

- End -

CONTROLLING OFFICER'S REPLY

LWB(W)079

(Question Serial No. 1673)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Financial Secretary mentioned in the Budget Speech that the Government would increase the number of vouchers issued under the Community Care Service Voucher (CCSV) Scheme for the Elderly (CCSV Scheme) to 12 000 and increase the number of vouchers issued under the Residential Care Service Voucher (RCSV) Scheme for the Elderly (RCSV Scheme) to 6 000. In this connection, would the Government please inform this Committee of the following:

1. the number of applications, the number of approved cases, the amount of subsidy, the number of withdrawal cases, and the reasons for withdrawal under the 2 schemes in the past 3 years;
2. the number of persons waitlisted and the average waiting time for subsidised residential care services (RCS) in the past 3 years, including home for the aged (H/A) places, care-and-attention (C&A) places and nursing home (NH) places; and
3. the expected reduction in average waiting time for the 2 schemes.

Asked by: Hon KOON Ho-ming, Peter Douglas (LegCo internal reference no.: 30)

Reply:

1. From 2022-23 to 2024-25, the respective numbers of CCSV and RCSV applicants and recipients, the amount of subsidy disbursed, the number of persons who left the 2 schemes, along with their reasons for leaving, are set out at Annex 1.
2. From 2022-23 to 2024-25, the numbers of persons waitlisted for subsidised C&A places and NH places, as well as their average waiting time are set out at Annex 2.
3. Both CCSV and RCSV Schemes adopt the principles of “money-following-the-user” and “users pay in accordance with affordability”, providing an additional choice for elderly persons applying for subsidised community care services (CCS) and residential care places (RCPs). At present, elderly persons participating in the 2 schemes do not have to wait.

**Table 1: Numbers of CCSV applicants and recipients,
and the amount of CCSV subsidy disbursed**

Year	No. of CCSV applicants	No. of CCSV recipients	CCSV subsidy (\$ million)
2022-23	4 375	4 396	361.7
2023-24	6 546	6 478	477.4
2024-25 (as at end-December 2024)	6 471	6 346	687.8 ^{Note}

^{Note} Revised estimate for 2024-25.

**Table 2: Number of elderly persons who left the CCSV Scheme and
their reasons for leaving**

Reason for leaving ^{Note}	No. of persons		
	2022-23	2023-24	2024-25 (as at end-December 2024)
Will be/have been allocated with/receiving subsidised CCS or subsidised/private RCS	1 523	2 002	1 141
Being taken care of by family members or domestic helpers, etc.	61	135	30
Others (e.g. hospitalisation, out of town, etc.)	48	109	53
Total	1 632	2 246	1 224

^{Note} Excluding elderly persons who passed away after joining the scheme.

**Table 3: Numbers of RCSV applicants and recipients,
and the amount of RCSV subsidy disbursed**

Year	No. of RCSV applicants	No. of RCSV recipients	RCSV subsidy (\$ million)
2022-23	2 296	1 309	465.2
2023-24	3 408	2 007	750.4
2024-25 (as at end-December 2024)	3 400	1 886	1,055.8 ^{Note}

^{Note} Revised estimate for 2024-25.

Table 4: Number of elderly persons who left the RCSV Scheme and their reasons for leaving

Reason for leaving ^{Note}	No. of persons		
	2022-23	2023-24	2024-25 (as at end-December 2024)
Having no immediate need for RCS (e.g. being taken care of by family members or domestic helpers, etc.)	41	110	86
The preferred recognised service provider (RSP) was full/no suitable RSPs	23	42	25
Chose to wait for subsidised RCPs	23	39	37
Refused to accept the co-payment arrangement	5	10	4
Others (e.g. long-term hospitalisation, out of town, etc.)	16	19	16
Total	108	220	168

^{Note} Excluding elderly persons who passed away after joining the scheme.

Table 1: Number of persons waitlisted for subsidised RCS

	2022-23	2023-24	2024-25 (as at end- December 2024)
No. of persons waitlisted for C&A places ^{Note 1} ^{Note 2}	14 040	14 238	14 407
No. of persons waitlisted for NH places ^{Note 1} ^{Note 2}	2 796	2 381	2 181

^{Note 1} At present, elderly persons using RCSVs may be admitted to RCHEs participating in the RCSV Scheme with government subsidies, without the need to wait for a vacancy.

^{Note 2} Excluding elderly persons classified as “inactive cases” on the central waiting list.

Table 2: Average waiting time for subsidised RCS

	Average waiting time (in months) ^{Note 1}		
	2022-23 (as at end- March 2023)	2023-24 (as at end- March 2024)	2024-25 (as at end- December 2024)
C&A place ^{Note 2}	14	8	9
NH place ^{Note 2}	18	10	9

^{Note 1} The figures represent the average waiting time for applications during the last 3 months.

^{Note 2} At present, elderly persons using RCSVs may be admitted to RCHEs participating in the RCSV Scheme with government subsidies, without the need to wait for a vacancy.

LWB(W)080

(Question Serial No. 1674)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the additional injection of \$1 billion into the Innovation and Technology Fund for Application in Elderly and Rehabilitation Care (I&T Fund), would the Government please inform this Committee of the following:

1. the number of applications received, their approval ratios, the amount of funding approved, the number of beneficiary service units, the number and types of technology products involved, and the average processing time for applications in the past 3 years;
2. whether the Government will consider formulating a roadmap and timetable to subsidise more service units in adopting a certain proportion of gerontechnology, thereby enabling elderly persons and their carers to benefit from its advantages.

Asked by: Hon KOON Ho-ming, Peter Douglas (LegCo internal reference no.: 31)

Reply:

1. The number of applications received by the I&T Fund, the number of service units approved for the grant, the number of products approved, and the amount of grant approved in the past 3 years are set out in Annex 1. The types of products subsidised by the I&T Fund are set out in Annex 2.

The Social Welfare Department (SWD) does not have information on the average processing time for applications.

2. SWD plans to accept a new tranche of applications in March 2025, and will implement enhancement measures, which include increasing the amount of grant for each eligible elderly and rehabilitation service unit by 50%. In addition, non-governmental organisations operating subvented elderly and rehabilitation community service units will also be allowed to apply for extra funding to procure technology products suitable for elderly persons or persons with disabilities and their carers to borrow and use at home.

**Information pertaining to the approval of applications under the I&T Fund
from 2022-23 to 2024-25 (as at 28 February 2025)**

Year of application	No. of service units applying for the grant	No. of service units ^{Note 2} approved for the grant	No. of products approved	Amount of grant approved (\$ million)
2022-23	1 082	1 049	6 553	196
2023-24	706	649	2 812	86
2024-25 ^{Note 1}	890	614	3 218	73

Note 1 This tranche started accepting applications in March 2024 and the vetting of applications is still underway.

Note 2 The same service unit may submit multiple applications, provided that the total amount of grants from all approved applications does not exceed the ceiling applicable to the service unit.

Types of products subsidised by the I&T Fund

1. Smart hospital bed and accessories
2. Chair for special purpose
3. Infection control equipment
4. Appliances for kitchen
5. Bathing accessories
6. Personal care appliance and accessories
7. Shower and bath trolley/bench/bed

CONTROLLING OFFICER'S REPLY

LWB(W)081

(Question Serial No. 1168)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Programme mentions promoting the well-being of the elderly through the provision of services that will enable them to remain active members of the community for as long as possible and, where necessary, provide community or residential care to suit the varying long-term care needs of frail elderly persons. In this connection, would the Government please inform this Committee of:

- (1) For tranches 1 to 8, what is the total amount of grants approved, the number of subsidised elderly and rehabilitation service units, the number of applications received, and the number of technology products successfully procured or rented?
- (2) What are the top 5 ranked technology products most procured or rented by elderly and rehabilitation service units (according to the Reference List)? Please present this information in tabular form.
- (3) Regarding procurement and rental of products, how many applications for trialling technology products has the Innovation and Technology Fund for Application in Elderly and Rehabilitation Care (I&T Fund) received as at 31 January 2025? What is the total amount of funding approved for trialling technology products?

Asked by: Hon KWOK Ling-lai, Lillian (LegCo internal reference no.: 25)

Reply:

- (1) The I&T Fund received applications for about 21 300 items of technology products in total for tranches 1 to 8, and approved grants totalling around \$660 million to subsidise about 1 900 elderly and rehabilitation service units to procure or rent over 18 000 items of technology products.
- (2) The top 5 technology products most commonly applied for procurement or rental by service units are set out at Annex.
- (3) As at 31 January 2025, the I&T Fund had received a total of 10 applications for the trial use of technology products, of which 7 applications were approved, with grants totalling over \$15 million.

**Top 5 technology products most commonly applied for
procurement or rental by service units
(Based on the Reference List of Recognised Technology Application Products)**

Rank	Type of technology product
1	Equipment, assessment tools and accessories for occupational therapy/physiotherapy/speech therapy
2	Smart hospital bed and accessories

CONTROLLING OFFICER'S REPLY

LWB(W)082

(Question Serial No. 1170)

Head: (170) Social Welfare Department

Subhead (No. & title): (000) Operational Expenses

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Programme mentions acknowledging the equal rights of persons with disabilities (PWDs) to be full members of the community by supporting them in developing their physical, mental and social capabilities to the fullest possible extent and by promoting their integration into the community; providing medical social services; and providing preventive and rehabilitative services for drug abusers. In this regard, please provide the following information:

- 1). the number of service places and the average waiting time for various day care and community care services for PWDs (including residential respite, day respite and home-based support services), with a breakdown by age and the 18 District Council (DC) districts over the past 5 years;
- 2). the per capita costs, fees and charges, and the total amount of subsidies for various day care and community care services for PWDs (including residential respite, day respite and home-based support services) over the past 5 years;
- 3). the numbers of users of various day care and community care services for PWDs (including residential respite, day respite and home-based support services), with a breakdown by gender, age (18-30, 31-40, 41-50, 51-60, 61-70, 71-80, 81 or above) and the 18 DC districts over the past 5 years; and
- 4). the numbers of persons waitlisted for various day care and community care services for PWDs (including residential respite, day respite and home-based support services), with a breakdown by gender, age (18-30, 31-40, 41-50, 51-60, 61-70, 71-80, 81 or above) and the 18 DC districts over the past 5 years.

Asked by: Hon KWOK Ling-lai, Lillian (LegCo internal reference no.: 26)

Reply:

- 1). The numbers of service places and attendances by service users of day and residential respite services for PWDs in the past 5 years are set out in Tables 1 and 2 of Annex 1 respectively. Meanwhile, the numbers of service places of integrated support service for persons with severe physical disabilities (ISS) and home care service for persons with severe disabilities (HCS) are set out

in Table 3 of Annex 1. The Social Welfare Department (SWD) does not have information on the average waiting time for day and residential respite services, ISS or HCS by age or 18 administrative districts.

- 2). The charges for day and residential respite services for PWDs, HCS and ISS are set out in Tables 1 and 2 of Annex 2. The respective total amounts of subsidies for day respite services for PWDs, ISS and HCS are set out in Table 3 of Annex 2. As residential respite services for PWDs are part of the residential care services for PWDs, SWD does not independently calculate and maintain separate records regarding the total amount of subsidies for residential respite services for PWDs or per capita costs of various services.
- 3). & 4). SWD does not have information on the number of users of or persons waiting for various day care and community care services for PWDs (including day and residential respite services, ISS and home-based support services) by gender, age and 18 administrative districts.

Table 1: Numbers of places for day and residential respite services for PWDs from 2020-21 to 2024-25

Year	No. of places ^{Note}	
	Day respite service	Residential respite service
2020-21	160	380
2021-22	164	390
2022-23	172	403
2023-24	231	428
2024-25 (as at 31 December 2024)	231	428

^{Note} Including designated day/residential respite service places under the Bought Place Scheme (BPS) for private residential care homes for PWDs (RCHDs).

Table 2: Numbers of attendances of day and residential respite services for PWDs from 2020-21 to 2024-25

Year	No. of attendances ^{Note}	
	Day respite service	Residential respite service
2020-21	896	224
2021-22	1 324	428
2022-23	1 221	578
2023-24	2 048	1 626
2024-25 (as at 31 December 2024)	1 832	1 552

^{Note} 1 service user may use day or residential respite services multiple times in the same year. For example, he/she may use the designated day/residential respite service under BPS for private RCHDs.

Table 3: Numbers of service places for ISS and HCS from 2020-21 to 2024-25

Year	No. of service places	
	ISS	HCS
2020-21	900	3 550
2021-22	900	3 550
2022-23	900	3 550
2023-24	900	3 550
2024-25 (as at 31 December 2024)	900	3 550

**Charges for day and residential respite services for PWDs
from 2020-21 to 2024-25**

Day respite service	Hourly charge (\$)	
	Service user receiving Disability Allowance (DA)	Service user not receiving DA
Day activity centre	5.1	
District support centre for PWDs	5.1	
Care-and-attention (C&A) home for severely disabled persons	5.1	
Private RCHD under BPS (providing medium level of care)	5.1 ^{Note 1}	5.1 ^{Note 2}
Private RCHD under BPS (providing high level of care)	5.1 ^{Note 3}	5.1 ^{Note 4}
Type of RCP	Daily charge ^{Note 5} (\$)	
	Service user receiving DA	Service user not receiving DA
Hostel for moderately mentally handicapped persons	52	49

CONTROLLING OFFICER'S REPLY

LWB(W)083

(Question Serial No. 1172)

Head: (170) Social Welfare Department

Subhead (No. & title): (000) Operational Expenses

Programme: (3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Programme mentions promoting the well-being of the elderly through the provision of services that will enable them to remain active members of the community for as long as possible and, where necessary, provide community or residential care to suit the varying long-term care (LTC) needs of frail elderly persons. In this connection, please provide the following information:

- 1). the number of carers who received home respite service, carer training, carer emotional support services and case management services in the past 2 years;
- 2). the respective numbers of carers of persons with disabilities (PWDs) served by District Support Centres for Persons with Disabilities (DSCs), Parents/Relatives Resource Centres (PRCs), Integrated Community Centres for Mental Wellness (ICCMWs), Home Care Service for Persons with Severe Disabilities (HCS), and Integrated Support Service for Persons with Severe Physical Disabilities (ISS) in the past 2 years, broken down by service type; and
- 3). the numbers of applicants, service places, service users and related activities organised by DSCs, PRCs, ICCMWs, HCS and ISS in each of the past 2 years, broken down by type of service received by carers.

Asked by: Hon KWOK Ling-lai, Lillian (LegCo internal reference no.: 27)

Reply:

- 1) The Social Welfare Department (SWD) provides subsidies to non-governmental organisations (NGOs) and recognised service providers to provide various services for the elderly. Among these services, home-based community care and support services for the elderly, Home Support Services (HSS), and the Community Care Service Voucher (CCSV) Scheme for the Elderly (CCSV Scheme) provide services such as home respite care, etc. The headcount of users of home respite services from 2023-24 to 2024-25 is set out in Table 1 of Annex 1, while the numbers of users of support services for carers and CCSV Scheme carer training services are set out in Table 2 of Annex 1. SWD does not maintain a breakdown of carer services.

- 2) & 3) In 2023-24 and 2024-25, the numbers of service places for HCS and ISS were 3 550 and 900 respectively. There are no quotas set for DSCs, PRCs and ICCMWs. The numbers of service users and activities organised under these services are set out in Tables 1 and 2 of Annex 2.

Home respite services are provided through DSCs, HCS and ISS. The headcount of users of home respite services for PWDs from 2023-24 to 2024-25 is set out in Table 3 of Annex 2.

In addition, DSCs, HCS, ISS, PRCs and ICCMWs also provide case management, carer training and emotional support services to PWDs and their families/carers. The number of cases receiving case management services under the above services from 2023-24 to 2024-25 is set out in Table 4 of Annex 2. SWD does not maintain a breakdown of training and emotional support services provided for carers of PWDs.

Table 1: Headcount of users of home respite services under home-based community care and support services for the elderly

Service type	2023-24	2024-25 (as at 31 December 2024)
HCS for Frail Elderly Persons ^{Note 1} and HSS ^{Note 2}	9 564 ^{Note 3}	7 984
CCSV Scheme	14 879 ^{Note 4}	16 264 ^{Note 4}

Note 1 Including Integrated Home Care Services (Frail Cases) [IHCS(FC)] and Enhanced Home and Community Care Services (EHCCS).

Note 2 IHCS (Ordinary Cases) [IHCS(OS)] and Home Care and Support Services for Elderly Persons with Mild Impairment (HSMI) were merged into HSS in October 2024.

Note 3 SWD conducted a review of HCS for Frail Elderly Persons in 2023-24 and renamed the “on-site elder sitting service” as “home respite service”.

Note 4 The figures represent the headcount of users of “on-site elder sitting service” (including home respite service) under the CCSV Scheme.

Table 2: Number of users of carer services under home-based community care and support services for the elderly

Service type	2023-24	2024-25 (as at 31 December 2024)
HCS for Frail Elderly Persons ^{Note 1} and HSS ^{Note 2}	4 567	4 799
Carer training service under the CCSV Scheme	399	436

Note 1 Including IHCS(FC) and EHCCS.

Note 2 IHCS(OS) and HSMI were merged into HSS in October 2024. The figures for HSS only include the number of users of support services for carers after the merger.

CONTROLLING OFFICER'S REPLY

LWB(W)084

(Question Serial No. 1316)

Head: (170) Social Welfare Department

Subhead (No. & title): (000) Operational Expenses

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Programme states that the Social Welfare Department (SWD) provides support services for families, including those in disadvantaged circumstances and those lacking the means to meet their needs. In this regard, would the Government please inform this Committee of the following:

- 1) Regarding integrated family service centres (IFSCs), the estimate indicates that the number of subvented IFSCs in 2025-26 is expected to be 24. What is the expenditure for each IFSC?
- 2) Further to the above question, do IFSCs use outsourced services to organise groups and programmes? If so, what are the costs associated with these outsourced services and administrative expenses? If not, what are the expenses incurred when IFSCs organise groups and programmes themselves?
- 3) Please provide the number of cases completed by family support networking teams (FSNTs), the number of staff involved, and the expenditure incurred over the past 3 years.

Asked by: Hon KWOK Ling-lai, Lillian (LegCo internal reference no.: 37)

Reply:

- 1) SWD and non-governmental organisations (NGOs) operate 65 IFSCs and 2 integrated services centres in Hong Kong. Among these, 24 IFSCs are operated by 10 SWD-subvented NGOs. The provisional allocation for IFSCs is \$361.6 million in 2025-26.
- 2) Subject to compliance with the requirements of the Funding and Service Agreements, the aforementioned NGOs operating the 24 IFSCs may flexibly deploy resources for service procurement and employ staff to achieve the required service outputs and outcomes. SWD does not have a breakdown of the expenditure of IFSCs on organising groups and programmes, nor whether outsourced services are used.
- 3) The number of vulnerable households successfully referred to welfare or mainstream services, and the overall staffing establishment and the expenditure incurred by FSNTs in the past 3 years are tabulated below.

	2022-23 (Actual)	2023-24 (Actual)	2024-25 (Revised estimate)
Number of vulnerable households successfully referred to welfare or mainstream services	3,415	3,370	3,370
Overall staffing establishment	20 Social Work Assistants	20 Social Work Assistants	20 Social Work Assistants
Expenditure incurred (\$ million)	9.2	9.6	9.8

CONTROLLING OFFICER'S REPLY

LWB(W)085

(Question Serial No. 2286)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The rights of persons with disabilities (PWDs) merit society's attention. Many PWDs aspire to join the workforce. In this connection, would the Government please provide the following information regarding the employment situation of PWDs:

Please set out in a table the number of participants in various employment training programmes for PWDs (e.g. day activity centres (DACs), supported employment training for PWDs (SET) and Enhancing Employment of PWDs through Small Enterprise Project (3E Project)) in the past 5 years, along with the number of successful job placements after training.

Asked by: Hon KWOK Wai-keung (LegCo internal reference no.: 9)

Reply:

The Social Welfare Department (SWD) implements the 3E Project, which provides seed money to non-governmental organisations (NGOs) to set up small enterprises or businesses. The aim is to create employment opportunities for PWDs, and improve their employment situation through a market-driven approach. Each small enterprise or business can receive a maximum grant of \$3 million. At least half of the employees hired by the funded enterprises must be PWDs. The numbers of funded projects and jobs created under the 3E Project in the past 5 years are set out at Annex 1.

SWD subvents NGOs to provide vocational rehabilitation and training services through Sheltered Workshops (SWs), Integrated Vocational Rehabilitation Services Centres (IVRSCs), Integrated Vocational Training Centres (IVTCs), and SET, etc. to help PWDs who are not yet ready for open employment by offering them appropriate vocational rehabilitation services in specially designed training environments, where they can learn to fulfil basic work requirements, including developing social skills and interpersonal relationships. Among these services, SET provides PWDs who are not yet able to take up open employment with individual service plans that integrate counselling, job-related training, job attachment, job trial and post-placement support. As for DACs, they provide day care and training in daily living skills and basic work skills for persons with mental disabilities, but these are not considered vocational rehabilitation and training services. The number of service users of various vocational rehabilitation services, as well as the number of PWDs who have successfully secured employment for more than 6 months in the past 5 years, are set out at Annex 2.

Numbers of funded projects and jobs created under the 3E Project

Year	Funded project	Total no. of jobs (Jobs exclusively for PWDs)
2020-21	6	41 (28)
2021-22	5	33 (21)
2022-23	2	24 (16)
2023-24	1	5 (3)
2024-25 (As at 28 February 2025)	5	39 (27)

Number of service users of various vocational rehabilitation services

CONTROLLING OFFICER'S REPLY**LWB(W)086****(Question Serial No. 2287)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (2) Social SecurityControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

The Social Welfare Department (SWD) has been implementing the Support for Self-reliance (SFS) Scheme since 1999. SWD now plans to adopt a new approach to help unemployed Comprehensive Social Security Assistance (CSSA) recipients by launching the pilot Support Programme for the Unemployed (SPU). In this connection, would the Government please provide the following information:

- (a) the number of participants, as well as the numbers of those who successfully secured sustained employment and those who were unable to re-enter the workforce under the SFS Scheme in the past 5 years, with a breakdown by age, presented in tabular form;
- (b) the estimated number of persons expected to be covered by SPU; and
- (c) the expenditure and staffing establishment required for implementing SPU.

Asked by: Hon KWOK Wai-keung (LegCo internal reference no.: 10)Reply:

- (a) The headcounts of persons who received the Employment Support Services (EmSS) and those who had secured employment for at least 1 month upon receiving EmSS in 2023-24 and 2024-25 are tabulated as follows. SWD does not have a breakdown of the headcounts by year and age prior to April 2023, or the other information sought in the question.

Year	Headcount of persons who received EmSS	Headcount of persons who secured employment for at least 1 month
2023-24	16 480	1 891
2024-25 (up to end-December 2024)	14 022	1 307

- (b) & (c) SWD will replace EmSS with SPU starting from October 2025. SPU will be operated on a pilot basis for 2 years by non-governmental organisations (NGOs) and/or other organisations. SWD estimates that there will be about 10 000 participants during the initial implementation of SPU. The estimated

expenditure on the 2-year SPU is around \$98 million. SWD will commission SPU operators through invitation for proposals. NGOs operating EmSS are free to submit their proposals.

The Social Security Branch (SSB) and the Social Security Field Units (SSFUs) of SWD are responsible for the work relating to SPU, which includes monitoring the operation of relevant services by operators. Since implementing SPU is part of the day-to-day work of SSB and SSFUs, SWD cannot separately account for the manpower and expenditure involved.

- End -

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Since 2019, the Special Needs Trust (SNT) has been accepting applications to provide reliable and affordable trust services for parents with sufficient assets to meet the long-term daily needs of their children after their passing. In this regard, please inform this Committee of:

- (1) the number of applications received by SNT and the number of cases handled after approval in each of the past 3 years;
- (2) the number of beneficiaries served by SNT in each of the past 3 years, broken down by type of disability and health condition of beneficiaries;
- (3) the number of accounts activated by SNT due to the passing of parents in each of the past 3 years;
- (4) the establishment of various ranks of staff related to the operation of SNT (including the respective numbers of social workers, treasury accountants and clerical staff), actual strength, payroll expenditure and total expenditure for the past 3 financial years and for 2025-26;
- (5) the fund balance and interest income of SNT for each of the past 3 financial years; and
- (6) future plans to enhance public awareness of and participation in SNT.

Asked by: Hon LAI Tung-kwok (LegCo internal reference no.: 23)

Reply:

- (1) The cumulative number of applications received and the number of active cases handled by the Special Needs Trust Office (SNTTO) of the Social Welfare Department (SWD) in each of the past 3 years are set out in Table 1 of Annex.
- (2) The number of active cases handled by SNTTO, broken down by type of disability of beneficiaries, in each of the past 3 years is set out in Table 2 of Annex.
- (3) No SNT accounts were activated due to the passing of parents in the past 3 years.
- (4) In the past 3 years and in 2025-26, SNTTO comprises 3 social workers, 1 Treasury Accountant, 1 Accounting Officer, 2 clerical staff and 1 Workman II. The annual payroll cost and total expenditure of SNTTO are set out in Table 3 of Annex.

- (5) The balance and interest income of SNT in the past 3 years are set out in Table 4 of Annex.
- (6) SNTO has been actively organising briefings, seminars and workshops for parents of persons with special needs and relevant stakeholders. It also proactively visits parent organisations, rehabilitation service units, special schools and relevant district organisations, etc. to introduce and promote SNT. In addition, SWD's website features a dedicated SNT webpage that uses multimedia to help relevant individuals understand the details. SNTO has also produced various publicity materials to raise public awareness of SNT.

Table 1: Cumulative number of applications received and number of active cases handled by SNTD by year

Year	Cumulative no. of applications	No. of active cases
2022-23	65	45
2023-24	81	60
2024-25 (as at 31 December 2024)	88	66

Table 2: Number of active cases handled by SNTD by year and type of disability of beneficiaries

Year	Type of disability of beneficiaries					Total no. of active cases
	Intellectual disability (including Down's Syndrome)	Mental disorder	Autism	Having more than 1 type of stipulated disabilities	Others (apart from the stipulated types of disabilities)	
2022-23	18	5	8	13	1	45
2023-24	25	8	13	14	-	60
2024-25 (as at 31 December 2024)	27	8	16	15	-	66

Table 3: Annual payroll cost and total expenditure of SNTD

Year	Payroll cost (\$ million)	Total expenditure (\$ million)
2022-23	6.1	7.3
2023-24	4.5	5.3
2024-25 (as at 31 December 2024)	3.6	4.2
2025-26 (Estimate)	4.8	5.6

Table 4: SNT balance and interest income

Year	Year-end balance (\$ million)	Interest income (\$)
2022-23	5.055	46 000
2023-24	8.880	215 000
2024-25 (as at 31 December 2024)	9.125	245 000

Director of Bureau: Secretary for Labour and Welfare

Question:

The Social Welfare Department (SWD) released the report of the consultancy study on “Skill and Qualification Requirements of Residential Care Home (RCH) Staff providing Health and Rehabilitation Services in Hong Kong” in January this year. The report recommended the establishment of a new professional rank of “Health&Care Practitioner” (HCP) as a dedicated professional care position for the social welfare sector, which encompasses care and health duties at RCHs for the Elderly (RCHEs), RCHs for Persons with Disabilities (RCHDs) and other elderly/rehabilitation welfare service units. In this connection, please inform this Committee of the following:

- (1) the timetable and estimated expenditure for the establishment of a new professional rank of HCPs;
- (2) the Government’s planned timeframe for amending the law to allow RCHs to employ Enrolled Nurses (ENs) or HCPs;
- (3) ways to ensure the quality of HCP-related training courses;
- (4) whether the Government has information on the current number of Health Workers (HWs) in the industry; if yes, the details; if no, the reasons; and
- (5) the Government’s estimated timeframe for meeting the projected demand for 220 HCPs over the next 5 years, as stated in the consultancy report.

Asked by: Hon LAI Tung-kwok (LegCo internal reference no.: 24)

Reply:

- (1) & (2) In July 2023, SWD commissioned a Consultant to review the skill and qualification requirements of staff providing health and rehabilitation services in RCHs, with a view to establishing professional standards and a career progression pathway for them. In the same month, the Steering Committee on Review of Manpower for Healthcare Services in RCHs was established to offer advice and steer for the study. The relevant work was completed at the end of 2024. The consultancy report puts forth 4 key recommendations, including the establishment of a new professional rank, “Health&Care Practitioner” (HCP), to specialise in providing care services in RCHEs, RCHDs and other elderly/rehabilitation welfare service

units. This will not only attract people who aspire to pursue a career in the welfare sector, but also offer a career progression path for Health Workers, and help build up dedicated care talent for the sector. SWD has accepted the report and will progressively implement the relevant recommendations.

To ensure that HCPs are competent to perform the care duties in the future, they have to complete a training course specified by the Director of Social Welfare. According to the Consultant's preliminary assessment, the training course for HCP can start enrolment in the second half of 2026, the earliest. SWD has already been communicating with training institutions regarding the course design. At the same time, the Government will amend the RCHs (Elderly Persons) Regulation and the RCHs (Persons with Disabilities) Regulation to incorporate the new HCP rank into the relevant regulations without altering the existing statutory staffing requirements, and RCHs could employ either ENs or HCPs to meet the relevant statutory staffing requirements. The Government plans to consult the Legislative Council Panel on Welfare Services on the proposed amendments in the first half of 2026.

Since SWD has implemented the recommendation to establish the new HCP rank through internal redeployment, there is no additional manpower or administrative costs involved.

- (3) As recommended by the Consultant, to become as an HCP, trainees are required to complete the training course specified by the Director of Social Welfare and attain a professional diploma. The HCP training course is pitched at Level 4 of the Qualifications Framework, with a total of 760 learning hours, including 480 hours of face-to-face teaching and 280 hours of practicum. The entry qualification requirements for the HCP training course are identical to those of the EN (General) Training Programme, and in respect of the required health and care work in social welfare service units, its assessment standards would also be the same as those of EN (General) Training Programme. To ensure that HCPs are competent to perform the care duties in the future, trainees of the training course must pass the assessment of applying relevant nursing skills, such as intramuscular injections, insertion or replacement of indwelling urinary catheters and nasogastric tubes, in order to obtain a graduation certificate. The HCP training course will be organised by training institutes with relevant experiences and rigorous accreditation, thus ensuring the quality of the course content, instructor qualifications, training facilities and assessment standards.
- (4) As at the end of December 2024, there were a total of approximately 30 000 registered HWs in Hong Kong, with around 5 400 employed in RCHEs and RCHDs.
- (5) Since the supply and demand for care staff in the social welfare sector are affected by multiple factors, such as economic conditions, the labour market, and industry competition, SWD is unable to provide the relevant estimate.

- End -

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the School-based After-School Care Service Scheme (the Scheme), would the Government please inform this Committee:

- (1) of the following details for each participating school during each of the school years 2023/24 and 2024/25: (i) the number of service places provided; (ii) the number of applications received; (iii) the number of participating students; and (iv) the number of students who withdrew from the Scheme;
- (2) whether there have been cases since the launch of the Scheme in which the service places of participating schools were merged with those of nearby schools due to insufficient student enrolment; if so, the names of the schools involved and related details; and
- (3) given that the number of participating schools accounts for only about 25% of all publicly-funded primary schools in Hong Kong, whether the Government has studied other measures to encourage more primary schools to participate in the Scheme; if so, of the details; if no, of the reasons.

Asked by: Hon LAM Chun-sing (LegCo internal reference no.: 5)

Reply:

- (1) A total of 59 primary schools participated in the Scheme in the 2023/24 school year. As at the end of the 2023/24 school year (i.e. by end-August 2024), a total of 2 935 service places were provided under the Scheme, benefiting a total of 2 664 students. 325 students withdrew from the Scheme during the school year. A breakdown of all participating schools is set out at Annex 1. The main reasons for students to withdraw from the Scheme included some parents choosing other after-school activities and interest groups that better aligned with their children's interests and developmental needs, as well as students utilising after-school care services provided by the community near their residences.

The Scheme will be extended to all 18 districts across the territory in the 2024/25 school year. There are currently a total of 125 primary schools participating in the Scheme, offering about 5 800 service places in total. The number of service places for each participating school is set out at Annex 2. The number of student beneficiaries and the

number of students who withdrew from the Scheme during the school year for each primary school are not yet available, as some schools joined the Scheme some time after the start of the school year.

The Social Welfare Department does not maintain information on the number of applications received.

- (2) Since the launch of the Scheme, there have been no instances where the service places of participating schools were merged with those of nearby schools due to insufficient student enrolment.
- (3) The Government launched the Scheme in the 2023/24 school year, with the initial target of engaging 50 primary schools in 7 districts with higher student populations in the first year. 59 schools were successfully recruited in the end. In the 2024/25 school year, the Scheme was expanded to cover all 18 districts in Hong Kong, with the target of recruiting about 110 primary schools. To date, 125 primary schools have joined the Scheme. We have exceeded the targets for the first 2 years, and the number of service operators has also increased. The Government will closely monitor the implementation of the Scheme, gather data, and collect views from stakeholders, and complete the evaluation of the Scheme's effectiveness in the 2025/26 school year to determine the way forward.

CONTROLLING OFFICER'S REPLY

LWB(W)090

(Question Serial No. 2962)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (7) Young People

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the first and second cohorts of the Strive and Rise Programme (the Programme), would the Government please inform this Committee of the following:

- (1) The amount of donations raised for the first and second cohorts of the Programme and their uses, as well as the expenditure incurred in implementing the Programme, with a breakdown by (i) the total expenditure on the start-up sums and scholarships awarded to mentees; (ii) the total service fees charged by social welfare organisations responsible for implementing the Programme; (iii) the total expenditure on publicising and promoting the Programme; and (iv) the estimated expenditure for activities organised by the Alumni Club (the Club) for graduates of the Programme;
- (2) For both the first and second cohorts of the Programme, (i) the number of successfully recruited mentees; (ii) the number of mentees who withdrew from the Programme; (iii) the number of mentees who participated but had not yet completed the Programme; and (iv) the number of mentees who participated and completed the Programme, broken down by gender and grade level (i.e. Secondary One, Two, Three and Four); and specify the main reasons for withdrawal or non-completion for each group;
- (3) For both the first and second cohorts of the Programme, (i) the number of successfully recruited mentors; (ii) the number of mentors who withdrew from the Programme; (iii) the number of mentors who failed to meet the requirements of the Programme; and (iv) the number of mentors who participated and completed the Programme, broken down by gender and industry of employment; and specify the main reasons for mentors withdrawing from or failing to meet the requirements of the Programme;
- (4) The average numbers of mentor-mentee interactive sessions during the first and second cohorts of the Programme, and a breakdown of the numbers of mentees and mentors who completed 0-3, 4-7, 8-11, 12-15 and over 15 interactive sessions;
- (5) (i) The number of places; (ii) the number of applicants; and (iii) the number of actual participants for each elective in basic training, which was introduced in the second cohort of the Programme, broken down by type of activity (i.e. language skills enhancement; interest development (e.g. sports, music, and arts); social skills and etiquette; guidance for further studies; and guidance and support on physical and mental health);

- (6) The current number of members of the Club, as well as a breakdown of the alumni membership from the first and second cohorts of the Programme;
- (7) It has been noted that members of the Club can participate in a variety of activities and programmes organised by the Club, including development activities covering 6 major aspects of whole person development and exchange activities. Please provide (i) the number of whole person development and exchange activities that have been organised or are planned; and (ii) the estimated and/or actual numbers of participants, with a breakdown by the activity theme;
- (8) It has been noted that the Club offers a job internship programme to eligible Club members, providing them with opportunities to explore their career aspirations. In this regard, please provide (i) the number of organisations or groups offering internships; (ii) the industries of these organisations and groups; (iii) the sectors of these organisations and groups (such as business organisations, public organisations and professional bodies, etc.); (iv) the number of internship positions involved; (v) nature of the jobs; and (vi) the estimated and actual numbers of participants;
- (9) It has been noted that the performance indicator for the Programme requires no less than 70% of mentees who complete the Programme to demonstrate improvement in personal development and positive thinking. What is the current progress towards achieving this performance indicator?
- (10) It has been noted that the Programme aims to help mentees develop a positive outlook on life, set goals for their future and strive for upward mobility. Will the Government consider conducting a longitudinal evaluation study to track the development of mentees who have completed the Programme, in order to explore the long-term impact of the Programme on these individuals?

Asked by: Hon LAM Chun-sing (LegCo internal reference no.: 30)

Reply:

- (1) A total of about \$173 million in donations has been raised for the first and second cohorts of the Programme, which was mainly used to provide each participating mentee with a start-up sum of \$5,000 and a scholarship of \$5,000, and to provide alumni joining the job internship programme with transportation and meal subsidy. As at 14 March 2025, the total expenditure for providing financial support (start-up sums and scholarships) to mentees of the first and second cohorts of the Programme was about \$26.45 million and \$36.75 million respectively, with the administrative expenses borne by the Government.

The expenditure for implementing the Programme in 2022-23, 2023-24 and 2024-25 is tabulated as follows:

2022-23 Actual (\$ million)	2023-24 Actual (\$ million)	2024-25 Revised estimate (\$ million)
23.5	61.8	113.5

The above expenditure covers the expenses for the 1-year intensive foundation programme and activities of the Club organised by non-governmental organisations, and the publicity of the Programme.

- (2) The first cohort of the Programme successfully recruited 2 800 mentees. Among them, 2 630 mentees completed the Programme, 21 withdrew and 149 failed to complete the Programme. Their numbers broken down by gender and grade level (i.e. Secondary One, Two and Three) are tabulated as follows:

Grade level	Number of mentees recruited		Number of mentees withdrawn		Number of mentees who failed to complete the Programme		Number of mentees who completed the Programme	
	Male	Female	Male	Female	Male	Female	Male	Female
Secondary One	442	381	2	3	16	14	424	364
Secondary Two	419	485	0	7	32	25	387	453
Secondary Three	503	570	3	6	33	29	467	535
Total	1 364	1 436	5	16	81	68	1 278	1 352
	2 800 (100%)		21 (0.75%)		149 (5.32%)		2 630 (93.93%)	

The second cohort of the Programme successfully recruited 3 885 mentees. Among them, 3 642 mentees completed the Programme, 55 withdrew and 188 failed to complete the Programme. Their numbers broken down by gender and grade level (i.e. Secondary One, Two, Three and Four) are tabulated as follows:

Grade level	Number of mentees recruited		Number of mentees withdrawn		Number of mentees who failed to complete the Programme		Number of mentees who completed the Programme	
	Male	Female	Male	Female	Male	Female	Male	Female
Secondary One	632	525	14	10	25	24	593	491
Secondary Two	447	467	6	5	25	26	416	436
Secondary Three	444	493	2	7	18	27	424	459
Secondary Four	406	471	5	6	20	23	381	442
Total	1 929	1 956	27	28	88	100	1 814	1 828
	3 885 (100%)		55 (1.42%)		188 (4.84%)		3 642 (93.75%)	

The main reasons for mentees in the first and second cohorts of the Programme to withdraw from or be unable to complete the Programme include busy schoolwork, scheduling conflicts with school or extra-curricular activities, the need to attend tutoring classes on weekends, and poor health.

- (3) For the first cohort of the Programme, 2 800 mentors were matched with mentees. Among them, 16 mentors withdrew from the Programme, mainly due to busy work schedules, and 5 mentors did not complete the Programme due to the withdrawal of their mentees. Thus, a total of 2 779 mentors completed the Programme. For the second cohort, 3 339 mentors were matched with mentees (with some mentors matched with 2 mentees). Among them, 76 mentors withdrew from the Programme, mainly due to busy work schedules. Thus, a total of 3 263 mentors

completed the Programme. None of the mentors in both cohorts failed to meet the requirements of the Programme. The gender distribution and industries of employment for mentors who completed the Programme are set out at Annexes 1 and 2 respectively.

- (4) The mentees who completed the first and second cohorts of the Programme had an average of 12 and 14 interactive sessions with their mentors, respectively. SWD does not have the subgroup analysis by number of interactive sessions.
- (5) Over 800 activity sessions were organised for mentees' participation in the second cohort, including orientation, basic training for mentees and group activities, with cumulative attendances exceeding 50,000. The numbers of places, applicants and actual participants for each elective in basic training, broken down by type of activity, are tabulated as follows:

Type of activity	Number of places	Number of applicants	Number of actual participants
Development of interests (e.g. Sports, music, and arts)	564	389	356
Guidance and support on physical and mental health	280	163	161
Guidance for further studies	100	66	66
Social skills and etiquette	30	31	28
Language skills enhancement	20	22	19

- (6) 2 630 and 3 642 mentees from the first and second cohorts, respectively, who completed the 1-year intensive foundation programme, have automatically become members of the Club.
- (7) Mentees who have completed the Programme can participate in a variety of activities and programmes organised by the Club. As at end-February 2025, the Club has organised about 1 400 activity sessions, including orientation, whole person development activities and group activities, as well as 7 exchange tours to the Mainland, with a total attendance of over 16 000. The figures, broken down by type of activity, are tabulated as follows:

Type of activity	Number of activity sessions	Attendance
Whole person development activities	1 335	11 541
Group activities (including orientation sessions)	68	4 481
Exchange tours to the Mainland	7	266
Total	1 410	16 288

- (8) The Internship Organiser under the Programme arranges relevant career talks/orientation activities and an internship programme that offers work experience and internship opportunities for alumni aged 16 or older, with a view to broadening their horizons, helping them develop job-related skills and establishing life goals. As at end-February 2025, a total of 283 alumni have enrolled in the internship programme, and the rganiser has arranged internship for all of them at 115 organisations or groups. The organisations and groups span various industries, including healthcare and nursing, finance and monetary services, public services, innovative technology, design and creative industries, culture and history, catering, education, social services, construction and engineering, etc.

(9) & (10) The evaluation of the first cohort of the Programme was undertaken by a research team from the Department of Applied Social Sciences at the Hong Kong Polytechnic University. Published in May 2024, the evaluation results revealed that the first cohort of the Programme successfully achieved the key performance indicator, i.e. at least 70% of mentees who completed the 1-year Programme demonstrated improvement in personal development and positive thinking. Ongoing evaluations will be conducted for all mentees throughout the intensive foundation programme in the first year, while a 5-year longitudinal tracking study on selected mentees will also be conducted. This study will collect data from mentees, mentors and parents in order to attain a full understanding of the Programme's impact on the personal growth of the mentees.

CONTROLLING OFFICER'S REPLY

LWB(W)091

(Question Serial No. 2963)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (7) Young People

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the third cohort of the Strive and Rise Programme (the Programme), would the Government please inform this Committee of the following:

- (1) The amount of donations raised for the third cohort of the Programme and their uses, the estimated expenditure for implementing the third cohort, with a breakdown by (i) the total estimated expenditure on the start-up sums and scholarships awarded to mentees; (ii) the total estimated service fees charged by social welfare organisations responsible for implementing the Programme; (iii) the total estimated expenditure on publicising and promoting the Programme; and (iv) the total estimated expenditure for activities organised by the Alumni Club (the Club) for graduates of the Programme, as well as the number and ranks of the Social Welfare Department (SWD) staff members responsible for implementing the third cohort;
- (2) The number of mentees in the third cohort of the Programme, broken down by gender and grade level (i.e. Secondary One, Two, Three and Four);
- (3) The number of mentors in the third cohort of the Programme, broken down by (i) gender; (ii) age; (iii) education level; (iv) occupation; (v) the sector of the organisation or group they belong to (such as business organisation, professional body, community group, public organisation, etc.); and (vi) whether they have participated in the first or second cohorts;
- (4) It has been noted that, compared with the second cohort, the third cohort of the Programme will further strengthen the training for mentors through a mixed mode of online and offline training courses or programmes and half-day interactive training programmes for them. Please provide the number, nature and attendance of these courses or programmes;
- (5) How many mentees in the third cohort are paired with mentors who are engaged in the mentees' ideal occupation or share similar interests? Have SWD or the social welfare organisations assisting in the implementation of the third cohort received complaints about the Programme from mentees, their parents or mentors? If yes, please provide the number and nature of the complaints received;

- (6) It has been noted that the third cohort will continue the enhanced measures of the second cohort, including organising more study and exchange programmes in the Mainland to broaden the horizons of mentees. Please provide (i) the number of the planned exchange programmes; (ii) the number of places available; (iii) the cities to be visited; and (iv) the themes of the exchanges;
- (7) It has been noted that the third cohort of the Programme offers mentees electives for basic training (i.e. language skills enhancement; interest development (e.g. sports, music, and arts); social skills and etiquette; guidance for further studies; and guidance and support on physical and mental health). Please provide (i) the estimated number of places available; (ii) the number of applications; and (iii) the number of participants of these electives; and
- (8) Have any mentees or mentors voluntarily withdrawn from the third cohort of the Programme thus far? If so, please provide the number of individuals who withdrew and their reasons for doing so.

Asked by: Hon LAM Chun-sing (LegCo internal reference no.: 31)

Reply:

- (1) A total of \$18.66 million in donations has been raised for the third cohort of the Programme. Including the surplus from the first and second cohorts, the total balance of the funds was \$138 million as at 14 March 2025. The funds raised for the Programme are mainly used to provide each participating mentee with a start-up sum of \$5,000 and a scholarship of \$5,000, and to provide alumni joining the job internship programme with transportation and meal subsidy. The estimated total expenditure for providing start-up sums and scholarships to mentees of the third cohort of the Programme is \$40 million, with the administrative expenses borne by the Government.

The estimated expenditure for implementing the Programme in 2025-26 is \$131 million, including the expenditure for organising the 1-year intensive foundation programme and activities of the Club by non-governmental organisations (NGOs), and publicity for the Programme, etc. Approximately \$36.75 million of which has been set aside for organising activities of the Club. SWD implements the Programme by deploying existing manpower. As the staff involved are also responsible for other youth services, a breakdown of the staffing establishment dedicated solely to implementing the Programme is not available.

- (2) The third cohort of the Programme has admitted a total of 4 000 mentees. The number of mentees broken down by gender and grade level is tabulated as follows:

Grade level	Male	Female	Total
Secondary One	688	665	1 353
Secondary Two	475	418	893
Secondary Three	452	481	933
Secondary Four	397	424	821
Total	2 012	1 988	4 000

- (3) As at end-February 2025, the third cohort of the Programme has recruited a total of 3 686 mentors to support 4 000 mentees (with some mentors matched with 2 mentees). Among them, 1 156 mentors had participated in the first and/or second cohorts of the Programme. A breakdown of the mentors by gender, age, education level, industry of

employment, and the sector of the organisation or group they belong to is set out at Annex.

- (4) The third cohort of the Programme enhances mentor training through a mixed mode of online and offline training. A series of thematic videos covering topics such as the growth and development of young people, special educational needs, cultural diversity, communication skills with young people and parents, etc., are available via the mobile application of the Programme. These resources allow mentors to acquire relevant knowledge and skills based on their own experience, needs and learning pace. As at end-February, over 1 100 mentors have engaged in self-learning through the mobile application. In addition, interactive training programmes are provided to help mentors consolidate their knowledge and skills, while offering opportunities to share experiences with fellow mentors and receive peer support. Specific details of these training programmes are currently being developed.
- (5) The mentees of the third cohort of the Programme have been matched with mentors based on their gender, spoken language, career aspirations, interests, and other factors. Neither SWD or NGOs assisting in the implementation of the third cohort have received any complaints about the Programme from mentees, their parents or mentors.
- (6) Since the launch of the third cohort of the Programme, a total of 12 supporting organisations have expressed interest in organising study and exchange programmes in the Mainland (exchange programmes). Among these, 1 exchange programme to Huizhou offering 105 places was held in March 2025. The remaining exchange programmes are scheduled to take place between end-March and August 2025, with details currently being developed. Through visits to different corporations/professions/industries during these exchange programmes, mentees can broaden their horizons, set goals for their future and reinforce their self-confidence. They can also learn more about the history, culture, economic development and current situation of the motherland, thus fostering a stronger sense of national identity.
- (7) Preparation for the electives in the third cohort of the Programme is underway, and no relevant statistics is available at this stage.
- (8) The third cohort of the Programme has admitted a total of 4 000 mentees, with no mentees or mentors having withdrawn from the Programme so far.

CONTROLLING OFFICER'S REPLY

LWB(W)092

(Question Serial No. 1754)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

To enhance welfare support services for ethnic minorities (EMs), the Government will continue to implement the Ethnic Minority District Ambassador pilot scheme (EMDA pilot scheme). How many applications for the position of EMDA were received, and how many persons were hired in each of the past 3 years? Has the effectiveness of the EMDA pilot scheme been evaluated thus far? What measures will be taken to enhance and expand EM services?

Asked by: Hon LAM Lam, Nixie (LegCo internal reference no.: 12)

Reply:

The Social Welfare Department (SWD) launched the EMDA pilot scheme in October 2020 in 9 districts with a higher EM population (i.e. Central and Western, Islands, Wan Chai, Eastern, Yau Tsim Mong, Kowloon City, Kwai Tsing, Yuen Long, and Sham Shui Po) to provide additional resources for enhancing district centres/service units, and co-ordinating communication and co-operation with relevant stakeholders. Under the EMDA pilot scheme, additional 46 EMs or designated persons have been employed as EMDAs in some service units of SWD and subvented non-governmental organisations to enhance welfare support services for EM communities. As at December 2024, a cumulative total of 150 persons have been employed as EMDAs. SWD does not have information on the number of applications for these posts.

The EMDA pilot scheme has received positive feedback and support from various stakeholders since its implementation. The Government has extended the EMDA pilot scheme for 3 years to 2026, so as to continue strengthening welfare support for EM communities. SWD will keep reviewing the implementation of the EMDA pilot scheme and examine the way forward for the services.

LWB(W)093

(Question Serial No. 2475)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (7) Young People

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Social Welfare Department (SWD) will set up an online youth-emotional-support platform. What are the estimated expenditure ratios for the platform's development, operation and maintenance? How will the Government ensure that the funds are effectively used for the provision of actual services? Will there be dedicated monitoring mechanisms (such as analysing user activity data, and tracking service response times) to assess the efficiency of funding utilisation? In addition, how will the operations of the platform be co-ordinated with the existing mental health service network in the community (such as through referral mechanisms or data interoperability standards)? Will the Government consider partnerships with social enterprises to reduce operational costs?

Asked by: Hon LAM Lam, Nixie (LegCo internal reference no.: 30)

Reply:

SWD launched the services of cyber youth support teams (CYSTs) in December 2018 and plans to enhance their services in the second quarter of 2025 through "Open Up", an online youth-emotional-support platform originally developed with funding from the Hong Kong Jockey Club Charities Trust and incorporating the services of CYSTs to provide instant online counselling service for students or young people experiencing emotional distress or facing immediate risks. The estimated expenditure for 2025-26 is about \$25.88 million. Regarding service performance monitoring, subvented non-governmental organisations (NGOs) operating welfare services are required to comply with the relevant requirements and standards stipulated by the service agreements, including essential service requirements, service output and outcome standards and service quality standards. SWD will review the operations of this service and monitor the performance of the service units in accordance with existing mechanisms. SWD will not collaborate with social enterprises to operate the above service at this stage, but will continue to encourage NGOs to make good use of community resources to enhance efficiency.

CONTROLLING OFFICER'S REPLY

LWB(W)094

(Question Serial No. 2483)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (7) Young People

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

What proportion of funding is allocated to tuition subsidies, after-school tutoring, and career exploration activities under the Strive and Rise Programme for 2025-26? What criteria does the Government use to select students from intergenerational poverty to participate in the Programme (e.g. household income thresholds, district of residence, etc.)? How does the Government track the employment status of participating students 3 years after graduation (such as survey frequency, expenditure on data analysis, etc.)?

Asked by: Hon LAM Lam, Nixie (LegCo internal reference no.: 37)

Reply:

Each mentee in the Programme will be given a start-up sum of \$5,000 upon completing the basic training. The amount is to be used under the mentor's guidance to achieve the mentee's personal development plan, which may include enhancing academic capabilities, career development skills, or developing personal interests. Upon successful completion of the Programme, a scholarship of \$5,000 will be awarded to the mentee for his/her own use by applying the financial planning concepts acquired during the Programme. The funds for start-up sums and scholarships are donated by supporting organisations.

Regarding career exploration activities, in addition to mentors arranging visits to their workplaces for the matched mentees, many supporting organisations will organise group activities such as visits, workshops, exchanges with management, etc. Mentees who have completed the intensive foundation programme in the first year and are aged 16 or above can participate in the job internship programme organised by the Alumni Club (the Club) to gain more understanding towards industries of interest and real working environments. About \$36.75 million have been set aside in 2025-26 for implementing activities of the Club, including the job internship programme.

The Programme targets Secondary One to Four students from underprivileged families (particularly those living in subdivided units). The living and financial conditions of the applicants will be considered during the recruitment process. Priority will be given to Secondary One to Four students living in subdivided units and receiving Comprehensive Social Security Assistance.

The evaluation of the Programme is undertaken by a research team from the Hong Kong Polytechnic University. In addition to ongoing evaluations for all mentees throughout the intensive foundation programme in the first year, a 5-year longitudinal tracking study on selected mentees will also be conducted. This study will collect data from mentees, mentors and parents in order to attain a full understanding of the Programme's impact on the personal growth of the mentees, but will not cover the employment status of the participating mentees after graduation.

(Question Serial No. 3222)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (7) Young People

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the Social Welfare Department's (SWD) enhancement measures for the After School Care Programme (ASCP) for Primary School Student, will priority be given to allocating additional service places in districts with a high concentration of subdivided flats and ethnic minority communities? How will the Government assess the service capability of non-governmental organisations (NGOs) (such as the ratio of social workers to students and the attainment rates of service targets in the past) with reference to the mechanism adopted under the Community Care Service Voucher Scheme for the Elderly? What is the basis of calculating the subsidy amount for each voucher?

Asked by: Hon LAM Lam, Nixie (LegCo internal reference no.: 38)

Reply:

ASCP aims to provide care services for children whose parents are unable to give proper care to them during after-school hours because of work or other reasons. Operated by NGOs on a self-financing and fee-charging basis, ASCP provides a range of care and support services for primary school students, including homework guidance, parental guidance and education, skill learning and social activities, etc. The services target all primary school students in various districts across the territory, including ethnic minority students and their families and those living in subdivided units. To support low-income families in need, SWD provides financial assistance through the Fee-waiving Subsidy Scheme under ASCP (the Scheme), which waives or reduces ASCP fees for their children.

Since October 2020, the Government has regularised the "Pilot Scheme on Relaxing the Household Income Limit of the Fee-waiving Subsidy Scheme under the After School Care Programme for Low-income Families and Increasing Fee-waiving Subsidy Places" under the Community Care Fund and implemented a host of enhancement measures, including relaxing the eligibility for application, increasing the subsidy level, providing extra subsidies for students with special educational needs, and streamlining means-test procedures, etc. Eligible low-income families can directly apply for full fee-waiving, half fee-reduction or one-third fee-reduction from participating operators. In addition to having experience and a proven track record in operating after-school care services, participating operators' mode of operation must be in compliance with the requirements in terms of the service capacity, service hours, manpower provision, fee-charging, etc. Operators are required to provide

services in accordance with the Service Specifications for the Scheme and submit relevant statistical information to SWD on a quarterly basis. SWD will conduct review visits to service units through random sampling to assess whether the ASCP services provided by the operators meet the requirements stipulated in the Service Specifications. SWD will review the demand for ASCP services in each district on a regular basis, and will provide additional places as necessary, having regard to the actual utilisation of fee-waiving places by the operators to benefit more service users.

- End -

LWB(W)098

(Question Serial No. 0309)

Head: (170) Social Welfare Department

Subhead (No. & title): (000) Operational Expenses

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Budget Speech mentioned that the number of residential care service vouchers (RCSVs) would increase to 6 000 in 2025-26, and the number of community care service vouchers (CCSVs) would increase to 12 000. In this connection, would the Government please inform this Committee of:

1. the utilisation rates of RCSVs and CCSVs (with a breakdown by different service areas) since their launch; and
2. details of the current distribution of expenditure on RCSVs and CCSVs.

Asked by: Hon LAM Shun-chiu, Dennis (LegCo internal reference no.: 32)

Reply:

The Government launched the Pilot Scheme on RCSV for the Elderly in March 2017 and made the RCSV Scheme for the Elderly permanent in April 2023. From the end of April 2023 to the end of December 2024, the number of RCSV users increased from about 2 660 to about 4 800. The number of RCSVs will be increased by 1 000 in 2025-26, bringing the total to 6 000, involving an annual expenditure of about \$1.71 billion.

The Government launched the Pilot Scheme on CCSV for the Elderly in September 2013 and made the CCSV Scheme for the Elderly permanent in September 2023. From the end of September 2023 to the end of December 2024, the number of CCSV users increased from about 7 750 to about 11 400. The number of CCSVs will be increased by 1 000 in 2025-26, bringing the total to 12 000, involving an annual expenditure of about \$900 million.

CONTROLLING OFFICER'S REPLY

LWB(W)099

(Question Serial No. 3055)

Head: (170) Social Welfare Department

Subhead (No. & title): (000) Operational Expenses

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Paragraph 197 of the Budget Speech states that the Government will, in the next financial year, increase the number of vouchers under the Residential Care Service Voucher (RCSV) Scheme for the Elderly (RCSV Scheme) by 1 000 to 6 000 in total and increase the number of vouchers under the Community Care Service Voucher (CCSV) Scheme for the Elderly by 1 000 to 12 000 in total, involving an annual expenditure of about \$1,710 million and \$900 million respectively. In this connection, please advise:

- (1) What were the age and gender distributions of RCSV and CCSV users in the past year?
- (2) In view of the Audit Commission's report highlighting overcharging for consumables by some residential care homes (RCHs) under the RCSV Scheme, will the Government enhance monitoring and inspection? If yes, what are the plans? If no, what are the reasons?

Asked by: Hon LAM Shun-chiu, Dennis (LegCo internal reference no.: 34)

Reply:

- (1) The age and gender distributions of RCSV users and CCSV users in 2024-25 (as at the end of December 2024) are set out at Annex.
- (2) The service agreements signed by recognised service providers (RSPs) participating in the RCSV Scheme clearly specify the service specifications, including the principles and requirements of all fee-charging items, as well as guidelines on the implementation of individual care plans, etc. In addition, RSPs are required to strictly comply with the requirements of the Code of Practice for RCHs (Elderly Persons). The Social Welfare Department (SWD) regularly conducts surprise visits to RSPs to observe their operations, review relevant records, and interview randomly selected service users or their family members to assess whether the participating RCHs for the elderly (RCHEs) comply with the relevant requirements stipulated in their service agreements. In the event of non-compliance, SWD will require the RCHE concerned to make improvements or impose sanctions in accordance with existing mechanisms.

**Table 1: Age and gender distributions of RCSV users
in 2024-25 (as at end-December 2024)**

Age	Male	Female	Total
Aged 60 to 74	384	287	671
Aged 75 to 84	619	680	1 299
Aged 85 or above	902	1 935	2 837
Total	1 905	2 902	4 807

CONTROLLING OFFICER'S REPLY**LWB(W)100****(Question Serial No. 0362)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: Not SpecifiedControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

With regard to ensuring that welfare expenditures by government and subvented organisations are being used for their intended purposes, please provide this Committee with the following information:

1. Over the past 5 years, what was the ratio of administrative expenses (including salary expenditures) incurred by government and subvented organisations to the total allocated funds actually spent on beneficiaries?
2. Over the past 5 years, what were the administrative expenses incurred by government and subvented organisations, and what was the average number of staff employed by each subvented organisation?

Asked by: Hon LAM Siu-lo, Andrew (LegCo internal reference no.: 1)Reply:

The Social Welfare Department (SWD) is a government department. There are 6 Programmes under the social welfare policy area, namely Family and Child Welfare, Social Security, Services for The Elderly, Rehabilitation and Medical Social Services, Services for Offenders, and Young People. The financial provision for each Programme is detailed in the Controlling Officer's Report, which also lists out the expenditure by subheads. Majority of SWD's total estimated expenditure is to provide cash allowances to eligible persons and funding to subvented organisations operating welfare services for those in need. Taking 2025-26 as an example, SWD's total estimated expenditure is \$125.17 billion, out of which \$84.03 billion (about 67%) is provision for Comprehensive Social Security Assistance Scheme and Social Security Allowance Scheme, and \$34.79 billion (about 28%) is funding provision to subvented organisations.

The staffing establishment of SWD in the past 5 years is tabulated as follows:

Year	2021-22	2022-23	2023-24	2024-25 (Revised estimate)	2025-26 (Estimate)
Staffing establishment	6 550	6 528	6 527	6 560	6 520

Under the Lump Sum Grant Subvention System, SWD allocates subvention to non-governmental organisations (NGOs) with grants in a lump sum each year for operating welfare services. Subject to their compliance with the requirements of the Funding and Service Agreements and the relevant statutory staffing requirements, NGOs may determine their staffing establishment in accordance with their own human resource policies, and flexibly deploy resources and employ staff to achieve the service outputs and outcomes required. SWD does not have the requested information regarding the breakdown of the number of staff employed by subvented organisations and the related expenditure.

CONTROLLING OFFICER'S REPLY

LWB(W)101

(Question Serial No. 0365)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the strengthening of the home-based child care service (HCCS) under the Neighbourhood Support Child Care Project (NSCCP), and the increase in the level of incentive payment for home-based child carers and the number of service places, please inform this Committee of:

1. the actual annual expenditure on NSCCP for each of the past 3 years, with a breakdown by expenditure item (such as incentive payments, staff salaries, training for home-based child carers, administrative expenses, etc.);
2. (a) the number of service places; (b) the number of home-based child carers; (c) the amount of subvention for each service operator; (d) the number of service users; (e) the average utilisation rate; (f) the average service fee; and (g) the average number of staff for each service operator for each of the past 3 years, broken down by District Council (DC) district; and
3. details of the plan to increase the level of incentive payment for home-based child carers and the number of service places.

Asked by: Hon LAM Siu-lo, Andrew (LegCo internal reference no.: 2)

Reply:

1. The expenditure on NSCCP in the past 3 financial years is tabulated as follows. The Social Welfare Department (SWD) allocates funding to service operators based on their expenditure on operating NSCCP, which includes staff salaries, costs for recruiting and training home-based child carers, incentive payments, service promotion costs, and subsidies for service fee waivers/reductions, etc. At the same time, service operators are required to provide a minimum number of places and employ staff in accordance with the staffing establishment stipulated in the Service Agreement (SA) for operating NSCCP. They must also meet the service output and outcome standards specified in the SA. On this basis, service operators may flexibly deploy the funding to operate NSCCP. Therefore, SWD does not have the breakdown of the expenditure on NSCCP.

Year	Expenditure on NSCCP (\$ million)
2022-23 (Actual)	28.3
2023-24 (Actual) ^{Note 1}	88.0
2024-25 (Revised estimate) ^{Note 2}	226.6

Note 1 The increase in expenditure for 2023-24 was due to the fact that part of the funding for 2022-23 was disbursed in 2023-24.

Note 2 The increase in expenditure for 2024-25 was due to the fact that the incentive payment for home-based child carers and the number of service places under NSCCP were increased.

2. The information on NSCCP over the past 3 financial years, broken down by DC district, is set out at Annex. In 2022-23 and 2023-24, service operators were required to provide a minimum number of service places and employ staff in accordance with the staffing establishment, which included at least 2 registered social workers, 1 child care worker, and 2 support staff, for operating NSCCP. Since September 2024, SWD has been subsidising non-governmental organisations to operate NSCCP under Lump Sum Grant subvention mode. The staffing establishment for each service team under NSCCP comprises 2 Assistant Social Work Officers, 2 Social Work Assistants, 1 Child Care Worker, and 2 Welfare Workers. Subject to compliance with the requirements of the Funding and Service Agreements, service operators may flexibly deploy resources and employ staff to achieve the required service outputs and outcomes. Since NSCCP has no service quota limit, SWD does not have the information on its average utilisation rate.
3. The Government has increased the level of incentive payment for home-based child carers under NSCCP starting from April 2024. The rate has increased to \$60 per hour for carers of infants and young children aged 0 to 3 or children with special learning needs, and \$40 per hour for carers of other children. In addition, starting from September 2024, SWD has increased the number of NSCCP places to around 2 000.

Table 1: Number of places, number of home-based child carers, number of children served, service fee, and amount of subsidy granted to service operators of NSCCP (2022-23)

District	Number of places ^{Note 1}	Number of home-based child carers (December 2022)	Number of children served	Basic service fee per hour ^{Note 2}		2022-23 Actual expenditure ^{Note 3} (\$ million)
				Home-based child care service (HCCS)	Centre-based care group (CCG)

Tuen Mun	184	86	574			
Yuen Long	184	116	854			
North	92	26	275			
Tai Po	92	86	370			
Sha Tin	184	52	515			
Sai Kung	92	29	360			
Islands	92	102	505			
Total	2 116	1 043	7 004			

Note 1 Starting from September 2024, on the basis of 1 service team in each of the 18 districts in Hong Kong, SWD has added an additional service team in districts with higher service demands, namely Kwun Tong, Sham Shui Po, Sha Tin, Tuen Mun, and Yuen Long districts. As a result, the number of service teams in Hong Kong has increased from 18 to 23. Each service team is required to provide a minimum of 92 service places (i.e. the total number of places in all 18 districts should be at least 2 116). Service operators may flexibly increase the number of HCCS places beyond this requirement to meet the actual service demands.

Note 2 A new SA for NSCCP commenced in September 2024. Some home-based child carers are currently undergoing training, and will start service later. Therefore, the number of home-based child carers will gradually increase.

Note 3 Starting from September 2024, the service fees for HCCS and CCG are standardised at \$28 and \$20 per hour respectively. Service users with social needs and/or financial difficulties can approach service operators for fee waivers/reductions.

Note 4 The annual expenditure includes the operator's administrative expenses, training costs and incentive payments for home-based child carers, and subsidies granted to service users from low-income families.

(Question Serial No. 0366)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare
(2) Social Security
(3) Services for The Elderly
(4) Rehabilitation and Medical Social Services
(5) Services for Offenders

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Based on an overview of Programmes (1) to (7), the estimated financial provision for 2025-26 will increase by 9.2%. The analysis of staffing provision for Programmes (1) to (5) mentions the expenditure increase will be partly offset by a net reduction of 40 posts, for instance, a reduction of 16 posts under Programme (2), a net reduction of 11 posts under Programme (4), etc. In this regard, please inform this Committee of:

1. The types of posts to be reduced and the reasons for their reduction; and
2. The total amount of expenditure that can be saved from the reduction of these posts.

Asked by: Hon LAM Siu-lo, Andrew (LegCo internal reference no.: 3)

Reply:

In order to optimise the use of the civil service manpower resources and maintain the sustainability of our public finance, the Government has maintained zero-growth in the overall civil service establishment since 2021-22, with the overall establishment controlled at a level not exceeding that as at end-March 2021. Bureaux and departments have, through management measures and digitalisation, re-prioritised and internally re-deployed their resources, streamlined work processes and capitalised on technology solutions to enhance efficiency. It is anticipated that by 31 March 2026, the overall civil service establishment will have reduced to about 193 000 posts, i.e. a reduction by approximately 3 000 posts on a cumulative basis.

In 2025-26, the net reduction of 40 posts in the Social Welfare Department involves the Census and Survey Officer, Social Security Assistant, Cook, Artisan, Clerical Assistant, Office Assistant, Ward Attendant and Property Attendant grades. Based on the notional annual mid-point salary value of the posts involved, it is estimated that a total of about \$14.07 million can be saved this year by the reduction of these posts.

(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the additional injection into the Innovation and Technology Fund for Application in Elderly and Rehabilitation Care (I&T Fund) and the expansion of the scope of the I&T Fund to allow eligible service units to procure gerontechnology products suitable for household use by elderly persons, persons with disabilities (PWDs) and their carers, please provide this Committee with the following information:

1. the amount of funding and the number of products applied for and approved by the I&T Fund for each type of service unit thus far;
2. the estimated expenditure on repair and maintenance or other follow-up services of gerontechnology products for each of the past 5 years, and the expected service life of the major technology products; and
3. details of the upcoming implementation of the expansion of the scope of the I&T Fund to allow eligible service units to procure gerontechnology products suitable for household use by elderly persons, PWDs and their carers, including the estimated expenditure and the number of applications received.

Asked by: Hon LAM Siu-lo, Andrew (LegCo internal reference no.: 7)

Reply:

1. The number of applications for I&T Fund submitted by different types of service units, as well as the amount of grant and the number of products approved are set out at Annex.
2. The Social Welfare Department (SWD) does not maintain the information as requested in the question.
3. SWD plans to accept a new tranche of applications in March 2025, and will implement enhancement measures, which include increasing the amount of grant for each eligible elderly and rehabilitation service unit by 50%. In addition, non-governmental organisations operating subvented elderly and rehabilitation community service units will also be allowed to apply for extra funding to procure technology products suitable for elderly persons or PWDs and their carers to borrow and use at home.

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Government will regularise the Pilot Project on Enhancing Vocational Rehabilitation Services (the Pilot Project) to enhance the service and training model of sheltered workshops (SWs)/integrated vocational rehabilitation services centres (IVRSCs), thereby building a better vocational rehabilitation and training ladder for persons with disabilities (PWDs). In this regard, please provide this Committee with the following:

1. A breakdown of (a) the number of beneficiaries; (b) the number and types of courses provided; (c) the estimated expenditure; (d) the manpower; (e) the number and types of employment opportunities provided from the commencement of the project to date; and
2. A breakdown of (a) the number of beneficiaries; (b) the number and types of courses to be provided; (c) the number of centres to be included in the expansion; (d) the estimated expenditure; and (e) the manpower requirements after regularisation.

Asked by: Hon LAM Siu-lo, Andrew (LegCo internal reference no.: 8)

Reply:

1. The Social Welfare Department (SWD) launched the 2-year Pilot Project in July 2023 with an estimated expenditure of about \$25 million. Under the Pilot Project, participating SWs and IVRSCs were provided with additional manpower, including social workers, workshop instructors and support staff. These SWs and IVRSCs offered 201 basic and 46 advanced training courses for trainees. Basic training courses covered areas such as life skills training, career planning, and simulated job training/internship. Advanced training courses, meanwhile, covered topics such as art or crafts creation, information technology applications, store management and sales, as well as logistics and transportation services. In addition, the service units have organised over 2 000 job attachment sessions for their trainees, spanning fields such as arts and design, computer and technology applications, catering, facilities management, sales and retail, packaging and assembly, logistics and warehousing, as well as general office administration. The Pilot Project has benefited about 1 100 persons.
2. SWD will regularise the Pilot Project in the third quarter of this year to enhance the service and training model of SWs and IVRSCs, thereby building a better vocational rehabilitation and training ladder for PWDs. The existing 34 SWs and 35 IVRSCs will

be included in the Project. They can provide appropriate training courses tailored to the abilities, interests, and learning progress of their service users. This initiative will involve an annual expenditure of about \$100 million, and is expected to benefit around 10 000 persons.

LWB(W)105

(Question Serial No. 0374)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (2) Social Security

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

To provide support for able-bodied adult recipients of the Comprehensive Social Security Assistance (CSSA) Scheme to become self-reliant, the Government will launch a pilot Support Programme for the Unemployed (SPU) under the CSSA Scheme. In this connection, please inform this Committee of the following:

1. the number of able-bodied adult CSSA recipients and the expenditure involved in the past 5 years, broken down by age group;
2. the number of participants in the Integrated Employment Assistance Programme for Self-reliance (IEAPS) and the number of participants who successfully re-entered the workforce in the past 5 years;
3. the number of able-bodied adult CSSA recipients who failed to participate in IEAPS and the reasons for this in the past 5 years;
4. the number of non-governmental organisations (NGOs) providing IEAPS, the estimated expenditure, and the target percentage of the Employment Support Services (EmSS) in the past 5 years;
5. further to the question above, the reasons NGOs failed to achieve the above target percentage; and
6. details of the pilot SPU, including the estimated expenditure and its differences from IEAPS.

Asked by: Hon LAM Siu-lo, Andrew (LegCo internal reference no.: 10)

Reply:

1. The number of able-bodied adult CSSA recipients from 2020-21 to 2024-25, broken down by age group, is set out in Table 1 of Annex. Since CSSA applications are made on a household basis, and each case may involve household members of various age groups and categories, the Social Welfare Department (SWD) will disburse different standard rates, supplements and special grants based on the number of household members and the needs of individual members in each CSSA case. SWD does not have a separate breakdown for the expenditure on able-bodied adult CSSA recipients.

2. The headcounts of persons who received EmSS and the headcounts of persons who had secured employment for at least 1 month among them in 2023-24 and 2024-25 are tabulated below. SWD does not have a breakdown of the headcounts by year prior to April 2023.

Year	Headcount of persons who received EmSS	Headcount of persons who secured employment for at least 1 month
2023-24	16 480	1 891
2024-25 (up to end-December 2024)	14 022	1 307

3. In general, unemployed able-bodied CSSA recipients aged 15 to 59 are required to receive EmSS unless they have justifiable reasons for not being able to work (such as pursuing studies, or having to look after young children, sick or disabled family members at home). Unemployed able-bodied CSSA recipients aged 60 to 64 may receive EmSS on a voluntary basis. SWD does not have the information sought.
4. SWD commissioned 26 NGOs to provide EmSS. The relevant expenditure incurred from 2020-21 to 2024-25 is tabulated below:

Year	Expenditure (\$ million)
2020-21 (Actual)	152
2021-22 (Actual)	153
2022-23 (Actual)	157
2023-24 (Actual)	159
2024-25 (Revised estimate)	162

The performance requirements of NGOs providing EmSS during the current contract period (i.e. from 1 April 2020 to 30 September 2025) and their service performance up to 31 December 2024 are set out in Table 2 of Annex.

5. The 5-and-a-half year EmSS contract period will end in September 2025. During the contract period (i.e., from 1 April 2020 to 30 September 2025), NGOs are required to assist at least 25% of the unemployed able-bodied EmSS recipients to secure employment or return to mainstream education for at least 1 month, and at least 20% of these recipients to do the same for at least 3 months. Up to 31 December 2024, these percentages stood at 23.1% and 18.2% respectively, which were close to meeting the performance requirements. SWD will continue to closely monitor the NGOs' service performance in the remainder of the contract period (i.e. from January to September 2025).
6. SWD will replace EmSS with SPU starting from October 2025. SPU will be operated on a pilot basis for 2 years by NGOs and/or other organisations. All unemployed able-bodied CSSA recipients aged 15 to 59 will be mandated to participate in SPU and take up unpaid work on a weekly basis arranged by SPU operators, until they have secured gainful employment or returned to mainstream education. Incompliance with the unpaid work requirement will result in CSSA stoppage for the participant and his/her household. Compared to EmSS, SWD expects SPU to be more effective in motivating the unemployed able-bodied CSSA recipients to connect with the community, develop a work habit and accumulate work experience to enhance employability, thereby reducing their reliance on CSSA in the long term. Meanwhile, SPU participants will continue to have access to a range of free employment services and training resources as well as relevant training allowances provided by the Labour Department and the Employees Retraining Board.

The estimated expenditure on the 2-year SPU is around \$98 million. SWD will commission SPU operators through invitation for proposals. NGOs operating EmSS are free to submit their proposals.

Table 1: Number of able-bodied adult CSSA recipients from 2020-21 to 2024-25 by age group

Year	Age group				
	15 to 24	25 to 39	40 to 49	50 to 59	60 to 64
2020-21	2 689	12 973	18 023	14 555	5 732
2021-22	2 303	11 237	16 314	13 387	6 867
2022-23	1 932	9 740	14 465	12 080	7 876
2023-24	1 616	8 351	12 898	10 808	8 294
2024-25 (up to end-December 2024)	1 610	7 705	11 878	10 260	7 888

Table 2: Performance requirements and service performance of NGOs providing EmSS during the current contract period (i.e. from 1 April 2020 to 30 September 2025) (up to 31 December 2024)

Category of service	Performance requirements (Performance requirements that NGOs are required to meet during the 66-month contract period from 1 April 2020 to 30 September 2025)		Service performance (Service performance of NGOs for the 57-month period from 1 April 2020 to 31 December 2024)	
	Percentage of service recipients having secured employment or returned to mainstream education for at least 1 month	Percentage of service recipients having secured employment or returned to mainstream education for at least 3 months	Percentage of assisting service recipients to secure employment or return to mainstream education for at least 1 month	Percentage of assisting service recipients to secure employment or return to mainstream education for at least 3 months
Services for unemployed able-bodied CSSA recipients aged 15 to 64 ^[Note 1] (represents the percentage of service recipients having secured paid employment ^[Note 2] or returned to mainstream education)	25%	20%	23.1%	18.2%
Services for single parents and child carers on CSSA with their youngest child aged 12 to 14 ^[Note 1] (represents the percentage of service recipients having secured employment with at least 32 working hours in a month)	40%	30%	33.7%	27.6%

^[Note 1] Unemployed able-bodied CSSA recipients aged 60 to 64 may receive EmSS on a voluntary basis.

^[Note 2] For unemployed able-bodied CSSA recipients aged 15 to 59, paid employment refers to employment with monthly earnings no less than the prescribed level (\$2,665 per month with effect from 1 February 2025) and working hours no less than 120 hours per month.

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Paragraph 201 of the Budget Speech states that the Government will provide an additional annual provision of over \$180 million to increase emergency places for residential child care and strengthen professional support for child abuse victims and their families. In this regard, please provide the following information:

What was the number of newly registered child protection cases in Hong Kong in 2024? Please provide a breakdown by District Council districts, along with a proportional breakdown of the types of abuse involved, such as physical harm, sexual abuse, neglect, etc.

What is the expected annual increase in emergency residential care places for children? Furthermore, regarding the strengthening of professional support for child abuse victims and their families, what resources and manpower have been allocated for training and support?

Asked by: Hon LAM So-wai (LegCo internal reference no.: 3)

Reply:

The number of newly registered child protection cases in 2024 as collected by the Child Protection Registry of the Social Welfare Department (SWD), with a breakdown by type of abuse and the district in which child abuse cases occurred, is set out at Annex.

To dovetail with the operation of the Mandatory Reporting of Child Abuse Ordinance (the Ordinance) in January 2026, the Government will, starting from 2025-26, allocate an additional annual provision of \$29.07 million to increase the number of emergency residential child care places, and \$157.4 million to strengthen professional support for child abuse victims and their families, amounting to a total of approximately \$186.5 million. In terms of emergency residential child care places, 2 new residential child care centres will commence operation before the Ordinance takes effect, adding a total of 96 emergency care service places and catering for about 380 children each year. Regarding strengthening professional support for child abuse victims and their families, SWD has subsidised non-governmental organisations to set up 6 service teams under the Child Protection Support Service (service teams) in March 2025. The service teams, comprising social workers, psychologists, nurses, and other supporting staff, will provide a range of support services, including home visitation support, therapeutic/psycho-social groups, educational and family enrichment programmes, etc., to provide targeted intervention and professional support for children who have been abused or are at risk of abuse, as well as their families.

Newly registered child protection cases in 2024

Table 1: Distribution of newly registered child protection cases by type in 2024

Type	No. of cases (%)
Physical harm/abuse	595 (39.6%)
Neglect	328 (21.8%)
Sexual abuse	522 (34.7%)
Psychological harm/abuse	16 (1.1%)
Multiple abuses	43 (2.9%)
Total	1 504 (100%)

Table 2: District of newly registered child protection cases in 2024

District	No. of cases (%)

(Question Serial No. 0748)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Paragraph 197 of the Budget Speech states that the number of Residential Care Service Vouchers (RCSVs) will be increased to 6 000. However, as at the end of 2024, more than 16 000 elderly persons are still waiting for subsidised residential care places (RCPs), with the new quota addressing only 6% of the existing waiting list. In this regard, please provide the following information:

Does the Government have specific targets for reducing waiting time (such as reducing the average waiting period from 3 years to 2 years)? How will resources be allocated to prioritise the urgent needs of elderly singleton individuals?

The recent Audit Report revealed that some residential care homes (RCHs) exhibited serious issues, such as overcharging residents and failing to change elderly persons' diapers. In addition, some applicants for RCSVs had to wait for over 7 months. In this connection, how does the Government plan to strengthen its monitoring system to ensure the proper use of RCSVs?

Asked by: Hon LAM So-wai (LegCo internal reference no.: 4)

Reply:

The waiting time for subsidised residential care services (RCS) for the elderly is affected by various factors, such as applicants' preferences for the location, dietary options and religious background of RCHs for the Elderly (RCHEs), whether they opt for a specific RCHE, and the turnover rate of places at their chosen RCHEs, etc. These factors make it challenging to set specific targets for reducing waiting time. It is noteworthy that the average waiting time for subsidised care-and-attention places and nursing home places has decreased from 19 and 22 months, respectively, in 2020-21 to 9 months in 2024-25 (as at the end of December 2024). The Social Welfare Department (SWD) will continue to take a multi-pronged approach to increase the number of places for subsidised RCS for the elderly, with the view to adding about 6 200 subsidised places by the end of 2027.

The Government has consistently prioritised the welfare needs of singleton elderly persons, and has provided them with appropriate support, including deploying Care Teams to identify households of singleton elderly persons in need through visits and contacts, as well as subsidising the installation and use of the emergency alarm system, etc. Singleton elderly

persons in need of emergency services can be referred by social workers to apply for appropriate support services, such as residential respite care and/or emergency placement services.

The service agreements signed by recognised service providers (RSPs) participating in the RCSV Scheme for the Elderly clearly specify the service specifications, including the principles and requirements for all fee-charging items, as well as guidelines on the implementation of individual care plans, etc. In addition, RSPs are required to strictly comply with the requirements of the Code of Practice for RCHs (Elderly Persons). SWD regularly conducts surprise visits to RSPs to observe their operations, review relevant records, and interview randomly selected service users or their family members to assess whether the participating RCHEs comply with the relevant requirements stipulated in their service agreements. In the event of non-compliance, SWD will require the RCHE concerned to make improvements or impose sanctions in accordance with existing mechanisms.

In general, SWD will complete the vetting process and issue RCSVs within around 8 weeks of receiving an application.

(Question Serial No. 2386)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Paragraph 202 of the Budget Speech states that the Government will set up 14 Integrated Community Rehabilitation Centres (ICRCs) across the territory in phases to provide persons with disabilities (PWDs) who require medium to high level care with flexible and integrated community support services through a case management approach. In this regard, please advise:

What is the specific timetable for the completion of these 14 ICRCs, and what is the staffing establishment for each centre?

Will the additional 1 280 places be allocated based on district demand, and will the Government prioritise the completion of centres in areas with higher demand?

Given that there are 18 districts across the territory but only 14 new centres, how will the Government avoid service gaps in district coverage?

Asked by: Hon LAM So-wai (LegCo internal reference no.: 15)

Reply:

The Social Welfare Department (SWD) launched a 2-year pilot project in the third quarter of 2023 to set up 2 ICRCs. These centres integrate the services of Community Rehabilitation Day Centres and home care services, with a view to providing PWDs requiring medium to high level care with flexible and integrated community support services through a case management approach. Tailored support is also offered based on the individual needs and rehabilitation progress of each PWD.

SWD will set up 14 ICRCs across the territory in phases to provide services for PWDs in all districts. This includes regularising the operation of the 2 ICRCs set up under the pilot scheme starting from the third quarter of 2025, while enhancing the functions of the 4 existing Community Rehabilitation Day Centres and converting them into ICRCs progressively. SWD will also integrate the Home Care Service for Persons with Severe Disabilities and Integrated Support Service for Persons with Severe Physical Disabilities. This measure will create an additional 1 280 community rehabilitation and home care service places, bringing the expected total to 6 060 service places. Since this initiative involves integrating existing resources and service units, SWD will make arrangements based on the actual circumstances of individual districts, and will review the operation of the pilot scheme to evaluate and appropriately address the manpower needs and training requirements for the 14 ICRCs.

LWB(W)109

(Question Serial No. 2388)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: Not Specified

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Budget mentions a cumulative reduction of government recurrent expenditure by 7% from now through 2027-28, including social welfare expenditure. It is said that non-governmental organisations (NGOs) receiving subvention exceeding \$50 million will face a cumulative funding cut of 7%; while NGOs receiving subvention of \$50 million or less, only a 3% reduction will be required, with the remaining 4% to be absorbed by the Social Welfare Department (SWD). Unlike last year's Budget, no exemptions will be granted. In this connection, please advise:

Given that the current manpower turnover rate in the social welfare sector has reportedly reached 20% and salary costs continue to rise, how will the Government prevent the manpower shortage in the social welfare sector from further deteriorating under the reduced funding, which may cause some small and medium-sized organisations to cease operations?

Has the Government assessed the manpower vacancy situation in the residential care home sector, particularly in residential care homes for persons with disabilities? How will the Government ensure that service users' interests will not be adversely affected as far as possible?

Will there be corresponding cuts in SWD's services?

When the fiscal situation improves, will the Government consider restoring the planned expenditure cuts?

Asked by: Hon LAM So-wai (LegCo internal reference no.: 17)

Reply:

In the 2025-26 Budget, the Financial Secretary introduced measures to step up the Productivity Enhancement Programme (PEP), with the rate of reduction of recurrent government expenditure to be increased from the original 1% to 2% in 2025-26 and be extended for 2 years to 2027-28. Taking into account the 1% cut in 2024-25, the cumulative rate of reduction will be 7% in total.

To support NGOs operating subvented welfare services in implementing PEP, the Labour and Welfare Bureau and SWD have made concerted efforts by reallocating internal resources and adjusting priorities to alleviate some of the financial burden on NGOs, ensuring they have

adequate time to prepare for the adjusted PEP. Under PEP, 58 NGOs with provisional Lump Sum Grant (LSG) allocations of \$50 million or more in 2024-25 will be required to cumulatively reduce their recurrent allocations by 2%, 5%, and 7% in 2025-26, 2026-27, and 2027-28, respectively. For the 121 NGOs receiving provisional LSG allocations of less than \$50 million in 2024-25 or subvention under the conventional subvention mode, they will be required to cumulatively reduce their recurrent allocations by 1% and 3% in 2026-27 and 2027-28, respectively.

To enable NGOs to make more effective and long-term financial plans and arrangements, all NGOs will be allowed to retain and utilise funds exceeding the cap for the LSG reserve until 2028-29. Furthermore, starting from 2025-26, SWD will allow NGOs greater flexibility to reduce their workload related to cost apportionment. Provided that service users are not affected, SWD will review and optimise the content of Funding and Service Agreements (FSAs) and streamline the requirements for reporting service data, thereby alleviating administrative work for NGOs and relieving pressure on frontline staff.

Under the LSG Subvention System, SWD allocates recurrent subvention to NGOs with grants in a lump sum each year for operating welfare services. Subject to their compliance with the requirements of the FSAs and relevant statutory staffing requirements, NGOs may determine their staffing establishment in accordance with their own human resource policies, and flexibly deploy resources and employ staff to achieve the service outputs and outcomes required.

Regarding residential care services (RCS), SWD will monitor the performance of service units through established mechanisms to ensure that residential care homes (RCHs) comply with relevant regulations and continue to deliver RCS that meet the needs of service users. To address the shortage of and growing demand for care workers, and to support the RCH sector in enhancing service quality, the Government, on the premise of safeguarding the employment priority for local workers, launched the Special Scheme to Import Care Workers for RCHs in June 2023 to allow RCHs for the elderly, RCHs for persons with disabilities, and nursing homes to import care workers on an appropriate scale, relax the ratio of imported care workers to local staff, and streamline the application vetting procedures.

SWD has also introduced initiatives to support social welfare organisations in 2024-25, including a \$1 billion injection into the Innovation and Technology Fund for Application in Elderly and Rehabilitation Care to enhance subsidies for eligible elderly and rehabilitation service units to procure, rent, or trial technological products. In addition, SWD has established a dedicated fund of \$500 million to help NGOs meet their development needs, such as staff training and system enhancement, as well as encouraging and promoting the application of information technology (IT). The use of technology products and IT will help enhance NGOs' operational efficiency and alleviate manpower demands.

CONTROLLING OFFICER'S REPLY

LWB(W)110

(Question Serial No. 2389)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Social Welfare Department (SWD) is responsible for providing social welfare support services to street sleepers. SWD provides subvention to non-governmental organisations (NGOs) under the Lump Sum Grant Subvention System to operate Integrated Services Teams for Street Sleepers (ISTs) and provide emergency and short-term hostel placements for street sleepers and homeless persons. In this connection, would the Government please inform this Committee of the following:

the number of street sleepers registered on the computerised Street Sleepers Registry (Registry), and the average number of times they have reverted to street sleeping in each of the past 3 years;

the median duration of street sleeping among registered street sleepers in each of the past 3 years, and the improvement measures the Government has put in place;

the current numbers of emergency and short-term hostel placements for street sleepers, and their utilisation rates; and

the number, percentage and waiting time of street sleepers who have been allocated public rental housing in each of the past 3 years?

Asked by: Hon LAM So-wai (LegCo internal reference no.: 18)

Reply:

SWD provides subvention to NGOs for operating 3 ISTs. According to data inputted by ISTs into the Registry, the number of street sleepers in the past 3 years (as at the end of December 2024) was 1 441, 795, and 672, respectively. Most street sleepers have been living on the streets for periods ranging from 1 to 5 years. SWD has been compiling statistics on relapsed street sleeping since 2023. Over the past 2 years (as at the end of December 2024), 29 and 13 street sleepers respectively, have resumed street sleeping.

ISTs conduct day and late-night outreach visits to proactively reach out to street sleepers and understand their reasons for street sleeping. ISTs render integrated services according to their actual needs and willingness to receive services. These services, including counselling, service referrals, short-term accommodation, and application for financial assistance, etc., are provided to address their urgent welfare needs, thereby helping them live off the streets and

reintegrate into the community. In addition, SWD provides subvention to NGOs to operate short-term hostels, with a view to providing transitional accommodation for street sleepers to tide them over to stable living arrangements. As at the end of December 2024, there were a total of 228 short-term hostel places subvented by SWD, with an average occupancy rate of about 73%.

In the past 3 years (as at the end of December 2024), ISTs assisted 187, 156, and 116 street sleepers, respectively, in securing accommodation. This included short-term hostels, rented private tenements, public rental housing, and other housing assistance. SWD does not maintain statistics on the number or percentage of street sleepers who are allocated public rental housing or their waiting time for it.

LWB(W)111

(Question Serial No. 2405)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Provision for 2025-26 is \$658 million (5.5%) higher than the revised estimate for 2024-25. This is mainly due to the additional provision for day and residential services as well as enhancement in community support for persons with disabilities and extension of Care Teams – Supporting Elderly and Carers Scheme to 18 districts, partly offset by a net decrease of 11 posts in 2025-26. In this connection, would the Government please inform this Committee of the following:

What are the respective percentage shares of expenditure on the above day and residential services, the enhancement in community support for persons with disabilities (PWDs), and extension of Care Teams – Supporting Elderly and Carers Scheme?

How many cases in need of support or referral have the Care Teams identified under the Care Teams – Supporting Elderly and Carers Scheme?

Which 11 posts will be decreased, and what is the amount to be offset? Will the quality of services be affected?

Asked by: Hon LAM So-wai (LegCo internal reference no.: 34)

Reply:

The estimated expenditure on the rehabilitation and medical social services of the Social Welfare Department (SWD) for 2025-26 is about \$12.6 billion. The percentage breakdown of this expenditure across various areas, including day services, residential services and community support services for PWDs, as well as the implementation of the District Services and Community Care Teams (Care Teams) – Supporting Elderly and Carers Scheme (the Scheme) in 18 districts, is set out at Annex.

As at end-January 2025, a total of 36 Care Teams in Tsuen Wan and the Southern District have visited or contacted over 7 000 households of singleton and doubleton elderly and carers of elderly persons and PWDs, and have made over 1 190 referrals for welfare services under the Scheme. In addition, a total of 272 elderly persons and 11 PWDs have installed Safety Bells and received related subsidies through the referral of the Care Teams.

SWD will see a net decrease of 11 posts in 2025-26 under Programme (4) Rehabilitation and Medical Social Services. As these posts fall under the Clerical Assistant, Cook, Ward

Attendant and Property Attendant grades, the quality of rehabilitation services will not be directly affected. Based on the notional annual mid-point salary value of the posts involved, it is estimated that a total of about \$4.22 million can be saved this year due to the reduction of these posts.

**Estimated expenditure on day services, residential services
and community support services for PWDs and the Scheme in 2025-26**

Type of service	Percentage share of estimated expenditure
Day services	15.9%
Residential services	32.3%
Community support services	15.8%
Extension of the Scheme	0.8%
Others (including services for pre-school children/other subsidy schemes)	35.2%
Total	100%

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Government will strengthen measures to support carers. Regarding the support for carers of children with special educational needs (SEN) and persons with disabilities (PWDs), would the Government please inform this Committee of the following:

In each of the past 3 years, for the Scheme on Living Allowance for Carers of Elderly Persons from Low-income Families (Scheme for Carers of Elderly Persons) and the Scheme on Living Allowance for Low-income Carers of PWDs (Scheme for Carers of PWDs), what were the application criteria, the number of carers invited to apply, the number of applications received, the number of recipients, the number of waitlisted persons, and the expenditure involved, respectively?

In each of the past 3 years, for the Special Care Subsidy Scheme for Persons with Severe Disabilities (Subsidy Scheme), what were the number of applications received, the number of recipients, and the expenditure involved?

Under the Integrated Education Policy, in the past 3 years, what were the numbers of students with SEN in public sector primary and secondary ordinary schools at each level and in total, broken down by type of SEN?

In the past 3 years, how many students with SEN in public sector primary and secondary ordinary schools received Tier 2 and Tier 3 support?

In 2024-25, what was the manning ratio of SEN Coordinators (SENCOs) to students with SEN?

Has the Government compiled statistics on the numbers of carers across Hong Kong, including carers of elderly persons, carers of PWDs, child carers (of children under 6 years old), carers of ordinary children (aged 6 to 16), and carers of children with SEN? If such statistics have been compiled, what are the details? If not, what are the reasons?

Asked by: Hon LAM So-wai (LegCo internal reference no.: 35)

Reply:

The Scheme for Carers of Elderly Persons and the Scheme for Carers of PWDs were incorporated into the Government's regular assistance programmes in October 2023, with a total funding of \$431.5 million in 2024-25. These two schemes aim to provide carers of elderly persons/carers of PWDs from low-income families with a living allowance to supplement their living expenses so that elderly persons/PWDs in need of long-term care may, with the help of their carers, receive proper care and remain living in the community. Applicants are not required to be waitlisted but must meet the basic eligibility requirements and income criteria. The numbers of carers invited to join, applicants and allowance recipients under the Scheme for Carers of Elderly Persons and the Scheme for Carers of PWDs, respectively, in 2023-24 and 2024-25 are set out in Table 1 of Annex 1.

Incorporated into the Government's regular assistance programmes in October 2023, the Subsidy Scheme provides persons with severe disabilities who are living in the community and not receiving the Comprehensive Social Security Assistance with a special care subsidy for assisting them to purchase care goods and services or for other purposes related to nursing care. The numbers of applicants and recipients under the Subsidy Scheme in 2023-24 and 2024-25 are set out in Table 2 of Annex 1. The funding for the Subsidy Scheme in 2024-25 was about \$90 million.

According to the information provided by the Education Bureau (EDB), the numbers of students with SEN studying in public sector ordinary primary and secondary schools by grade level and type of SEN in the 2021/22 to 2023/24 school years are set out in Table 1 of Annex 2. The numbers of students with SEN receiving Tier-2 and Tier-3 support during this period are set out in Table 2 of Annex 2.

Since the 2019/20 school year, all public sector ordinary schools have been provided with a SENCO; and for schools with a comparatively large number of students with SEN, the SENCO posts have been upgraded to promotion rank so as to enable SENCOs to perform their leadership duties more effectively. Apart from SENCOs, EDB also provides an additional Learning Support Grant (LSG) based on the number of students with SEN in a school in each school year and the tier of support they require. If the total amount of LSG reaches a specific threshold, the schools will be provided with 1 to 3 additional regular teaching post(s), titled as Special Educational Needs Support Teacher.

As carers of elderly persons and PWDs, child carers, as well as carers of ordinary children and children with SEN are not required to report to the Government, SWD does not have relevant data.

Table 1: Numbers of carers invited to join the Scheme for Carers of Elderly Persons and the Scheme for Carers of PWDs, and numbers of applicants and allowance recipients

	Scheme for Carers of Elderly Persons		Scheme for Carers of PWDs	
	2023-24	2024-25 (as at 31 December 2024)	2023-24	2024-25 (as at 31 December 2024) ^{Note 1}

Note 1 Figures refer to the position as at September in the respective school years.

Note 2 Given that some parents or students are reluctant for schools to submit their information to EDB, it is presumed that there is an under-reported number of students with mental illness.

Note 3 The Early Identification and Intervention Programme for Primary One Students with Learning Difficulties is implemented at Primary One in primary schools to identify students with learning difficulties. Hence, the number of Primary One students with specific learning difficulties is smaller in September of each school year.

Note 4 The number of students with speech and language impairment increases during the respective school year upon the follow-up by school-based speech therapists.

**Table 2: Numbers of students with SEN receiving Tier-2 and Tier-3 support

LWB(W)113

(Question Serial No. 2407)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (2) Social Security

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The current Traffic Accident Victims Assistance (TAVA) Scheme aims at providing speedy financial assistance to road traffic accident victims or the surviving dependants of deceased traffic accident victims. However, it was found in the past that some individuals were involved in staging traffic accidents or forging sick leave certificates to obtain TAVA by deception. Therefore, this Scheme has been a key focus of the Social Welfare Department's (SWD) efforts to "combat abuses". In this connection, would the Government inform this Committee of the following:

How many individuals suspected of defrauding the TAVA Fund have been arrested since the implementation of the Scheme?

What is the total amount of money involved in the fraud cases under prosecution?

Among the fraud cases that have been concluded, what is the highest single amount of money involved?

What have been the court penalties for the convicted cases?

From January this year to the present, how many suspected fraud cases related to the TAVA Fund has SWD received?

The Government has mentioned a review of the TAVA Scheme; what are the latest specific details?

Asked by: Hon LAM So-wai (LegCo internal reference no.: 36)

Reply:

The Scheme aims at providing speedy financial assistance to road traffic accident victims or the surviving dependants of deceased traffic accident victims. To guard against abuse and fraud, SWD strictly verifies every application. Obtaining TAVA by deception is a criminal offence. Applicants may be prosecuted under the Theft Ordinance (Cap. 210 of the Laws of Hong Kong) and are liable, upon conviction, to a maximum sentence of 14 years' imprisonment. From 2020-21 to 2024-25, SWD referred 698 cases suspected of TAVA fraud to the Police for follow-up. During this period, the Police arrested 339 individuals on suspicion of TAVA fraud. Of these, 6 were prosecuted, while the remaining cases are still

under investigation. In addition, in 2024, the Independent Commission Against Corruption prosecuted 2 individuals for defrauding the Scheme. They were sentenced to 24 months and 14 months of imprisonment, respectively. The amounts of assistance involved were about \$300,000 and \$150,000, respectively. SWD does not have the other information sought.

To enhance the integrity of the Scheme and ensure the proper use of public funds, the Government is currently reviewing the eligibility criteria and scope of assistance under the Scheme, with a view to ensuring that they align with the Scheme's original intent, while preventing abuse and imposing severe penalties on those who commit fraud. The review is expected to be completed within this year.

LWB(W)114

(Question Serial No. 0357)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

With the Mandatory Reporting of Child Abuse Ordinance (the Ordinance) set to come into effect in January 2026, the Government has launched the Child Protection Online Training to offer online self-learning training and webinars for relevant professionals. In this connection, would the Government please inform this Committee of the following:

- 1) According to information on the website, the online self-learning training course comprises 2 modules, with only Module 1 currently available. Is there a preliminary timetable as to when Module 2 will be rolled out?
- 2) How many webinars have been organised to date, and what was the attendance for each webinar?

Asked by: Hon LAM Tzit-yuen, David (LegCo internal reference no.: 38)

Reply:

- 1) To dovetail with the operation of the Ordinance in January 2026, the Government has set up an e-learning platform to provide training and information on child protection for the relevant professions. The Child Protection Online Training platform offers online self-learning courses. Module 1 was launched in February 2024 to provide training on the basic knowledge on child protection. Module 2 is scheduled for phased rollout starting in July 2025, and will cover basic knowledge on the legal and reporting matters related to the new legislation.
- 2) In 2024, the Government also organised 3 webinars on the e-learning platform to provide enrichment programmes for professionals to study different topics related to child protection and to enhance cross-sectoral professional collaboration. These webinars also incorporated Q&A sessions to address training needs and encourage interactive learning. The number of registered users who signed up for the 3 webinars was 500, 493 and 968, respectively. As multiple participants were allowed to attend the webinars simultaneously using a single registered account, the actual number of participants may have exceeded the number of registrations. Recorded videos of the webinars have also been uploaded to the Resource Corner of the e-learning platform, allowing registered users to view and revisit the sessions.

CONTROLLING OFFICER'S REPLY**LWB(W)115****(Question Serial No. 1865)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (1) Family and Child WelfareControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

1. What are the current numbers and distribution of emergency residential child care places provided by the Government?
2. Regarding the uses of the allocated funding of \$186 million, what percentage is designated for increasing the number of emergency residential child care places and enhancing professional support services? How many additional emergency residential care places can be provided to meet the demand following the implementation of the Mandatory Reporting of Child Abuse Ordinance (the Ordinance)? How will the funding be allocated among the construction of care facilities, and the recruitment and training of professionals? What are the specific measures involved?

Asked by: Hon LAU Chi-pang (LegCo internal reference no.: 25)Reply:

1. The current numbers of emergency places for various residential child care services are tabulated as follows:

Service type	Number of service places ^{Note}
Foster care (emergency) service (for children aged 0 to below 18)	130
Residential crèche (emergency residential service) (for children aged 0 to below 3)	20
Emergency/short-term care in small group home (for children aged 4 to below 18)	48
Children's home (emergency residential service) (for children aged 6 to below 18)	5
Children's reception centre (for children aged 0 to below 18)	95
Total	298

^{Note} Statistics as at 31 December 2024.

2. To dovetail with the operation of the Ordinance in January 2026, the Government will, starting from 2025-26, allocate an additional annual provision of \$29.07 million to

increase the number of emergency residential child care places, and \$157.4 million to strengthen professional support for child abuse victims and their families, amounting to a total of approximately \$186.5 million. In terms of emergency residential child care places, 2 new residential child care centres will commence operation before the Ordinance takes effect, adding a total of 96 emergency care service places and catering for about 380 children each year.

LWB(W)116

(Question Serial No. 2450)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Mandatory Reporting of Child Abuse Ordinance (the Ordinance) will take effect on 20 January 2026 to facilitate early identification of child abuse cases and strengthen support for child abuse victims and their families. In this connection, would the Government please inform this Committee of the following:

- 1) What additional manpower and expenditure are involved in preparing for the implementation of the Ordinance?
- 2) Further to the question above, what specific tasks and measures does the Government plan to undertake during this financial year?

Asked by: Hon LEE Hoey Simon (LegCo internal reference no.: 14)

Reply:

- 1) To dovetail with the operation of the Ordinance, the Government will, starting from 2025-26, allocate an additional annual provision of \$29.07 million to increase the number of emergency residential child care places, and \$157.4 million to strengthen professional support for child abuse victims and their families, amounting to a total of approximately \$186.5 million. In 2023-24, the Government allocated an additional provision of \$24.1 million (additional full-year provision of \$24.2 million from 2024-25 onwards) to create 41 permanent posts to enhance the Government's enforcement and support capacity, provide appropriate training for practitioners in the relevant professions and strengthen promotion and public education efforts on child protection.
- 2) To ensure that professionals and the public fully understand the details and effective date of the mandatory reporting regime, as well as to actively promote child protection messages, the Government will carry out a series of activities under the three-wave "Child Protection Campaign".

The first wave commenced with the kick-off ceremony of the "Child Protection Campaign" on 20 January 2025, marking the one-year countdown to the operation of the Ordinance. Soon afterwards in the first quarter of 2025, the Government has commenced organising 10 seminars for management of institutions in the social welfare, education, and healthcare sectors. These seminars introduce the key aspects of the new

legislation, enabling heads of different organisations to review and, where necessary, update their internal guidelines, workflows, staff training, and devise measures to facilitate relevant professionals in fulfilling their legal obligations.

The second wave is a half-year countdown event to be held by the Government in July 2025, with the issuance of the Mandated Reporter Guide, featuring the upcoming commencement of the Ordinance. The Government will also organise a series of briefings for mandated reporters and related stakeholders. At the same time, Module 2 of the Child Protection Online Training will be launched to equip stakeholders with basic knowledge on the legal and reporting matters related to the new legislation. Television and radio announcements in the public interest, along with other large-scale government promotional campaigns, will be rolled out to strengthen publicity and public education.

In the third wave, the Government, in collaboration with the Commission on Children, will host activities in October 2025 to mark the final 3-month countdown. These activities will include a series of public engagement events aimed at promoting the message of child protection to the wider community.

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Government launched the 24-hour Designated Hotline for Carer Support 182 183 (the Carer Hotline) in September 2023. In this connection, would the Government please inform this Committee of the following:

1. the staffing arrangement and expenditure for the Carer Hotline last year, and the staffing and estimated expenditure for the current year;
2. the daily average number of cases received by the Carer Hotline last year, the average call duration per case, a breakdown of the types and number of cases received, the types and number of cases that required referral, and the types and number of cases that required emergency support services;
3. the measures taken by the Government to publicise the Carer Hotline so that more carers are informed about it and can seek help when needed; the expenditure on publicity last year; and
4. whether the Government will consider increasing the number of phone lines for the Carer Hotline; if so, the details; if not, the reasons for that.

Asked by: Hon LEE Tsz-king, Dominic (LegCo internal reference no.: 37)

Reply:

1. The Social Welfare Department (SWD) has commissioned the Tung Wah Group of Hospitals (TWGHs) to launch the 24-hour Carer Hotline in September 2023, with 30 phone lines answered by over 100 professional social workers on shift duties. The expenditure of the Carer Hotline is set out in Table 1 of Annex.
2. As at 31 December 2024, the Carer Hotline has received a total of about 62 800 calls with an average of about 130 calls daily, and the average duration of each call is about 20 minutes. The Carer Hotline has referred about 1 100 cases to relevant community support service units, and provided emergency support for over 90 cases through outreach services. The nature of calls received, the types of services referred, and the types of cases that required emergency support/outreaching visits are set out in Tables 2, 3 and 4 of Annex respectively.

3. SWD and TWGHs promote and publicise the Carer Hotline through various channels, including producing television and radio announcements in the public interest, posters, service leaflets and publicity materials; placing advertisements in newspapers, online media and public transportation; and organising various publicity events at the district level, etc. These promotional efforts constitute part of the 3-year territory-wide “Care the Carers” publicity campaign launched in 2023, with a total expenditure of approximately \$15 million over 3 years. In addition, the funding allocated to TWGHs by SWD for operating the Carer Hotline includes expenses for promotion, and TWGHs can flexibly deploy the funding. SWD does not have information on TWGHs’ expenditure on promoting the Carer Hotline.
4. The Carer Hotline currently has sufficient capacity to meet service demands. SWD will continue to review the Carer Hotline’s operations and service needs.

Table 1: Expenditure of the Carer Hotline

Year	2023-24 ^{Note} (Actual) (\$ million)	2024-25 (Revised estimate) (\$ million)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Government has allocated an additional \$272 million to increase the number of residential care service vouchers (RCSVs) by 1 000. In this connection, please inform this Committee of:

- (1) the number of users and the utilisation rate of RCSVs over the past 3 years;
- (2) the number of residential care homes (RCHs) participating in the RCSV Scheme for the Elderly (RCSV Scheme) over the past 3 years;
- (3) the number of inspections conducted on participating RCHs over the past 3 years; whether any non-compliance cases (such as overcharging) were identified; and, if so, what follow-up actions and penalties, if any, were imposed by the Government.

Asked by: Hon LEUNG Man-kwong (LegCo internal reference no.: 9)

Reply:

- (1) & (2) The number of users and the utilisation rate of RCSVs, and the number of recognised service providers (RSPs) participating in the RCSV Scheme over the past 3 years are set out in Tables 1 and 2 of Annex.
- (3) The Social Welfare Department (SWD) regularly conducts surprise visits to RSPs to review relevant records, interview randomly selected service users or their family members, and observe operations. These visits are carried out to assess RSPs' compliance with the relevant requirements stipulated in their service contracts. Information about SWD's service monitoring visits under the RCSV Scheme is set out in Table 3 of Annex. In the event of non-compliance, SWD will require the RCH concerned to make improvements or impose sanctions in accordance with existing mechanisms. A total of 23 non-compliance cases were identified in the past 3 years. Most of the cases involved issues related to fee-charging, and the RCHs for the elderly concerned have made improvements based on SWD's recommendations.

Table 1: Number of users and utilisation rate of RCSVs

Year	No. of RCSV users (a)	No. of RCSV holders (b)	Utilisation rate (a)/(b)x100%
2022-23	2 621	2 883	90.9%
2023-24	3 738	4 000	93.5%
2024-25 (as at end-December 2024)	4 807	5 126	93.8%

(Question Serial No. 1414)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

It is mentioned in the Budget that the Government will allocate additional funding of about \$135 million to enhance the Residential Care Services Scheme in Guangdong (GDRCS Scheme). In this regard, would the Government please inform this Committee of:

- (1) the current number of elderly persons participating in the GDRCS Scheme;
- (2) the number of elderly persons who participated in the GDRCS Scheme in each of the past 3 years, broken down by the participating residential care homes for the elderly (RCHEs);
- (3) the number of elderly persons who withdrew from the GDRCS Scheme in the past 3 years;
- (4) the number of elderly persons who participated in the 6-month trial period offered by the GDRCS Scheme since its introduction in 2023, and the number of elderly persons who withdrew from the GDRCS Scheme after the trial period; and
- (5) the expenditure on purchasing subsidised RCHE places under the GDRCS Scheme in the past 3 years, broken down by the participating RCHEs, and the difference in average costs compared with places purchased under the Enhanced Bought Place Scheme (EBPS).

Asked by: Hon LEUNG Man-kwong (LegCo internal reference no.: 10)

Reply:

- (1) to (3) As at the end of December 2024, a total of 316 elderly persons were residing in RCHEs under the GDRCS Scheme. From 2022-23 to 2024-25 (as at end-December 2024), the cumulative total of participants by year, the headcount of participants by RCHE, and the number of participants who withdrew from the GDRCS Scheme are set out in Tables 1 to 3 of the Annex, respectively.
- (4) To encourage eligible elderly persons to join the GDRCS Scheme, the Social Welfare Department (SWD) has introduced a 6-month trial stay arrangement in October 2023. From the launch of the trial stay period to the end of December 2024, a total of 207 elderly persons participated in the GDRCS Scheme, with 9 withdrawing during the trial stay period due to deteriorating health or difficulties in adaptation.

- (5) The annual expenditure from 2022-23 to 2024-25 (as at the end of December 2024) is set out below:

Year	Expenditure (\$ million)
2022-23 (Actual)	13.1
2023-24 (Actual)	18.9
2024-25 (Revised estimate)	32.1

SWD will pay service fees based on the actual number of participating elderly persons residing in RCHEs. To avoid impacting negotiations between SWD and the respective RCHEs regarding service fees, the Government does not intend to disclose the average monthly expenditure for subsidising residential care places at individual RCHEs.

**Table 1: Cumulative total of participants in the GDRCS Scheme
from 2022-23 to 2024-25**

Year	Total number of participants
2022-23	150
2023-24	195
2024-25 (as at end-December 2024)	343

CONTROLLING OFFICER'S REPLY

LWB(W)120

(Question Serial No. 1427)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the expansion of the District Services and Community Care Teams (Care Teams) – Supporting Elderly and Carers Scheme (the Scheme), would the Government please inform this Committee of the following:

- (1) What is the anticipated increase in the estimated provision for each district?
- (2) How effective was the Pilot Scheme? Are there any key performance indicators?
- (3) How will the Government ensure that there is no overlap between the services provided under the Scheme and those originally offered by Care Teams?
- (4) How will the Government ensure that there is no overlap between the services provided under the Scheme and those offered by social welfare organisations?

Asked by: Hon LEUNG Man-kwong (LegCo internal reference no.: 23)

Reply:

- (1) & (2) The Government launched the Scheme in March 2024. Taking Tsuen Wan and the Southern District as pilot points, Care Teams are engaged to help identify high-risk households of singleton and doubleton elderly, and carers of elderly persons and persons with disabilities (PWDs) through visits and contacts. Cases requiring assistance are then referred to social welfare service units for follow-up. They also assist in referring eligible elderly persons and PWDs to install and use emergency alarm systems (known as “Safety Bell”) with government subsidy. The total expenditure of the Scheme for 2024-25 was about \$9.20 million.

As at end-January 2025, a total of 36 Care Teams in Tsuen Wan and the Southern District have visited or contacted over 7 000 households of singleton and doubleton elderly and carers of elderly persons and PWDs, and have made over 1 190 referrals for welfare services under the Scheme. In addition, a total of 272 elderly persons and 11 PWDs have installed Safety Bells and received related subsidies through the referral of the Care Teams.

Encouraged by the positive outcomes of the Scheme during its pilot phase, the Chief Executive announced in the 2024 Policy Address that the Scheme would be extended to all 18 districts across the territory in the second quarter of 2025 to provide support to more elderly persons and carers. It is expected that in the 12-month implementation period of the Scheme, the Care Teams will contact over 60 000 households in need. The Scheme is expected to incur a total expenditure of about \$107.9 million for 2025-26.

- (3) The Scheme has specific service targets. The Care Teams are responsible for identifying high-risk households in need in the districts through visits or contacts, offering them ongoing care through visits, phone calls, interviews and activities, etc., as well as sharing information on social welfare services and community resources. The Care Teams will also help refer eligible persons to apply for the installation of Safety Bells and auxiliary aids (such as wheelchairs and crutches), as well as referring households in need to social welfare service units for follow-up by professional social workers or to receive social welfare services.
- (4) The objective of the Care Teams is to enhance neighbourhood support for elderly persons and carers. In addition to providing ongoing care, the Care Teams also identify households in need and refer them to appropriate social welfare service units for follow-up. As the Care Teams do not provide social welfare services themselves, there is no issue of overlap.

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the Training Subsidy Scheme for Staff of Residential Care Homes, would the Government please inform this Committee of:

- (1) the number of persons who completed training courses and received course fee subsidies, along with a breakdown of their positions and age distribution, for each of the past 3 years; and
- (2) the expenditure for the Scheme.

Asked by: Hon LEUNG Man-kwong (LegCo internal reference no.: 24)

Reply:

To enhance the service quality of residential care homes (RCHs) for the elderly (RCHes) and RCHs for persons with disabilities (RCHDs) on a continuous basis, Social Welfare Department (SWD) has implemented a 5-year scheme (the Scheme) in phases since March 2019 to provide full subsidies for home managers, health workers and care workers of all RCHes and RCHDs across the territory to enrol in Qualifications Framework-recognised training courses. After assessing the effectiveness of the Scheme and considering the views of the sector, SWD has extended the Scheme by 3 years (from 1 April 2024 to 31 March 2027) to subsidise more RCH staff to receive related training. On average, the estimated annual expenditure involved is about \$5 million.

As at the end of December 2024, a total of 6 313 RCH staff have enrolled in the training courses under the Scheme. The number of trainees in the past 3 years is set out at Annex. SWD does not have information on the breakdown of trainees who received course fee subsidies by their position or age.

Numbers of home managers, health workers and care workers of RCHs enrolled in related training courses from 2022-23 to 2024-25

Course and no. of enrolment Year	Home manager		Advanced Training for Health Workers	Training for Care Workers	Total
	Training course (A) ^{Note 1}	Training course (B) ^{Note 2}			
2022-23	344	177	90	748	1 359
2023-24	272	213	78	736	1 299
2024-25 (as at 31 December 2024)	89	155	49	949	1 242
Total:	705	545	217	2 433	3 900
	1 250				

Note 1 Trainees must be home managers currently employed by RCHes or RCHDs, other staff nominated by RCHes or RCHDs, or related professionals registered under the Laws of Hong Kong, including social workers, nurses, medical practitioners, Chinese medicine practitioners, occupational therapists, physiotherapists or pharmacists.

Note 2 Trainees must be home managers currently employed by RCHes or RCHDs, or other staff nominated by RCHes or RCHDs.

CONTROLLING OFFICER'S REPLY

LWB(W)122

(Question Serial No. 1432)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

It is mentioned in the Budget that the Government will enhance support for persons with disabilities (PWDs). In this regard, please inform this Committee of:

- (1) the content of the services expected to be provided by integrated community rehabilitation centres (ICRCs);
- (2) the expenditure and manpower earmarked for operating the 14 ICRCs, and the estimated number of beneficiaries;
- (3) the geographical distribution of the additional day community rehabilitation and home care service places for PWDs; and the anticipated increase in expenditure and manpower; and
- (4) whether the Government plans to enhance manpower training to meet the staffing needs.

Asked by: Hon LEUNG Man-kwong (LegCo internal reference no.: 28)

Reply:

The Social Welfare Department (SWD) launched a 2-year pilot project in the third quarter of 2023 to set up 2 ICRCs, integrating the services of Community Rehabilitation Day Centres and home care services, with a view to providing PWDs requiring medium to high level care with flexible and integrated community support services through a case management approach. Tailored support is also offered based on the individual needs and rehabilitation progress of each PWD.

SWD will set up 14 ICRCs across the territory in phases to provide services for PWDs in all districts. This includes regularising the operation of the 2 ICRCs set up under the pilot project starting from the third quarter of 2025, while enhancing the functions of the 4 existing Community Rehabilitation Day Centres and converting them into ICRCs progressively. SWD will also reintegrate the Home Care Service for Persons with Severe Disabilities and Integrated Support Service for Persons with Severe Physical Disabilities. This measure will create an additional 1 280 community rehabilitation and home care service places, bringing the expected total to 6 060 service places, with an additional annual expenditure of approximately \$160 million. SWD will review the operation of the pilot project to evaluate the manpower needs and training requirements for the 14 ICRCs.

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Government will regularise the Pilot Project on Enhancing Vocational Rehabilitation Services (the Pilot Project) in the third quarter of this year. In this regard, would the Government please inform this Committee of:

- (1) the annual expenditure of the Pilot Project since its implementation;
- (2) the content of the services provided and training models used in Sheltered Workshops (SWs) and Integrated Vocational Rehabilitation Services Centres (IVRSCs) that have been enhanced through the Pilot Project; and
- (3) the respective numbers of beneficiaries and successful job placements since the implementation of the Pilot Project.

Asked by: Hon LEUNG Man-kwong (LegCo internal reference no.: 29)

Reply:

- (1) The Social Welfare Department launched the 2-year Pilot Project in July 2023 with an estimated expenditure of about \$25 million.
- (2) SWs and IVRSCs participating in the Pilot Project offered 201 basic and 46 advanced training courses for trainees. Basic training courses covered areas such as life skills training, career planning, and simulated job training/internship. Advanced training courses covered topics such as art or crafts creation, information technology applications, store management and sales, as well as logistics and transportation services.
- (3) The participating SWs and IVRSCs have organised over 2 000 job attachment sessions for their trainees, spanning fields such as arts and design, computer and technology applications, catering, facilities management, sales and retail, packaging and assembly, logistics and warehousing, as well as general office administration. The Pilot Project has benefited about 1 100 persons. As at January 2025, 43 trainees successfully transitioned to supported employment training or open employment after completing training under the Pilot Project.

CONTROLLING OFFICER'S REPLY

LWB(W)124

(Question Serial No. 2160)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

It is mentioned under Matters Requiring Special Attention in 2025-26 that the Labour and Welfare Bureau will prepare for the commencement of the Mandatory Reporting of Child Abuse Ordinance (the Ordinance), oversee the enhancement of training and preparation of guidelines for practitioners in the relevant professions to facilitate early identification of child abuse cases, and strengthen support for child abuse victims and their families. In this connection, would the Government please inform this Committee of the following:

1. The Government will provide training for mandated reporters during the 18-month transitional period following the gazettal of the Ordinance. What is the expenditure on the training, the progress of the training, and the planning for the coming year? What measures are in place to ensure that all the stakeholders complete the training?
2. It is noted that the Government has allocated an additional full-year provision of \$24.2 million with effect from 2024-25 for creating 41 permanent posts, aiming to complement the implementation of the mandatory reporting regime for child abuse cases. What are the specific ranks and duties of these posts? Can they be deployed flexibly on a part-time basis to allow more effective use of resources?
3. To avoid duplicate reporting or misreporting, which could necessitate the Government to devote additional resources to handling administrative work, conducting case investigations, and other tasks, will this be addressed in the Mandated Reporter Guide (the Guide), or are there other measures being considered?
4. With respect to the follow-up work related to the mandatory reporting of child abuse cases, what is the current progress on the plan to provide additional emergency places for residential child care?
5. What measures will be taken to prevent child abuse in the coming year, and what is the estimated expenditure?

Asked by: Hon LEUNG Yuk-wai, Kenneth (LegCo internal reference no.: 1)

Reply:

- 1., 2. & 4. To dovetail with the operation of the Ordinance in January 2026, the Government will, starting from 2025-26, allocate an additional annual provision of \$29.07 million to increase the number of emergency residential child care places, and \$157.4 million to strengthen professional support for child abuse victims and their families, amounting to a total of approximately \$186.5 million. In 2023-24, the Government allocated an additional provision of \$24.1 million (additional full-year provision of \$24.2 million from 2024-25 onwards) to create 41 permanent posts to enhance the Government's enforcement and support capacity, provide appropriate training for practitioners in relevant professions and strengthen promotion and public education efforts on child protection, with a view to dovetailing the commencement of the Ordinance.

The Government has set up an e-learning platform to provide training and information on child protection for relevant professionals. The Child Protection Online Training offers online self-learning training courses. Module 1 was launched in February 2024 to provide training on the basic knowledge of child protection. Module 2 is scheduled for phased rollout starting in July 2025, and will cover basic knowledge on the legal and reporting matters related to the new legislation. Besides, the Government also organised 3 webinars in 2024 to provide enrichment programmes for professionals to study different topics related to child protection and to enhance cross-sectoral professional collaboration. These webinars also incorporated Q&A sessions to address training needs and encourage interactive learning. In addition, in the first quarter of 2025, the Government has commenced organising 10 seminars for management of institutions in the social welfare, education, and healthcare sectors. These seminars introduce the key aspects of the new legislation, enabling heads of different organisations to review and, where necessary, update their internal guidelines, workflows, staff training, and devise measures to facilitate specified professionals in fulfilling their legal obligations. During these seminars, the Government will also remind heads of organisations to monitor staff training progress, ensure that existing staff complete the Child Protection Online Training courses within the specified timeframe, and arrange for new employees to do the same, while providing the necessary support for their staff.

In terms of emergency residential child care places, 2 new residential child care centres located in Tuen Mun and Kwun Tong districts respectively, will commence operation before the Ordinance takes effect, adding a total of 96 emergency care service places and catering for about 380 children each year.

3. Furthermore, the Government plans to issue the Mandated Reporter Guide (the Guide) in July 2025, and will organise a series of briefings for mandated reporters and related stakeholders. The Guide, including decision trees, supplementary analytical frameworks, and sample case scenarios, provide mandated reporters with reference of making decisions on making reports, assist them to understand the principles of child protection, and identify cases that must be reported under their statutory obligations.

4. SWD will continue to provide a wide range of preventive, supportive and specialised services to support victims of domestic violence (including child abuse) and families in need. These services are provided through integrated family service centres/integrated services centres, Family and Child Protective Services Units, Clinical Psychology Units, family support networking teams, refuge centres for women, the Family Crisis Support Centre, the Multi-purpose Crisis Intervention and Support Centre, the Victim Support Programme for Victims of Family Violence, residential child care services and child care centres, etc. The estimated expenditure of these services in 2025-26 is about \$5.898 billion. In addition, SWD has earmarked about \$4.4 million for organising publicity and public education programmes on prevention of domestic violence (including child abuse) for 2025-26.

CONTROLLING OFFICER'S REPLY

LWB(W)125

(Question Serial No. 2161)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The 2024 Policy Address announced the launching of a pilot scheme to set up 4 Community Parents and Children Centres (CPCCs) to promote positive-parenting skills. Regarding the enhancement of child development and the protection of children's well-being, would the Government please inform of the following:

1. The locations, sizes, current progress, and projected dates of service commencement of these 4 CPCCs.
2. The future staffing establishments of these centres, whether it be necessary to deploy manpower to maintain and supervise their operations in the future?
3. What is the estimated expenditure on setting up these CPCCs, and number of families to be served each year? Given the growing popularity of play-based services for promoting parent-child interaction and education, will the Government consider expediting the next phase of the CPCC project to re-engineer more children and youth centres (CYCs) to focus on supporting families with children under the age of 6, with the goal of establishing parents and children centres that provide play-based services in all 18 districts?
4. One of the other functions of CPCCs is to reach out to socially and economically deprived families to provide early intervention. Through what channels will the Government contact and follow up on those families? What is the future establishment of social workers in these centres to follow up on the cases of needy families?

Asked by: Hon LEUNG Yuk-wai, Kenneth (LegCo internal reference no.: 2)

Reply:

The Social Welfare Department (SWD) will set up 4 CPCCs on a pilot basis by re-engineering existing CYCs located in the Eastern, Wong Tai Sin, Sha Tin, and Yuen Long districts. These CPCCs will adopt a play-based approach to promote parent-child interaction and educate parents on positive parenting methods, provide support to families with parenting needs, and refer families with other needs to appropriate government and community services. The sizes of CPCCs will range from about 300 to 700 square metres. SWD will begin renovation works in the second quarter of 2025, with the 4 CPCCs scheduled to commence operations progressively starting from 2026, benefiting about 10 000 persons in the first year.

Through collaboration between the Government and community service units, these CPCCs will contact and identify families in need of parenting support to provide appropriate services. They will also reach out to socially and economically deprived families through home visits and referrals from maternal and child health centres or other welfare service units, offering therapeutic counselling and tailor-made group programmes, etc., and refer families with other needs to appropriate government and community services.

The provision for these CPCCs amounts to around \$96.9 million over a 5-year period, from 2025-26 to 2029-30. The staffing establishment will comprise social workers, nurses, family aide workers, and child care workers, etc. Subject to compliance with the requirements of the Funding and Service Agreements, operators may determine their staffing establishment and remuneration in accordance with their human resources policies, and flexibly deploy resources and employ staff to achieve the required service outputs and outcomes. SWD will draw up service agreements for operating CPCC services, stipulating the relevant requirements and standards, including essential service requirements, service output and outcome standards, and service quality standards. SWD will monitor the CPCCs' performance in accordance with existing mechanisms, and examine the way forward for the initiative.

(Question Serial No. 2163)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

It is mentioned under Matters Requiring Special Attention of the Programme that the Department will continue to extend the After School Care Programme for Pre-primary Children [ASCP(PC)] in phases to cover all 18 districts in Hong Kong. In this connection, would the Government please provide the following information:

1. the numbers of centres and service places, and the utilisation rate of each service session under ASCP(PC) in the past 2 years, with a breakdown by district;
2. the current staffing establishment of each centre and the operating cost per service place; and
3. the timetable for extending ASCP(PC) to cover all 18 districts in Hong Kong and the estimated expenditure involved.

Asked by: Hon LEUNG Yuk-wai, Kenneth (LegCo internal reference no.: 4)

Reply:

1. The numbers of centres and service places, and the average utilisation rate under ASCP(PC) in Hong Kong in the past 2 years, broken down by District Council (DC) district, are set out at Annex.
2. Each centre of ASCP(PC) has a staffing establishment consisting of 1 Assistant Social Work Officer and 2 support staff. Each centre provides 42 service places, receives an annual recurrent funding of about \$1.2 million from the Social Welfare Department (SWD), and earmarks about \$230,000 for fee waivers/reductions for eligible service users. SWD does not have information on the operating cost per service place.
3. SWD will extend ASCP(PC) to cover all districts in Hong Kong in phases within 3 years starting from 2024. The number of centres participating in ASCP(PC) will increase from 16 to 28, and the number of service places will increase from 672 to 1 176. The 16 centres are located in 8 districts (including Central and Western, Southern, Kwun Tong, Wong Tai Sin, Sham Shui Po, North, Yuen Long, and Kwai Tsing districts). SWD is extending the service to cover the remaining 10 districts in phases. The first phase of service extension has been completed, under which the 4 centres in Eastern, Kowloon City, Sha Tin, and Tai Po districts have commenced service in February 2025. The service extension involves an additional annual expenditure of about \$14.2 million.

**Number of centres and service places, and the average utilisation rate
of ASCP(PC) by DC district**

CONTROLLING OFFICER'S REPLY

LWB(W)127

(Question Serial No. 2164)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

It is stated under the Programme that the Department will “continue to increase the places of aided child care centre (CCC) to strengthen day child care services”. In this connection, would the Government please inform this Committee of the following:

1. Regarding day child care services for children aged below 3, please provide a breakdown by District Council district of the (i) type, (ii) number of places, (iii) utilisation rate, and (iv) number of children waitlisted for various subsidised child care services.
2. Please provide a breakdown by standalone CCC and CCC attached to kindergarten (KG) of the numbers of service places for children aged 0 to 2 and those exclusively for children aged 2 or above in each district.
3. What are the progress and timetable for establishing new aided standalone CCCs, and how many additional places are expected to be provided? Will the Government implement future measures, including providing necessary modifications and support, to encourage aided KG-cum-CCCs to start providing services for children aged 0 to 2?
4. It is noted that the decrease in the utilisation rate of standalone CCCs is attributed to the establishment of new CCCs, which required time to build up their enrolment rate in the initial year of operation. As there is currently no central waitlisting system for the service places of standalone CCCs, parents must directly apply for such services from the service operators according to their needs. In order to build up the enrolment rates as soon as possible to ensure proper use of resources, will the Government consider setting up a central register or implementing other centralised application procedures so that parents interested in using such services may have one-stop access to details and waiting time for day CCCs?

Asked by: Hon LEUNG Yuk-wai, Kenneth (LegCo internal reference no.: 5)

Reply:

1. The numbers of places and the average utilisation rates for aided standalone CCCs and aided CCCs attached to KGs are set out at Annex 1. Parents can apply directly for the aforementioned child care services from the service operators, without being waitlisted under a central system.
2. The numbers of places of standalone CCCs and CCCs attached to KGs in Hong Kong are set out at Annex 2.

3. The Social Welfare Department (SWD) will set up a total of 11 more aided standalone CCCs in phases within 3 years starting from 2024, providing about 1 000 additional places. Among these, the 4 CCCs at Queens Hill Estate and Wah Ming Estate in Fanling, the Treasury Building in Sham Shui Po, and Shun Lee Estate in Kwun Tong have commenced service in 2024, providing a total of 344 places. The 100 additional places at Cheung Shun Street in Sham Shui Po and the 60 places at Kwai Fong Estate in Kwai Tsing will commence service in 2025-26, whereas the 100 additional places each at the joint-user government office building in Area 67 of Tseung Kwan O, Sai Kung and Lei Yue Mun Ancillary Facilities Block in Kwun Tong are planned to commence service in 2026-27. The remaining 3 aided standalone CCCs, proposed to be set up in districts such as Kowloon City and Kwun Tong, are planned to be put into service by the end of 2027, adding about 300 places in total.

The co-location of CCCs and KGs is managed by the Joint Office for Kindergartens and Child Care Centres (JOKC) under the Education Bureau (EDB). JOKC is staffed with officers of EDB and SWD, jointly regulating the care and education services of these service units in accordance with the requirements on premises design, staffing establishment, and safety measures, etc., under the Child Care Services Ordinance (Cap. 243), the Education Ordinance (Cap. 279), and the Operation Manual for Pre-primary Institutions, and providing one-stop services to applicants for CCC registration. If operators of existing aided CCCs attached to KGs intend to increase CCC service places for children aged below 3 in the premises, the operators may apply to JOKC. If the application complies with the aforementioned requirements, the Government will provide relevant subsidies for the aided CCCs attached to KGs.

4. Generally speaking, parents will consider the background, service features and facilities of the premises of the service operator when deciding whether to apply for CCC services. They will choose a suitable service unit located near their place of residence/work or the carer's residence based on their family's child-rearing needs. After understanding the services and arrangements of ancillary facilities provided by the CCC, parents can directly apply for services from the service operator. By understanding the circumstances of the parents and their children, the service operator can also provide more flexible support to families in need, and effectively address the service needs of different districts.

Service operators will organise promotional activities in various districts, and promote their services and recruit service users through online searches/social media/websites, setting up street booths, distributing leaflets, and hanging promotional banners, etc. SWD's website also provides information on the distribution of CCCs operated by different service units across various districts, and will regularly produce and distribute publicity materials to promote various types of day child care services.

**Numbers of places and average utilisation rates for aided standalone CCCs and
aided CCCs attached to KGs
(April to December 2024)**

CONTROLLING OFFICER'S REPLY

LWB(W)128

(Question Serial No. 2165)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding carer support under the Programme, please inform this Committee:

1. The Labour and Welfare Bureau oversees the engagement of Care Teams in 18 Districts to help identify target carers through visits and contacts, and to refer cases requiring assistance to relevant social welfare service units for follow-up. What is the expenditure of the Social Welfare Department (SWD) on training Care Teams? What was the number of training sessions provided in the past year and their content?
2. Since the implementation of the District Services and Community Care Teams - Supporting Elderly and Carers Scheme (the Scheme) in March 2024, what have been the respective numbers of target carers identified and cases referred to social welfare units for follow-up?
3. What are the manpower allocation and expenditure involved in supporting the Care Teams' identification of target carers and subsequent follow-up work, including support hotlines?
4. What is the implementation status of the territory-wide Care the Carers Campaign mentioned in the Programme, and what was the expenditure in the past year?
5. Will the Government consider establishing a registration system for carers of the elderly and persons with disabilities (PWDs) in the future? Such a system can help recognise carers, facilitate the identification and support of carers in need, and enable more targeted policymaking. If not, what are the reasons?

Asked by: Hon LEUNG Yuk-wai, Kenneth (LegCo internal reference no.: 8)

Reply:

1. The Government launched the Scheme in March 2024. Taking Tsuen Wan and the Southern District as pilot points, Care Teams are engaged to help identify high-risk households of singleton and doubleton elderly, and carers of elderly persons and PWDs through visits and outreach. Cases requiring assistance are then referred to social welfare service units for follow-up. They also assist in referring eligible elderly

persons and PWDs to install and use emergency alarm systems (known as “Safety Bells”) with government subsidy. The total expenditure of the Scheme for 2024-25 was about \$9.20 million. In 2024-25, SWD’s District Welfare Offices provided a total of 8 training sessions for the Care Teams in Tsuen Wan and the Southern District to equip them with the necessary skills.

2. As at the end of January 2025, a total of 36 Care Teams in Tsuen Wan and the Southern District have visited or contacted over 7 000 households of singleton and doubleton elderly and carers of elderly persons and PWDs, and have made over 1 190 referrals for welfare services under the Scheme. In addition, a total of 272 elderly persons and 11 PWDs have installed Safety Bells and received related subsidies through the referral of the Care Teams.
3. Encouraged by the positive outcomes of the Scheme during its pilot phase, the Chief Executive announced in the 2024 Policy Address that the Scheme would be extended to all 18 districts across the territory in the second quarter of 2025 to provide support to more elderly persons and carers. It is expected that in the 12-month implementation period of the Scheme, the Care Teams will contact over 60 000 households in need. The Scheme is expected to incur a total expenditure of about \$107.9 million for 2025-26.
4. The Government has launched a 3-year territory-wide “Care the Carers Campaign” publicity campaign since 2023-24, with a distinct theme each year. In the first year, under the theme of “Helping Carers Help Themselves”, the publicity focused on encouraging carers to help themselves. In the second year, under the theme of “Walk with Carers”, the publicity emphasised standing by carers. In the third year, under the theme of “Fostering a Carer-Friendly Community”, the publicity will focus on fostering a community environment that supports carers. SWD promotes the message of care and support for carers across the territory through various channels, including television and radio announcements in the public interest, large-scale advertisements on public transportation, promotional materials, posters, service leaflets, etc. In addition, SWD organises different publicity activities in line with the annual themes and collaborates with non-governmental and local organisations to promote support for carers, encourage mutual assistance in the community and foster a carer-friendly environment. The total expenditure for the 3 years of publicity campaign is approximately \$15 million.
5. The 2024 Policy Address proposed exploring the establishment of an inter-disciplinary and inter-organisation database of carers of elderly persons and PWDs. Leveraging existing data and information gathered on a need basis during home visits by the Care Teams under the Scheme, the Government will be able to use the database to identify high-risk cases at an early stage, facilitate targeted referrals to appropriate support services, and proactively intervene in emergencies.

CONTROLLING OFFICER'S REPLY

LWB(W)129

(Question Serial No. 3249)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Programme mentions strengthening the home-based child care service (HCCS) of the Neighbourhood Support Child Care Project (NSCCP). In this regard, would the Government please advise the following:

1. It is understood that the Social Welfare Department (SWD) subsidises non-governmental organisations to implement NSCCP, which includes HCCS and centre-based care group (CCG) services provided to children. Please provide a breakdown by district of the numbers of places for HCCS and CCG, and their respective utilisation rates.
2. It is understood that service operators can set service fees according to district circumstances. Please provide a breakdown by district of the current service fees for HCCS and CCG.
3. What was the expenditure related to training and monitoring of home-based child carers in the past year? How many monitoring activities, including home visits and surprise inspections, did SWD conduct to monitor home-based child carers?
4. If a service operator is found to be underperforming, including failing to properly recruit, assess, screen, and train home-based child carers, or in cases where home-based child carers commit violations, will the service operator's funding be reduced? In addition, since the launch of NSCCP, have there been any instances where a service operator's contract was terminated due to substandard performance?

Asked by: Hon LEUNG Yuk-wai, Kenneth (LegCo internal reference no.: 20)

Reply:

1. & 2. SWD requires service operators of NSCCP to flexibly increase the number of HCCS places to meet the actual service demands. Since NSCCP has no service quota limit, SWD does not have information on its average utilisation rate. The number of places, the number of children served, and the service fee of NSCCP, broken down by District Council district, are set out at Annex.
3. The revised estimate on NSCCP for 2024-25 was \$226.6 million. SWD allocates funding to service operators based on their expenditure on operating NSCCP,

which includes staff salaries, costs for recruiting and training home-based child carers, incentive payments, service promotion costs, and subsidies for service fee waivers/reductions, etc. At the same time, service operators are required to provide a minimum number of places and employ staff in accordance with the staffing establishment stipulated in the Service Agreement (SA) for operating NSCCP. They must also meet the service output and outcome standards specified in the SA. On this basis, service operators may flexibly deploy the funding to operate NSCCP. Therefore, SWD does not have the breakdown of the related expenditure. In 2024-25 (as at the end of December 2024), SWD conducted 23 on-site review visits to assess the training courses provided by service operators for home-based child carers under NSCCP, with a view to enhancing the quality of services delivered by home-based child carers.

4. If a service operator breaches the terms of the SA or the relevant requirements, SWD will require the operator to formulate action plans and implement rectification or improvement measures within a specified timeframe. Depending on the circumstances, SWD may also conduct investigations, issue written warnings and/or make recommendations for improvement to the operator, or even reduce funding or consider terminating the SA. Since the launch of NSCCP, no SA has been terminated due to a service operator's non-compliance with the relevant requirements.

**Number of places, number of children served, and service fee of NSCCP
(2024-25) (April to December 2024)**

District	Number of places ^{Note 1}		Number of children served ^{Note 2}		Basic service fee per hour ^{Note 3} (\$)	
	CCG	HCCS	CCG	HCCS	CCG	HCCS
Central & Western	14	78	168	133	20	28
Eastern	14	78	81	252		
Islands	14	78	145	453		
Kowloon City	14	78	5	102		
Kwun Tong	28	156	164	260		
Kwai Tsing	14	78	83	332		
North	14	78	145	142		
Southern	14	78	106	107		
Sai Kung	14	78	142	223		
Sham Shui Po	28	156	185	277		
Sha Tin	28	156	138	443		
Tuen Mun	28	156	120	510		
Tai Po	14	78	160	255		
Tsuen Wan	14	78	103	195		
Wan Chai	14	78	119	77		
Wong Tai Sin	14	78	246	130		
Yuen Long	28	156	104	750		
Yau Tsim Mong	14	78	193	343		
Total	322	1 794	2 407	4 984		

^{Note 1} Starting from September 2024, on the basis of 1 service team in each of the 18 districts in Hong Kong, SWD has added an additional service team in districts with higher service demands, namely Kwun Tong, Sham Shui Po, Sha Tin, Tuen Mun, and Yuen Long districts. As a result, the number of service teams in Hong Kong has increased from 18 to 23. Each service team is required to provide a minimum of 92 service places (i.e. the total number of places in all 18 districts should be at least 2 116). Service operators may flexibly increase the number of HCCS places beyond this requirement to meet the actual service demands.

^{Note 2} Some children used CCG services and HCCS at the same time.

^{Note 3} Starting from September 2024, the service fees for HCCS and CCG are standardised at \$28 and \$20 per hour respectively. Service users with social needs and/or financial difficulties can approach service operators for fee waivers/reductions.

LWB(W)130

(Question Serial No. 3295)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Programme states that, in 2024-25, the Family Support Networking Teams (FSNTs) successfully contacted 4 139 vulnerable households through outreaching attempts and referred 3 370 of these households to welfare or mainstream services. In this regard, please provide the following information for the past year:

1. The number of outreaching provided by each FSNT, the manpower and expenditure involved, as well as the average cost per successful case of contacting vulnerable households;
2. The number of cases broken down by the type of assistance required (e.g., low-income families, new arrivals, singleton elderly persons, etc.), along with the number of minors involved in these cases; and
3. The number of successfully contacted cases with no referrals made, and the reasons why no referrals made.

Asked by: Hon LEUNG Yuk-wai, Kenneth (LegCo internal reference no.: 21)

Reply:

FSNTs reach out to vulnerable households through outreaching. After conducting assessments and obtaining consent, FSNTs will refer these households to welfare or mainstream services. Some successfully contacted households were not referred, as they either indicated no immediate welfare needs, declined the referral, or had already received the related welfare services. The staffing establishment of each FSNT consists of 2 to 6 Social Work Assistants. The total expenditure (revised estimate) of FSNTs in 2024-25 was \$9.8 million. The Social Welfare Department does not maintain a breakdown of the other information sought.

CONTROLLING OFFICER'S REPLY**LWB(W)131****(Question Serial No. 1915)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (2) Social SecurityControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

1. Regarding the measures to assist and encourage Comprehensive Social Security Assistance (CSSA) recipients in seeking employment, please advise on the following:
 - a) the number of CSSA applicants participating in the Integrated Employment Assistance Programme for Self-reliance (IEAPS) in each of the past 5 years; and
 - b) the median average duration of CSSA receipt for each participant in each of the past 5 years.
2. The Social Welfare Department (SWD) has launched the enhanced Employment Support Services (EmSS) since April 2020. In this connection, please provide:
 - a) SWD's expenditure on commissioning non-governmental organisations (NGOs) to operate IEAPS and EmSS in each of the past years, presented in tabular form;
 - b) the average cost per participating CSSA recipient;
 - c) the respective numbers of participants who successfully secured employment or returned to mainstream education, with a breakdown by service programme; and
 - d) the number of persons who left the CSSA net because of an increase in income or other reasons in the past 3 years, with a breakdown by reason and year.

Asked by: Hon LI Sai-wing, Stanley (LegCo internal reference no.: 1)Reply:

- 1a) & 1b) The headcounts of persons who received EmSS in 2023-24 and 2024-25 are tabulated below. SWD does not have a breakdown of the headcounts by year and the average duration of receiving CSSA prior to April 2023.

Year	Headcount of persons who received EmSS
2023-24	16 480
2024-25 (up to end-December 2024)	14 022

- 2a) The expenditure incurred by SWD on commissioning non-governmental organisations (NGOs) to provide EmSS from 2020-21 to 2024-25 is tabulated below:

Year	Expenditure (\$ million)
2020-21 (Actual)	152
2021-22 (Actual)	153
2022-23 (Actual)	157
2023-24 (Actual)	159
2024-25 (Revised estimate)	162

- 2b) Based solely on the expenditure incurred by SWD on commissioning NGOs to provide EmSS and the headcount of persons who received the service in 2023-24, the average cost per headcount is about \$9,650. As each CSSA recipient receives different services under EmSS according to their individual needs and circumstances, and the number and duration of services also vary from person to person, the above average cost is for rough reference only. SWD does not have a breakdown of the headcounts by year prior to April 2023, therefore the average cost per headcount for relevant years is not available.
- 2c) Among the recipients of EmSS, the headcounts of persons who secured employment and those who returned to mainstream education for at least 1 month in 2023-24 and 2024-25 are tabulated below. SWD does not have a breakdown of the headcounts by year prior to April 2023.

Year	Headcount of persons who secured employment for at least 1 month	Headcount of persons who returned to mainstream education for at least 1 month
2023-24	1 891	110
2024-25 (up to end- December 2024)	1 307	93

- 2d) Among the recipients of EmSS, the headcounts of persons who left the CSSA net owing to securing employment and those who left owing to returning to mainstream education in 2023-24 and 2024-25 are tabulated below. SWD does not have a breakdown of the headcounts by year prior to April 2023.

Year	Headcount of persons who left the CSSA net due to securing employment	Headcount of persons who left the CSSA net due to returning to mainstream education
2023-24	489	37
2024-25 (up to end- December 2024)	311	42

- End -

CONTROLLING OFFICER'S REPLY**LWB(W)132****(Question Serial No. 1916)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (2) Social SecurityControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

Please provide information regarding the approved Comprehensive Social Security Assistance (CSSA) applications involving persons aged 18 or above who had resided in Hong Kong for less than 7 years over the past 5 years, including the number of cases, case nature, age distribution, and CSSA expenditure, with a breakdown by year.

Asked by: Hon LI Sai-wing, Stanley (LegCo internal reference no.: 2)Reply:

From 2020-21 to 2024-25, the number of approved CSSA applications involving persons aged 18 or above who have resided in Hong Kong for less than 7 years is tabulated as follows:

Year	Number of approved CSSA applications
2020-21	1 654
2021-22	895
2022-23	829
2023-24	670
2024-25 (as at end-December 2024)	522

SWD does not maintain breakdowns of the number or expenditure of these cases by case nature or age.

Programme: (2) Social Security

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The last Budget introduced the “Stepping Stone” - Pilot Scheme on “Subsidy to Encourage Employment of Disabled Recipients under the Comprehensive Social Security Assistance (CSSA) Scheme” (Pilot Scheme) to provide an additional employment subsidy of \$500 per month for employed disabled CSSA recipients. The Pilot Scheme is expected to benefit around 6 800 persons.

- a) What was the employment situation of disabled CSSA recipients over the past 3 years? Please provide a breakdown by year.
- b) What were their occupations and average income? Please provide a breakdown.
- c) What is the application status since the Pilot Scheme was launched last year? To date, how much subsidy has been disbursed, and how many persons have benefited? Does the Government consider the scheme successful in encouraging employment among persons with disabilities?

Asked by: Hon LI Sai-wing, Stanley (LegCo internal reference no.: 3)

Reply:

- a) A breakdown of the number of disabled CSSA recipients (including those receiving the standard rate for 50% disabled, 100% disabled or requiring constant attendance) with employment earnings from 2022-23 to 2024-25 is provided in Table 1 of Annex.
- b) A breakdown of the number of disabled CSSA recipients with employment earnings by occupation from 2022-23 to 2024-25 is provided in Table 2 of Annex, while their average monthly income is provided in Table 3 of Annex.
- c) The Pilot Scheme, subsidised by the Community Care Fund, was launched in September 2024 for a period of 3 years. It aims to encourage disabled CSSA recipients who are capable of working to engage with the community and unleash their potential. As at the end of December 2024, the Social Welfare Department (SWD) has disbursed subsidies of about \$9.086 million to 6 303 beneficiaries who were eligible between September and November 2024. SWD will evaluate the effectiveness of the Pilot Scheme before the end of the 3-year pilot period.

Table 1 Number of disabled CSSA recipients ^{Note} with employment earnings from 2022-23 to 2024-25

Year	Number of disabled CSSA recipients with employment earnings

Subhead (No. & title): ()

Programme: (2) Social Security

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

1. Regarding elderly persons receiving various cash allowances under the Social Security Allowance (SSA) Scheme, please provide the number of recipients of various allowances and the expenditure involved in each of the past 3 financial years as well as this year's estimates, broken down by age group (i.e. 60 to 64, 65 to 69, 70 to 74, 75 to 79, 80 to 84, and 85 or above):
 - 1). Old Age Allowance (OAA);
 - 2). Higher Old Age Living Allowance (OALA);
 - 3). Normal OALA;
 - 4). Guangdong (GD) Scheme;
 - 5). Fujian (FJ) Scheme;
 - 6). Higher Disability Allowance (HDA); and
 - 7). Normal Disability Allowance (NDA).
2. Regarding measures to help elderly persons age in the Mainland, please provide the expenditure involved (excluding administrative expenses) in each of the past 3 financial years as well as this year's estimate, broken down by scheme.
3. Please provide the number of elderly Comprehensive Social Security Assistance (CSSA) recipients in the past 3 financial years as well as this year's estimate, broken down by age group (i.e. 60 to 64, 65 to 69, 70 to 74, 75 to 79, 80 to 84, and 85 or above).
4. The Social Welfare Department (SWD) has appointed agents to help elderly persons who cannot return to Hong Kong due to health reasons to complete the application procedures. Please provide the names of agents, the annual agent fees paid by the Government, and the number of cases served by these agents over the past 5 financial years, broken down by scheme.

Asked by: Hon LI Sai-wing, Stanley (LegCo internal reference no.: 4)

Reply:

1. The number of recipients aged 60 or above under the SSA Scheme, broken down by type of allowance and age group, from 2022-23 to 2024-25 is set out in Table 1 of Annex. It is estimated that there are about 1.33 million of SSA recipients aged 60 or above in 2025-26. However, SWD has not estimated the number of these recipients broken down by age group.

The total expenditure on individuals aged 60 or above under the SSA Scheme, broken down by type of allowance, from 2022-23 to 2025-26 is set out in Table 2 of Annex. SWD does not have a breakdown of the expenditure on them by age group.

2. The expenditure on the Portable Comprehensive Social Security Assistance (PCSSA) Scheme under the CSSA Scheme, and that of the GD Scheme and the FJ Scheme under the SSA Scheme from 2022-23 to 2025-26 are set out in Table 3 of Annex.
3. The number of CSSA recipients aged 60 or above (including those under the PCSSA Scheme), broken down by age group, from 2022-23 to 2024-25 is set out in Table 4 of Annex. SWD has not estimated the number of these recipients for 2025-26 broken down by age group.
4. In 2020-21, SWD appointed the International Social Service Hong Kong Branch (ISS Hong Kong) as the implementation agent for the PCSSA Scheme, the GD Scheme, and the FJ Scheme. With effect from 2021-22, SWD has appointed the New Home Association and ISS Hong Kong as the implementation agents for the above schemes in the GD and FJ provinces, respectively. Apart from helping elderly persons who cannot return to Hong Kong due to health reasons to complete the application procedures of the GD Scheme and the FJ Scheme, the agents have to conduct annual case reviews by means of home visits and written reviews for all cases under the PCSSA Scheme, the GD Scheme, and the FJ Scheme to ascertain recipients' continued eligibility for the allowance. The agents also have to provide enquiry services to recipients, handle their reports of changes in personal circumstances, identify suitable appointees for recipients in need and recommend them to SWD, assist SWD in recovering overpayments from recipients and investigating suspected frauds, etc. The fees paid by SWD to the agents and the number of cases served by the agents from 2020-21 to 2024-25, broken down by type of cash assistance scheme, are set out in Tables 5 and 6 of Annex, respectively.

Table 1 Number of SSA recipients aged 60 or above by type of allowance and age group from 2022-23 to 2024-25

CONTROLLING OFFICER'S REPLY

LWB(W)135

(Question Serial No. 1919)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding various subsidised residential care services (RCS) for the elderly, please inform this Committee of:

1. the current number of subsidised RCS places provided by various types of residential care homes (RCHs) for the elderly (RCHes), as well as the number and utilisation rates of service places in day care centres for the elderly (DEs), broken down by the 18 districts;
2. (1) the total expenditure, (2) the average monthly cost per place and (3) the amount self-financed/supplemented by elderly persons for various types of RCS for the elderly in the past 3 years;
3. the utilisation of residential care service vouchers (RCSVs) by the elderly in the past 3 years, the number of RCSVs held by the elderly and the actual utilisation rates at each co-payment level (with a breakdown by co-payment level and the actual amount paid); and
4. the number of service places to be provided by subsidised RCHes that will be constructed and/or commence operation with government funding in the next 10 years, along with the corresponding amount of funding involved (with a breakdown by the expected year of service commencement).
5. In the current financial year, the number of RCSVs will increase to 6 000. How will these 6 000 RCSVs, together with the existing RCSVs, be distributed across the 18 districts? Please provide separate breakdowns for the situations both before and after the increase.

Asked by: Hon LI Sai-wing, Stanley (LegCo internal reference no.: 5)

Reply:

1. The number of subsidised RCS places provided by various types of RCHes as at the end of December 2024, broken down by District Council (DC) district, is set out at Annex 1. The number of service places in DEs/day care units for the elderly (DCUs) and the utilisation rate, broken down by DC district, is set out at Annex 2.

2. The total expenditure, average monthly cost per place and monthly service charges for various types of subsidised RCS for the elderly from 2022-23 to 2024-25 are set out at Annexes 3 to 5.
3. The cumulative number of RCSV holders, broken down by co-payment level, and the amount paid by RCSV users according to their co-payment levels in the past 3 years are set out in Tables 1 and 2 of Annex 6.
4. The number of subsidised RCS places expected to be put into service between 2025-26 and 2029-30 is set out below:

Year	No. of places to be put into service
2025-26	412
2026-27	1 614
2027-28	438
2028-29	600
2029-30	570

In addition, the number of RCSVs will be increased by 1 000 in 2025-26, bringing the total to 6 000. As the RCSV Scheme for the Elderly (RCSV Scheme) adopts the principle of “money-following-the-user”, information broken down by year of service commencement is not available.

Statistics for most of the subsidised RCS places expected to be operational in 2029 and beyond are currently unavailable, as the relevant RCHE projects are still in the planning stage and do not have exact completion dates. Based on the progress of individual projects, Social Welfare Department (SWD) will apply for funding in a timely manner through the established mechanism.

5. The RCSV Scheme adopts the principle of “money-following-the-user”. Eligible elderly persons are free to choose among RCHEs participating in the scheme. As at the end of December 2024, the number of places available for RCSV holders by district is set out at Annex 7. As the supply of RCSV services is mainly driven by market demand, the Government has not projected the future distribution of residential care places (RCPs) in each district.

CONTROLLING OFFICER'S REPLY

LWB(W)136

(Question Serial No. 1920)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (2) Social Security

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

1. Please provide the number of Comprehensive Social Security Assistance (CSSA) recipients residing in various types of residential care homes (RCHs) in the past 5 years (and the estimation for the current financial year), with a breakdown by age groups of above 60 (i.e. 60 to 64, 65 to 69, 70 to 74, 75 to 79, 80 to 84, and 85 or above) and mode of subvention.
2. Please provide the average monthly CSSA payments received by elderly singletons residing in subsidised and non-subsidised residential care places (RCPs), with a breakdown by level of disability.

Asked by: Hon LI Sai-wing, Stanley (LegCo internal reference no.: 6)

Reply:

1. The number of CSSA recipients residing in RCHs from 2020-21 to 2024-25, broken down by age group and type of RCPs, is set out in Table 1 of Annex. The Social Welfare Department does not have an estimation of the number of recipients for 2025-26.
2. The monthly average CSSA payments received by singletons aged 60 or above residing in RCHs from 2021 to 2025, broken down by type of RCPs and level of disability, are set out in Table 2 of Annex.

Table 1 Number of CSSA recipients residing in RCHs by age group and type of RCPs from 2020-21 to 2024-25

Year	Number of recipients			
	Subsidised RCP		Non-subsidised RCP	
	Aged below 60	Aged 60 or above	Aged below 60	Aged 60 or above
2020-21	9 239	16 793	3 730	21 978
2021-22	9 265	16 927	3 518	20 563
2022-23	9 235	17 085	3 393	18 995
2023-24	9 317	17 838	3 273	19 479
2024-25 (as at end-December 2024)	9 436	18 049	3 295	20 122

Table 2 Monthly average CSSA payments received by singletons aged 60 or above residing in RCHs by type of RCPs and level of disability from 2021 to 2025

Type of RCPs	Level of disability	1 February 2021 (\$) ^{Note 2}	1 February 2022 (\$) ^{Note 2}	1 February 2023 (\$) ^{Note 2}	1 February 2024 (\$) ^{Note 2}	1 February 2025 (\$) ^{Note 2}
Subsidised RCP	Able-bodied/ 50% disabled ^{Note 1}	5,113	5,258	5,615	5,813	5,979
	100% disabled	6,761	7,034	7,519	7,790	7,987
	Requiring constant attendance	10,621	10,879	11,581	11,704	12,115
Non-subsidised RCP	Able-bodied/ 50% disabled ^{Note 1}	8,203	8,466	9,087	9,346	9,641
	100% disabled	9,837	10,215	10,844	11,221	11,641
	Requiring constant attendance	12,669	13,156	13,923	14,434	14,838

^{Note 1} Persons aged 65 or above and those aged between 60 and 64 who have received elderly CSSA before 1 February 2019 receive the same CSSA standard rate irrespective of whether they are able-bodied or 50% disabled. Due to limitations in statistical compilation, the figures listed in this row cover able-bodied persons aged 65 or above, as well as able-bodied persons aged between 60 and 64 who have received elderly CSSA before 1 February 2019.

^{Note 2} CSSA payments are adjusted annually on 1 February in accordance with relevant mechanisms. The listed figures refer to the average payment amounts received by CSSA households when they do not have any other sources of income.

CONTROLLING OFFICER'S REPLY

LWB(W)137

(Question Serial No. 1921)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the Community Care Service Voucher (CCSV) Scheme for the Elderly (CCSV Scheme) and the Residential Care Service Voucher (RCSV) Scheme for the Elderly (RCSV Scheme), please inform this Committee of the following:

1. For each year since the launch of the CCSV Scheme, please set out in a table (1) the number of service providers; (2) the number of service places, broken down by day care service and home care service; (3) the number of elderly persons participating in the CCSV Scheme, broken down by age groups of 65 to 74, 75 to 84 and 85 or above; (4) the number of elderly persons having left the CCSV Scheme; and (5) the annual amount of government subsidy.
2. For each year since the launch of the RCSV Scheme, please set out in a table (1) the number of recognised service providers (RSPs) participating in the RCSV Scheme; (2) the number of service units; (3) the number of elderly persons participating in the RCSV Scheme, broken down by age groups of 65 to 74, 75 to 84 and 85 or above; (4) the number of elderly persons having left the RCSV Scheme; and (5) the annual amount of government subsidy.
3. Given that the service charges paid by each elderly person participating in the above 2 schemes and the amount of government subsidy vary according to the assets and incomes of individual elderly persons, please provide a breakdown of the sums paid by participants by co-payment levels.
4. The number of beneficiaries and the actual number of users since the regularisation of the CCSV Scheme; the expenditure involved; the number of organisations or units that have joined the CCSV Scheme since its regularisation; and the estimated number of additional service places per district.
5. Regarding the RSPs under the CCSV Scheme, please provide the following information:
 - a) How many RSPs are operated by private and non-governmental organisations (NGOs)? What are their respective proportions?
 - b) What are the average charges for the services provided by these RSPs?
 - c) What is the situation regarding the utilisation of CCSVs by elderly persons at these RSPs?

Asked by: Hon LI Sai-wing, Stanley (LegCo internal reference no.: 7)

Reply:

- 1., 2. & 3. The relevant information is provided at Annexes 1 to 3.
4. & 5. The CCSV Scheme was made permanent in September 2023. As at the end of December 2024, there were 297 RSPs under the Scheme, operated by 165 organisations. Among these RSPs, 127 (42.8%) were operated by 40 NGOs subvented by the Social Welfare Department (SWD), 46 (15.5%) were operated by 22 non-profit-making organisations or social enterprises, and 124 (41.8%) were operated by 103 private organisations. As the supply of CCSV services is mainly driven by market demand, the Government does not have an estimate of the future number of service places in each district. SWD will regularly review the supply of CCSV services in each district, taking into account the elderly population, the availability of service places, and the utilisation of CCSVs, and will encourage more organisations to join as RSPs under the CCSV Scheme.

The ceiling prices for various CCSV service items are set out at Annex 4. RSPs are required to list the prices of all CCSV service items for the reference and selection of CCSV holders.

As at the end of December 2024, a total of 16 788 elderly persons were holding CCSVs, of whom 11 402 were utilising CCSV services. Given that a breakdown of the number of service users by RSP involves operational data of the service providers, it is not appropriate for SWD to disclose such information.

Table 1: Statistics on the first phase of the Pilot Scheme on CCSV

Year	No. of RSPs	No. of service places ^{Note}		Cumulative no. of voucher holders	Cumulative no. of dropouts	Subsidy amount (\$ million)
		Day care services	Home care services			
2013-14	62	881	N.A.	1 251	108	3.1
2014-15	62	923	N.A.	2 092	888	41.6
2015-16	62	993	N.A.	2 919	1 555	66.9
2016-17	62	998	N.A.	2 968	1 893	55.1
2017-18	62	998	N.A.	2 968	1 914	9.1

N.A. – Not applicable

^{Note} The first phase of the Pilot Scheme on CCSV delivered services in (i) a single mode, which consisted of day care services (part-time) only; or (ii) a mixed mode, which consisted of day care (part-time) and home care services. The figures set out in the above table represent the maximum number of service places for day care services that RSPs can provide and the number of service places for home care services is not provided separately. RSPs may provide CCSV holders who need day care services with home care services.

Table 2: Statistics on the second phase of the Pilot Scheme on CCSV

Year	No. of RSPs	No. of service places		Cumulative no. of voucher holders	Cumulative no. of dropouts	Subsidy amount (\$ million)
		Day care services	Home care services			
2016-17	124	2 081	2 944	3 373	317	119.9 ^{Note}
2017-18	125	2 254	3 040	6 520	2 132

(as at end-December 2024)**

Co-payment level ^{Note}	0	1	2	3	4	5	6	7
Co-payment percentage	0.0%	10.0%	20.0%	30.0%	40.0%	50.0%	62.5%	75.0%
Co-payment amount (\$) (Care-and-attention places)	-	1,644	3,287	4,931	6,574	8,218	10,272	12,326
Co-payment amount (\$) (Nursing places)	-	2,123	4,246	6,370	8,493	10,616	13,270	15,924
No. of RCSV holders (Care-and-attention places)	7 506	849	33	19	8	8	-	422
No. of RCSV holders (Nursing places)	124	17	1	-	-	-	-	9

^{Note} As at the end of December 2024, there were a cumulative total of 8 996 elderly persons holding RCSVs. Among them, 8 845 holders were under care-and-attention category while 151 holders under nursing home category. The RCSV values for care-and-attention places and nursing places are set at \$16,435 per month (effective from 1 April 2024) and \$21,232 per month (effective from 11 June 2024), respectively. The RCSV Scheme has 8 co-payment levels, ranging from the lowest Level 0 to the highest Level 7. While RCSV holders at Level 0 are fully subsidised by the Government, those at Levels 1 to 7 are required to pay for a portion of the voucher value based on their respective co-payment percentages.

Ceiling prices of CCSV service items

Community care service items	2024-25 Ceiling price (HK\$)
<u>Centre-based Services</u>	
• Full-time day care service (12 sessions per week, at least 4 hours per session)	10,455 (per month)
• Day care service (4 hours)	243 (per session)
• Day care service outside normal service hours	97 (per hour)
• Transportation service (vehicle to/from centre)	12 (per trip)
• Escort for day care service (home to vehicle/vehicle to home)	37 (per trip)
<u>Home-based Services</u>	
Home Care Services	
• Rehabilitation exercise	
- delivered by physiotherapist/occupational therapist	963 (per hour)
- delivered by supporting staff ^{Note 2}	243 (per hour)
• Nursing care	
- delivered by enrolled / registered nurse	926 (per hour)
- delivered by supporting staff ^{Note 2}	243 (per hour)
• Personal care ^{Note 3} delivered by supporting staff ^{Note 2}	243 (per hour)
Home Support Services	
• Homemaking	147 (per hour)
• Escort	147 (per hour)
• Meal delivery	61 (per meal)
• Daytime elder sitting	
- delivered by professional staff ^{Note 1}	926 (per hour)
- delivered by supporting staff ^{Note 2} (including home respite services provided by personal care worker)	243 (per hour)
• On-site carer training	
- delivered by professional staff ^{Note 1}	926 (per hour)
- delivered by supporting staff ^{Note 2}	243 (per hour)
• Environmental risk assessment/home modification recommendation delivered by physiotherapist/occupational therapist ^{Note 1}	963 (per hour)
• Home-based services (except meal delivery and soft meal)/speech therapy service delivered outside pledged service hours	20% higher than the price for pledged service hours
<u>Others</u>	
• Residential respite service	558 (per day)
• Speech therapy service (50 minutes per session)	800 (per session)
• Soft meal (additional item for day care service/meal delivery)	6.1 (per meal)
• Rental service of assistive technology products ^{Note 4}	Approval from SWD required (per item)

Note 1 Professional staff refers to enrolled/registered nurses, physiotherapists, occupational therapists or registered social workers.

Note 2 Supporting staff include physiotherapy artisans, occupational therapy assistants, health workers, personal care workers, home-helpers, etc., who are trained and capable of providing services in their respective professions.

Note 3 Personal care services include feeding, transferring, showering/bathing, toileting/diaper changing, changing clothes, etc., but exclude meal delivery, homemaking, and escort services.

Note 4 Assistive technology products are grouped into 3 categories, namely (a) aids for daily living (e.g., nursing bed); (b) walking or transfer aids (e.g., special-function wheelchair, walking aid); and (c) bath or commode aids (e.g., hair-washing machine).

(Question Serial No. 1922)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the Scheme on Living Allowance for Carers of Elderly Persons from Low-income Families (Scheme for Carers of Elderly Persons) and the Scheme on Living Allowance for Low-income Carers of Persons with Disabilities (PWDs) (Scheme for Carers of PWDs), please inform this Committee of the following:

1. Since the launch of the Pilot Scheme for Carers of Elderly Persons, (1) how many carers have been invited to join the Scheme, (2) how many of them have been granted the allowance and (3) how many of them have been reimbursed for their training fees each year? (4) What is the annual funding amount, excluding administrative expenses? (5) What is the amount of administrative expenses each year? (Please set out the figures in a table.)
2. Since the launch of the Pilot Scheme for Carers of PWDs, (1) how many carers have been invited to join the Scheme, (2) how many of them have been granted the allowance and (3) how many of them have been reimbursed for their training fees each year? (4) What is the annual funding amount, excluding administrative expenses? (5) What is the amount of administrative expenses each year? (Please set out the figures in a table.)
3. Please provide the (1) average age, and (2) average assets and incomes of applicants since the 2 schemes began accepting applications.
4. Please provide the main reasons for applications being rejected under the 2 schemes, as well as the number of applicants who have withdrawn from the 2 schemes and their reasons for withdrawal since the 2 schemes began accepting applications, broken down by category.

Asked by: Hon LI Sai-wing, Stanley (LegCo internal reference no.: 8)

Reply:

1. & 2. The Scheme for Carers of Elderly Persons and the Scheme for Carers of PWDs have been incorporated into the Government's regular assistance programmes in October 2023. The total amount of funding allocation in 2024-25 was \$432 million. From 2023-24 to 2024-25, the numbers of carers invited to join the 2 schemes, and the numbers of carers granted allowances and reimbursed for their

training fees are set out in Table 1 of Annex. The Social Welfare Department (SWD) has deployed existing resources to implement these 2 schemes, and no additional administrative expenses have been incurred.

3. Eligible applicants for the Scheme for Carers of Elderly Persons and the Scheme for Carers of PWDs must meet the monthly household income limit. Assets are excluded from the calculation. SWD does not have information on the average salary of applicants for the 2 schemes. The average ages of eligible carers are 59 years old for the Scheme for Carers of Elderly Persons, and 49 years old for the Scheme for Carers of PWDs.
4. The main reasons for applications being rejected under the Scheme for Carers of Elderly Persons and the Scheme for Carers of PWDs since their launch include applicants currently receiving the Old Age Living Allowance (OALA)/ Comprehensive Social Security Assistance (CSSA), self-withdrawal of applications, inability to fulfill caring responsibilities, or exceeding the household income limits, etc. The numbers of carers who withdrew from the 2 schemes and their reasons for withdrawal are set out in Table 2 of the Annex.

Table 1: Numbers of carers invited to join the Scheme for Carers of Elderly Persons and the Scheme for Carers of PWDs, and numbers of carers granted allowances and reimbursed for their training fees

	Scheme for Carers of Elderly Persons		Scheme for Carers of PWDs

(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding support services for carers, please inform this Committee of the following:

1. for the Designated Hotline for Carer Support (the Carer Hotline) launched in September 2023:
 - (a) the name of the service operator, the staffing establishment of the Carer Hotline during daytime and late-night hours, and the annual expenditure involved;
 - (b) the average number of requests for assistance received daily since its launch, with a breakdown by the type of assistance sought;
 - (c) the distribution of the carers requesting assistance by district;
 - (d) the average time it takes for the calls to be connected and the average call duration regarding the above requests for assistance; and
 - (e) the number of cases that required referrals and follow-up services among the above requests for assistance, broken down by the type of follow-up services required;
2. for the Information Gateway for Carers (the Information Gateway) launched in November 2023:
 - (a) the name of the service operator, and the number of staff and annual expenditure involved in running the Information Gateway;
 - (b) the average daily hit rate since its launch; and
 - (c) the update frequency of the available information, which, as understood, includes activities in various districts, knowledge, and other resources. If the Social Welfare Department (SWD) does not have such data, how does it assess the effectiveness of the information available on the Information Gateway?

Asked by: Hon LI Sai-wing, Stanley (LegCo internal reference no.: 9)

Reply:

- 1.(a)-(e) SWD has commissioned the Tung Wah Group of Hospitals (TWGHs) to operate the Carer Hotline in September 2023, which is answered by professional social workers on 24-hour shift duties. Subject to TWGHs' compliance with the requirements of the Funding and Service Agreements, it may flexibly deploy resources to achieve the required service outputs and outcomes. The revised estimated expenditure of the Carer Hotline for 2024-25 is about \$20.4 million. As at 31 December 2024, the Carer Hotline has received about 62 800 calls with an average of about 130 calls daily, and the average duration of each call is about 20 minutes. The Carer Hotline has referred about 1 100 cases to relevant community support service units, and provided emergency support for over 90 cases through outreach services. The nature of calls received and the types of services referred are set out in Tables 1 and 2 of Annex respectively. SWD does not have information about the distribution of assistance cases by district, staffing level of the Carer Hotline at different times, or the average waiting time for callers to be answered.
- 2.(a)-(c) In collaboration with the Hong Kong Jockey Club Charities Trust (HKJCCT), SWD commissioned the Hong Kong Shue Yan University (HKSJU) to develop the Information Gateway to provide information on services for elderly persons, persons with disabilities and their carers, caring skills, as well as community activities and resources for carers, etc. The Information Gateway was launched on 30 November 2023 and its content is updated from time to time to better cater to the needs of carers. As at 31 January 2025, the Information Gateway had a cumulative website traffic of about 2.40 million. The funding for running the Information Gateway for the first 3 years comes from HKJCCT. SWD does not have information on the manpower and estimated expenditure involved, or the average daily hit rate or information update frequency. HKSJU collects views from the public and stakeholders through seminars/workshops and questionnaires. SWD and HKSJU regularly review the usage of the Information Gateway and enhance it based on feedback from stakeholders. At the same time, publicity and promotion efforts are stepped up through various channels to raise awareness of the Information Gateway and encourage its wider use.

Table 1: Nature of calls received by the Carer Hotline

CONTROLLING OFFICER'S REPLY

LWB(W)140

(Question Serial No. 1924)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

1. The Social Welfare Department (SWD) currently provides day respite service places and residential respite places for both elderly persons and persons with disabilities (PWDs). Please set out the following information for each of these services over the past 3 years in a table, with a breakdown by the 18 districts: (1) distribution of service places, (2) longest/average waiting time for services, (3) number of persons on waiting lists, (4) fees charged, and (5) service costs.
2. In December 2024, SWD announced the further expansion of the day respite service network so that carers can take short breaks or attend to personal matters. As of today, how many private residential care homes for the elderly (RCHEs) participating in the Enhanced Bought Place Scheme (EBPS) are providing these services?
3. It is understood that these RCHEs in addition to providing residential respite services for the elderly, also offer day respite services to elderly persons in need within the community when residential places are vacant. What is the current status regarding the provision of elderly respite services to carers by these RCHEs? Please provide a breakdown by district and type of RCHEs.
4. Carer Spaces will progressively be established under the Jockey Club Carer Space Project throughout Hong Kong to provide support for carers. Will the Government consider adopting a similar support model by establishing one-stop, carer-centred support centres in all 18 districts of Hong Kong?

Asked by: Hon LI Sai-wing, Stanley (LegCo internal reference no.: 10)

Reply:

1. The numbers of places for respite services for the elderly and PWDs by district, and the charges for the 2 services from 2022-23 to 2024-25 are set out at Annexes 1 to 6.

Elderly persons, PWDs or carers can apply for respite services directly from the service units without having through the central referral system. Therefore, SWD does not have information on the waiting time or the number of waitlisted persons.

Regarding day respite services provided by recognised service providers (RSPs) under the Community Care Service Voucher (CCSV) Scheme, the estimated annual expenditure is about \$24 million. SWD does not maintain records of the costs of respites services provided beyond the scope of the CCSV Scheme, as these services are part of the overall operations of the respective service units.

2. & 3. Starting from December 2023, SWD has required private RCHEs participating in EBPS to provide day respite services when there are vacancies in their residential respite places. As at the end of December 2024, a total of 134 private RCHEs participating in EBPS provided such services. The number of service places provided under this measure and the attendance, broken down by District Council (DC) district, are set out at Annex 7.
4. SWD provides elderly persons/PWDs and their carers in various districts of Hong Kong with diversified community support services based on their different needs through 214 district elderly community centres/neighbourhood elderly centres, 100 day care centres/units for the elderly (DEs/DCUs), 21 district support centres for PWDs, 19 parents/relatives resource centres and 24 integrated community centres for mental wellness, etc. These services include counselling, outreach services, referral for respite services, care skills training, stress-relief groups and recreational activities, etc. The staff of these service units maintain close communication with the family members/carers of service users to jointly formulate individual care plans for the elderly persons or PWDs. Family members/carers may also learn care skills and seek assistance. SWD collaborates with other organisations providing support services to foster greater synergy.

Number of designated residential respite places for the elderly ^{Note} by DC district

CONTROLLING OFFICER'S REPLY

LWB(W)141

(Question Serial No. 1925)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

To enable carers to take short breaks or attend to personal affairs when needed, the Social Welfare Department (SWD) currently provides home respite services through various home-based support services, including Integrated Home Care Services (Frail Cases) [IHCS(FC)], Enhanced Home and Community Care Services (EHCCS), Home Care Service (HCS) for Persons with Severe Disabilities and Integrated Support Service for Persons with Severe Physical Disabilities (ISS). Please tabulate the following information for the above services over the past 3 years:

a) the number of service units; b) the number of available service places and the actual number of beneficiaries for each service; c) the number of persons currently waitlisted for each service and their average waiting time; d) the average fee for each service; and e) the expenditure/cost associated with each service.

Asked by: Hon LI Sai-wing, Stanley (LegCo internal reference no.: 11)

Reply:

From 2022-23 to 2024-25, SWD provided subvention to 24 NGOs to operate 61 IHCS teams, providing a total of 4 120 IHCS(FC) service places. Another 14 NGOs operated 31 EHCCS teams, providing a total of 9 245 service places. The number of persons served, number of persons waitlisted, average waiting time, service fees and charges, average cost, and total annual expenditure for these 2 services are set out at Annexes 1 to 5.

In addition, from 2022-23 to 2024-25, SWD provided subvention to 6 NGOs to operate 6 teams of HCS for Persons with Severe Disabilities and 2 ISS teams, providing a total of 3 550 and 900 service places, respectively. The number of persons served, total annual expenditure and service fees and charges for these 2 services from 2022-23 to 2024-25 are set out at Annexes 6 to 8. Since the duration and combination of services vary for each case, SWD does not have the average monthly cost per case for these 2 services. Service users can access these services through social workers or by applying directly to the centres. There are no central waiting lists for these services.

**Numbers of persons served under HCS for Frail Elderly Persons
from 2022-23 to 2024-25**

Year	IHCS(FC)	EHCCS
2022-23	5 654	12 766
2023-24	5 477	12 627
2024-25 (as at end-December 2024)	5 037	11 490

**Number of persons waitlisted and average waiting time for
HCS for Frail Elderly Persons^{Note 1} from 2022-23 to 2024-25**

Year^{Note 2}	No. of waitlisted persons^{Note 3}	Average waiting time (in months) (average of the past 3 months)
2022-23	4 341	6
2023-24	6 044	8
2024-25 (as at end- December 2024)	7 542	11

Note 1 Including IHCS(FC) and EHCCS.

Note 2 The figures represent the number of waitlisted persons and the average waiting time as at the end of March for the respective year, except for 2024-25.

Note 3 Frail elderly persons who have been assessed as suitable for community care services or residential care services under the Standardised Care Need Assessment Mechanism for Elderly Services can be waitlisted for IHCS(FC) and/or EHCCS. The number of waitlisted persons excludes elderly persons classified as inactive cases because of their participation in the Community Service Voucher Scheme for the Elderly.

**Service fees and charges for HCS for Frail Elderly Persons^{Note}
from 2022-23 to 2024-25**

Service type		Service fees and charges (\$) (subject to income level)		
		Comprehensive Social Security Assistance (CSSA) level or below	Between CSSA to 1.5 CSSA level	Above 1.5 CSSA level

CONTROLLING OFFICER'S REPLY**LWB(W)142****(Question Serial No. 1926)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (1) Family and Child WelfareControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

1. Please provide information on the situation of residential child care services (RCCS) for the past 3 years, as well as the number of additional places planned for the future using the table below.

Type of service unit subsidised/ subvented by the Social Welfare Department (SWD)	Number of places in 2024-25	Number of places to be added in the coming 3 years	Number of waitlisted children (to date)	Average waiting time (month) (to date)	Average amount of subvention received by non-governmental organisations (NGOs) each year (\$)
I. RCCS for able-bodied children					
Foster care service (for children aged 0 to below 18)					
Foster care (emergency) service (for children aged 0 to below 18)					
Residential child care centre (RCCC) (residential crèche) (for children aged 0 to below 3)					
RCCC (residential nursery) (for children aged 3 to below 6)					
Small group home (SGH) (for children aged 4 to below 18)					
Emergency/ short-term care in SGH (for children aged 4 to below 18)					
Children's home (for children aged 6 to below 21)					

Type of service unit subsidised/ subvented by the Social Welfare Department (SWD)	Number of places in 2024-25	Number of places to be added in the coming 3 years	Number of waitlisted children (to date)	Average waiting time (month) (to date)	Average amount of subvention received by non-governmental organisations (NGOs) each year (\$)
Children's reception centre (for children aged 0 to below 18)					
Boys' home (with school for social development (SSD) on-site) (for those aged 7 to below 18)					
Girls' home (with SSD on-site) (for those aged 9 to below 18)					
Boys' home (without school on-site) (for those aged 11 to below 21)					
Girls' home (without school on-site) (for those aged 12 to below 21)					
Girls' hostel (for those aged 14 to below 21)					
Boys' hostel (for those aged 15 to below 21)					
II. RCCS for children with disabilities					
Residential special child care centre (RSCCC) (for children aged 2 to below 6)					
SGH for mildly mentally handicapped children (for children aged 6 to below 18)					

2. It is understood that SWD does not have the statistics regarding the staffing of the above NGOs nor the average length of service of their staff. Will the Government consider collecting such data to better understand the staffing arrangements of these NGOs and using it as an important factor in assessing their service quality?

Asked by: Hon LI Sai-wing, Stanley (LegCo internal reference no.: 12)

Reply:

1. The service information on RCCS for the past 3 years is set out at Annex.
2. Subject to compliance with the requirements of the Funding and Service Agreements (FSAs) and the relevant statutory staffing requirements (if applicable), NGOs operating subvented welfare services may determine their staffing establishment in accordance with their human resources policies, and flexibly deploy resources and employ staff to achieve the required service outputs and outcomes. Therefore, SWD does not have information on the staff providing services in these NGOs. NGOs receiving subventions to operate services are required to comply with the relevant requirements

and standards stipulated in the FSAs, including essential service requirements, service output and outcome standards, and service quality standards. SWD will monitor the performance of the service units in accordance with existing mechanisms, and conduct scheduled or surprise visits by random selection to assess the NGOs' compliance with the terms and requirements of FSAs.

Numbers of places and additional places, number of waitlisted children and their average waiting time, and amount of subvention provided to NGOs for various types of RCCS

Item	Year	RCCS for able-bodied children																RCCS for children with disabilities

CONTROLLING OFFICER'S REPLY

LWB(W)143

(Question Serial No. 1927)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: Not Specified

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Government was granted funding totalling \$20 billion by the Finance Committee of the Legislative Council on 30 June 2020 to purchase premises for the provision of welfare facilities.

1. Please provide an update on the progress of the purchase programme thus far, with a tabulated breakdown of the details of each premises to be purchased, including location, area, designated use and acquisition price.
2. How many of these purchases have been affected by the current Government's fiscal deficits? Please provide a detailed explanation.

Asked by: Hon LI Sai-wing, Stanley (LegCo internal reference no.: 13)

Reply:

1. With the assistance of the Government Property Agency (GPA), the Social Welfare Department (SWD) is striving to identify suitable premises for purchase through different channels. As at 28 February 2025, SWD has incurred about \$240 million in actual expenditure on the "purchase of welfare premises" under the Capital Works Reserve Fund, covering the payment for 5 premises. 2 of these premises are located in Sham Shui Po District, while the remaining 3 are located in Central and Western District, Eastern District and Kwun Tong District, respectively. These premises are for operating a parents/relatives resource centre, a support centre for persons with autism, and a neighbourhood elderly centre, as well as for providing on-site pre-school rehabilitation services.
2. In June 2020, the Government obtained approval from the Finance Committee of the Legislative Council to create a new commitment of \$20 billion for implementing the "purchase of welfare premises" initiative. SWD and GPA are continuing their efforts to identify and purchase suitable premises, and have earmarked \$250 million for related work in 2025-26.

CONTROLLING OFFICER'S REPLY

LWB(W)144

(Question Serial No. 1928)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: Not Specified

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

1. The Government is going to reduce recurrent expenditure by cutting funding for social welfare organisations. Non-governmental organisations (NGOs) that receive \$50 million or more in subvention will face consecutive cuts of 2% and 3% for 2 years in 2025/26. Meanwhile, the remaining 119 NGOs that receive less than \$50 million in subvention will face a cumulative reduction of 3% in funding, with the Social Welfare Department (SWD) absorbing the remaining 4%. Please list the names of the affected NGOs and their respective funding allocations for 2 years in 2025/26.
2. As a standard practice, NGOs are required to return to the Government any Lump Sum Grant (LSG) reserve exceeding 25% of their annual operating expenditure at the end of each financial year. The Government has stated that it will extend the deadline, allowing large-sized NGOs to retain funds exceeding the LSG reserve ceiling for a period of 6 years, starting from the previous year, while small-sized NGOs can retain such funds for 5 years, beginning this year. Please list the names of these NGOs and the amount of funding they receive.
3. Has the Government assessed how the aforementioned measures will affect these NGOs' human resource deployment and the quality of services delivered by their service units?

Asked by: Hon LI Sai-wing, Stanley (LegCo internal reference no.: 14)

Reply:

1. In the 2025-26 Budget, the Financial Secretary introduced measures to step up the Productivity Enhancement Programme (PEP), with the rate of reduction of recurrent government expenditure to be increased from the original 1% to 2% in 2025-26 and be extended for 2 years to 2027-28. Taking into account the 1% cut in 2024-25, the cumulative rate of reduction will be 7% in total.

To support NGOs operating subvented welfare services in implementing PEP, the Labour and Welfare Bureau and the Social Welfare Department (SWD) have made concerted efforts by reallocating internal resources and adjusting priorities to alleviate some of the financial burden on NGOs, ensuring they have adequate time to prepare for the adjusted PEP. Under PEP, 58 NGOs with provisional LSG

allocations of \$50 million or more in 2024-25 will be required to cumulatively reduce their recurrent allocations by 2%, 5%, and 7% in 2025-26, 2026-27, and 2027-28, respectively. For the 121 NGOs receiving provisional LSG allocations of less than \$50 million in 2024-25 or subvention under the conventional subvention mode, they will be required to cumulatively reduce their recurrent allocations by 1% and 3% in 2026-27 and 2027-28, respectively. The provisional allocation amounts for various NGOs in 2025-26 are set out at Annex.

2. & 3. To enable NGOs to make more effective and long-term financial plans and arrangements, all NGOs will be allowed to retain and utilise funds exceeding the cap for the LSG reserve until 2028-29. Furthermore, starting from 2025-26, SWD will allow NGOs greater flexibility to reduce their workload related to cost apportionment. Provided that service users are not affected, SWD will review and optimise the content of Funding and Service Agreements (FSAs) and streamline the requirements for reporting service data, thereby alleviating administrative work for NGOs and relieving pressure on frontline staff.

Under the LSG Subvention System, SWD allocates recurrent subvention to NGOs with grants in a lump sum each year for operating welfare services. Subject to their compliance with the requirements of the FSAs and relevant statutory staffing requirements, NGOs may determine their staffing establishment in accordance with their own human resource policies, and flexibly deploy resources and employ staff to achieve the service outputs and outcomes required.

SWD has also introduced initiatives to support social welfare organisations in 2024-25, including a \$1 billion injection into the Innovation and Technology Fund for Application in Elderly and Rehabilitation Care to enhance subsidies for eligible elderly and rehabilitation service units to procure, rent, or trial technological products. In addition, SWD has established a dedicated fund of \$500 million to help NGOs meet their development needs, such as staff training and system enhancement, as well as encouraging and promoting the application of information technology (IT). The use of technology products and IT will help enhance NGOs' operational efficiency and alleviate manpower demands.

List of NGOs subject to subvention reductions, eligible to retain surpluses exceeding the LSG Reserve cap and the amount of subvention (provisional) received

CONTROLLING OFFICER'S REPLY

LWB(W)145

(Question Serial No. 1929)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the existing provision of residential services for people with rehabilitation needs, i.e. (1) halfway houses (HWHs) for persons in mental recovery, (2) long stay care homes (LSCHs) for persons in mental recovery, (3) integrated vocational training centres (IVTCs) for the mentally handicapped, (4) hostels for moderately mentally handicapped persons (HMMHs), (5) hostels for severely physically handicapped persons (HSPHs), (6) care-and-attention homes for the aged blind (C&A/ABs), (7) small group homes for mildly mentally handicapped children [SGH(MMHC)s], and (8) supported hostels (SHOSs):

1. Please tabulate the following information for various residential rehabilitation services in the past 3 years: (a) the number of service places, (b) the enrolment rate, (c) the average waiting time, (d) the number of waitlisted applicants who passed away, (e) the average age of residents, (f) the annual expenditure, and (g) the staffing establishment.
2. What is the Government's plan to expand residential rehabilitation services in the future? Please provide details of the plan and the expenditure involved.

Asked by: Hon LI Sai-wing, Stanley (LegCo internal reference no.: 15)

Reply:

1. The number of service places, the average enrolment rate, the average waiting time, the number of waitlisted applicants who passed away, and the annual expenditure for various residential rehabilitation services in the past 3 years are set out in Tables 1 to 5 of Annex 1. SWD does not have information on the average age of residents or the staffing establishment of individual residential rehabilitation services.
2. The number of places for various residential rehabilitation services will increase by a total of 324 in the next 2 years, involving an estimated total annual funding of about \$83.19 million. Information on these service places is set out at Annex 2.

Table 1: Number of service places for various residential rehabilitation services

Service type	No. of service places		
	2022-23	2023-24	2024-25 (as at 31 December 2024)

CONTROLLING OFFICER'S REPLY

LWB(W)146

(Question Serial No. 1930)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Social Welfare Department (SWD) announced this year that starting from 1 March, 4 additional residential care homes for the elderly (RCHEs) located in Jiangmen, Foshan and Shenzhen would become recognised service providers (RSPs) under the Residential Care Services Scheme in Guangdong (GDRCS Scheme) to provide subsidised care-and-attention places for participating elderly persons. Together with the existing 11 RCHEs, the total number of participating RCHEs under the GDRCS Scheme has increased to 15. In this regard, would the Government please provide:

1. the number of elderly persons participating in the GDRCS Scheme thus far, broken down by the RCHEs in which they are enrolled;
2. the annual funding provision for each of the service operators, the number of places available and the actual enrolment rate;
3. the estimated expenditure for sharing part of the elderly participants' medical expenses in Guangdong on a pilot basis and engaging an organisation to provide care services for participating elderly persons of the GDRCS Scheme as proposed by the Government, and the progress achieved thus far; and
4. the number of RCHEs expected to participate in the future as the Government plans to proactively expand the GDRCS Scheme.

Asked by: Hon LI Sai-wing, Stanley (LegCo internal reference no.: 16)

Reply:

1. & 2. As at the end of December 2024, a total of 316 Hong Kong elderly persons had been admitted to RCHEs under the GDRCS Scheme. The number of residential care places available and the actual number of residents in each participating RCHE under the GDRCS Scheme are set out at Annex. The revised estimated expenditure for the GDRCS Scheme in 2024-25 is about \$32.1 million. SWD will pay the care service fees based on the actual number of participating elderly persons residing in RCHEs. To avoid impacting negotiations between SWD and the respective RCHEs regarding service fees, the Government does not intend to

disclose the average monthly expenditure for subsidising residential care places at individual RCHEs.

3. To assist elderly participants of the GDRCS Scheme in adapting to life in RCHEs in Guangdong (GD), SWD will engage a Hong Kong-based NGO experienced in Mainland social services to provide care services for elderly persons participating in the GDRCS Scheme and their families. In addition to supporting elderly persons in adapting to life in RCHEs in GD, the NGO will conduct standardised care need assessment for elderly services for elderly persons from Hong Kong who have settled in Mainland cities within the Greater Bay Area, and follow up on the applications of eligible elderly persons to join the GDRCS Scheme. These services are expected to be rolled out in May 2025, with an estimated expenditure of approximately \$3.2 million for 2025-26. Moreover, SWD will implement a pilot scheme to share part of the medical costs incurred by elderly participants of the GDRCS Scheme in GD. The annual subsidy is capped at RMB10,000 per person for outpatient services, and RMB30,000 per person for inpatient services. The Government is currently finalising the implementation details of the pilot scheme, which is expected to be launched in the second half of 2025 for a period of 2 years. The total estimated expenditure for this pilot scheme is approximately \$75 million.
4. In July 2023, SWD relaxed the eligibility criteria for operators participating in the GDRCS Scheme. Local organisations with experience in providing subsidised residential care services and a good track record (including NGOs and private organisations) may apply for participation in the GDRCS Scheme. At the same time, in accordance with the cooperation agreement outlined in the “Letter of Intent on Collaboration to Expand the Residential Care Services Scheme in Guangdong”, signed between the Labour and Welfare Bureau and the Department of Civil Affairs of GD Province in November 2023, SWD continues to liaise with relevant departments in Mainland cities within the GBA, with a view to identifying suitable Mainland RCHEs for inclusion in the GDRCS Scheme.

**Number of elderly residents by RCHE
(as at end-December 2024)**

RCHE	Number of available residential care places	Number of elderly persons admitted ^{Note 1}

CONTROLLING OFFICER'S REPLY**LWB(W)147****(Question Serial No. 1931)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (3) Services for The ElderlyControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

1. What has been the number of elderly residents in various subvented and private residential care homes for the elderly (RCHEs) in the past 3 years up to the present, broken down by age groups (60 to 65 years old/65 to 75 years old/75 to 85 years old/85 years old or above)?
2. What has been the number of elderly residents in various subvented and private residential care homes for persons with disabilities (RCHDs) in the past 3 years up to the present, broken down by age groups (60 to 65 years old/65 to 75 years old/75 to 85 years old/85 years old or above)?
3. What are the respective ratios of the above residential care home (RCH) residents to the total elderly population in Hong Kong for the past 3 years? Has the Government assessed the projected ratios of elderly residents in RCHs for the next 3 years?
4. What is the current number of staff working in subvented and private RCHEs? Please provide a breakdown by position, including supervisors, nurses, health workers, care workers, care assistants, and others.
5. What is the current number of staff working in subvented and private RCHDs? Please provide a breakdown by position, including supervisors, nurses, health workers, care workers, care assistants, and others.
6. How has the Government increased the supply of manpower in RCHs through various training or funding programmes/policies over the past 5 years? Please refer to the table below.

Programme name/ initiative	Number of trainees/ Number of trainees who joined the industry	Related expenditure

7. How does the Government plan to further increase the manpower available for RCHEs in the future? Please provide details.

Asked by: Hon LI Sai-wing, Stanley (LegCo internal reference no.: 17)

Reply:

1. The number of elderly residents in various types of RCHEs in the past 3 years is set out in Table 1 of Annex. The Social Welfare Department (SWD) does not have information on the age groups of elderly residents in RCHEs.
2. The number of elderly residents in various types of RCHDs in the past 3 years is set out in Table 2 of Annex. SWD does not have information on the age groups of elderly residents in RCHDs.
3. Elderly residents in RCHEs constitute about 4% of the total elderly population aged 65 or above, while elderly residents in RCHDs make up about 0.19% of the total elderly population aged 60 or above in Hong Kong in the past 3 years.

SWD has adopted a multi-pronged approach to increase the number of subsidised residential care places (RCPs) while providing a range of community support services. Since the admission of elderly persons to subsidised RCPs is affected by a number of factors, SWD has not projected the proportion of elderly residents in RCHs for the next 3 years.

4. The number of staff employed in various types of RCHEs as at the end of December 2024 is set out in Table 3 of Annex.
5. The number of staff employed in various types of RCHDs as at the end of December 2024 is set out in Table 4 of Annex.
6. & 7. Since 2012, SWD has implemented a training sponsorship scheme to provide funding support to non-governmental organisations (NGOs) operating subsidised elderly services or rehabilitation services. The purpose is to fully sponsor the tuition fees of students admitted to and completed designated programmes in occupational therapy and physiotherapy, thereby encouraging them to join the social welfare sector. The Government will continue to implement the scheme to sponsor an additional 750 students to enrol in the above 2 designated programmes in the next 5 years starting from 2023-24, involving an expenditure of about \$447 million. Sponsored students are required to work in NGOs operating subsidised welfare services for at least 2 to 3 years after graduation. As at the end of December 2024, a total of 470 graduates who participated in the scheme have joined the social welfare sector, with 249 in occupational therapy and 221 in physiotherapy.

SWD launched the Navigation Scheme for Young Persons in Care Services (Navigation Scheme) in 2015-16, and enhanced it in 2020-21 to provide a total of 1 200 training places within 5 years, involving an expenditure of about \$266 million. As at the end of December 2024, the enhanced Navigation Scheme has recruited a total of 1 377 trainees, of whom 486 have graduated. According to the information provided by some trainees at the time of graduation, 283 indicated that they would continue to be employed in social welfare service units.

To address the shortage of nurses in the social welfare sector and meet the demand for nurses in RCHs, SWD has implemented the Enrolled Nurse (General) Training Programme for the Welfare Sector since the 2017/18 academic year. SWD will continue to implement the programme for 5 consecutive academic years from

2023/24 to 2027/28, and subsidise over 1 700 additional students to enrol in the training programme, with each cohort subsidising 427 places, involving an expenditure of about \$587 million. Trainees are required to work as Enrolled Nurses (General) in welfare service organisations recognised by SWD for a minimum of 2 or 3 consecutive years after completing the training programme. As at the end of December 2024, 863 out of the 944 graduates from the training programme during the academic years from 2017/18 to 2021/22 worked as Enrolled Nurses (General) in the social welfare sector during the 2-year commitment period after graduation. Among them, 654 worked in RCHes.

Employers in the elderly care service sector were given approval to import 1 511 and 1 631 elderly care workers through the Supplementary Labour Scheme (SLS) in 2020 and 2021 respectively. To help RCHs face the challenge of manpower shortage during the COVID-19 pandemic, the Government relaxed certain requirements for the sector to import care workers through SLS from March to May 2022. RCHes were given approval to import 3 441 care workers in 2022.

SWD launched the Special Scheme to Import Care Workers for Residential Care Homes (Special Scheme) in June 2023. When the Special Scheme was launched, the quota for importation was capped at 7 000, including about 4 000 care workers who were previously imported through SLS. After reviewing the demand and supply of care workers in the RCH sector, the Government announced in July 2024 an increase of 8 000 quotas over the next 3 years, raising the total quota limit to 15 000. Taking into consideration the overall demand for and supply of care workers in the RCH sector, the Secretary for Labour and Welfare will make timely adjustments to the total number of quotas, as well as the allocation and pace of each batch, with a view to responding flexibly and swiftly to changes in the supply of and demand for manpower in the RCH sector. As at end-December 2024, 4 rounds of applications for quotas to import care workers under the Special Scheme were completed, resulting in 6 439 quotas and 749 quotas (including those for contract renewals) being granted in batches to various RCHes and RCHDs, respectively.

The Special Scheme is implemented by 5 SWD staff members, including 1 Senior Social Work Officer, 1 Social Work Officer, 1 Executive Officer II, 1 Assistant Clerical Officer and 1 Clerical Assistant. The Special Scheme incurred a manpower expenditure of about \$2.88 million over a 10-month period in 2023-24 and about \$3.56 million in 2024-25. In addition to the dedicated manpower mentioned above, SWD has also deployed its existing resources to support the implementation of the Special Scheme.

To implement the measures announced in the 2022 Policy Address, SWD commissioned a consultant in July 2023 to review the skill and qualification requirements of staff providing health and rehabilitation services in RCHs, with a view to establishing professional standards and a career progression pathway for them. In the same month, the Steering Committee on Review of Manpower for Healthcare Services in RCHs was established to provide advice and steer for the review. The relevant work was completed at the end of 2024. The consultancy report put forth 4 key recommendations, including the establishment of a new professional rank, “Health & Care Practitioner”, specialising in the provision of care services in RCHes, RCHDs and other elderly/rehabilitation welfare service units. This will not only attract individuals aspiring to build a career in the social

welfare sector, but also provide a career development pathway for Health Workers, and cultivate a dedicated pool of care talent for the sector. In addition, the report recommended that RCH operators adopt measures to attract and retain talent, such as enhancing career development and promotion opportunities, leveraging information technology and gerontechnology, improving the work environment and culture, and implementing staff engagement and incentive mechanisms. SWD has accepted the report and will progressively implement the relevant recommendations.

Table 1: Number of elderly residents in RCHEs

Type of RCHE ^{Note}	2022-23	2023-24	2024-25 (as at end-December 2024)

(Question Serial No. 1932)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Last year's Policy Address proposed extending the District Services and Community Care Teams – Pilot Scheme on Supporting Elderly and Carers to all 18 districts across the territory. In this regard, please provide the following information:

1. Since the launch of the Scheme, how many elderly persons and carers have been reached? How many cases have required referrals? What types of follow-up support services have been provided, and how many of each type have been delivered?
2. What is the progress of extending the Scheme to all 18 districts? What are the manpower and expenditure involved?

Asked by: Hon LI Sai-wing, Stanley (LegCo internal reference no.: 18)

Reply:

1. The Government launched the District Services and Community Care Teams (Care Teams) – Supporting Elderly and Carers Scheme (the Scheme) in March 2024. Taking Tsuen Wan and the Southern District as pilot points, Care Teams are engaged to help identify high-risk households of singleton and doubleton elderly, and carers of elderly persons and persons with disabilities (PWDs) through visits and outreach. Cases requiring assistance are then referred to social welfare service units for follow-up. They also assist in referring eligible elderly persons and PWDs to install and use emergency alarm systems (known as “Safety Bell”) with government subsidy. The total expenditure of the Scheme for 2024-25 was about \$9.20 million.

As at end-January 2025, a total of 36 Care Teams in Tsuen Wan and the Southern District have visited or contacted over 7 000 households of singleton and doubleton elderly and carers of elderly persons and PWDs, and have made over 1 190 referrals for welfare services under the Scheme. In addition, a total of 272 elderly persons and 11 PWDs have installed Safety Bells and received related subsidies through the referral of the Care Teams.

2. Encouraged by the positive outcomes of the Scheme during its pilot phase, the Chief Executive announced in the 2024 Policy Address that the Scheme would be extended to

all 18 districts across the territory in the second quarter of 2025 to provide support to more elderly persons and carers. It is expected that in the 12-month implementation period of the Scheme, the Care Teams will contact over 60 000 households in need. The Scheme is expected to incur a total expenditure of about \$107.9 million for 2025-26.

CONTROLLING OFFICER'S REPLY**LWB(W)149****(Question Serial No. 1933)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (4) Rehabilitation and Medical Social ServicesControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

The Government has stated that it will provide direct financial assistance through the Hong Kong Paralympians Fund (the Fund) to athletes with disabilities (AWDs) in their pursuit of sporting excellence. In this connection, please provide the following information:

1. the number of AWDs who received financial assistance in the past 3 years, and the amount of assistance disbursed to each of them;
2. the current number of AWDs at the Hong Kong Sports Institute (HKSI), with a breakdown by full-time and amateur athletes, as well as their average monthly salary; and
3. details of the Government's initiatives to support AWDs, apart from providing assistance through the Fund.

Asked by: Hon LI Sai-wing, Stanley (LegCo internal reference no.: 19)Reply:

1. The number of elite AWDs provided with subsistence grant through the Fund and the amount of funding in the past 3 years are tabulated below:

Year	No. of elite AWDs receiving subsistence grant	Amount of funding (\$ million)
2022-23	111	2.4
2023-24	115	2.5
2024-25	119	2.8

2. Currently, the Hong Kong Sports Institute (HKSI) has a total of 114 athletes with disabilities (AWDs), including 55 full-time AWDs, 9 part-time AWDs and 50 potential AWDs. HKSI provides Elite Training Grant for Athletes with Disabilities for elite AWDs according to the current financial support mechanism. The monthly grant for full-time AWDs ranges from \$10,530 to \$43,320, while part-time AWDs are provided with a monthly grant ranging from \$3,510 to \$8,190. Besides, HKSI provides local training opportunities for potential AWDs recommended by "national sports associations", as well as other additional support subject to special approval.

3. In addition to the Paralympians Fund, the Culture, Sports and Tourism Bureau (CSTB) has been providing funding under the Arts and Sport Development Fund (Sports Portion) to support athletes' preparation and participation in major international and national games, as well as "national sports organisations" in hosting local international competitions. To further strengthen the support for AWDs, CSTB launched, in collaboration with the China Hong Kong Paralympic Committee, a 5-year pilot programme on career and education for AWDs in June 2023, to equip AWDs with knowledge, skill sets and career planning skills so as to facilitate their integration into society and post-athletic transformation for their second-career development. The programme aims to provide career and education support and life skills training for at least 100 AWDs every year.

LWB(W)150

(Question Serial No. 1935)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding child care services, please inform this Committee of the following for the past and coming year:

- (1) (a) the number of places and (b) the average utilisation rate of long full-day child care service for children aged below 3; and (c) the number of places and (d) the utilisation rate of Extended Hours Service (EHS) in various districts in Hong Kong;
- (2) details of the services provided under the Neighbourhood Support Child Care Project (NSCCP) in various districts in Hong Kong, including (1) the number of places; (2) the average utilisation rate; and (3) the average fee for the home-based child care service (HCCS) and centre-based care group (CCG), respectively, presented in tabular form; and
- (3) (1) the expenditure on NSCCP; (2) the number of service operators participating in NSCCP, and the amount of subventions received.

Asked by: Hon LI Sai-wing, Stanley (LegCo internal reference no.: 21)

Reply:

- (1) & (2) The number of places and the average utilisation rate of aided child care centres (CCCs) providing long full-day child care service for children aged below 3 (including aided standalone CCCs and aided CCCs attached to kindergartens (KGs)) and EHS in Hong Kong in 2024-25 (as at December 2024), broken down by district, are set out at Annex 1.

The Social Welfare Department (SWD) requires service operators of NSCCP to flexibly increase the number of HCCS places to meet the actual service demands. Since NSCCP has no service quota limit, it only has the number of service users rather than the average utilisation rate. The number of places, the number of children served, and the service fee of NSCCP, broken down by District Council district, are set out at Annex 2.

In 2025-26, SWD plans to provide an additional 100 aided CCC places and 17 EHS places in Sham Shui Po district, and an additional 60 aided CCC places and 6 EHS places in Kwai Tsing district. Various enhancement measures have been

implemented under NSCCP since September 2024, including the provision of about 1 000 additional service places. Service operators may flexibly increase the number of HCCS places to meet the actual service demands.

- (3) The revised estimate on NSCCP for 2024-25 was \$226.6 million, while the estimate for 2025-26 is \$457.5 million. Currently, there are 19 organisations operating 23 service teams under NSCCP. In 2024-25, the amount of subvention they received was \$69.1 million. This amount excludes incentive payments, training costs for home-based child carers, and subsidies granted to service users from low-income families for fee waivers/reductions, etc.

**Number of places and average utilisation rate for aided CCCs providing
long full-day child care service for children aged below 3 and EHS
by district in Hong Kong
(April to December 2024)**

Yuen Long	184	750	104		
Yau Tsim Mong	92	343	193		
Total	2 116	4 984	2 407		

Note 1 Starting from September 2024, on the basis of 1 service team in each of the 18 districts in Hong Kong, SWD has added an additional service team in districts with higher service demands, namely Kwun Tong, Sham Shui Po, Sha Tin, Tuen Mun, and Yuen Long districts. As a result, the number of service teams in Hong Kong has increased from 18 to 23. Each service team is required to provide a minimum of 92 service places (i.e. the total number of places in all 18 districts should be at least 2 116). Service operators may flexibly increase the number of HCCS places beyond this requirement to meet the actual service demands.

Note 2 Some children used CCG services and HCCS at the same time.

Note 3 Starting from September 2024, the service fees for HCCS and CCG are \$28 and \$20 per hour, respectively. Service users with social needs and/or financial difficulties can approach service operators for fee waivers/reductions.

(Question Serial No. 1940)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Social Welfare Department (SWD) regularised the Special Care Subsidy Scheme for Persons with Severe Disabilities (the Subsidy Scheme) and the Scheme on Providing Subsidy for Higher Disability Allowance Recipients in Paid Employment to Hire Carers (the Scheme to Hire Carers) in October 2023 to support carers and persons with disabilities (PWDs). In this regard, please advise:

1. Since the launch of the Subsidy Scheme: (1) What is the annual number of applicants? (2) What is the annual number of successful applicants, along with their age distribution and the amount of subsidy granted? (3) What is the annual funding amount involved, excluding administrative expenses? (4) What is the amount of administrative expenses incurred annually? (Please present the information in tabular form)
2. Since the launch of the Scheme to Hire Carers: (1) What is the annual number of persons invited to join the scheme? (2) What is the annual number of successful applicants, along with their age distribution and the amount of subsidy granted? (3) What is the annual funding amount involved, excluding administrative expenses? (4) What is the amount of administrative expenses incurred annually? (Please present the information in tabular form)
3. Please provide a breakdown of the main reasons for the rejection of applications under the 2 schemes, as well as a breakdown of the number of withdrawn applications by their respective reasons since the schemes began accepting applications.
4. Please provide, in tabular form, the number of beneficiaries, their age distribution, and the amount of subsidy granted under these 2 schemes, with a breakdown by District Council (DC) district.

Asked by: Hon LI Sai-wing, Stanley (LegCo internal reference no.: 26)

Reply:

1. & 2. The Subsidy Scheme and the Scheme to Hire Carers have been incorporated into the Government's regular assistance programme since October 2023, involving an annual funding of \$90 million and \$6 million, respectively. After the regularisation of the 2 schemes, SWD has deployed existing resources to

implement the schemes, and no additional administrative expenses have been incurred. The annual number of applicants, the annual number of successful applicants, and the amount of subsidy granted under the 2 schemes are set out in Tables 1 and 2 of Annex 1. Meanwhile, the number of successful applicants by district and age is set out in Tables 1 to 4 of Annex 2.

3. The numbers and reasons for applications rejected and withdrawn under the 2 schemes since their implementation are set out in Tables 1 and 2 of Annex 3, respectively.
4. SWD does not have the information on the amount of subsidy granted under the 2 schemes by DC district.

CONTROLLING OFFICER'S REPLY

LWB(W)152

(Question Serial No. 2267)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

With regard to the Neighbourhood Support Child Care Project (NSCCP) launched by the Social Welfare Department (SWD) in 2008 to address the child care needs of families, there are currently 20 service operators across District Council (DC) districts that offer flexible centre-based or home-based care services for families with children aged 0 to 9. In the fourth quarter of 2024, SWD introduced a standardised 14-hour training framework for home-based child carers (HCCs). Regarding the effectiveness of the home-based child care policy and potential enhancement measures, please advise this Committee of the following:

- (a) The expenditure incurred by SWD over the past 3 years for the implementation and promotion of home-based child care service (HCCS);
- (b) The number of centres providing HCCS, along with (i) the number of applications received; (ii) the number of service users; and (iii) the number of HCCs engaged for each centre over the past 3 years;
- (c) For families utilising HCCS, how many opted for care services at child care centres compared to those who chose care services provided at HCCs' homes;
- (d) SWD proposed to devise standardised training guidelines for HCCs in 2024. Does the Department plan to provide further training, enhance service supervision, or conduct regular reviews of the course content following the implementation of the training framework?

Asked by: Hon LUK Chung-hung (LegCo internal reference no.: 28)

Reply:

- (a) The expenditure on NSCCP in the past 3 financial years is tabulated as follows:

Year	Expenditure on NSCCP (\$ million)
2022-23 (Actual)	28.3
2023-24 (Actual) ^{Note 1}	88.0
2024-25 (Revised estimate) ^{Note 2}	226.6

Note 1 The increase in expenditure for 2023-24 was due to the fact that part of the funding for 2022-23 was disbursed in 2023-24.

Note 2 The increase in expenditure for 2024-25 was due to the fact that the incentive payment for HCCs and the number of service places under NSCCP were increased.

- (b) The numbers of centres, HCCs and children served under NSCCP in the past 3 financial years, broken down by DC district, are set out at Annex 1. SWD does not have information on the number of applications received for NSCCP.
- (c) The numbers of children using centre-based care group (CCG) and HCCs under NSCCP in the past 3 financial years, broken down by DC district, are set out at Annex 2.
- (d) SWD adopts a “quality-based approach” in selecting non-governmental organisations to operate NSCCP, and requires them to meet the service output and outcome standards specified in the Service Agreement (SA). According to the SA, service operators have to provide enhanced training courses for HCCs. Trainees are required to undergo 14 hours of basic training, the content of which is standardised and formulated by SWD. HCCs who are arranged to take care of children with special learning needs must receive an additional 4 hours of advanced training to learn the related knowledge and skills. Service operators are required to evaluate the child care skills and knowledge of HCCs after they have completed the training, assess their confidence in providing care services, and determine whether their home environment is suitable for providing care services before arranging them to provide services.

To ensure service quality, SWD has consistently required service operators of NSCCP to establish mechanisms for recruiting, assessing, selecting and training HCCs, as well as for service matching. Social workers from service operators are required to conduct monthly home visits to HCCs currently providing services, while child care workers will provide them with individual training/supervision. In addition, service operators are also required to continuously evaluate and follow up on HCCs’ performance. Statistics related to the amount of training/supervision provided are included in the service quality indicators, and service operators are required to submit relevant statistical information to SWD on a quarterly basis. SWD will also conduct regular and surprise visits to assess whether service operators are in compliance with the requirements specified in the SA.

Note 1 Starting from September 2024, on the basis of 1 service team in each of the 18 districts in Hong Kong, an additional service team in districts with higher service demands, namely Kwun Tong, Sham Shui Po, Sha Tin, Tuen Mun, and Yuen Long districts, has been added under NSCCP. As a result, the number of service teams in Hong Kong has increased from 18 to 23 to provide more service places.

Note 2 A new SA for NSCCP commenced in September 2024. Some HCCs are currently undergoing training, and will start service later. Therefore, the number of HCCs will gradually increase.

CONTROLLING OFFICER'S REPLY

LWB(W)153

(Question Serial No. 1990)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (2) Social Security

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The financial provision for subvented/private organisations in 2025-26 has registered a significant decrease of 19.6% compared to 2024-25. In this regard, please inform this Committee of the following:

- a) What are the reasons for such a significant decrease in funding to these organisations?
- b) Which types of subvented/private organisations does the Department expect to be most affected by this reduction? Does the Department foresee that social welfare services provided by these organisations will be significantly impacted? If so, what are the details? If not, what are the reasons?

Asked by: Hon LUK Hon-man, Benson (LegCo internal reference no.: 14)

Reply:

The financial provision for subvented/private sectors mentioned under Programme (2) Social Security of the Social Welfare Department (SWD)'s Controlling Officer's Report in 2024-25 is mainly used for commissioning non-governmental organisations (NGOs) to operate the Employment Support Services (EmSS) under the Comprehensive Social Security Assistance (CSSA) Scheme. EmSS, which will expire in September 2025, will be replaced by the Support Programme for the Unemployed (SPU) starting from October 2025. SPU will be more streamlined in operation when compared with EmSS, thereby reducing relevant estimated expenditure.

SPU will be operated on a pilot basis for 2 years by NGOs and/or other organisations. All unemployed able-bodied CSSA recipients aged 15 to 59 will be mandated to participate in SPU and take up unpaid work on a weekly basis arranged by SPU operators, until they have secured gainful employment or returned to mainstream education. Compared to the existing EmSS, SWD expects SPU to be more effective in motivating the unemployed able-bodied CSSA recipients to connect with the community, develop a work habit and accumulate work experience to enhance employability, thereby reducing their reliance on CSSA in the long term. SWD will commission SPU operators through invitation for proposals. NGOs operating EmSS are free to submit their proposals.

LWB(W)154

(Question Serial No. 2145)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (2) Social Security

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Under Matters Requiring Special Attention in 2025-26, it is mentioned that the Social Welfare Department (SWD) will implement a 3-year pilot scheme under the Community Care Fund (CCF) to subsidise elderly recipients of Comprehensive Social Security Assistance (CSSA) who choose to reside in designated residential care homes for the elderly (RCHEs) in Guangdong (GD). In this regard, please provide this Committee with the following information:

- (a) What is the estimated expenditure for the scheme?
- (b) What is the estimated timeframe for each case, from the submission of an application to officially moving into an RCHE in GD?
- (c) For CSSA recipients who apply for the scheme but later decide to return to Hong Kong for personal reasons, how will SWD follow up on such cases?
- (d) Has consideration been given to regularly evaluating the effectiveness of the pilot scheme through case and data analyses, and to publishing the findings to keep the public informed about its outcomes?

Asked by: Hon NG Chau-pei, Stanley (LegCo internal reference no.: 23)

Reply:

The Government will launch a 3-year Pilot Scheme for Elderly Comprehensive Social Security Assistance Recipients to Reside in Residential Care Homes in Guangdong (Pilot Scheme) in 2025 to subsidise elderly CSSA recipients who opt to retire in GD to reside in designated RCHEs in the province. The Pilot Scheme will have a quota of 1 000. A monthly subsidy of \$5,000 will be provided to each elderly CSSA recipient on top of their CSSA payment under the Pilot Scheme. SWD will seek CCF funding from the Commission on Poverty to implement the Pilot Scheme.

Elderly CSSA recipients who wish to join the Pilot Scheme should apply to SWD or the agent commissioned by SWD, and select a suitable designated RCHE in GD on their own. The time required for them to move into an RCHE depends on the availability of places at the selected RCHE and their personal plans. If elderly recipients under the Pilot Scheme choose to return to Hong Kong for retirement in the future, they should contact the agent for case follow-up and appropriate assistance (including switching to receiving CSSA in Hong Kong).

SWD will review the effectiveness of the Pilot Scheme, the subsidy amount and the way forward before the end of the pilot period.

LWB(W)155

(Question Serial No. 2146)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Community Care Service Voucher (CCSV) Scheme for the Elderly (CCSV Scheme) has been regularised since 2022, providing means-tested co-payment services for elderly persons in need of community care services to obtain day care centre services or home care services. Regarding the effectiveness of CCSV and service utilisation, would the Government please inform this Committee of:

- (a) the number and percentage of cases opting for (i) centre-based services (full-day or part-time), (ii) home-based services, and (iii) a mixed mode of centre-based and home-based services over the past 3 years (i.e. 2022-23, 2023-24 and 2024-25);
- (b) the average value of services utilised by each elderly recipient in the past 3 years (i.e. 2022-23, 2023-24 and 2024-25);
- (c) the number of cases in each of the 6 CCSV co-payment levels and their corresponding percentages of the total for each of the past 3 years (i.e. 2022-23, 2023-24 and 2024-25); and
- (d) the average voucher value of CCSV applied for, and the average voucher value of CCSV actually utilised in the past 3 years (i.e. 2022-23, 2023-24 and 2024-25), broken down by 6 co-payment levels.
- (e) How does the Government manage the remaining funds in cases where vouchers have been issued but not utilised? Is there a transfer mechanism to reallocate these funds as additional subsidies for other individuals in need?

Asked by: Hon NG Chau-pei, Stanley (LegCo internal reference no.: 24)

Reply:

- (a) The requested breakdown of the number of persons is provided in Table 1 of Annex.
- (b) & (d) Under the CCSV Scheme, CCSV users across all co-payment levels receive the same voucher value. The requested average voucher value used is provided in Table 2 of Annex. In addition, the Social Welfare Department (SWD) does not

maintain a breakdown of the average voucher value used by co-payment level of CCSV users.

- (c) The requested information is provided in Tables 3 to 5 of Annex.
- (e) The Government reimburses recognised service providers based on their actual costs under the CCSV Scheme. Therefore, CCSV holders who do not use any services do not consume resources from the Government or service providers. In addition, SWD has been flexibly allocating resources to enable more eligible elderly persons to receive services without the need to wait.

Table 1: Numbers of CCSV users by service type

Year	No. of persons ^{Note}		
	Centre-based services	Home-based services	Mixed mode of centre-based and home-based services

CONTROLLING OFFICER'S REPLY

LWB(W)156

(Question Serial No. 2147)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the Mandatory Reporting of Child Abuse Ordinance (the Ordinance), which will come into effect in January next year, please provide the following information:

- (a) A breakdown of the actual expenditure on strengthening professional support for child abuse victims and their families out of the additional annual funding of \$186 million.
- (b) Regarding the enhancement of training and promulgation of guidelines for practitioners in the relevant professions, please provide in tabular form the types of training, estimated and actual number of trained personnel, and the expenditure on each type of training and guidelines.
- (c) Regarding the increase in emergency places for residential child care service, please provide in tabular form the non-governmental organisation (NGO) centres providing such services, the districts where they are located, current number of children in emergency placement due to abuse, and the government funding allocated for this purpose.

Asked by: Hon NG Chau-pei, Stanley (LegCo internal reference no.: 25)

Reply:

- (a) & (c) To dovetail with the operation of the Mandatory Reporting of Child Abuse Ordinance (the Ordinance) in January 2026, the Government will, starting from 2025-26, allocate an additional annual provision of \$29.07 million to increase the number of emergency residential child care places, and \$157.4 million to strengthen professional support for child abuse victims and their families, amounting to a total of approximately \$186.5 million. Regarding strengthening professional support for child abuse victims and their families, SWD has subsidised non-governmental organisations to set up 6 service teams under the Child Protection Support Service (service teams) in March 2025. The service teams, comprising social workers, psychologists, nurses, and other supporting staff, will provide a range of support services, including home visitation support, therapeutic/psycho-social groups, educational and family enrichment programmes, etc., to provide targeted intervention and professional support for children who have been abused or are at risk of abuse, as well as their families.

In terms of emergency residential child care places, 2 new residential child care centres located in Tuen Mun and Kwun Tong districts respectively, will commence operation before the Ordinance takes effect, adding a total of 96 emergency care service places and catering for about 380 children each year. As these centres have not yet commenced operation, there is no information on the number of children currently residing at these centres.

- (b) The Government has set up an e-learning platform to provide training and information on child protection for the specified professionals. The Child Protection Online Training platform offers online self-learning courses. Module 1 was launched in February 2024 to provide training on the basic knowledge on child protection. Module 2 is scheduled for phased rollout starting in July 2025, and will cover basic knowledge on the legal and reporting matters related to the new legislation. In 2024, the Government also organised 3 webinars to provide enrichment programmes for professionals to study different topics related to child protection and to enhance cross-sectoral professional collaboration. These webinars also incorporated Q&A sessions to address training needs and encourage interactive learning.

Furthermore, the Government plans to issue the Mandated Reporter Guide (the Guide) in July 2025, and will organise a series of briefings for mandated reporters and related stakeholders. The Guide, including decision trees, supplementary analytical frameworks, and sample case scenarios, provides mandated reporters with reference of making decisions on making reports, assists them to understand the principles of child protection and identify cases that must be reported under their statutory obligations.

The above initiatives are jointly planned and implemented by the relevant policy bureaux and government departments. SWD does not maintain a breakdown of the expenditure involved.

LWB(W)157

(Question Serial No. 2148)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Social Welfare Department (SWD) implemented a 5-year Training Subsidy Scheme for Staff of Residential Care Homes (the Scheme) in 2019 to provide full subsidy for home managers, health workers and care workers of all residential care homes (RCHs) for the elderly (RCHEs) and RCHs for persons with disabilities (RCHDs) across the territory to enrol in training courses recognised under the Qualifications Framework (QF), with the aim of enhancing the quality of care services provided by these practitioners in RCHs. With respect to the effectiveness of the Scheme and the future development of the residential care service industry, would the Government please inform this Committee of the following:

- (a) the respective numbers of RCHE management and care staff who have enrolled in and completed QF-recognised courses with subsidies provided by SWD, and the employment status of those with recognised qualifications within the industry for 2023-24 and 2024-25, presented in tabular form;
- (b) the expenditure and staffing establishment (SE) allocated for the implementation of the Scheme; and
- (c) the effectiveness of the current measures in incentivising those who have completed recognised courses to continue working in the elderly care industry.
- (d) It is understood that a report has recommended the Government create the position of "Health & Care Practitioner" (HCP) to improve the career ladder within the care industry. What is the Government's specific plan in this regard? What will be the expenditure and SE involved?

Asked by: Hon NG Chau-pei, Stanley (LegCo internal reference no.: 26)

Reply:

- (a) to (c) To enhance the service quality of RCHEs and RCHDs on a continuous basis, SWD has implemented a 5-year scheme in phases since March 2019 to provide full subsidies for home managers, health workers and care workers of all RCHEs and RCHDs in the territory to enrol in QF-recognised training courses. After assessing the effectiveness of the Scheme and considering the views of the sector,

SWD has extended the Scheme by 3 years (from 1 April 2024 to 31 March 2027) to subsidise more RCH staff to receive related training. On average, the estimated annual expenditure involved is about \$5 million.

As at the end of December 2024, a total of 6 313 RCH staff have enrolled in the training courses under the Scheme. The number of trainees in 2023-24 and 2024-25 is set out at Annex. RCH staff enrolling in recognised courses under the Scheme are required to remain employed at the RCHs from the date of enrolment until the completion of the course. Once the staff received the graduate certificates issued by the training institutes, the RCHs concerned may apply to SWD for full reimbursement of the course fees paid. SWD does not have information on trainees who have completed recognised courses and continue to work in the industry.

Since SWD has implemented the Scheme through internal redeployment of manpower resources, there is no additional manpower or administrative costs involved.

- (d) In July 2023, SWD commissioned a Consultant to review the skill and qualification requirements of staff providing health and rehabilitation services in RCHs, with a view to establishing professional standards and a career progression pathway for them. In the same month, the Steering Committee on Review of Manpower for Healthcare Services in RCHs was established to offer advice and steer for the study. The relevant work was completed at the end of 2024. The consultancy report puts forth 4 key recommendations, including the establishment of a new professional rank, “Health & Care Practitioner” (HCP), to specialise in providing care services in RCHes, RCHDs and other elderly/rehabilitation welfare service units. This will not only attract people who aspire to pursue a career in the welfare sector, but also offer a career progression path for Health Workers, and help build up dedicated care talent for the sector. SWD has accepted the report and will progressively implement the relevant recommendations.

To ensure that HCPs are competent to perform the care duties in the future, they have to complete a training course specified by the Director of Social Welfare. According to the Consultant’s preliminary assessment, the training course for HCP can start enrolment in the second half of 2026, the earliest. SWD has already been communicating with training institutes regarding the course design. At the same time, the Government will amend the RCHs (Elderly Persons) Regulation and the RCHs (Persons with Disabilities) Regulation to introduce the new HCP rank into the relevant regulations without altering the existing statutory staffing requirements, and RCHs could employ either ENs or HCPs to meet the relevant statutory staffing requirements. The Government plans to consult the Legislative Council Panel on Welfare Services on the proposed amendments in the first half of 2026.

Since SWD has implemented the recommendation to establish the new HCP rank through internal redeployment, there is no additional manpower or administrative costs involved.

**Number of home managers, health workers and care workers of RCHs
enrolled ^{Note 1} in related training courses from 2023-24 to 2024-25**

Course and no. of enrolment Year	Home manager		Advanced Training for Health Workers	Training for Care Workers	Total
	Training course (A) ^{Note 2}	Training course (B) ^{Note 3}			
2023-24	272	213	78	736	1 299
2024-25 (as at 31 December 2024)	89	155	49	949	1 242
Total:	361	368	127	1 685	2 541
	729				

Note 1 Once the trainees have been issued graduate certificates by the training institutes upon completion of the relevant courses, the RCHs concerned may apply to SWD for full reimbursement of the course fees already paid.

Note 2 Trainees must be home managers currently employed by RCHes or RCHDs, other staff nominated by RCHes or RCHDs, or related professionals registered under the Laws of Hong Kong, including social workers, nurses, medical practitioners, Chinese medicine practitioners, occupational therapists, physiotherapists or pharmacists.

Note 3 Trainees must be home managers currently employed by RCHes or RCHDs, or other staff nominated by RCHes or RCHDs.

(Question Serial No. 0960)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

To strengthen the functioning of families so they can better cater to the needs of persons with disabilities (PWDs), the Social Welfare Department (SWD) provides subventions for non-governmental organisations (NGOs) to operate Parents/Relatives Resource Centres (PRCs) across the territory. These centres provide emotional support and professional advice to parents/relatives and carers of PWDs to help them understand how to take care of PWDs, and allow them to exchange experiences and support one another, thereby enabling them to cope with stress and difficulties. Since 2018-19, the number of PRCs has increased from 6 to the current 19, with 1 centre in every district. Additionally, there is 1 PRC designated for parents/relatives and carers of persons in mental recovery. In this connection, would the Government please inform this Committee of the following:

1. Please provide details of the services provided by each PRC in the past 3 years, including (i) output standards and actual performance statistics; (ii) details of support services rendered; (iii) staffing establishment (SE); (iv) the estimated and actual expenditure; (v) effectiveness evaluation of PRC services; and (vi) satisfaction levels of service users, as well as the estimated expenditure and staff deployment for the coming year.
2. SWD allocated additional resources in 2020-21 for setting up specialised ethnic minorities (EM) units in 5 PRCs located in districts with a higher EM population (i.e. Central & Western, Kwun Tong, Yau Tsim Mong, Kwai Tsing and Yuen Long). Please provide details of the service content and the results of the effectiveness evaluation of these specialised EM units.
3. Are there any plans to review the effectiveness of measures taken by SWD in respect of mental health? If yes, please provide details of the review, such as whether the support services rendered are adequate, and how SWD plans to strengthen its support. If no review is planned, what are the reasons?

Asked by: Hon NGAN Man-yu (LegCo internal reference no.: 18)

Reply:

PRCs subvented by SWD provide a range of support services and organise various types of activities for parents/relatives and carers of PWDs, including providing counselling and service information, as well as organising emotional support groups, community education,

care skills workshops, and social and recreational activities, etc. The essential service requirements, output standards and outcome standards of PRCs are defined in the Funding and Service Agreements (FSAs). Regarding the 19 PRCs (including those with specialised EM units), the output standards and actual performance statistics from 2022-23 to 2024-25 are set out in Table 1 of Annex; the SE for the services is set out in Table 2 of Annex; the actual expenditure, revised estimate and estimated expenditure for 2025-26 are set out in Table 3 of Annex; the outcome indicators and satisfaction levels from 2022-23 to 2023-24 are set out in Table 4 of Annex. Subject to their compliance with the requirements of FSAs, service operators may flexibly deploy their staff in accordance with their operational needs or human resources policies. Therefore, SWD does not have information on their SE for the coming year.

Apart from providing the above services, PRCs with specialised EM units will also provide tailored services for EM service users in view of their language barrier and cultural difference to facilitate and encourage their use of community services, with a view to meeting their needs and promoting social inclusion. The outcome indicators from 2022-23 to 2023-24 are set out in Table 5 of Annex.

SWD reviews the needs of carers of persons in mental recovery and evaluates the effectiveness of related support measures from time to time, and will set up 4 additional PRCs for carers of persons in mental recovery in the second quarter of 2025 to enhance support for persons in mental recovery and their carers. Apart from the existing PRC in Kowloon East, PRCs for carers of persons in mental recovery will be set up on Hong Kong Island, and in Kowloon West, New Territories East and New Territories West to facilitate carers in obtaining the support they need.

**Table 1: Output standards and actual performance statistics of PRCs
from 2022-23 to 2024-25**

Output indicator		Agreed output level	Actual performance statistics		
			2022-23	2023-24	2024-25 (as at 31 December 2024)
1	Monthly average of registered family membership in a year	7 010	12 121	13 312	13 598
2	Average attendance per opening session per quarter in a year	428	408 ^{Note}	479	493
3	Average number of individual-based support activities per quarter in a year	3 910	9 996	8 745	9 203
4	Average number of group meetings on support activities per quarter in a year	3 350	4 734	4 909	4 860
5	Average number of community education/networking activities per quarter in a year	137	180	210	207
6	Monthly average number of counselling cases	810	1 048	1 042	1 079
7	Number of therapeutic groups in a year	131	150	149	118

^{Note} To minimise the risk of community spread of COVID-19 during the period when the outbreak was more severe, welfare services subsidised by SWD maintained limited services. In light of the gradual easing of the epidemic situation, these services gradually resumed normal operations.

Table 2: SE of PRCs ^{Note}

Rank/post	PRC	PRC with specialised EM unit
Social Work Officer	0.125	0.25
Assistant Social Work Officer	2	3
Social Work Assistant	1	1
Welfare Worker/ Special Child Care Worker	1	1
Welfare Worker	1	2
Clerical Assistant	1	1
Workman II	0.667	1

^{Note} SWD calculates the amount of subventions based on the SE. Subject to their compliance with the requirements of FSAs, service operators may flexibly deploy resources and arrange suitable staffing.

Table 3: Expenditure of PRCs from 2022-23 to 2025-26

2022-23 (Actual) (\$ million)	2023-24 (Actual) (\$ million)	2024-25 (Revised estimate) (\$ million)	2025-26 (Estimate) (\$ million)
94.9	94.4	96.4	111.4

**Table 4: Outcome indicators and satisfaction levels of all PRCs^{Note 1}
from 2022-23 to 2023-24**

Outcome indicator	Agreed level^{Note 2}	2022-23	2023-24 (as at 31 December 2024)
Percentage of service users indicating enhancement of problem coping and solving capability after receiving PRC service	75%	89%	94%
Percentage of service users indicating enhancement of community support after receiving PRC service		85%	94%
Percentage of service users being satisfied with the overall services delivered to them in a year		98%	98%

Note 1 The relevant figures for 2024-25 are not yet available.

Note 2 The agreed levels for the outcome indicators of each PRC may vary depending on the individual PRC's circumstances.

CONTROLLING OFFICER'S REPLY

LWB(W)159

(Question Serial No. 0964)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (7) Young People

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

It is mentioned in the 2024 Policy Address that the Government will enhance the School-based After-School Care Service Scheme (the Scheme). Starting from this school year, the number of primary schools covered by the Scheme will increase from 50 to over 110, enabling students in need to stay at school outside school hours for care and learning support, thus allowing their parents to take up jobs. Depending on the actual utilisation and outcomes of the Scheme, the Government plans to encourage more schools to participate in the Scheme, without capping the number of places, in the 2025/26 school year. In this regard, please inform this Committee of:

1. the details of the implementation and effectiveness evaluation of the Scheme for the 2023/24 school year, including the number of participating organisations and schools, the number of beneficiaries or places, the service charge per user, service content, related expenditure and manpower, as well as the outcomes and limitations of the Scheme;
2. the specific implementation details of the enhanced Scheme for the 2024/25 school year, including the number of participating organisations and schools, the number of beneficiaries or places, service content and other relevant details, etc.; and
3. the specific measures that the Bureau has put in place, such as the provision of additional resources, promotional campaigns or home-school co-operation support, to encourage more organisations, schools and parents to participate in the Scheme to ensure that primary students in need can receive after-school care and learning support, thereby facilitating their parents in taking up jobs.

Asked by: Hon NGAN Man-yu (LegCo internal reference no.: 22)

Reply:

1. The Government has been implementing the Scheme since the 2023/24 school year. Under the Scheme, participating schools provide venues, while the Community Care Fund provides funding for non-governmental organisations to provide care and learning support services for students in need (particularly those from single-parent families) at school in a safe and familiar environment after class, thereby enabling their parents to take up jobs. The services provided under the Scheme cover homework tutorials, and assistance with completing homework and revision at schools wherever possible, in

order to ease the parenting and caregiving pressures on parents. In addition, parental guidance and education, skill learning and social/developmental activities (such as games/extra-curricular activities) are also provided to support parents in nurturing and caring for their children. A full-fee waiver is granted to families of participating students if they meet the income eligibility requirements. In the 2023/24 school year, a total of 59 primary schools participated in the Scheme, with services delivered by 20 service operators, benefiting a total of 2 664 students. The total expenditure was about \$87.43 million, covering service fees and administrative expenses. The Social Welfare Department implements the Scheme by deploying existing manpower. As the staff involved are also responsible for other youth services, a breakdown of the staffing establishment dedicated solely to implementing the Scheme is not available. The Government will complete the evaluation of the Scheme in the 2025/26 school year.

2. The Scheme was extended to all 18 districts across the territory in the 2024/25 school year, with service targets and service content similar to those of the 2023/24 school year. There are currently a total of 125 primary schools participating in the Scheme, with services provided by 31 service operators, offering about 5 800 service places.
3. The Government launched the Scheme in the 2023/24 school year, with the initial target of engaging 50 primary schools in 7 districts with higher student populations in the first year. 59 schools were successfully recruited in the end. In the 2024/25 school year, the Scheme was expanded to cover all 18 districts in Hong Kong, with the target of recruiting about 110 primary schools. To date, 125 primary schools have joined the Scheme. We have exceeded the targets for the first 2 years, and the number of service operators has also increased. The Government will closely monitor the implementation of the Scheme, gather data, and collect views from stakeholders, and complete the evaluation of the Scheme's effectiveness in the 2025/26 school year to determine the way forward.

CONTROLLING OFFICER'S REPLY

LWB(W)160

(Question Serial No. 0972)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

It is mentioned in the Budget Speech that starting from the third quarter of this year, the Government will regularise the Pilot Project on Enhancing Vocational Rehabilitation Services (the Pilot Project) to provide training to persons with disabilities (PWDs) according to their personal interests and abilities to enhance their employment opportunities. The annual expenditure involved is about \$100 million and it is expected to benefit about 10 000 people. In this regard, would the Government please inform this Committee of the following:

1. What are the specific arrangements for implementing the Project? This includes details on how training will be provided based on the personal interests and abilities of PWDs, as well as the scope and operational specifics of the related services.
2. The Government estimates that the Project will cost approximately \$100 million annually and benefit around 10 000 PWDs. Apart from the number of beneficiaries, how does the Government evaluate whether the intended objectives of the Project are being achieved? For example, what is the expected percentage increase in employment opportunities or the level of improvement in vocational skills among PWDs? Are there specific performance indicators to assess its effectiveness?
3. Does the Government have plans to continuously improve the Project, such as by regularly collecting employment data and feedback from the participants to optimise service content? Will the Government consider further expanding the scope of the Project or increasing resource allocation in the future?

Asked by: Hon NGAN Man-yu (LegCo internal reference no.: 30)

Reply:

1. The Social Welfare Department (SWD) launched the 2-year Pilot Project in July 2023, with a view to enhancing the service and training model of sheltered workshops (SWs) and integrated vocational rehabilitation services centres (IVRSCs) by providing training tailored to the individual interests and abilities of trainees. It also seeks to strengthen the development of relevant networks to establish different job types and enhance market promotion, thus ensuring that the content of advanced training courses aligns with the practical requirements of open employment. The goal is to build a better vocational rehabilitation and training

ladder for PWDs. The trainees participating in the Pilot Project include persons with intellectual disability, physical disability, and hearing/speech impairment, as well as persons in mental recovery. The participating SWs and IVRSCs have organised over 2 000 job attachment sessions for them, spanning fields such as arts and design, computer and technology applications, catering, facilities management, sales and retail, packaging and assembly, logistics and warehousing, as well as general office administration.

2. & 3. SWD has reviewed the effectiveness of the Pilot Project by examining service and employment data collected from the participating SWs/IVRSCs, as well as the feedback from the service units, service users and their families, job attachment providers, and employers. As the Pilot Project has been proven effective in establishing a vocational rehabilitation and training ladder for PWDs, SWD plans to regularise the Pilot Project in the third quarter of this year, and extend it to all SWs/IVRSCs. This initiative will involve an annual expenditure of about \$100 million. Service operators will be required to deliver enhanced vocational rehabilitation services in accordance with the newly revised Funding and Service Agreement, which stipulates the essential service requirements, as well as service output and outcome standards. These include offering advanced training courses that align with the requirements of open employment, and arranging supported employment training for trainees with potential. SWD will continuously evaluate the performance and effectiveness of service operators under the existing Service Performance Monitoring System.

- End -

CONTROLLING OFFICER'S REPLY**LWB(W)161****(Question Serial No. 0978)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (4) Rehabilitation and Medical Social ServicesControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

The Programme states that the Social Welfare Department (SWD) provides pre-school services for children with disabilities through early education and training centres (EETCs), special child care centres (SCCCs), integrated programme in kindergarten-cum-child care centre (IP), on-site pre-school rehabilitation services (OPRS), and occasional child care service (OCCS) for children with disabilities. In 2023, SWD regularised the Tier 1 Support Services and integrated them with OPRS. In this connection, would the Government please provide this Committee with the following information:

1. The waiting list situation (e.g. the average waiting time and the number of waitlisted children) and the number of service places (including the total number of places and the year-on-year changes) for different types of pre-school rehabilitation services (including EETCs, SCCC, IP, OPRS, and OCCS) in the past 5 years (i.e. from 2020 to 2024):

Waiting time for pre-school rehabilitation services

Service type	Average waiting time (in months)				
	2020	2021	2022	2023	2024
OPRS					
EETC					
IP					
SCCC					

Number of service places for pre-school rehabilitation services

Service type	2020	2021	2022	2023	2024
OPRS					
EETC					
IP					
SCCC					

2. The Training Subsidy Programme for Children on the Waiting List of Subvented Pre-school Rehabilitation Services (TSP) is currently divided into 2 levels, namely the Normal Level Subsidy (NLS) with a maximum subsidy level of \$3,549 per month, and the Higher Level Subsidy (HLS) with a maximum subsidy level of \$6,904 per month. Please provide the relevant details of TSP for the past 3 years (i.e. from 2022 to 2024), including the number of applicants (broken down into numbers of beneficiaries and rejected applications), the average length of benefit period (in months) and the average expenditure per beneficiary for NLS and HLS, as well as the total number of beneficiaries, the total average duration of benefit period and the total expenditure.
3. Please provide details of the work related to regularisation of the Tier 1 Support Services, including the specific details on how the relevant arrangements were taking forward and implemented (e.g. the implementation timetable and integration method), the number of service places (including the total number of places and allocation method), the number of participating pre-primary institutions (e.g. the number and geographical distribution of kindergartens and child care centres), the effectiveness evaluation or progress reports (including feedback from the sector, e.g. service providers and parents), as well as the expenditure (including the total amount and breakdown of the estimated expenditure) and manpower involved (e.g. the number of additional staff and the division of labour).

Asked by: Hon NGAN Man-yu (LegCo internal reference no.: 36)

Reply:

1. The average waiting time and the number of service places for different types of pre-school rehabilitation services (including OPRS, EETCs, IP, and SCCCs) in each of the past 5 years are set out at Annex 1.
2. SWD provides eligible children on the waiting list of subvented pre-school rehabilitation services with Training Subsidy so that they can obtain self-financing services (including individual or group training/therapy and assessment services) run by recognised service providers as soon as possible. There are currently 34 non-governmental organisations (NGOs) providing TSP services across the territory. The annual expenditure on TSP and the number of beneficiaries for the past 3 years are set out at Annex 2. SWD does not have information on the length of benefit period of TSP beneficiaries.
3. SWD regularised the Tier 1 Support Services in September 2023, integrating them with OPRS and extending them to cover nearly 900 pre-primary institutions. Additional resources have been allocated to NGOs operating OPRS. Through inter-disciplinary service teams under a school-based and integrated approach, NGOs offer comprehensive and timely assistance to pre-school children who are awaiting professional assessment or those who have been assessed to have borderline developmental problems (i.e. Tier 1 children), as well as providing professional consultation and training to their parents and teachers. The inter-disciplinary service teams comprise clinical/educational psychologists, speech therapists, occupational therapists/physiotherapists, and special child care workers, etc. The staffing establishment of each service team following the integration of the Tier 1 Support Services and OPRS is set out at Annex 3. The Tier 1 Support Services are provided under a school-based and integrated approach, and they are not subject to a quota. The estimated expenditure on the Tier 1 Support Services for 2025-26 is about \$172 million.

Table 1: Average waiting time for pre-school rehabilitation services

Service type	Average waiting time (in months) ^{Note}				
	2019-20	2020-21	2021-22	2022-23	2023-24 Note

Programme: (3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

In 2024-25, the Government injected an additional \$1 billion into the Innovation and Technology Fund for Application in Elderly and Rehabilitation Care (I&T Fund) to enhance subsidies for eligible elderly and rehabilitation service units to procure, rent and trial technology products, such as ultra-low beds for medical and nursing care and intelligent anti-wandering systems, with a view to improving the quality of life of the elderly and persons with disabilities (PWDs) and reducing the burden on carers. Regarding the application of gerontechnology, would the Government please inform this Committee of:

1. the details of the vetting process for applications for the I&T Fund in the past 3 years, including the names of applicant organisations, the number of applications, the types of products involved, the amount of grants approved and the number of beneficiaries;
2. the current balance and utilisation status of the I&T Fund after the injection of additional funding; the estimated number of years the funding can sustain the operation of the I&T Fund, as well as the estimated expenditure and number of funded projects for the coming year;
3. the number of projects dedicated to the research and development (R&D) of gerontechnology since the establishment of the I&T Fund and related products, along with a breakdown of the names of these R&D projects, their progress, the amount of funding involved, and deliverables; whether the Government has evaluated the effectiveness of these R&D deliverables through such means as consulting stakeholders (e.g. elderly persons, PWDs and carers, etc.) and provided developers with feedback; and
4. measures taken by the Government to encourage collaboration between the local industry and other operators in the Guangdong-Hong Kong-Macao Greater Bay Area (GBA), and to support the local industry in exploring the GBA market, given that a number of local suppliers wish to expand into the emerging market of the GBA in light of the limited size of Hong Kong gerontechnology market; and whether the Government will consider accepting applications from eligible residential care homes (RCHs) for the elderly (RCHes) in the GBA for the I&T Fund.

Asked by: Hon NGAN Man-yu (LegCo internal reference no.: 38)

Reply:

1. Details pertaining to the applications and approval of grants under the I&T Fund from 2022-23 to 2024-25 are set out at Annex. Names of the approved service units and product categories are uploaded to the Social Welfare Department's (SWD) website:

https://www.swd.gov.hk/en/pubsvc/rehab/cat_fundtrustfinaid/itfund/

As the I&T Fund is open to applications from elderly and rehabilitation service units only, SWD does not maintain the number of beneficiaries of these technology products.

2. As at the end of February 2025, grants totalling around \$840 million have been approved under the I&T Fund. The balance was about \$1.16 billion (including the additional injection of \$1 billion). In the coming year, SWD will continue to invite eligible elderly and rehabilitation service units to submit applications. The annual expenditure and operational longevity of the I&T Fund are contingent upon the number of applications, the amount of grants involved and the approval situation.
3. The I&T Fund aims to improve the quality of life of service users and reduce the burden and pressure on care staff and carers by subsidising eligible elderly and rehabilitation service units to procure, rent or trial technology products. The scope of the I&T Fund does not cover subsidising R&D of gerontechnology products. Eligible service units may identify suitable technology R&D companies as working partners, and apply for trials of their technology products specifically designed and developed for the nursing and rehabilitation needs of elderly persons or PWDs. As at the end of February 2025, a total of 7 projects for trial use of products were approved, involving an expenditure of about \$15 million. These products include a fall prevention management system, a smart bedside intelligence management system, an interactive rehabilitation assessment and training system, a smart glasses device that can transmit instant video and audio signals, a smart transportation robot suite, the trial version of eREACH-HK and a sleep management system.
4. The annual Gerontech and Innovation Expo cum Summit (GIES), co-organised by the Government and the Hong Kong Council of Social Service, provides a platform that brings together gerontechnology stakeholders to engage and collaborate in the promotion of the use of technology across all sectors, so as to address the challenges posed by an ageing population and provide solutions for the rehabilitation needs of the elderly and PWDs. The GIES offers forums, thematic talks and workshops, creating a platform for dialogue and collaboration among representatives from the innovation and technology sector, academia, the social welfare sector, technology product users, and gerontechnology industry players from the Mainland. Last year, the Expo welcomed 21 exhibitors from the Mainland, and a special exhibition area for Mainland China exhibitors was set up, attracting enterprises from the GBA, Yangtze River Delta Region, Fujian Province and Shandong Province to participate in the exhibition. In addition, last year's Summit invited speakers from the Mainland, Hong Kong and Taiwan to share industry experiences and exchange ideas. The Government currently has no plan to subsidise RCHEs in the GBA to procure, rent or trial technology products using the I&T Fund.

**Statistics pertaining to the applications and approval of grants under the I&T Fund
in the past 3 years (as at 28 February 2025)**

Year of application	Type of service unit	No. of products applied for	No. of products approved	Amount of grant approved (\$ million)
2022-23	Subsidised elderly service unit	2 268	2 115	52
	Subsidised rehabilitation service unit	1 200	1 023	40
	Non-subsidised private and self-financing RCHE	3 570	3 311	101
	Non-subsidised private and self-financing RCH for PWDs (RCHD)	108	104	3
2023-24	Subsidised elderly service unit	1 465	1 118	35
	Subsidised rehabilitation service unit	646	531	20
	Non-subsidised private and self-financing RCHE	1 346	1 091	29
	Non-subsidised private and self-financing RCHD	84	72	2
2024-25 Note	Subsidised elderly service unit	1 855	787	23
	Subsidised rehabilitation service unit	2 231	1 518	20
	Non-subsidised private and self-financing RCHE	1 541	808	25
	Non-subsidised private and self-financing RCHD	169	105	5

Note This tranche started accepting applications in March 2024 and the vetting of applications is still underway.

CONTROLLING OFFICER'S REPLY

LWB(W)163

(Question Serial No. 2593)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding foster care services, would the Government please inform this Committee of the following:

- (1) The number of service places, the utilisation rate, the age distribution of foster children, their average length of stay, the number of waitlisted children, and the average waiting time for various foster care services in the past 3 years.
- (2) To strengthen support for foster families, the Government increased the incentive payment for foster parents in 2024-25. Please provide details on the number of foster families following the adjustment to the incentive payment, including their income and age distribution, as well as the number of foster families that have either withdrawn midway or newly joined.
- (3) The Budget indicates that the Government will continue to strengthen support and training for foster families. Please provide details of any specific programmes, as well as the estimated expenditure and manpower involved.

Asked by: Hon TAN Yueheng (LegCo internal reference no.: 1)

Reply:

- (1) The number of places, the utilisation rate, the average length of stay, the number of waitlisted children, and the average waiting time for foster care services in the past 3 years are set out in Table 1 of Annex. The age distribution of children receiving foster care services is set out in Table 2 of Annex.
- (2) The number of foster families that have withdrawn midway and the number of newly registered foster families following the increase in the incentive payment for foster parents since April 2024 are set out in Table 3 of Annex. The number of foster families and the age distribution of foster parents are set out in Table 4 of Annex. The Social Welfare Department (SWD) does not have information on the income distribution of foster families.

- (3) The estimated overall expenditure on foster care services (including continuously strengthening support and training for foster families) for 2025-26 is \$403.7 million. The Government has implemented a series of enhancement measures to bolster support for foster care services. Starting from January 2025, additional resources have been allocated to provide extra support for foster families caring for children with special learning or care needs, and arrange early assessments and appropriate professional rehabilitation therapy and training for foster children. Foster parents will also have access to consultation services from relevant professionals, e.g. clinical psychologists, as needed, with a view to alleviating their caregiving stress and enhancing their skills in handling children's emotional and behavioural problems. Regarding strengthening training, starting from January 2025, applicants who wish to become foster parents are required to complete a total of 12 hours of training comprising 4 modules before providing services. The training covers topics such as children's physical and psychological development needs, health and nutrition, handling common illnesses and emergencies, understanding children with special needs, enhancing parenting and stress management skills, and collaborating with foster children's birth families and other professionals, etc. This training is also applicable to existing foster parents. In addition, foster parents are required to attend annual in-service training workshops to enhance their skills and confidence in caring for foster children by refreshing their knowledge and sharing experiences. SWD has provided additional resources for non-governmental organisations providing foster care services to hire an additional 12 Assistant Social Work Officers to facilitate the implementation of the aforementioned enhancement measures.

Table 1: Number of places, utilisation rate, average length of stay, number of waitlisted children, and average waiting time for foster care services

Year	2022-23	2023-24	2024-25 ^{Note 1}
Number of places	1 130	1 230	1 230
Utilisation rate ^{Note 2}	78%	72%	72%
Average length of stay (month) ^{Note 2}	34.90	38.33	32.78
Number of waitlisted children ^{Note 3}	289	292	256
Average waiting time (month) ^{Note 3 Note 4}	1.82	2.04	1.75

Note 1 Statistics as at 31 December 2024.

Note 2 The figures include both ordinary and emergency foster care services.

Note 3 The figures exclude foster care (emergency) service. Regarding emergency service, caseworkers may directly enquire with foster care agencies that provide emergency service, and arrange children for admission as soon as suitable foster families with vacancies are available. SWD does not have the statistics on the number of waitlisted children and the average waiting time for foster care (emergency) service.

Note 4 The figures only refer to cases that were successfully matched within a 3-month period but not cases with matching difficulties.

Table 2: Age distribution of children receiving foster care services

Year (as at end-December)	Age	Number of foster children
2022	Newborn to below 6	403
	6 to below 12	330
	12 to below 18	147
	18 or above ^{Note}	-
2023	Newborn to below 6	385
	6 to below 12	319
	12 to below 18	139
	18 or above ^{Note}	1
2024	Newborn to below 6	405
	6 to below 12	320
	12 to below 18	157
	18 or above ^{Note}	1

Note Under exceptional circumstances, children receiving foster care services may extend their stay with the foster families after reaching 18 years old.

Table 3: Numbers of withdrawn and newly registered foster families in 2024-25

Foster family type	Number ^{Note}
Withdrawn	30
Newly registered	93

Note Statistics from April to December 2024.

Table 4: Number of foster families and age distribution of foster parents

Age	Number of foster families ^{Note}
25 to 40	40
41 to 50	163
51 to 55	143
56 to 60	193
Above 61	502
Total	1 041

Note Statistics as at 31 December 2024.

CONTROLLING OFFICER'S REPLY

LWB(W)164

(Question Serial No. 2594)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Budget states that to better prepare for the commencement of the Mandatory Reporting of Child Abuse Ordinance (the Ordinance), the Social Welfare Department (SWD) will enhance training and promulgate guidelines for practitioners in the relevant professions. In the light of this, please advise this Committee on the details of the various types of training and support measures, as well as the expenditure and manpower involved.

Asked by: Hon TAN Yueheng (LegCo internal reference no.: 2)

Reply:

The Government has set up an e-learning platform to provide training and information on child protection for relevant professionals. The Child Protection Online Training platform offers online self-learning courses. Module 1 was launched in February 2024 to provide training on the basic knowledge on child protection. Module 2 is scheduled for phased rollout starting in July 2025, and will cover basic knowledge on the legal and reporting matters related to the legislation. In 2024, the Government also organised 3 webinars to provide enrichment programmes for professionals to study different topics related to child protection and to enhance cross-sectoral professional collaboration. These webinars also incorporated Q&A sessions to address training needs and encourage interactive learning. In addition, in the first quarter of 2025, the Government has commenced organising 10 seminars for management of institutions in the social welfare, education, and healthcare sectors. These seminars will introduce the key aspects of the new legislation, enabling heads of different organisations to review and, where necessary, update their internal guidelines, workflows, staff training, and devise measures to facilitate relevant professionals in fulfilling their legal obligations. Furthermore, the Government plans to issue the Mandated Reporter Guide (the Guide) in July 2025, and will organise a series of briefings for mandated reporters and related stakeholders. The Guide, including decision trees, supplementary analytical frameworks, and sample case scenarios, provides mandated reporters with reference of making decisions on making reports, assists them to understand the principles of child protection and identify cases that must be reported under their statutory obligations.

The above initiatives are jointly planned and implemented by the relevant policy bureaux and government departments. SWD does not maintain a breakdown of the staffing arrangements or estimated expenditures for training and support.

CONTROLLING OFFICER'S REPLY

LWB(W)165

(Question Serial No. 2595)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (2) Social Security

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Under this Programme, the financial provision for subvented/private organisations in 2025-26 has shown a significant decrease of 19.6% compared to the revised estimate in 2024-25. In this regard, please provide this Committee with the following information:

- (1) Which areas of expenditure will be reduced, and what are the details?
- (2) What are the anticipated impacts of these expenditure reductions on subvented organisations?
- (3) How does the Government plan to ensure that needy persons continue to receive relevant social security services?

Asked by: Hon TAN Yueheng (LegCo internal reference no.: 3)

Reply:

The financial provision for subvented/private sectors mentioned under Programme (2) Social Security of the Social Welfare Department (SWD)'s Controlling Officer's Report in 2024-25 is mainly used for commissioning non-governmental organisations (NGOs) to operate the Employment Support Services (EmSS) under the Comprehensive Social Security Assistance (CSSA) Scheme. EmSS, which will expire in September 2025, will be replaced by the Support Programme for the Unemployed (SPU) starting from October 2025. SPU will be more streamlined in operation when compared with EmSS, thereby reducing relevant estimated expenditure.

SPU will be operated on a pilot basis for 2 years by NGOs and/or other organisations. All unemployed able-bodied CSSA recipients aged 15 to 59 will be mandated to participate in SPU and take up unpaid work on a weekly basis arranged by SPU operators, until they have secured gainful employment or returned to mainstream education. Compared to the existing EmSS, SWD expects SPU to be more effective in motivating the unemployed able-bodied CSSA recipients to connect with the community, develop a work habit and accumulate work experience to enhance employability, thereby reducing their reliance on CSSA in the long term. SWD will commission SPU operators through invitation for proposals. NGOs operating EmSS are free to submit their proposals.

CONTROLLING OFFICER'S REPLY

LWB(W)166

(Question Serial No. 2596)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (2) Social Security

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

A 3-year “Stepping Stone” - Pilot Scheme on “Subsidy to Encourage Employment of Disabled Recipients under the Comprehensive Social Security Assistance Scheme” (Pilot Scheme) has been launched under the Community Care Fund (CCF). In this connection, please advise:

- (1) The number of applicants participating in the Pilot Scheme, broken down by type of disability, education level, age, industry sector, and salary;
- (2) As employers’ willingness to hire is crucial for promoting the employment of persons with disabilities (PWDs), what measures have been implemented to encourage employers to hire PWDs?

Asked by: Hon TAN Yueheng (LegCo internal reference no.: 4)

Reply:

- (1) The CCF-funded Pilot Scheme was launched in September 2024. Up to end-December 2024, a total of 6 303 beneficiaries were granted subsidies under the Pilot Scheme. The age distribution of these beneficiaries is set out at Annex. The Social Welfare Department (SWD) does not maintain statistics on the distribution of Pilot Scheme beneficiaries by disability type, education level, industry sector, or salary.
- (2) SWD subsidises non-governmental organisations to provide supported employment training services for PWDs who are not yet ready for open employment. These services include skills training, job attachment, vocational training, counselling, helping PWDs find suitable jobs, and providing them with ongoing support. To encourage employers to hire PWDs, wage subsidies are available during the job trial period for up to 6 months, capped at \$4,000 per month. Moreover, since 2013, SWD has implemented the Support Programme for Employees with Disabilities (SPED), which provides a one-off subsidy for employers to purchase assistive devices and/or modify workplaces, thereby helping employees with disabilities perform their duties more effectively and enhancing their work efficiency. The subsidy is capped at \$40,000 per employee with disabilities. Up to end-February 2025, about \$5.4 million has been allocated under SPED, benefiting over 300 employees with disabilities.

Pilot Scheme
Age distribution of beneficiaries
(up to end-December 2024)

Age group	Number
Aged 18 or below	39
Aged 19-29	568
Aged 30-39	1 111
Aged 40-49	1 622
Aged 50-59	1 669
Aged 60-64	744
Aged 65 or above	550
Total	6 303

CONTROLLING OFFICER'S REPLY

LWB(W)167

(Question Serial No. 2597)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The financial provision for the government sector under this Programme for 2025-26 has been reduced by more than 10% compared to the revised estimate for 2024-25. In this connection, would the Government please inform this Committee of:

- (1) a detailed account of the specific areas where expenditure will be reduced;
- (2) the expected impact of the expenditure reduction on services provided by government organisations; and
- (3) measures to ensure that elderly persons in need continue to have access to relevant elderly services.

Asked by: Hon TAN Yueheng (LegCo internal reference no.: 5)

Reply:

The Social Welfare Department's (SWD) estimated expenditure on overall elderly services under Programme (3) for 2025-26 increases by 10.7% compared to the revised estimate for 2024-25, and by 4.2% compared to the original estimate for 2024-25. This reflects the Government's ongoing commitment to provide support and services to address the diverse needs of the elderly.

The provision for the government sector under Programme (3) reflects the expenditure of SWD on providing related services, but it accounts for only about 5% of the overall estimate for this Programme. The estimate for the government sector under this Programme for 2025-26 decreases by about 10% compared to the original estimate for 2024-25. This is mainly due to SWD's anticipated adjustments to the cash requirements for certain services during the year, which may be affected, for example, by the timing of payment claims submitted by organisations approved under the Innovation and Technology Fund for Application in Elderly and Rehabilitation Care. In fact, the estimate for the government sector under Programme (3) for 2025-26 is 15% higher than the revised estimate for 2024-25.

CONTROLLING OFFICER'S REPLY

LWB(W)168

(Question Serial No. 2598)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the work of District Services and Community Care Teams (Care Teams) across the 18 districts:

- (1) Please list the number of target carers identified, cases referred, and follow-up services provided by Care Teams in each district.
- (2) Please list the completion status of the Key Performance Indicators for the Care Teams in these districts.
- (3) Since the Care Teams have been established for over 2 years, has consideration been given to optimising the KPIs and evaluation mechanisms to enhance performance monitoring and the Care Team's effectiveness in delivering the results expected by society and providing services that meet the specific needs of each district?

Asked by: Hon TAN Yueheng (LegCo internal reference no.: 6)

Reply:

The Government launched the District Services and Community Care Teams – Supporting Elderly and Carers Scheme (the Scheme) in March 2024. Taking Tsuen Wan and the Southern District as pilot points, Care Teams are engaged to help identify high-risk households of singleton and doubleton elderly, and carers of elderly persons and persons with disabilities (PWDs) through visits and outreach. Cases requiring assistance are then referred to social welfare service units for follow-up. They also assist in referring eligible elderly persons and PWDs to install and use emergency alarm systems (known as “Safety Bell”) with government subsidy. The total expenditure of the Scheme for 2024-25 was about \$9.20 million. The numbers of needy households visited/contacted, the headcount of persons provided with follow-up and support services, and the numbers of referrals made for welfare services by the Care Teams in Tsuen Wan and the Southern District are set out at Annex.

As at end-January 2025, a total of 36 Care Teams in Tsuen Wan and the Southern District have visited or contacted over 7 000 households of singleton and doubleton elderly and carers of elderly persons and PWDs, and have made over 1 190 referrals for welfare services under

the Scheme. In addition, a total of 272 elderly persons and 11 PWDs have installed Safety Bells and received related subsidies through the referral of the Care Teams.

Encouraged by the positive outcomes of the Scheme during its pilot phase, the Chief Executive announced in the 2024 Policy Address that the Scheme would be extended to all 18 districts across the territory in the second quarter of 2025 to provide support to more elderly persons and carers. It is expected that in the 12-month implementation period of the Scheme, the Care Teams will contact over 60 000 households in need. The Scheme is expected to incur a total expenditure of about \$107.9 million for 2025-26.

Number of households visited/contacted, headcount of persons provided with follow-up and support services, and number of referrals made for welfare services by the Care Teams in Tsuen Wan and the Southern District

(as at 31 January 2025)

Item	Tsuen Wan	Southern District	Total
Households ^{Note 1} visited/contacted (number of households) ^{Note 2}	4 135	2 955	7 090
Follow-up and support services provided (headcount of persons) ^{Note 2}	5 782	7 009	12 791
Referrals made for welfare services (number of referrals) ^{Note 2}	859	340	1 199

Note 1 Including households of singleton and doubleton elderly, as well as carers of elderly persons and PWDs.

Note 2 As the statistics for services rendered in January 2025 by some Care Teams were entered into the household information management platform in February, some service statistics are not reflected in the table above.

CONTROLLING OFFICER'S REPLY

LWB(W)169

(Question Serial No. 2166)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

According to the website of the Social Welfare Department (SWD), there are 67 Integrated Family Service Centres (IFSCs) in total. Please provide the following information regarding these IFSCs:

- (a) the amount of funding allocated by the Government to the 67 non-governmental organisation (NGO)-operated IFSCs in each of the past 3 years, presented in tabular form;
- (b) the type of ownership (i.e. government or private property) of the premises of the 67 existing NGO-operated IFSCs, as well as their respective floor areas and rents, presented in tabular form;
- (c) the permitted duration of operation in years for the 67 existing NGO-operated IFSCs, their minimum staffing requirements for professionals (such as nurses, social workers, and mediators) and support staff (such as drivers and typists), as well as their membership figures in each of the past 3 years, presented in tabular form; and
- (d) the key performance indicators (KPIs) set by SWD for the 67 NGO-operated IFSCs, instances where they failed to meet the KPIs (presented in tabular form), the methods by which the Government monitors their operations, and the number of on-site inspections conducted by SWD to evaluate their implementation of the Funding and Service Agreement (FSA) in the past year.

Asked by: Hon TANG Ka-piu (LegCo internal reference no.: 1)

Reply:

- (a) There are 65 IFSCs and 2 Integrated Services Centres operated by SWD and NGOs across the territory. Of these, 24 IFSCs are operated by 10 SWD-subvented NGOs. The amount of subventions received by these IFSCs from 2022-23 to 2024-25 is set out in Table 1 of Annex.
- (b) Of the 24 IFSCs operated by NGOs, 23 are situated in properties owned by the Government/the Hong Kong Housing Authority/the Hong Kong Housing Society, while the remaining 1 IFSC rents a private property. The standard area for an IFSC is

551.1 square metres. The total expenditure on rent, rates and Government rent for the 24 NGO-operated IFSCs in 2023-24 amounted to about \$9.51 million.

- (c) Having regard to the service commencement dates of various IFSCs, SWD has signed non-time-defined FSAs with NGOs operating 21 IFSCs, and 5-year time-defined FSAs with NGOs operating 3 IFSCs, respectively. The staffing establishment of an IFSC is set out in Table 2 of Annex. Subject to compliance with the requirements of FSAs, NGOs may flexibly deploy resources and employ staff to achieve the required service outputs and outcomes. SWD does not have information on the membership figures of the NGO-operated IFSCs mentioned above.
- (d) NGOs operating IFSCs are required to comply with the relevant requirements and standards stipulated in the FSAs, including essential service requirements, service output and outcome standards, and service quality standards. In 2023-24, except for 2 IFSCs that failed to achieve the service output standard of “number of cases” and the service quality standard related to conducting fire drills respectively, all other IFSCs complied with all the requirements stipulated in the FSAs.

SWD requires all NGOs operating IFSCs to put in place an effective internal monitoring mechanism to properly monitor and manage their daily operations, ensuring compliance with the requirements of FSAs. In addition to reviewing the operation of various services and monitoring the performance of service units in accordance with existing mechanisms, SWD conducts scheduled or surprise visits through random selection to assess NGOs’ compliance with the terms and requirements of FSAs. In 2024-25 (as at the end of February 2025), SWD conducted review visits to 6 IFSCs.

Table 1: Amount of subventions received by NGO-operated IFSCs

Year	Amount (\$ million)
2022-23 (Actual)	366.6
2023-24 (Actual)	382.3
2024-25 (Revised estimate)	390.1

Table 2: Staffing establishment of an NGO-operated IFSC ^{Note}

Rank/Post	Number of staff
Social Work Officer	1
Assistant Social Work Officer	8.23
Senior Social Work Assistant	3
Social Work Assistant	5
Assistant Clerical Officer	2
Clerical Assistant	2
Workman II	2

^{Note} The above estimated staffing establishment is solely for calculating subventions and should not be used as a benchmark for the manpower or staff mix of a subvented service unit. Subject to compliance with the requirements of FSAs, NGOs may flexibly deploy resources and employ staff to achieve the required service outputs and outcomes. IFSCs established in or after 2012-13 and operated by NGOs receive additional subventions to employ 2 additional Social Work Officers.

- End -

(Question Serial No. 2167)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

According to the website of the Social Welfare Department (SWD), there are 21 district support centres for persons with disabilities (DSCs) and 30 integrated community centres for mental wellness (ICCMWs), making a total of 51 centres. Please provide the following information regarding these DSCs and ICCMWs:

- (a) the amount of funding allocated by the Government to the 51 non-governmental organisation (NGO)-operated DSCs and ICCMWs in each of the past 3 years, presented in tabular form;
- (b) the type of ownership (i.e. government or private property) of the premises of the 51 existing NGO-operated DSCs and ICCMWs, as well as their respective floor areas and rents, presented in tabular form;
- (c) the permitted duration of operation in years for the 51 existing NGO-operated DSCs and ICCMWs, their minimum staffing requirements for professionals (such as nurses, social workers and mediators) and support staff (such as drivers and typists), as well as their membership figures in each of the past 3 years, presented in tabular form; and
- (d) the key performance indicators (KPIs) set by SWD for the 51 NGO-operated DSCs and ICCMWs, instances where they failed to meet the KPIs (presented in tabular form), the methods by which the Government monitors their operations, and the number of on-site inspections conducted by SWD to evaluate their implementation of the Funding and Service Agreement (FSA) in the past year.

Asked by: Hon TANG Ka-piu (LegCo internal reference no.: 2)

Reply:

- (a) SWD has set up 21 DSCs and 24 ICCMWs in Hong Kong. Among these, 1 ICCMW have 2 sub-bases while 4 ICCMWs have 1 sub-base each, providing a total of 30 ICCMW service points across the territory. The expenditure on DSCs and ICCMWs in each of the past 3 years is set out in Table 1 of Annex.
- (b) Currently, there are 16 DSCs located on properties owned by the Government/the Hong Kong Housing Authority (HA) or service operators, while the remaining 5 are situated on private properties. As for ICCMWs, 25 service points located on properties owned

by the Government/HA or service operators, while the remaining 5 service points are situated on rented private properties. The net usable floor area required for a standard scale DSC and an ICCMW is 626 square metres and 663 square metres, respectively. The actual total rental expenditure for the above premises for 2023-24 was about \$29 million.

- (c) SWD has signed a 5-year time-defined FSA with NGOs operating DSCs and ICCMWs. The membership figures of DSC and ICCMW in each of the past 3 years are set out in Table 2 of Annex. The staffing establishments for DSCs and ICCMWs have been uploaded to SWD's website (<https://www.swd.gov.hk/en/ngo/subventions/suballoc/subvention/>). Subject to compliance with the requirements of FSAs, service operators may flexibly deploy resources and employ staff to achieve the service outputs and outcomes required.
- (d) NGOs operating DSCs and ICCMWs are required to comply with the relevant requirements and standards as stipulated in the FSAs, including essential service requirements, service output standards, etc. In 2023-24, as regards essential service requirements, 19 DSCs and all ICCMWs complied with the requirements stipulated in the FSAs, with the exception of 2 DSCs that were unable to engage clinical psychologists. As regards service output standards, with the exception of 11 DSCs that could not achieve 8 of the output standards (including service hours, number of assessment/treatment sessions, rate of reviewing psychological needs, utilisation rate of day care services, total number of cases and number of counselling sessions) and 3 ICCMWs that could not achieve part of the 3 output standards (i.e. total number of new cases, total number of outreaching visits/interview sessions, and number of sessions of interest classes/supportive groups organised), all other DSCs and ICCMWs achieved all the output standards. Relevant improvement measures have been implemented by the NGOs concerned at the request of SWD.

Service operators are required to put in place an effective internal monitoring mechanism to monitor and manage their service units properly for compliance with the requirements of FSAs. SWD reviews the operation of various services and monitor the performance of the service units in accordance with existing mechanisms and also conducts scheduled or surprise visits by random selection to assess the NGOs' compliance with the terms and requirements of FSAs. In 2024-25 (as at the end of February 2025), SWD conducted review visits to 5 DSCs and 2 ICCMWs.

Table 1: Expenditure on DSCs and ICCMWs

Year	2022-23 (Actual) (\$ million)	2023-24 (Actual) (\$ million)	2024-25 (Revised estimate) (\$ million)

CONTROLLING OFFICER'S REPLY**LWB(W)171****(Question Serial No. 2168)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (7) Young PeopleControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

According to the website of the Social Welfare Department (SWD), there are 139 integrated children and youth services centres (ICYSCs) and 22 children and youth centres (CYCs), making a total of 161 centres. Please provide the following information regarding these ICYSCs and CYCs:

- (a) the amount of funding allocated by the Government to the 161 non-governmental organisation (NGO)-operated ICYSCs and CYCs in each of the past 3 years, presented in tabular form;
- (b) the type of ownership (i.e. government or private property) of the premises of the 161 existing NGO-operated ICYSCs and CYCs, as well as their floor areas and rents, presented in tabular form;
- (c) the permitted years of operation for the 161 existing NGO-operated ICYSCs and CYCs, their minimum staffing requirements for professionals (such as nurses, social workers and mediators) and support staff (such as drivers and typists), as well as their number of members in each of the past 3 years, presented in tabular form; and
- (d) the key performance indicators (KPIs) set by SWD for the 161 NGO-operated ICYSCs and CYCs, instances where they failed to meet the KPIs (presented in tabular form), the methods by which the Government monitors their operations, and the number of on-site inspections conducted by SWD to evaluate their implementation of the Funding and Service Agreement (FSA) in the past year.

Asked by: Hon TANG Ka-piu (LegCo internal reference no.: 3)Reply:

- (a) The amount of subventions granted by SWD to the 161 NGO-operated ICYSCs and CYCs (centres) in each of the past 3 years are set out as follows:

Year	2022-23 (Actual) (\$ million)	2023-24 (Actual) (\$ million)	2024-25 (Revised estimate) (\$ million)
ICYSC	1,272.3	1,321.8	1,348.9
CYC	84.6	87.2	89.2

- (b) Currently, 161 centres have their premises located in properties owned by the Government, the Hong Kong Housing Authority or the Hong Kong Housing Society. Of these, 3 centres have part of their premises (such as sub-bases) located in private properties. The required net operating floor area for ICYSCs and CYCs is approximately 631 m² and 366 m², respectively. In 2023-24, the expenses for rents, rates, and Government rents for ICYSCs and CYCs were approximately \$67.97 million and \$4.98 million, respectively.
- (c) Depending on the service commencement dates of each centre, SWD has signed time-defined service agreements of 3 years and 5 years, respectively, with the organisations operating 2 of the centres, while the remaining agreements are non-time-defined. The staffing establishments for ICYSCs and CYCs are set out in Tables 1 and 2 of Annex. Subject to compliance with the requirements of the Funding and Service Agreements, organisations may flexibly deploy resources and employ staff to achieve the required service outputs and outcomes. The number of members of these centres in each of the past 3 years are set out as follows:

Year	Number of members		
	2022-23	2023-24	2024-25 (as at 31 December 2024)
ICYSC	332 805	387 235	368 502
CYC	31 234	35 447	33 495

- (d) NGOs operating ICYSCs and CYCs are required to adhere to the requirements and standards outlined in their service agreements, including essential service requirements, output and outcome standards, and service quality standards. In 2023-24, with the exception of 8 centres that failed to meet one of the following requirements: (i) the essential service requirement for “number of opening sessions”, (ii) the service output standard for “service hours/average attendance”, (iii) the service outcome standard for “outcomes after service termination”, or (iv) the service quality standard related to fire safety facilities, all other centres complied fully with the requirements stipulated in the service agreements. The organisations concerned have implemented corresponding improvement measures as directed by SWD.

SWD requires operators to establish an effective internal monitoring mechanism to properly oversee and manage their daily operations, ensuring compliance with the requirements of the service agreements. SWD will review the operation of these services and monitor the performance of the service units in accordance with existing mechanisms, and will conduct scheduled or surprise visits by random selection to assess operators’ compliance with the terms and requirements of the service agreements. In 2024-25 (as at the end of February 2025), SWD conducted performance assessment visits to 21 ICYSCs and CYCs.

Table 1: Staffing establishment of ICYSC

ICYSC	
Rank/Post	Number of staff
Social Work Officer	1
Assistant Social Work Officer	5
Senior Social Work Assistant	1
Social Work Assistant	4
Welfare Worker	2
Assistant Clerical Officer	1
Clerical Assistant	1
Office Assistant	1
Typist	1
Workman II	1

Table 2: Staffing establishment of CYC

CYC	
Rank/Post	Number of staff
Social Work Officer	0.2
Assistant Social Work Officer	1
Social Work Assistant	3
Welfare Worker	1.75
Clerical Assistant	1
Workman II	1

Note The above staffing establishments are intended solely for the purpose of calculating the amount of subvention, and should not be regarded as the standard for staffing levels or employee composition in subvented services. Subject to compliance with the requirements of Funding and Service Agreements, organisations can flexibly deploy resources and employ staff to achieve the service outputs and outcomes required.

CONTROLLING OFFICER'S REPLY**LWB(W)172****(Question Serial No. 2169)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (1) Family and Child WelfareControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

According to the website of the Social Welfare Department (SWD), there are 32 aided child care centres (CCCs). Please provide the following information regarding these aided CCCs:

- (a) the amount of funding allocated by the Government to the 32 non-governmental organisation (NGO)-operated aided CCCs in each of the past 3 years, presented in tabular form;
- (b) the type of ownership (i.e. government or private property) of the premises of the 32 existing NGO-operated aided CCCs, as well as their respective floor areas and rents, presented in tabular form;
- (c) the permitted duration of operation in years for the 32 existing NGO-operated aided CCCs, their minimum staffing requirements for professionals (such as nurses, social workers, and mediators) and support staff (such as drivers and typists), as well as their membership figures in each of the past 3 years, presented in tabular form; and
- (d) the key performance indicators (KPIs) set by SWD for the 32 NGO-operated aided CCCs, instances where they failed to meet the KPIs (presented in tabular form), the methods by which the Government monitors their operations, and the number of on-site inspections conducted by SWD to evaluate their implementation of the Funding and Service Agreement (FSA) in the past year.

Asked by: Hon TANG Ka-piu (LegCo internal reference no.: 4)

Reply:

- (a) SWD provides subsidies to 11 NGOs operating 19 aided standalone CCCs. The amount of subsidies granted by SWD to aided standalone CCCs in each of the past 3 years is tabulated below:

Year	Amount of subsidy (\$ million)
2022-23 (Actual)	53.8
2023-24 (Actual)	62.8
2024-25 (Revised estimate)	82.4

- (b) Currently, 16 aided standalone CCCs have their premises located in properties owned by the Government/the Hong Kong Housing Authority/the Hong Kong Housing Society, while the remaining 3 are situated in private properties. The sizes of these CCCs range from 108 to 679 square metres. The total expenditure on rent, rates, and Government rent in 2023-24 amounted to about \$2.8 million.
- (c) Having regard to the service commencement dates of various aided standalone CCCs, SWD has signed non-time-defined FSAs with NGOs operating 12 aided standalone CCCs, and 5-year time-defined FSAs with NGOs operating 7 aided standalone CCCs, respectively. All CCCs must be registered under the Child Care Services Ordinance (Cap. 243) and the Child Care Services Regulations (CCSR) (Cap. 243A). In accordance with the CCSR, they are required to employ individuals registered as child care workers or supervisors to provide child care services. The manning ratio of child care workers or supervisors present and on duty in day CCCs is 1:8 for children aged 0 to below 2, and 1:14 for children aged 2 to below 3. To enhance service quality, the Government has allocated additional resources since the 2019/20 school year to improve the above manning ratios to 1:6 and 1:11, respectively. As aided standalone CCCs do not operate on a membership system, SWD does not maintain records of membership figures.
- (d) NGOs operating aided standalone CCCs are required to comply with the relevant requirements and standards stipulated in the FSAs, including essential service requirements, service output and outcome standards, and service quality standards. In 2023-24, except for 1 aided standalone CCC that failed to achieve the service output standard of “average enrolment rate”, all other aided standalone CCCs complied with all the requirements stipulated in the FSAs.

SWD requires all NGOs operating aided standalone CCCs to put in place an effective internal monitoring mechanism to properly monitor and manage their daily operations, ensuring compliance with the requirements of FSAs. In accordance with the existing mechanisms, SWD conducts scheduled or surprise visits through random selection to assess NGOs' compliance with the terms and requirements of FSAs. In 2024-25 (as at February 2025), SWD conducted review visits to 5 aided standalone CCCs. In addition, the Child Care Centres Advisory Inspectorate (CCCAI) of SWD conducts surprise inspections at CCCs at different periods of time during office and non-office hours. To monitor and ensure CCCs' continuous compliance with the statutory requirements, CCCAI will increase the frequency of inspections as necessary based on the principle of risk management. In 2024-25 (as at February 2025), CCCAI conducted 58 inspections at aided standalone CCCs.

CONTROLLING OFFICER'S REPLY

LWB(W)173

(Question Serial No. 2170)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the funding for district elderly community centres (DECCs), neighbourhood elderly centres (NECs) and social centres for the elderly (SEs), will the Government inform this Committee of the following:

- (a) (i) the annual amount of funding received, (ii) the year-on-year change in such amount, and (iii) the average staffing establishment and the respective year-on-year changes in table for the past 5 years for each of the DECCs, NECs and SEs operated by subvented non-governmental organisations (NGOs)
- (b) (i) the number of members, (ii) the average attendance per session, (iii) the number and percentage of members aged 55 to 64 and those aged 65 or above, (iv) the percentage of such numbers relative to the population of the same age groups in the same district (and their respective districts), and (v) the number and percentage of members who are singleton or doubleton elderly in table form the past 5 years for each of the subvented DECCs, NECs and SEs; (c) the key performance indicators (KPIs) for the services of DECCs operated by each subvented NGO, including collaboration with and provision of support to elderly service units in the district, community education, reaching out and networking, support teams for the elderly, health education, educational and developmental activities, provision of information on community resources and referral services, volunteer development, carer support services, educational and supportive programmes on dementia, retirement planning, promotion of gerontechnology, counselling services, social and recreational activities, meal and laundry services, and drop-in services; and if the KPIs have not yet been set, the reasons for this;
- (d) the KPIs for the services of the NECs operated by each subvented NGO, including health education, educational and developmental activities, provision of information on community resources and referral services, volunteer development, carer support services, educational and supportive programmes on dementia, retirement planning, promotion of gerontechnology, counselling services, reaching out and networking, social and recreational activities, and drop-in services; and if the KPIs have not yet been set, the reasons for this; and

- (e) the KPIs for the services of the subvented SEs, including organising indoor and outdoor groups or activities, provision of information on welfare services for the elderly, encouraging the elderly to organise mutual help activities and participate in community affairs, provision of leisure facilities and gathering venues; and if the KPIs have not yet been set, the reasons for this?

Asked by: Hon TANG Ka-piu (LegCo internal reference no.: 5)

Reply:

- (a) The total expenditures for DECCs, NECs and SEs subvented by the Social Welfare Department (SWD) from 2020-21 to 2024-25 are set out at Annex 1. As the service operators of DECCs and NECs receive funding through Lump Sum Grant (LSG) mode, SWD does not have a record of allocation amounts for each service unit.
The requested information on staffing establishments is set out in Tables 1 to 3 of Annex 2.
- (b) The membership number and the average attendance per session of DECCs, NECs and SEs from 2020-21 to 2024-25 are set out at Annex 3. SWD does not have information on the age distribution of members, their proportion relative to percentage to the population in the same district, or information on members who are singleton or doubleton elderly.
- (c) The output standards for DECCs are set out at Annex 4. As meal and laundry services are not the core services of DECCs, no relevant output standards are available.
- (d) The output standards for NECs are set out at Annex 5.
- (e) The output standards for SEs are set out at Annex 6. Among them, output standard 5 (the total number of activities organised in a quarter) covers various types of services and activities.

Statistics on expenditures for DECCs, NECs and SEs from 2020-21 to 2024-25

Year	DECCs (41 DECCs) (\$ million)	NECs (170-173 NECs) ^{Note 1} (\$ million)	SEs (1 SE) (\$ million)
2020-21	572.2 (1.2% higher than the previous year)	881.1 (1.5% higher than the previous year)	1.2 (14.3% lower than the previous year)
2021-22	566.0 (1.1% lower than the previous year)	875.7 (0.6% lower than the previous year)	1.3 (8.3% higher than the previous year)
2022-23	573.4 (1.3% higher than the previous year)	898.7 (2.6% higher than the previous year)	1.3 (no change)
2023-24	621.6 (8.4% higher than the previous year) ^{Note 2}	1,002.6 (11.6% higher than the previous year) ^{Note 3}	1.4 (7.7% higher than the previous year)
2024-25 (Revised estimate)	668.4 (7.5% higher than the previous year)	1,118.2 (11.5% higher than the previous year)	1.6 (14.3% higher than the previous year)

^{Note 1} There are 170 NECs in 2020-21; 171 NECs in 2021-22; 172 NECs in 2022-23; and 173 NECs in both 2023-24 and 2024-25.

^{Note 2} The subvention for DECCs has increased since October 2023 to provide pre-retirement planning services and promote the application of gerontechnology.

^{Note 3} The subvention for NECs has increased since October 2023 to provide pre-retirement planning services and promote the application of gerontechnology.

Table 1: Staffing establishment ^{Note 1} of DECCs (from 2020-21 to 2024-25)

(Question Serial No. 2171)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (2) Social Security

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The emergency alarm system (EAS) (commonly known as “Safety Bell”) ensures the safety of the elderly while facilitating their ageing in place. The Government also provides a grant for EAS under the Comprehensive Social Security Assistance (CSSA) Scheme. In this regard, please provide information on the following:

- (a) the number of elderly households currently eligible for the grant for EAS provided by the Social Welfare Department (SWD), the Housing Department or the Hong Kong Housing Society to CSSA recipients and public rental housing residents, out of which the actual number of persons with EAS installed, as well as their percentage out of the total number of persons eligible for the grant for EAS in each of the past 5 years in tabular form;
- (b) the percentage of the grant for EAS out of CSSA payment in each of the past 5 years in tabular form;
- (c) the publicity measures of the Government for promoting EAS installation in the homes of the elderly, as well as the costs of implementing each of these measures; and
- (d) the distribution of the elderly's choice by EAS service provider, as well as the regulatory measures of the Government for individual service providers.

Asked by: Hon TANG Ka-piu (LegCo internal reference no.: 6)

Reply:

- (a) Elderly CSSA recipients aged 65 or above who are single or living in a family with other family members who cannot take care of him/her may apply from SWD for a special grant to cover the fees for installing and using indoor or mobile EAS. CSSA recipients aged 60 to 64 who are single or living in a family with other family members who cannot take care of him/her may also apply from SWD for the same special grant if they are certified to be more than 50% disabled or suffering from such medical conditions which, in the opinion of a doctor of a public hospital or clinic, may develop into life threatening conditions and require immediate attention. SWD does not maintain statistics on the number of CSSA recipients eligible for the grant for EAS. The number of CSSA recipients

receiving the grant for EAS from 2020-21 to 2024-25 is set out in Table 1 of Annex.

- (b) The expenditure on the grant for EAS and its percentage of the total CSSA expenditure from 2020-21 to 2024-25 are set out in Table 2 of Annex.
- (c) & (d) Individuals in need of EAS are free to choose a suitable service provider according to their specific needs, and directly enquire about and purchase EAS services from the service provider. SWD does not maintain any information related to service providers. Regarding the grant for EAS provided to elderly recipients under the CSSA Scheme, SWD has not recognised any specific service providers for EAS services. Nevertheless, staff at Social Security Field Units will provide eligible CSSA recipients with information about the grant and facilitate their applications.

Table 1 Number of CSSA recipients receiving the grant for EAS from 2020-21 to 2024-25

Year	Number of CSSA recipients receiving the grant for EAS
2020-21	32 745
2021-22	30 634
2022-23	28 354
2023-24	26 653
2024-25 (as at end-December 2024)	25 882

Table 2 Expenditure on the grant for EAS and its percentage of the total CSSA expenditure from 2020-21 to 2024-25

Year	Expenditure on the grant for EAS (\$ million)	Percentage of the total CSSA expenditure ^{Note 1 Note 2} (%)
2020-21	42	0.2
2021-22	38	0.2
2022-23	35	0.2
2023-24	33	0.1
2024-25 (as at end-December 2024)	23	0.1

Note 1 The total CSSA expenditure for 2024-25 is a revised estimate.

Note 2 The actual expenditure for 2020-21 includes the payment of 1 additional month of CSSA standard rates in the year. The actual expenditures from 2021-22 to 2023-24, as well as the revised estimate of expenditure for 2024-25, include the payment of an additional half-month of CSSA standard rates in the year.

CONTROLLING OFFICER'S REPLY**LWB(W)175****(Question Serial No. 2173)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: Not SpecifiedControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

The Lump Sum Grant Subvention System (LSGSS) has been implemented by the Social Welfare Department (SWD) since 2001, with a view to enhancing accountability, efficiency and cost-effectiveness in the use of subvention allocations. In this connection, please provide the following information on LSGSS:

- (a) Please set out in a table the proportion of non-governmental organisations (NGOs) that were required to submit a Review Report on Remuneration Packages for Staff in the Top Three Tiers under LSGSS in each of the past 3 years.
- (b) Please provide the key performance indicators (KPIs) for different types of NGOs under LSGSS and the number of KPIs achieved.
- (c) Please set out in a table SWD's expenditure and staffing establishment for implementing various tasks under the Service Performance Monitoring System.
- (d) The Government announced the Productivity Enhancement Programme (PEP) in the 2024-25 Budget, under which various types of social welfare organisations are required to achieve a cumulative reduction of 7% in their subvention by 2027-28. Although small and medium-sized organisations will have 4% of this reduction borne by SWD, they still have to make cuts. In this connection, please set out in a table the amount of subvention that has already been cut from each organisation and their main cost-cutting measures.

Asked by: Hon TANG Ka-piu (LegCo internal reference no.: 8)Reply:

- (a) From 2021-22 to 2023-24, under LSGSS, the percentage of NGOs required to submit a Review Report on Remuneration Packages for Staff in the Top Three Tiers is tabulated as follows:

Year	Percentage of NGOs required to submit the Review Report (%)
2021-22	52.7%
2022-23	55.7%
2023-24	54.1%

- (b) NGOs operating subvented welfare services are required to comply with the relevant requirements and standards as stipulated in the Funding and Service Agreements (FSAs), including essential service requirements (ESRs), service output and outcome standards (OS/OCs Standards), and service quality standards (SQSs). In 2023-24, a total of 172 NGOs operated more than 3 200 service units under LSGSS. Except for 42 service units, all service units met the ESRs, OC Standards, and SQSs. Regarding OS Standards, about 80% of the service units achieved the agreed levels stipulated in their FSAs, whereas the remaining 20% met only part of the Standards.
- (c) SWD currently has 23 staff members who are responsible for handling duties related to social welfare subvention, including monitoring the service performance of NGOs, liaising with NGOs, handling complaints, and implementing support measures for NGOs. SWD does not maintain a breakdown of the staffing establishment or expenditure dedicated to monitoring service performance.
- (d) In the 2025-26 Budget, the Financial Secretary introduced measures to step up PEP. To support NGOs in implementing PEP, the Labour and Welfare Bureau and SWD have made concerted efforts by reallocating internal resources and adjusting priorities to alleviate some of the financial burden on NGOs, ensuring they have sufficient time to prepare for the adjusted PEP. In 2024-25, SWD has not reduced the subvention for existing services provided by NGOs.

LWB(W)176

(Question Serial No. 2174)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Gerontechnology is indispensable for achieving ageing in place. In this connection, please provide the following information regarding the Innovation and Technology Fund for Application in Elderly and Rehabilitation Care (I&T Fund):

- (a) Provide, in tabular form, the number of eligible applications, the total number of successful applications, the number of successful applications where the target beneficiaries are elderly persons (aged 60 or above), the number of applications where the target beneficiaries are persons with disabilities (PWDs), and the average grant amount per successful application in each of the past 5 years.
- (b) According to the Reference List of Recognised Technology Application Products of the I&T Fund, there are currently 22 types of products eligible for application. Provide, in tabular form, the number of applications, the number of successful applications, and the average grant amount applied in each case for each type of products in each of the past 5 years.
- (c) Set out, in tabular form, the types of gerontechnology products suitable for household use by elderly persons, PWDs and their carers that eligible service units are allowed to procure under the expanded scope of the I&T Fund, and their reference price.

Asked by: Hon TANG Ka-piu (LegCo internal reference no.: 9)

Reply:

- (a) The Government allocated \$1 billion to launch the I&T Fund in 2018 to subsidise eligible elderly and rehabilitation service units to procure, rent or trial technology products, with a view to improving the quality of life of service users and reducing the pressure on care staff and carers. From 2020-21 to 2024-25, 7 tranches of grants have been approved under the I&T Fund to subsidise elderly and rehabilitation service units to procure or rent over 20 400 items of technology products. Relevant information is set out in Table 1 of Annex.

As the I&T Fund is open to applications from elderly and rehabilitation service units only, the Social Welfare Department (SWD) does not have information on the number of beneficiaries. In addition, given the wide variety and significant price differences of technology products, and the varying number of products involved in each

application, the average grant amount per case cannot accurately reflect the utilisation of the I&T Fund. Therefore, SWD does not maintain such information.

- (b) The numbers of technology products applied for and approved in the past 5 years, broken down by type of product, are set out in Table 2 of Annex. SWD does not maintain the average grant amount applied for each type of product.
- (c) The 2023 Policy Address announced that the Government would inject an additional \$1 billion into the I&T Fund in 2024-25, and expand the scope of the I&T Fund to allow non-governmental organisations operating subvented elderly and rehabilitation community service units to apply for extra funding to procure technology products suitable for elderly persons/PWDs and their carers to borrow and use at home. SWD will explain the application details of the relevant measures to eligible service units and provide product examples for their reference. The Assessment Panel of the I&T Fund will consider a number of factors when assessing individual applications, including whether the proposed technology products in the applications can benefit elderly persons/PWDs living in the community or relieve the pressure on their carers, whether the products are suitable for lending to service users for home use, and whether the applicant organisations can provide ongoing support, etc.

Table 1: Information pertaining to the approval of applications under the I&T Fund from 2020-21 to 2024-25 (as at 28 February 2025)

Tranche no.	No. of products applied for	No. of products approved
4	3 071	2 790
5	3 053	2 647
6	1 631	1 463
7	1 154	987
8	7 146	6 553
9	3 541	2 812
10 ^{Note}	5 796	3 218

Note The vetting of the 10th tranche of applications is still underway.

CONTROLLING OFFICER'S REPLY

LWB(W)177

(Question Serial No. 2016)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Social Welfare Department (SWD) provides various day child care services, including the Neighbourhood Support Child Care Project (NSCCP), which was launched since October 2011, to provide flexible home-based day child care services for families within their neighbourhood. In this connection, please inform this Committee of the following information for each of the past 3 financial years, in tabular form:

- (a) the number of children served under NSCCP in each district;
- (b) the number of home-based child carers participating in NSCCP in each district, as well as the number of training hours they have undertaken;
- (c) the amount of subvention provided to each of the 23 service teams in all districts.

Asked by: Hon TIEN Puk-sun, Michael (LegCo internal reference no.: 3)

Reply:

- (a) & (b) The numbers of home-based child carers and children served under NSCCP in the past 3 financial years, broken down by District Council (DC) district, are set out at Annex. According to the Service Agreement (SA) for NSCCP signed between service operators and SWD, service operators are required to establish mechanisms for recruiting, assessing, screening and training home-based child carers, as well as service matching. In 2022-23 and 2023-24, home-based child carers were required to complete 4 hours of basic training. Starting from September 2024, under the enhanced training programme for home-based child carers, they are required to undergo 14 hours of basic training, and those who are arranged to take care of children with special learning needs must receive an additional 4 hours of advanced training. Social workers from service operators are required to conduct monthly home visits to home-based child carers currently providing services, while child care workers will provide home-based child carers with individual training/supervision. In addition, service operators are also required to continuously evaluate and follow up on the performance of home-based child carers to ensure service quality. As the training for home-based child carers is conducted by service operators, SWD does not have information on the number of training hours completed by home-based child carers.

- (c) Since September 2024, there are 19 organisations operating 23 service teams under NSCCP. In 2024-25, the amount of subvention provided by SWD to each service team was about \$3.22 million. This amount excludes incentive payments, training costs for home-based child carers, and subsidies granted to service users from low-income families for fee waivers/reductions, etc.

**Numbers of home-based child carers and children served under NSCCP
in the past 3 financial years by DC district**

(Question Serial No. 2018)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Mandatory Reporting of Child Abuse Bill was passed in 2023 and will come into effect in January 2026. One of the matters requiring special attention for the Social Welfare Department (SWD) in 2025-26 is to prepare for the commencement of the Mandatory Reporting of Child Abuse Ordinance (the Ordinance). In this connection, would the Government please inform this Committee of the following:

- (a) Please provide a breakdown of the number of practitioners from 25 professions who have completed Module 1 of the online self-learning training and achieved a score of 90% or higher in the post-course quiz.
- (b) After the Ordinance comes into effect, there may be a substantial increase in the number of reported child abuse cases. Has the Government earmarked sufficient resources and manpower to handle the increased caseload; if yes, what are the details; if not, what are the reasons?

Asked by: Hon TIEN Puk-sun, Michael (LegCo internal reference no.: 5)

Reply:

- (a) To dovetail with the operation of the Ordinance in January 2026, the Government has set up an e-learning platform to provide training and information on child protection for relevant professionals. The Child Protection Online Training offers online self-learning courses. Module 1 was launched in February 2024 to provide training on the basic knowledge on child protection. Module 2 is scheduled for phased rollout starting in July 2025, and will cover basic knowledge on the legal and reporting matters related to the new legislation. As at January 2025, about 14 000 individuals from the social welfare sector, 10 000 from the education sector, and 8 000 from the healthcare sector completed Module 1. Over 90% of them obtained a certificate after completing the post-course quiz.
- (b) To dovetail with the commencement of the Ordinance, the Government will, starting from 2025-26, allocate an additional annual provision of \$29.07 million to increase the number of emergency residential child care places, and \$157.4 million to strengthen professional support for child abuse victims and their families, amounting to a total of approximately \$186.5 million. In 2023-24, the Government allocated an additional

provision of \$24.1 million (additional full-year provision of \$24.2 million from 2024-25 onwards) to create 41 permanent posts to enhance the Government's enforcement and support capacity, provide appropriate training for practitioners in relevant professions and strengthen promotion and public education efforts on child protection, with a view to preparing for the operation of the Ordinance.

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (7) Young People

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Social Welfare Department (SWD) provides family and child welfare services and programmes. The 2023 Policy Address mentioned that the School-based After School Care Service Scheme (the Scheme) would be rolled out in the 2023/24 school year, with schools providing venues and non-governmental organisations (NGOs) operating the services. The Scheme will first be implemented on a trial basis in 50 primary schools, with plans to expand to about 110 primary schools across all 18 districts in Hong Kong. In this connection, would the Government please inform this Committee of the following:

- (a) Please set out in a table the number of primary schools in each district, the number of primary schools participating in the Scheme, and the number of service places allocated for each school;
- (b) Please set out in a table the number of student beneficiaries, and the amount of subsidy for each primary school under the Scheme as at 28 February 2025;
- (c) Has the Government conducted an evaluation of the effectiveness of the Scheme since its implementation? If yes, what are the findings? Will the Government consider extending the Scheme to kindergartens? If no, what are the reasons?

Asked by: Hon TIEN Puk-sun, Michael (LegCo internal reference no.: 6)

Reply:

- (a) A total of 125 primary schools have participated in the Scheme since its launch in the 2024/25 school year, offering about 5 800 service places. The number of primary schools in each district and the number of participating primary schools under the Scheme are set out at Annex 1, and the number of service places for each participating school is set out at Annex 2.
- (b) The estimated total expenditure for the Scheme in the 2024/25 school year is \$237 million. Based on the current service capacity of 5 800 service places, the average monthly cost per service place is estimated to be about \$3,405. A breakdown of the number of student beneficiaries and the amount of subsidy for each primary school is not yet available as some schools joined the Scheme some time after the start of the school year.

- (c) Currently, SWD subsidises NGOs to operate Extended Hours Service at 172 pre-primary institutions, allowing pre-primary children under the age of 6 in need to continue receiving care in the original institutions they attend. The aim is to support parents who cannot take care of their children temporarily due to work or other reasons. The Government will complete the evaluation of the Scheme in the 2025/26 school year to determine the way forward.

CONTROLLING OFFICER'S REPLY

LWB(W)180

(Question Serial No. 2021)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

One of the aims of the Social Welfare Department (SWD) is to provide support services for families, including those in disadvantaged circumstances and lacking means to meet their needs. In this regard, would the Government please inform this Committee of the following:

- (a) What are the respective numbers of inspections, surprise inspections, and staff deployed by SWD to inspect subvented residential child care centres (RCCCs), residential special child care centres (RSCCCs) and children's organisations under its purview?
- (b) During inspections, does SWD conduct random checks of the closed-circuit television (CCTV) footage or review the records of management staff examining CCTV footage and related audits? If so, what are the respective frequencies, durations, and counts of such random checks? If not, what are the reasons?
- (c) Last year, SWD provided funding to the Hong Kong Society for the Protection of Children (HKSPC) to incorporate AI surveillance technology into the CCTV systems at its centres. Will the Government allocate additional resources to implement similar AI surveillance technology across all child care centers (CCCs) and children's organisations to reduce the likelihood of unfortunate incidents? If so, what are the related expenditure, details, and implementation timetable? If not, what are the reasons?

Asked by: Hon TIEN Puk-sun, Michael (LegCo internal reference no.: 8)

Reply:

- (a) All CCCs must be registered under the Child Care Services Ordinance (Cap. 243) and the Child Care Services Regulations (Cap. 243A), and comply with the requirements of the above legislation and the Operation Manual for Pre-primary Institutions. The Child Care Centres Advisory Inspectorate (CCCAI) of SWD is responsible for registering and inspecting CCCs to ensure that the service units comply with the statutory requirements in areas such as staffing, space and design, safety measures, quality of care, etc. Inspectors of CCCAI conduct at least 6 surprise inspections at subvented RCCCs/RSCCCs and at least 2 such visits at day CCCs every 12 months, both during office and non-office hours. The frequency of inspections will be increased as necessary based on the principle of risk management. The respective numbers of

inspections conducted by CCCAI at RCCCs/RSCCCs and day CCCs (including both aided and non-aided CCCs) in each of the past 3 years are set out at Annex.

At present, the staffing establishment of CCCAI comprises 1 Social Work Officer, 5 social workers, and 1 registered nurse. In addition, SWD engaged 2 former law enforcement officers through internal redeployment of manpower resources in 2022 to strengthen its inspection efforts.

- (b) All RCCCs/RSCCCs are required, while complying with the relevant guidelines of the Office of the Privacy Commissioner for Personal Data, to install CCTV surveillance system in the centres and to formulate policies and mechanisms for monitoring and viewing the CCTV footage, that include arranging management staff from at least 2 hierarchical levels to independently examine and view the CCTV footage, defining the method and time of extracting the CCTV footage, assigning a person responsible to make clear records as well as details of supervising staff's review of the process.

To strengthen the monitoring of CCCs' childcare services, CCCAI inspectors visited CCCs every 2 weeks to conduct random checks and review on average at least 2 hours of CCTV footage. Inspectors will also proactively perform random checks of the CCTV footage, inspect the records kept by RCCC/RSCCC management staff regarding their viewing of the CCTV footage and the relevant review records during surprise inspections, follow-ups on complaint cases, etc.

- (c) In 2024, SWD, through an allocation of about \$20.5 million from the Lotteries Fund, assisted 12 RCCCs and RSCCCs in Hong Kong (including the Children's Residential Home under HKSPC and 2 other centres that are expected to commence operation soon) in introducing the AI monitoring systems into their CCTV systems, so as to enable a more comprehensive monitoring of childcare condition and a more effective identification of staff's improper behaviour for follow-up. The non-governmental organisations operating these centres have engaged service providers to carry out system development, design, coding, and technical testing, etc. according to the service environments and needs of individual centres. The AI monitoring systems are expected to be applied in these centres starting from mid-2025.

**Number of inspections conducted by CCCAI
at RCCCs/RSCCCs and day CCCs** ^{Note}

Year	2022-23	2023-24	2024-25 (as at end-December 2024)
RCCCs/RSCCCs	378	323	255
Day CCCs	150	133	138
Total	528	456	393

^{Note} Inspections conducted by CCCAI are normally in the form of surprise inspections, except for some scheduled random checks involving the review of CCTV footage monitored by designated management officers.

- End -

CONTROLLING OFFICER'S REPLY**LWB(W)181****(Question Serial No. 2622)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (3) Services for The ElderlyControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

Please provide the numbers of applications and approved beneficiaries, as well as the subsidy amounts for the Dementia Supplement (DS) and Infirmary Care Supplement (ICS) in subvented residential care homes for the elderly (RCHEs) and private RCHEs participating in the Enhanced Bought Place Scheme (EBPS), broken down by District Council (DC) district, over the past decade.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 2)Reply:

The Social Welfare Department (SWD) provides DS to subvented RCHEs and private RCHEs participating in EBPS to enable them to strengthen their manpower through additional resources, with a view to providing training and enhanced care to elderly residents with dementia. Meanwhile, SWD also provides ICS to these RCHEs, allowing them to recruit additional staff to provide better care to elderly residents who are chronically ill or disabled and in need of infirmary care.

From 2020-21 to 2023-24, the number of RCHEs receiving DS provided by SWD, the number of eligible elderly persons and the amount of subsidy disbursed are set out below:

Year	No. of RCHEs	No. of eligible elderly persons ^{Note}	Subsidy amount (\$ million)
2020-21	266	6 777	387
2021-22	288	6 945	386
2022-23	306	7 245	386
2023-24	323	7 515	393

^{Note} It refers to elderly persons who were assessed and certified by the Community Psychogeriatric Team of the Hospital Authority (HA) to be eligible for DS before 2019-20. SWD estimates the number of eligible elderly persons at private RCHEs under EBPS based on the number of elderly residents assessed as eligible at subvented care-and-attention (C&A) homes for the elderly. Since 2020-21, SWD has been calculating and disbursing DS using the number of eligible elderly persons certified in 2019-20 as the benchmark.

Starting from 2024-25, DS provided by SWD to subvented C&A homes has been covered by lump sum grants, thus information on the annual subsidy amount is not available.

From 2020-21 to 2024-25, the number of RCHEs receiving ICS provided by SWD, the number of eligible elderly persons and the amount of subsidy disbursed are set out below:

Year	No. of RCHEs	No. of eligible elderly persons ^{Note}	Subsidy amount (\$ million)
2020-21	129	1 782	170
2021-22	127	1 818	173
2022-23	127	1 770	167
2023-24	121	1 772	171
2024-25	117	1 911	183

^{Note} It refers to eligible elderly persons who were certified by Community Geriatric Assessment Teams of HA to be in need of infirmary care.

SWD does not maintain statistics on the numbers of applicants and recipients, and the amount of subsidy disbursed for the above supplements by DC district or type of RCHE.

- End -

CONTROLLING OFFICER'S REPLY**LWB(W)182****(Question Serial No. 2623)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (3) Services for The ElderlyControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

The enhanced Navigation Scheme for Young Persons in Care Services (Navigation Scheme) was rolled out in 2020-21 to provide a total of 1 200 training places over 5 years. In this connection, please provide:

- a. The number of applicants in 2020-21, 2021-22, 2022-23 and 2023-24 (as at end-December 2024);
- b. The number of trainees who completed the first-year of the course and became health workers in 2020-21, 2021-22 and 2022-23; and
- c. The number of trainees who completed the course and continued to work in the social welfare care sector in 2020-21 and 2021-22.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 3)Reply:

- a. & b. Under the Navigation Scheme, the respective numbers of applicants, admissions and trainees who became health workers from 2020-21 to 2024-25 are provided below:

Admission year	No. of applicants	No. of admissions	No. of registered health workers ^{Note}
2020-21	1 016	418	254
2021-22	905	368	227
2022-23	511	222	119
2023-24	467	228	Still undergoing training
2024-25 (as at end-December 2024)	311	141	Still undergoing training

^{Note} Trainees may apply to the Social Welfare Department for registration as health workers upon successfully completing the first year of the part-time diploma course.

- c. As at the end of December 2024, 224 and 168 trainees, who were admitted in 2020-21 and 2021-22 respectively, graduated. Out of these, 132 and 102

graduates, according to information provided by some of the trainees at the time of graduation, have continued to be employed in social welfare service units.

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

What was the monthly cost per place for on-site pre-school rehabilitation services (OPRS) provided by the Social Welfare Department (SWD) for children with mild disabilities under the age of 6 in the past 3 financial years?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 4)

Reply:

SWD does not have information on the monthly cost per place for OPRS in 2022-23 and 2023-24. SWD has begun maintaining such data in 2024-25. The revised estimate for the monthly cost per place for OPRS in that financial year is \$9,382.

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

There were 20 recommendations in the Elderly Services Programme Plan (ESPP) announced by the Elderly Commission in 2017. Could the Government please provide a detailed account of the financial expenditure incurred thus far in implementing these recommendations? Please provide a breakdown of the financial expenditure and expenditure items associated with the implementation of each recommendation.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 12)

Reply:

The ESPP has put forward a total of 20 short-term and medium to long-term recommendations for the future development of elderly services. The follow-up work on the recommendations is undertaken by the Labour and Welfare Bureau (LWB), Social Welfare Department and other relevant bureaux/departments according to their respective purviews. LWB is also responsible for the overall coordination and monitoring of the progress of the follow-up work on various recommendations in the ESPP. Work has been initiated to implement all 20 recommendations in the ESPP, with some projects already completed and others on-going. Since the follow-up work is carried out to strengthen and enhance existing elderly services, or is part of the regular work of the bureaux/departments concerned, the financial expenditure involved cannot be separately calculated.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2648)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: Not Specified

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding suicide incidents over the past 5 years, please provide statistics on the means of suicide, triggering factors, professional support provided prior to the incidents, and follow-up actions taken afterward. Furthermore, please elaborate on the resources committed by the Government to prevent and address suicides, the categories of services available, and its plans for future development in the next 5 years.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 28)

Reply:

The factors leading to suicide are highly complex and include emotional issues, personal health, family relationships, romantic relationships, financial difficulties, and challenges related to work and studies.

The Government attaches great importance to suicide prevention, and has been providing multi-tiered support through multi-disciplinary and cross-sectoral collaboration among various policy bureaux and departments (including the Education Bureau (EDB), the Health Bureau (HHB), the Department of Health (DH), the Labour and Welfare Bureau (LWB), and the Social Welfare Department (SWD)), public organisations, and other stakeholders within the community. These efforts aim to promote public education, identify high-risk groups, intervene early, and provide appropriate counselling and support services to individuals with suicidal tendencies and their families.

(1) Public education and promotion

Enhancing public awareness of mental health, fostering a positive mental health culture, and strengthening resilience:

- LWB organises an annual “Mental Health Month” to raise public awareness of mental health through lectures, exhibitions, community activities, and workshops, and convey positive messages, encouraging individuals to care for their own emotional well-being as well as that of others.
- SWD distributes promotional materials, broadcasts short videos, and organises community activities to convey positive messages, enhance public resilience, and encourage seeking help early.

- DH implements mental health promotion programmes, such as “Shall We Talk” and the Joyful@HK Campaign to raise public awareness of mental health issues.
- HHB promotes the “Mental Health Workplace Charter” programme to advocate for workplace mental health, foster a positive working environment, and mitigate the impact of workplace stress on mental health.
- EDB encourages schools to adopt a whole-school approach to promote students’ mental health through curriculum, information dissemination, activities, and training, thereby enhancing the resilience of all students.

(2) Identifying high-risk groups and early intervention

Identifying high-risk groups and providing targeted support services and early intervention to reduce potential suicide risks:

- SWD has set up cyber youth support teams (CYSTs) to reach out to emotionally unstable youth or those with suicidal thoughts via social media and other online platforms. CYSTs provide emotional support, counselling, and appropriate referral services. In the second quarter of 2025, SWD plans to enhance CYSTs’ services by providing an online youth emotional support platform, offering real-time online counselling to students or young people facing emotional distress and immediate crises.
- HHB launched the Pilot Scheme on Mental Health Assessment in 2024 at 3 District Health Centres/District Health Centre Expresses to provide free preliminary mental health assessments at the community level. The pilot scheme aims to achieve the primary healthcare goal of “early detection and early treatment” and strengthen support for individuals in need.
- In March 2024, HHB provided mental health first aid training to members of Care Teams to enhance their ability to identify and assist high-risk cases within the community.

(3) Crisis intervention for high-risk cases

Providing in-depth counselling and crisis intervention for high-risk cases with suicidal tendencies or mental health issues:

- SWD subvents The Samaritan Befrienders Hong Kong to operate the Suicide Crisis Intervention Centre, which offers outreaching, crisis intervention, and in-depth counselling services for individuals troubled by suicide-related issues.
- SWD and subvented organisations operate multiple hotlines, including the SWD Hotline, the crisis intervention and support hotline of the CEASE Crisis Centre under the Tung Wah Group of Hospitals, the Caritas Crisis Line, the Hotline Service for Youth at Risk, and the Designated Hotline for Carer Support. These hotlines provide immediate support to individuals with suicidal tendencies or emotional distress and encourage them to seek in-depth counselling at relevant service units.
- When suspected student suicide incidents occur, schools will immediately activate a crisis management team to provide group or individual counselling to affected teachers and students while following up with high-risk students.
- Since December 2023, the Government has implemented the Three-tier School-based Emergency Mechanism across all secondary schools. This

mechanism integrates in-school multidisciplinary teams, the off-campus support network, and medical services to identify students with higher suicidal risk early and provide them with targeted support.

- Integrated Community Centres for Mental Wellness, subvented by SWD, provide emotional support, case management, and counselling services to individuals with mental health needs or suicidal tendencies. These centres collaborate with the Hospital Authority (HA) and other welfare service units to provide immediate support and referrals for high-risk cases.
- HHB launched the “Mental Health Support Hotline” in December 2023, offering 24-hour immediate mental health support and referral services to individuals at risk of suicide.
- HHB has also established an emotional support and counselling service centre for ethnic minorities, comprising a multi-disciplinary team of counsellors proficient in ethnic minority languages, to provide mental health support.
- In 2023, HA optimised the Case Management Programme by improving the case manager-to-patient ratio to no more than 1:40. Additional manpower has been recruited to strengthen community psychiatric services, inpatient and outpatient psychiatric care, particularly for high-risk patients.

The SWD does not maintain statistics on the means of suicide, triggering factors, professional support provided before, or follow-up actions taken after suicide incidents.

Question:

The Government launched the Incentive Scheme to Encourage Provision of Residential Care Homes for Persons with Disabilities (RCHDs) in New Private Developments (the Scheme) in 2023. The Scheme aims to provide incentives to private developers to build residential care homes for persons with disabilities (PWDs) in new private development projects, thereby increasing the supply of RCHDs. In this regard, would the Government please provide the following information:

1. Since the launch of the Scheme, how many projects have been approved, and when are the approved projects expected to commence service after completing the vetting process?
2. Will the suitability of incentives provided be assessed and adjusted? If not, what are the reasons?

Asked by: Hon TSE Wai-chuen, Tony (LegCo internal reference no.: 25)

Reply:

The Government launched the Scheme in December 2023 to allow private developers, in the course of land transactions relating to lease modification, land exchange or private treaty grant for new private developments (excluding industrial developments), to be exempted from payment of land premium on the eligible RCHD premises, on the condition that they comply with certain lease conditions and obtain support from the Social Welfare Department.

Private developers' participation in the Scheme may depend on the state of the property market, commercial considerations, and other relevant factors. As at the end of December 2024, the Scheme has been launched for 1 year and the Lands Department has yet to receive any applications. We will continue to promote the Scheme and keep its implementation under review.

Question:

An allocation of \$20 billion to purchase properties for accommodating social welfare facilities was approved in 2020, with the aim of purchasing 60 properties for the Social Welfare Department (SWD) to establish more than 130 social welfare facilities. In this connection, would the Government please inform this Committee:

1. of the annual expenditure on purchasing properties for accommodating social welfare facilities, and the costs of purchased properties each year since the allocation was approved;
2. of the districts and uses of purchased properties; and
3. if the Government will assess whether the established objective has been achieved.

Asked by: Hon TSE Wai-chuen, Tony (LegCo internal reference no.: 24)

Reply:

1. & 2. With the assistance of the Government Property Agency (GPA), SWD is striving to identify suitable premises for purchase through different channels. As at 28 February 2025, SWD has incurred about \$240 million in actual expenditure on the “purchase of welfare premises” under the Capital Works Reserve Fund, covering the payment for 5 premises. 2 of these premises are located in Sham Shui Po District, while the remaining 3 are located in Central and Western District, Eastern District and Kwun Tong District, respectively. These premises are for operating a parents/relatives resource centre, a support centre for persons with autism, and a neighbourhood elderly centre, as well as for providing on-site pre-school rehabilitation services.
3. SWD and GPA are continuing their efforts to identify and purchase suitable premises, and have earmarked \$250 million for related work in 2025-26. The progress of purchasing premises depends on the availability of suitable properties in the market and various external factors, including whether the properties for sale have suitable fire safety and barrier-free access facilities, whether the size and location meet operational requirements, whether the surrounding land uses are compatible with welfare uses, and whether the selling prices fall within the acceptable price range determined by GPA with reference to market value. If market conditions permit, the goal of SWD and GPA is to purchase as many premises as possible in order to provide more welfare facilities. SWD will continue to implement and review the scheme.

(Question Serial No. 1963)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

It is mentioned under Matters Requiring Special Attention in 2025-26 that the Department will continue to increase the places of aided child care centres (CCCs). In this regard, please provide the following information:

1. How many standalone CCCs are there in Hong Kong? How are these centres distributed across districts, and what is the utilisation rate of each? How many new aided CCCs will be established, and what will be the amount of subsidy allocated to each?
2. The utilisation rate of standalone CCCs has dropped from 94% in 2023-24 to 85% in 2024-25, and is expected to remain flat in 2025-26. What are the reasons for this?
3. Some citizens have told me that the waiting time for day CCCs in certain districts is too long, making it difficult to reduce the child care burden on working mothers. Has the Department assessed whether the distribution and quantity of CCCs adequately meet the needs of families in different districts? Have there been cases where certain districts have an excess of places, while others face lengthy waiting time? Has resource allocation been conducted based on the actual needs in different districts? If such assessments have been made, what are the findings? If not, will an immediate assessment be conducted?

Asked by: Hon TSE Wai-chun, Paul (LegCo internal reference no.: 12)

Reply:

1. The Social Welfare Department (SWD) will set up a total of 11 more aided standalone CCCs in phases within 3 years starting from 2024. Among these, 4 CCCs at Queens Hill Estate and Wah Ming Estate in Fanling, the Treasury Building in Sham Shui Po, and Shun Lee Estate in Kwun Tong have commenced service in 2024. In addition, the CCCs at Cheung Shun Street in Sham Shui Po and Kwai Fong Estate in Kwai Tsing will commence service in 2025-26 whereas the CCCs at the joint-user government office building in Area 67 of Tseung Kwan O, Sai Kung and the Lei Yue Mun Ancillary Facilities Block in Kwun Tong are planned to commence service in 2026-27. The remaining 3 aided standalone CCCs, proposed to be set up in districts such as Kowloon City and Kwun Tong, are planned to be put into service by the end of 2027. The

number of aided standalone CCCs in various districts in Hong Kong and their average utilisation rates in 2024-25 (as at December 2024) are set out at Annex. The expenditure of a CCC depends on the number of places it provides. For an aided standalone CCC offering 100 places, the estimated annual expenditure is about \$7.9 million.

2. The overall utilisation rate of aided standalone CCCs in 2024-25 was lower than that in 2023-24 as the 4 additional aided standalone CCCs commenced service in January, March, September, and October 2024, respectively, and it took time for them to admit service users. In addition, 2 more aided standalone CCCs will commence service in 2025-26, and they are also expected to require time to admit service users. Therefore, the utilisation rate for that financial year is expected to be similar to that in 2024-25.
3. Generally speaking, parents will consider the background, service features and facilities of the premises of the service operator when deciding whether to apply for CCC services. They will choose a suitable service unit located near their place of residence/work or the carer's residence based on their family's child-rearing needs. After understanding the services and arrangements of ancillary facilities provided by the CCC, parents can directly apply for the services from the service operator. By understanding the circumstances of the parents and their children, the service operator can also provide more flexible support to families in need, and effectively address the service needs of different districts. In addition, SWD has been continuously reviewing the service planning for CCCs. This involves considering the overall situations of child care services and the characteristics of individual districts, including the available CCC places, service utilisation, ratio of subsidised to private child care services, land supply situation, and service demand as a result of demographic changes, etc. Follow-up measures will be taken in a timely manner, including enhancing service promotion, and adjusting the planned provision of CCCs and the distribution of service places, etc., to better meet the service demand of the community.

**Number of aided standalone CCCs in various districts and

CONTROLLING OFFICER'S REPLY

LWB(W)193

(Question Serial No. 2745)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (2) Social Security

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Many citizens have remarked that the Budget Speech references the term “support” at least 24 times in connection with various industries and groups. However, it makes no mention of support for the “sandwich class” or the middle class, resulting in considerable dissatisfaction. Their discontent stems from the fact that current policies permit elderly Comprehensive Social Security Assistance (CSSA) recipients to reside in Guangdong (GD) or Fujian (FJ) provinces while continuing to receive welfare benefits. In contrast, when elderly parents in ordinary families retire and relocate to the Mainland for their later years, the living and medical expenses covered by their carers cannot be claimed as tax deductions or used to apply for the dependent parent tax allowance. In this regard, would the Government please provide the following information:

1. Has the Government estimated the current number of elderly persons aged 65 or older living in the Mainland, particularly in GD and FJ provinces? How do these figures compare to the past 3 financial years?
2. Further to the question above, how many of these elderly persons are participating in the Portable Comprehensive Social Security Assistance (PCSSA) Scheme, and what is the annual expenditure involved?

Asked by: Hon TSE Wai-chun, Paul (LegCo internal reference no.: 26)

Reply:

1. The Government of the Hong Kong Special Administrative Region does not maintain statistics or estimates on the number of Hong Kong people residing in the mainland of China (the Mainland). Notwithstanding, since 2016, the Census and Statistics Department (C&SD) has been making use of the movement records of Hong Kong permanent residents to compile and release figures on “Hong Kong residents usually staying in the GD Province”, estimating the number of Hong Kong permanent residents who have stayed in the GD Province for a cumulative duration of at least half of the time during the 6 months before and after the reference time-point. The estimated number for end-2023 was 495 900, with 93 700 aged 65 or above, representing increases of 1 900 (2.1%), 8 600 (10.1%), and 5 700 (6.4%) compared to end-2020, end-2021, and end-2022, respectively, for this group. The estimations are made on the assumption

that Hong Kong permanent residents departing Hong Kong via land control points and the China Ferry Terminal are staying in the GD Province, and cannot differentiate those who travelled to other areas in the Mainland or outside the Mainland after departing Hong Kong. The figures for mid-2024 will be released by C&SD by end-March 2025.

2. The number of recipients ^{Note 1} under the PCSSA Scheme and the related expenditures ^{Note 2} from 2022-23 to 2024-25 are tabulated as follows:

2022-23		2023-24		2024-25 (as at end-December 2024)	
Number of recipients	Expenditure (Actual) (\$ million)	Number of recipients	Expenditure (Actual) (\$ million)	Number of recipients	Expenditure (Revised estimate) (\$ million)
652	39	568	34	555	32

^{Note 1} Individuals who were 60 to 64 and were receiving CSSA before 1 February 2019 are eligible to participate in the PCSSA Scheme, provided they meet the other eligibility criteria.

^{Note 2} The actual expenditures for 2022-23 and 2023-24, as well as the revised estimate of expenditure for 2024-25 include the payment of an additional half-month of CSSA standard rates in the year.

(Question Serial No. 3098)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the Innovation and Technology Fund for Application in Elderly and Rehabilitation Care (I&T Fund), please provide the following information:

1. the annual number of applications and approvals for subsidising eligible elderly and rehabilitation service units to procure or rent technology products, the types of subsidised products, the amount involved, and the number of elderly beneficiaries over the past 5 years, broken down by type of service organisation;
2. the annual numbers of activities and promotional materials produced to promote the use of gerontechnology among the elderly, their content, the number of elderly reached, and the expenditure involved over the past 5 years; and
3. the number of staff, establishment, ranking, salary expenses by rank, and total salary expenses for those responsible for the I&T Fund.

Asked by: Hon YUNG Hoi-yan (LegCo internal reference no.: 38)

Reply:

1. Information pertaining to the approval of applications under the I&T Fund from 2020-21 to 2024-25 (as at the end of February 2025) is set out at Annex.

The types of technology products more commonly applied for procurement by service units include equipment, assessment tools and accessories for occupational therapy/physiotherapy/speech therapy; smart hospital bed and accessories; computer software; security equipment; and hoist/raiser/lifter/climber, etc. As the I&T Fund is open to applications from elderly and rehabilitation service units only, the Social Welfare Department (SWD) does not keep records of the number of beneficiaries.

2. The Government continues to promote the use of gerontechnology among the elderly through various channels, including, since October 2023, integrating the promotion of gerontechnology into the service scope of SWD's district elderly community centres and neighbourhood elderly centres to encourage the adoption of gerontechnology in the community. In addition, elderly centres organise activities such as seminars and

workshops to provide opportunities for the elderly to access and learn to use more technology products, such as smart phones, tablets and application software, etc. SWD does not have information on the numbers of activities organised and promotional materials produced, as well as their content, the number of elderly persons reached and the expenditure involved, etc.

3. In 2018-19, SWD set up a secretariat to co-ordinate the operation of the I&T Fund. The secretariat has 11 time-limited posts in the Social Work Officer and Executive Officer grades. The average annual expenditure from 2022-23 to 2024-25 is about \$6.85 million.

LWB(W)195

(Question Serial No. 2978)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Mandatory Reporting of Child Abuse Ordinance (the Ordinance) is scheduled to come into effect next January. The Government will provide an additional annual provision of \$186 million to increase emergency places for residential child care and strengthen professional support for child abuse victims and their families. In this connection, please provide the following information:

1. A detailed breakdown of the \$186 million allocation, specifying how the funds will be distributed across different items, including increasing emergency places for residential child care, professional support services (e.g., psychological counselling and social work support), family support services (e.g., early intervention and crisis management solutions), as well as other related administrative or enforcement expenses.
2. The expected outcomes of this funding allocation, including the number of emergency places for residential child care services to be provided, the specific number of children and families who stand to benefit, and the extent to which professional support service coverage will be expanded.
3. Has the Government conducted an assessment of the long-term impact and effectiveness of these additional resources? For example, will the Government establish monitoring mechanism or performance evaluation indicators to ensure that resource utilisation aligns with actual needs?
4. Does the Government have further legislative plans, inter-departmental cooperation initiatives, or public education programmes to ensure the long-term protection of child welfare? If so, please provide the details. If not, what are the reasons?

Asked by: Hon ZHANG Xinyu, Gary (LegCo internal reference no.: 11)

Reply:

1. & 2. To dovetail with the operation of the Ordinance in January 2026, the Government will, starting from 2025-26, allocate an additional annual provision of \$29.07 million to increase the number of emergency residential child care places, and \$157.4 million to strengthen professional support for child abuse victims and their families, amounting to a total of approximately \$186.5 million. In 2023-24,

the Government allocated an additional provision of \$24.1 million (additional full-year provision of \$24.2 million from 2024-25 onwards) to create 41 permanent posts to enhance the Government's enforcement and support capacity, provide appropriate training for practitioners in relevant professions and strengthen promotion and public education efforts on child protection.

In terms of emergency residential child care places, 2 new residential child care centres will commence operation before the Ordinance takes effect, adding a total of 96 emergency care service places and catering for about 380 children each year.

Regarding strengthening professional support for child abuse victims and their families, the Social Welfare Department (SWD) has subsidised non-governmental organisations (NGOs) to set up 6 service teams under the Child Protection Support Service (service teams) in March 2025. The service teams, comprising social workers, psychologists, nurses, and other supporting staff, will provide a range of support services, including home visitation support, therapeutic/psycho-social groups, educational and family enrichment programmes, etc., to provide targeted intervention and professional support for children who have been abused or are at risk of abuse, as well as their families.

3. NGOs operating subvented services have to comply with the relevant requirements and standards stipulated in the Service Agreements (SAs), including essential service requirements, output and outcome standards, and service quality standards. SWD will review the operation of these services and monitor the performance of the service units in accordance with existing mechanisms, and will conduct scheduled or surprise visits by random selection to assess whether NGOs are in compliance with the terms and requirements of the SAs.
4. SWD will continue to provide a wide range of preventive, supportive and specialised services to support victims of domestic violence (including child abuse) and families in need. These services are provided through integrated family service centres/integrated services centres, Family and Child Protective Services Units, Clinical Psychology Units, family support networking teams, refuge centres for women, the Family Crisis Support Centre, the Multi-purpose Crisis Intervention and Support Centre, the Victim Support Programme for Victims of Family Violence, residential child care services and child care centres, etc.

In addition, SWD will set up 4 Community Parents and Children Centres (CPCCs) on a pilot basis by re-engineering existing children and youth centres located in the Eastern, Wong Tai Sin, Sha Tin, and Yuen Long districts. These CPCCs will adopt a play-based approach to promote parent-child interaction and educate parents on positive parenting methods, provide support to families with parenting needs, and refer families with other needs to appropriate government and community services. SWD will begin renovation works in the second quarter of 2025, with the 4 CPCCs scheduled to commence operations progressively starting from 2026. The estimated number of beneficiaries in the first year is about 10 000 persons.

The Commission on Children launched the "Walk with Kids" Thematic Campaign in 2023 to promote child protection. A series of stakeholder engagement activities have been organised to address a broad range of child-related issues, including child protection, children's physical and mental well-being, positive

parenting, and family solidarity. These activities aim to gather feedback from stakeholders and children for consideration and follow-up by relevant departments. Furthermore, the Commission has introduced the Funding Scheme for Children's Well-being and Development to support various promotional and public education projects that promote children's rights, well-being, and development.

- End -

CONTROLLING OFFICER'S REPLY

LWB(W)252

(Question Serial No. 3315)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

It is mentioned under Matters Requiring Special Attention in 2025-26 that the Labour and Welfare Bureau will prepare for the commencement of the Mandatory Reporting of Child Abuse Ordinance (the Ordinance), oversee the enhancement of training and preparation of guidelines for practitioners in the relevant professions to facilitate early identification of child abuse cases, and strengthen support for child abuse victims and their families. Given that the Ordinance will take effect on 20 January 2026, please provide an update on the current progress of the preparatory work, details of the enhanced training for practitioners in the relevant professions, the staffing establishment for the preparation of guidelines, and details of the estimated expenditure involved.

Asked by: Hon CHAN Pui-leung (LegCo internal reference no.: 44)

Reply:

To prepare for the commencement of the Ordinance, the Government has set up an e-learning platform to provide training and information on child protection for relevant professionals. The Child Protection Online Training platform offers online self-learning courses. Module 1 was launched in February 2024 to provide training on the basic knowledge on child protection. Module 2 is scheduled for phased rollout starting in July 2025, and will cover basic knowledge on the legal and reporting matters related to the new legislation. In 2024, the Government also organised 3 webinars to provide enrichment programmes for professionals to study different topics related to child protection and to enhance cross-sectoral professional collaboration. These webinars also incorporated Q&A sessions to address training needs and encourage interactive learning. In addition, in the first quarter of 2025, the Government has commenced organising 10 seminars for management of institutions in the social welfare, education, and healthcare sectors. These seminars will introduce the key aspects of the new legislation, enabling heads of different organisations to review and, where necessary, update their internal guidelines, workflows, staff training, and devise measures to facilitate relevant professionals in fulfilling their legal obligations.

Furthermore, the Government plans to issue the Mandated Reporter Guide (the Guide) in July 2025, and will organise a series of briefings for mandated reporters and related stakeholders. The Guide, including decision trees, supplementary analytical frameworks,

and sample case scenarios, provides mandated reporters with reference of making decisions on making reports, assists them to understand the principles of child protection and identify cases that must be reported under their statutory obligations. The above initiatives are jointly planned and implemented by the relevant policy bureaux and government departments. The Social Welfare Department does not maintain a breakdown of the staffing establishment or estimated expenditure involved.

Head: (170) Social Welfare Department

Subhead (No. & title): (000) Operational Expenses

Programme: (2) Social Security

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Provision for 2025-26 is \$7,721.2 million (9.9%) higher than the revised estimate for 2024-25. This is mainly due to the anticipated increase in expenditure under the Social Security Allowance (SSA) Scheme, partly offset by a decrease of 16 posts in 2025-26. In this regard, please advise:

1. the details and respective amounts of funding for various allowances under the SSA Scheme in the past 5 years; and
2. the specifics of the decrease of 16 posts in 2025-26, including their titles, ranks, duties, salary expenses, whether they are permanent or supernumerary posts, job descriptions, and the projected savings resulting from their deletion.

Asked by: Hon CHAN Pui-leung (LegCo internal reference no.: 52)

Reply:

1. The expenditure under the SSA Scheme from 2020-21 to 2024-25, broken down by type of allowance, is set out at Annex.
2. The Social Welfare Department (SWD) will see a decrease of 16 permanent posts under Programme (2) Social Security in 2025-26, involving the Census and Survey Officer, Social Security Assistant, Clerical Assistant, and Office Assistant grades. The main duties of these posts include assisting in the 2024-25 Household Expenditure Survey for households receiving Comprehensive Social Security Assistance and providing office support. Based on the notional annual mid-point salary value of the posts involved, it is estimated that a total of about \$4.41 million can be saved this year due to the reduction of these posts.

Expenditure under the SSA Scheme from 2020-21 to 2024-25 by type of allowance

Type of allowance	Expenditure ^{Note 2} (\$ million)				
	2020-21 (Actual)	2021-22 (Actual)	2022-23 (Actual)	2023-24 (Actual)	2024-25 (Revised estimate)
Old Age Allowance	5,198	5,530	6,021	6,535	7,133
Old Age Living Allowance (OALA) ^{Note 1}	27,741	28,857	31,999	35,718	39,457
Guangdong Scheme	685	686	740	951	1,058
Fujian Scheme	73	74	79	97	108
Higher Disability Allowance	871	893	920	959	1,124
Normal Disability Allowance	3,598	3,715	3,947	4,187	4,497
Total ^{Note 3}	38,166	39,754	43,706	48,447	53,377

Note 1 The Normal and Higher OALAs were merged in September 2022. The merged OALA adopts the more lenient asset limits of the Normal OALA and the payment rate of the Higher OALA.

Note 2 The actual expenditure for 2020-21 includes the payment of 1 additional month of the allowances in the year. The actual expenditures for 2021-22, 2022-23 and 2023-24, and the revised estimate of expenditure for 2024-25 include the payment of an additional half month of the allowances in the year.

Note 3 Individual figures may not add up to the total due to rounding.

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Under Matters Requiring Special Attention in 2025-26, it is mentioned that the Bureau will continue to oversee the implementation of the Ethnic Minority (EM) District Ambassador pilot scheme (EMDA pilot scheme). In this regard, please advise:

1. Since the launch of the EMDA pilot scheme in October 2020, how many EMs have participated in it? Please provide a breakdown of the number of participants by year, ethnicity, and district.
2. For EMs employed under the EMDA pilot scheme in the past 3 years, what were their minimum and maximum salaries? How long was their employment period? What was their specific scope of duties?
3. The EMDA pilot scheme was extended for another 3 years until September next year. Please elaborate on the effectiveness of the scheme.
4. When does the Government plan to review the scheme and will consideration be given to regularise it?

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 65)

Reply:

- 1-3. The Social Welfare Department (SWD) launched the EMDA pilot scheme in October 2020 in 9 districts with a higher EM population (i.e. Central and Western, Islands, Wan Chai, Eastern, Yau Tsim Mong, Kowloon City, Kwai Tsing, Yuen Long, and Sham Shui Po) to enhance district centres/service units and co-ordinate communication and co-operation with relevant stakeholders. Additional resources were allocated for some service units of SWD and subvented non-governmental organisations, including medical social services units, integrated family service centres/integrated services centres, parents/relatives resource centres, district elderly community centres, district support centres for persons with disabilities, and integrated service centres for ex-offenders and their families, to enhance welfare support services for EM communities by employing an additional 46 EMs or designated persons as EMDAs. These EMDAs provide simple introductions of welfare services and basic interpretation and translation

services for EMs. A breakdown of the number of EMDAs by district is set out at Annex. The monthly salary of EMDAs is set at Master Pay Scale Point 2, which was \$16,135 in 2024-25. As at December 2024, a cumulative total of 150 persons have been employed as EMDAs. SWD does not have the information on their ethnicity and length of employment.

Statistics on the services provided under the EMDA pilot scheme from October 2020 to December 2024 are tabulated as follows:

Service item	Number of times
Interpretation and translation services	25 240
Provision/facilitation of groups and programmes, as well as publicity and promotional activities	9 157
Assistance with form-filling	7 429
Visitation and escort services	1 536

4. The EMDA pilot scheme has received positive feedback and support from various stakeholders since its implementation. The Government has extended the EMDA pilot scheme for 3 years to 2026, so as to continue strengthening welfare support for EM communities. SWD will keep reviewing the implementation of the EMDA pilot scheme and examine the way forward for the services.

2 cohorts of the Strive and Rise Programme (the Programme) have graduated. In this regard, would the Government please inform this Committee of the following:

1. The second cohort added 1 200 more places than the first cohort, and was extended to include Secondary Four students from underprivileged families. What are the differences in financial expenditure and staffing establishments for the 2 cohorts?
2. As the third cohort commences, what are the respective numbers of supporting enterprises and organisations involved? How much money has been raised in donations? What are the estimated expenditure and detailed breakdown of it for the third cohort?
3. According to the Programme's website, group mentoring has been introduced on top of one-to-one mentor-mentee pairing in the third cohort. How does the number of mentors in the third cohort compare to the previous 2 cohorts? In addition, please provide a table listing the industries in which the mentors work and their respective fields of profession.

Asked by: Hon HO King-hong, Adrian Pedro (LegCo internal reference no.: 42)

Reply:

1. The Programme was implemented in October 2022. The expenditure for implementing the Programme in 2022-23, 2023-24 and 2024-25 is as follows:

Expenditure (\$ million)		
2022-23 (Actual)	2023-24 (Actual)	2024-25 (Revised estimate)
23.5	61.8	113.5

The Social Welfare Department implements the Programme by deploying existing manpower. As the staff involved are also responsible for other youth services, a breakdown of the staffing establishment dedicated solely to implementing the Programme is not available.

2. As at 14 March 2025, the third cohort of the Programme received support from over 380 organisations through monetary/in-kind donations, mentor nominations, and/or arrangement of group activities. A total of \$18.66 million in donations has been raised. Including the surplus from the first and second cohorts, the total balance of the funds was \$138 million. The funds raised for the Programme are mainly used to provide each participating mentee with a start-up sum of \$5,000 and a scholarship of \$5,000, and to provide alumni joining the job internship programme with transportation and meal subsidy. The administrative expenses are borne by the Government. The estimated expenditure for implementing the Programme in 2025-26 is \$131 million, including the expenditure for organising the 1-year intensive foundation programme and activities of the Alumni Club by non-governmental organisations, and the publicity for the Programme, etc.
3. 2 779 and 3 263 mentors completed the first and second cohorts of the Programme respectively. As at end-February 2025, the third cohort of the Programme has recruited a total of 3 686 mentors. 3 434 of them have been matched with mentees, with some matched with 2 mentees. The industries of employment for mentors recruited in the third cohort of the Programme are tabulated as follows:

	Industry of employment	Number
1.	Finance and insurance	1 452
2.	Real estate and property management	259
3.	Entrepreneur	256

CONTROLLING OFFICER'S REPLY

LWB(W)256

(Question Serial No. 3841)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Paragraph 197 of the Budget Speech states that the Government will, in the next financial year, increase the number of Community Care Service Vouchers (CCSVs) by 1 000 to 12 000, involving an annual expenditure of about \$900 million. In this connection, would the Government inform this Committee of the following:

- 1) the number of recognised service providers (RSPs) (with a breakdown by operator), the numbers of day care and home care service places, the number of CCSV applicants, the number of current CCSV users, the cumulative number of CCSV recipients, and the amount of subsidy in different phases of the CCSV Scheme for the Elderly (CCSV Scheme);
- 2) the cumulative number of elderly persons who left the CCSV Scheme and their reasons for leaving;
- 3) the manpower and actual expenditure involved in the implementation of different phases of the CCSV Scheme; and
- 4) the estimated manpower and expenditure for 2025-26.

Asked by: Hon KAN Wai-mun, Carmen (LegCo internal reference no.: 60)

Reply:

- 1) The requested information is set out at Annex 1.
- 2) The requested information is set out at Annex 2.
- 3) & 4) The requested information is set out at Annex 3.

CONTROLLING OFFICER'S REPLY**LWB(W)257****(Question Serial No. 3842)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (3) Services for The ElderlyControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

Paragraph 197 of the Budget Speech states that the Government will, in the next financial year, increase the number of Residential Care Service Vouchers (RCSVs) by 1 000 to 6 000, involving an annual expenditure of about \$1,710 million. In this connection, would the Government inform this Committee of the following:

- 1) the respective numbers of RCSV applicants and recipients, as well as the number of persons who were not issued RCSVs and the reasons for this, in the past 3 years (i.e. 2022-23 to 2024-25);
- 2) the cumulative number of elderly persons who left the RCSV Scheme for the Elderly (RCSV Scheme) and their reasons for leaving;
- 3) the manpower and actual expenditure involved in the RCSV Scheme in the past 3 years (i.e. 2022-23 to 2024-25); and
- 4) the estimated staffing establishment for 2025-26.

Asked by: Hon KAN Wai-mun, Carmen (LegCo internal reference no.: 61)Reply:

- 1) The relevant statistics on the RCSV Scheme from 2022-23 to 2024-25 are set out in Tables 1 and 2 of Annex.
- 2) The cumulative number of elderly persons who left the RCSV Scheme and their reasons for leaving are set out in Table 3 of Annex.
- 3) & 4) The amount of RCSV subsidy disbursed from 2022-23 to 2024-25 is as follows:

Year	RCSV subsidy (\$ million)
2022-23	465.2
2023-24	750.4
2024-25 (Revised estimate)	1,055.8

The Social Welfare Department's (SWD) RCSV Office has a total of 33 posts, including those from the Social Work Officer Grade, Social Security Officer Grade, Clerical and general supporting grades. SWD has not separately calculated the payroll costs for staff of the RCSV Scheme alone as they also handle other duties.

Table 1: Statistics on the RCSV Scheme

CONTROLLING OFFICER'S REPLY**LWB(W)258****(Question Serial No. 3843)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (1) Family and Child WelfareControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

Regarding child care services, please inform this Committee of the following:

- 1) the number of places, the service fee, and the average utilisation rate for each type of day child care service in the past 3 financial years (2022-23 to 2024-25), broken down by District Council (DC) district;
- 2) the number of places, the service fee, and the average utilisation rate for the After School Care Programme for Pre-primary Children [ASCP(PC)] in the past 3 financial years (2022-23 to 2024-25), broken down by DC district; and
- 3) the number of places, the number of home-based child carers and their incentive payment, the number of children served (broken down by age groups of below 3, 3 to below 6, and above 6), the service fee, and the amount of subsidy granted to each service operator of the Neighbourhood Support Child Care Project (NSCCP) in the past 3 financial years (2022-23 to 2024-25), broken down by DC district.

Asked by: Hon KAN Wai-mun, Carmen (LegCo internal reference no.: 62)Reply:

- 1) The service fee, the number of places, and the average utilisation rate of standalone child care centres (CCCs), CCCs attached to kindergartens (KGs), occasional child care service (OCCS), and extended hours service (EHS) in the past 3 years, broken down by DC district, are set out at Annex 1.

The monthly fees charged by aided standalone CCCs for children aged below 2 and the fees charged by aided CCCs (including aided standalone CCCs and aided CCCs attached to KGs) for children aged 2 to below 3 are tabulated as follows:

Table 1: Monthly fees charged by aided standalone CCCs for children aged below 2

Year	2022-23	2023-24	2024-25
Highest monthly fee (\$)	6,710	6,720	6,735
Lowest monthly fee (\$)	4,385	4,385	4,485

Table 2: Monthly fees charged by aided CCCs for children aged 2 to below 3

Year	2022-23	2023-24	2024-25
Highest monthly fee (\$)	6,521	6,802	7,569
Lowest monthly fee (\$)	1,831	1,831	1,831

- 2) The service fee, the number of places, and the average utilisation rate of ASCP(PC) in the past 3 years, broken down by DC district, are set out at Annex 2.
- 3) The information on NSCCP over the past 3 years, broken down by DC district, is set out at Annex 3. The incentive payment for home-based child carers under NSCCP was standardised at \$25 per hour in 2022-23 and 2023-24. Starting from April 2024, the rate has been increased to \$60 per hour for carers of infants and young children aged 0 to 3 or children with special learning needs. For carers of other children, the rate has been increased to \$40 per hour.

Note 1 The fee is charged based on service hours used. Service users with social needs and financial difficulties may apply for fee waivers/reductions.

Note 2 13 centres in Southern, Kwun Tong, Wong Tai Sin, Sham Shui Po, Tai Po, North, Yuen Long, and Kwai Tsing districts commenced service in August 2021, February 2022, and February 2023.

Note 3 5 centres in Central and Western, Southern, Yuen Long, and Kwai Tsing districts commenced service in August 2023 and February 2024.

Note 4 All 18 centres were in operation in February 2024, but 2 of them, which commenced service in August 2021, ceased operation after March 2024. The remaining 16 centres provided a total of 672 service places (42 places per centre).

Note 5 To meet the needs of the respective districts, some centres provide additional service places at specific time slots or additional opening sessions on Saturdays, Sundays or public holidays. The average utilisation rate may exceed 100% as the headcounts for additional services are also included.

Total	2 116	1 043	1 871	2 677	2 456	7 004			

Note 1 Starting from September 2024, on the basis of 1 service team in each of the 18 districts in Hong Kong, the Social Welfare Department has added an additional service team in districts with higher service demands, namely Kwun Tong, Sham Shui Po, Sha Tin, Tuen Mun, and Yuen Long. As a result, the number of service teams in Hong Kong has increased from 18 to 23 to provide more service places. Each service team is required to provide a minimum of 92 service places (i.e. the total number of places in all 18 districts should be at least 2 116). Service operators may flexibly increase the number of HCCS places beyond this requirement to meet the actual service demands.

Note 2 A new SA for NSCCP commenced in September 2024. Some home-based child carers are currently undergoing training, and will start service later. Therefore, the number of home-based child carers will gradually increase.

Note 3 Starting from September 2024, the service fees for HCCS and CCG are standardised at \$28 and \$20 per hour respectively. Service users with social needs and/or financial difficulties can approach service operators for fee waivers/reductions.

Note 4 The annual expenditure includes the operator's administrative expenses, training costs and incentive payments for home-based child carers, and subsidies granted to service users from low-income families.

(Question Serial No. 3926)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The rights of persons with disabilities (PWDs) merit society's attention. Many PWDs aspire to join the workforce. In this connection, would the Government please provide the following information regarding the employment situation of PWDs:

Please outline the publicity methods used by the Government to promote the concept of workplace inclusion for PWDs, along with the respective costs involved.

Asked by: Hon KWOK Wai-keung (LegCo internal reference no.: 9)

Reply:

The Social Welfare Department (SWD) provides a range of day rehabilitation services for PWDs through subvented non-governmental organisations (NGOs). Among these, supported employment training offers job analysis, job matching, and employment-related skills training to help PWDs prepare for the workforce. Through job attachment and on-the-job training, PWDs gain practical experience and develop employment skills in real work environments. Service units will engage with employers and provide post-placement follow-up services to foster workplace inclusion.

To further support the employment of PWDs, SWD also offers a one-off subsidy to employers through the Support Programme for Employees with Disabilities for the purpose of purchasing assistive devices or modifying workplaces to help employees with disabilities perform their duties more effectively and improve their work efficiency. The subsidy is capped at \$40,000 per employee with disabilities.

Moreover, SWD implements the Enhancing Employment of PWDs through Small Enterprise Project (3E Project) which provides seed money to NGOs to set up small enterprises/businesses, with an aim to create employment opportunities for PWDs through a market-driven approach so that they can work in carefully planned and inclusive environments. The 3E Project also raises public awareness of social enterprises, their products, and the work capabilities of PWDs through various channels, including social media campaigns, the production of promotional videos, and by inviting funded social enterprises to participate in promotional events, such as the Hong Kong Brands and Products Expo. These efforts aim to encourage various sectors to support the employment of PWDs and promote the concept of workplace inclusion.

As SWD integrates promotional efforts for PWD employment and workplace inclusion across its services and projects, it does not maintain breakdowns of costs for specific promotional activities.

(Question Serial No. 3461)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Social Welfare Department (SWD) has launched the Special Subsidy Scheme for Persons with Permanent Stoma (Special Subsidy Scheme) to provide special subsidy for the needy and eligible persons with permanent stoma from low-income families to relieve their financial burdens. In this connection, please advise:

1. How many applicants were granted the special subsidy in each of the past 3 years? How many applications were rejected annually?
2. In the past year, what were the respective numbers of cases granted full rate, three-quarters rate and half rate?
3. Currently, the monthly subsidy rates are \$1,000 for full rate, \$750 for three-quarters rate and \$500 for half rate. In view of the increasing cost of medical consumables, will the Government consider increasing the monthly subsidy rates to reduce the financial burdens on the persons concerned?
4. In each of the past 3 years, how many cases involved subsidies being cancelled due to violations of subsidy requirements? Were the affected individuals allowed to reapply immediately following the cancellation of their subsidies?

Asked by: Hon LEUNG Hei, Edward (LegCo internal reference no.: 39)

Reply:

1. The number of persons granted the subsidy and the number of rejected applications under the Special Subsidy Scheme from 2022-23 to 2024-25 are set out in Table 1 of Annex.
2. The numbers of cases receiving a full grant, three-quarters grant and half grant of the subsidy under the Special Subsidy Scheme in 2023-24 are set out in Table 2 of Annex.
3. SWD has set the upper limit of the subsidy for the Special Subsidy Scheme with reference to the monthly consumption of medical consumables by persons with permanent stoma, as assessed by Medical Officers from public hospitals. Eligible persons may receive a maximum subsidy of \$1,000 per month. Apart from this scheme, SWD has implemented the Special Care Subsidy Scheme for Persons with

Severe Disabilities, providing eligible persons with severe disabilities, who are aged below 60 living in the community and receiving the Higher Disability Allowance, with a full grant of \$2,500 per month for assisting them to purchase care goods, services or for other purposes related to nursing care. In addition, SWD has launched the Integrated Support Service for Persons with Severe Physical Disabilities. This service provides a special subsidy of up to \$2,500 per month to eligible persons who require constant attention and care but are not receiving relevant government subsidies (including the Special Subsidy) or assistance from charitable funds. The subsidy is intended for renting respiratory support medical equipment and purchasing medical consumables. It also covers medical consumables required by persons with permanent stoma.

4. SWD does not maintain statistics on the number of cases in which subsidies were cancelled due to violations of subsidy requirements. Applications for the Special Subsidy Scheme are accepted all year round and will be assessed by SWD having regard to the circumstances of each case.

Table 1: Number of persons granted the subsidy and number of rejected applications under the Special Subsidy Scheme

Financial year	No. of persons granted the subsidy	No. of rejected applications
2022-23	532	13
2023-24	577	11
2024-25 (as at end-December 2024)	591	3

Table 2: Numbers of cases receiving a full grant, three-quarters grant and half grant of the subsidy under the Special Subsidy Scheme in 2023-24

Grant of subsidy	No. of approved applications
Full grant (\$1,000 per month)	543
Three-quarters grant (\$750 per month)	28
Half grant (\$500 per month)	6

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The 4 Community Parents and Children Centres (CPCCs) set up on a pilot basis by the Social Welfare Department (SWD) under the supervision of the Labour and Welfare Bureau (LWB) will progressively commence service from 2026. In this connection, would the Government inform this Committee of the following:

1. In which districts will the 4 CPCCs be located? What is the current preparation progress for these 4 centres?
2. Will the CPCCs be directly operated by SWD, or will their management be outsourced to non-governmental organisations (NGOs) under LWB's supervision?
3. LWB has indicated that these CPCCs will be equipped with additional manpower, including social workers, child care workers, family aide workers, and nurses. What is the estimated manpower and annual operating cost for each CPCC?

Asked by: Hon LEUNG Hei, Edward (LegCo internal reference no.: 40)

Reply:

SWD will set up 4 CPCCs on a pilot basis by re-engineering existing children and youth centres located in the Eastern, Wong Tai Sin, Sha Tin, and Yuen Long districts. Operated by subvented NGOs, these CPCCs will adopt a play-based approach to promote parent-child interaction and educate parents on positive parenting methods, provide support to families with parenting needs, and refer families with other needs to appropriate government and community services. SWD will begin renovation works in the second quarter of 2025, with the 4 CPCCs scheduled to commence operations progressively starting from 2026.

The provision for these CPCCs amounts to around \$96.9 million over a 5-year period, from 2025-26 to 2029-30. Subject to compliance with the requirements of the Funding and Service Agreements, operators may determine their staffing establishment and remuneration in accordance with their human resources policies, and flexibly deploy resources and employ staff to achieve the required service outputs and outcomes.

CONTROLLING OFFICER'S REPLY

LWB(W)262

(Question Serial No. 3493)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding supervising the Care Teams in 18 districts, would the Government inform this Committee of the following:

1. a breakdown of the number of households visited and contacted by each Carer Team since their establishment, the number of target carers identified, and the number of needy cases referred to social welfare organisations for follow-up;
2. a breakdown of the number of needy households referred by each Care Team for the installation of emergency alarm systems (EASs) since their establishment; and
3. whether the Government has provided Care Team members with any training so far to strengthen their interpersonal skills and ability to identify needy cases; if so, what are the details; if not, the reasons for this.

Asked by: Hon LEUNG Hei, Edward (LegCo internal reference no.: 132)

Reply:

The Government launched the District Services and Community Care Teams - Supporting Elderly and Carers Scheme (the Scheme) in March 2024. Taking Tsuen Wan and the Southern District as pilot points, Care Teams are engaged to help identify high-risk households of singleton and doubleton elderly, and carers of elderly persons and persons with disabilities (PWDs) through visits and outreach. Cases requiring assistance are then referred to social welfare service units for follow-up. They also assist in referring eligible elderly persons and PWDs to install and use emergency alarm systems (known as "Safety Bell") with government subsidy. The total expenditure of the Scheme for 2024-25 was about \$9.20 million. In 2024-25, SWD's District Welfare Offices provided a total of 8 training sessions for the Care Teams in Tsuen Wan and the Southern District to equip them with the necessary skills. The numbers of needy households visited/contacted, the headcount of persons provided with follow-up support services, and the numbers of referrals made for welfare services by the Care Teams in Tsuen Wan and the Southern District are set out at Annex.

As at end-January 2025, a total of 36 Care Teams in Tsuen Wan and the Southern District have visited or contacted over 7 000 households of singleton and doubleton elderly and carers of elderly persons and PWDs, and have made over 1 190 referrals for welfare services under the Scheme. In addition, a total of 272 elderly persons and 11 PWDs have installed Safety Bells and received related subsidies through the referral of the Care Teams.

Encouraged by the positive outcomes of the Scheme during its pilot phase, the Chief Executive announced in the 2024 Policy Address that the Scheme would be extended to all 18 districts across the territory in the second quarter of 2025 to provide support to more elderly persons and carers. It is expected that in the 12-month implementation period of the Scheme, the Care Teams will contact over 60 000 households in need. The Scheme is expected to incur a total expenditure of about \$107.9 million for 2025-26.

Number of households visited/contacted, headcount of persons provided with follow-up support services, and number of referrals made for welfare services by the Care Teams in Tsuen Wan and the Southern District

(as at 31 January 2025)

Item	Tsuen Wan	Southern District	Total
Households ^{Note 1} visited/contacted (number of households) ^{Note 2}	4 135	2 955	7 090
Follow-up support services provided (headcount of persons) ^{Note 2}	5 782	7 009	12 791
Referrals made for welfare services (number of referrals) ^{Note 2}	859	340	1 199

Note 1 Including households of singleton and doubleton elderly, as well as carers of elderly persons and PWDs.

Note 2 As the statistics for services rendered in January 2025 by some Care Teams were entered into the household information management platform in February, some service statistics are not reflected in the table above.

Programme: (3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the initiative to “provide support to carers of elderly persons and persons with disabilities”, would the Government inform this Committee of the following:

1. the number of requests for assistance received by the Government and the progress of follow-up actions in each of the past 3 years;
2. whether the Government has allocated additional resources to cope with incidents of carers attempting self-harm or even suicide in recent years; if yes, the details; if no, the reasons for this; and
3. the annual expenditure and manpower earmarked for implementing relevant measures.

Asked by: Hon LEUNG Hei, Edward (LegCo internal reference no.: 133)

Reply:

The Government has always attached great importance to catering to the needs of elderly persons, persons with disabilities (PWDs) and their carers by providing a series of residential care, community care and support services through subvented non-governmental organisations. To enhance the support for carers, the Social Welfare Department (SWD) has commissioned the Tung Wah Group of Hospitals (TWGHs) to launch the 24-hour Designated Hotline for Carer Support (the Carer Hotline) (182 183) in September 2023. The Carer Hotline is manned by professional social workers who provide information on community support services, instant consultation and emotional support, counselling services, outreach/emergency support and referral services, as well as assisting carers in applying for respite services. As at 31 December 2024, the Carer Hotline has received a total of about 62 800 calls. Among these calls, the Carer Hotline has referred about 1 100 cases to relevant community support service units, and provided emergency support for over 90 cases through outreach services. The expenditure of the Carer Hotline is set out in Table 1 of Annex. Subject to TWGHs' compliance with the requirements of the Funding and Service Agreements, it may flexibly deploy resources to achieve the required service outputs and outcomes.

Apart from the Carer Hotline, SWD launched the Information Gateway for Carers (Information Gateway) (carers.hk) in November 2023. It provides information on services for elderly persons, PWDs and their carers, caring skills, community activities and resources for carers, etc. It also links to the Carer Hotline. The funding for running the Information Gateway comes from The Hong Kong Jockey Club Charities Trust for the first 3 years. SWD does not have information on the manpower or estimated expenditure involved. In addition, SWD has launched a 3-year territory-wide publicity campaign called the “Care the Carers Campaign” since 2023-24, with the total expenditure of approximately \$15 million for 3 years. Activities are held under different themes each year. In the first year, under the theme of “Helping Carers Help Themselves”, the publicity focused on encouraging carers to help themselves. In the second year, under the theme of “Walk with Carers”, the publicity emphasised standing by carers. In the third year, under the theme of “Fostering a Carer-Friendly Community”, the publicity will focus on fostering a community environment that supports carers. The Government has organised different publicity activities in line with the annual themes, including the kick-off ceremony for the “Care the Carers Campaign”, the “Say Thank You to Carers” event, a thematic short video competition, “Walk with Carers at Palace Museum”, etc. Over the past 2 years, the 11 District Social Welfare Offices of SWD, in collaboration with non-governmental and local organisations, held over 1 000 different kinds of district activities to support carers. Furthermore, SWD has also promoted the “Care the Carers Campaign” to the public in Hong Kong through various means, including television and radio announcements in the public interest.

To further enhance community support for households of singleton and doubleton elderly, as well as carers of elderly persons and PWDs, the District Services and Community Care Teams – Supporting Elderly and Carers Scheme (the Scheme) will be extended to all 18 districts across the territory in the second quarter of 2025. The services provided by the Care Teams under the Scheme include visiting or contacting households in need, offering ongoing care and concern through caring actions, and providing support and referral services. They also assist in referring eligible elderly persons and PWDs to install and use emergency alarm systems (known as “Safety Bell”) with government subsidy. The Scheme is expected to incur a total expenditure of about \$107.9 million for 2025-26.

Table 1: Expenditure of the Carer Hotline

Year	2023-24 ^{Note} (Actual) (\$ million)	2024-25 (Revised estimate) (\$ million)
Expenditure	11.00	20.40

^{Note} The Carer Hotline commenced operation in September 2023.

LWB(W)264

(Question Serial No. 3731)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the community care and support services for the elderly and the Residential Care Services Scheme in Guangdong (GDRCS Scheme) mentioned under the Programme, please provide the following information for the past 3 years:

1. the number of elderly persons participating in the GDRCS Scheme each year and the expenditure involved;
2. the numbers of applications for the Community Care Service Voucher (CCSV) Scheme for the Elderly (CCSV Scheme) and CCSV recipients each year, and the expenditure involved;
3. the numbers of places provided by subvented local care-and-attention (C&A) homes and nursing homes (NHs), and the average cost per place;
4. the quota approved under the Special Scheme to Import Care Workers for Residential Care Homes (the Special Scheme); and
5. the average waiting time and number of persons waitlisted for residential care homes (RCHs) for the elderly (RCHEs), and whether the Government will promote the GDRCS Scheme to elderly persons currently waiting for residential care places (RCPs), as well as the details of the related efforts and outcomes.

Asked by: Hon LEUNG Yuk-wai, Kenneth (LegCo internal reference no.: 22)

Reply:

1. The Social Welfare Department (SWD) purchases services from RCHEs under the GDRCS Scheme based on the actual number of elderly persons participating in the scheme. The number of elderly persons subsidised under the scheme and the expenditure incurred each year from 2022-23 to 2024-25 (as at the end of December 2024) are set out at Annex 1.
2. The number of persons covered and the amount of subsidy disbursed under the CCSV Scheme are set out at Annex 2.
3. The number of places for and total expenditure on subsidised residential care services (RCS) for the elderly are set out at Annexes 3 and 4, respectively.

4. The Government launched the Special Scheme in June 2023. As at the end of December 2024, SWD completed 4 rounds of applications and granted a total of 7 188 quotas (including those for contract renewal) to import care workers to RCHEs and RCHs for persons with disabilities.
5. As at the end of December 2024, the number of persons waitlisted for various types of subsidised RCS for the elderly and their average waiting time are set out in Tables 1 and 2 of Annex 5, respectively.

SWD has been promoting the GDRCS Scheme to elderly persons and the general public through various channels. These include providing the latest information about the scheme on SWD's website, uploading introductory videos of participating RCHEs to SWD's YouTube channel, and holding briefing sessions and district coordinating committee meetings to introduce the scheme to caseworkers from referring offices who handle elderly persons' applications for long-term care (LTC) services so that they can promote the scheme to eligible elderly persons and their families. In addition, in November 2024, SWD broadcast a 4-episode promotional video series titled “灣區安老知多啲” on television. The videos have been uploaded to SWD's YouTube channel for continuous viewing, and are being shown at all LTC referring offices to ensure elderly persons and their families understand the scheme's services and the conditions of participating RCHEs. SWD will continue to publicise and promote the GDRCS Scheme.

In recent years, the response to the GDRCS Scheme from Hong Kong elderly persons has been very positive. The number of elderly participants has been steadily increasing. At the end of December 2022, during the pandemic, a total of 124 elderly persons from Hong Kong were accommodated in the 2 RCHEs under the scheme. By the end of December 2024, the total number of elderly residents reached 316 across 11 RCHEs under the scheme. SWD will continue to monitor the implementation of the scheme.

**Cumulative number of elderly persons subsidised under the GDRCS Scheme
and expenditure on the scheme**

Year	Cumulative no. of elderly persons subsidised	Expenditure (\$ million)
2022-23	150	13.1 (Actual)
2023-24	195	18.9 (Actual)
2024-25 (as at end-December 2024)	343	32.1 (Revised estimate)

Statistics on the CCSV Scheme

Year	No. of CCSV applicants	No. of CCSV recipients	Subsidy amount (\$ million)
2022-23	4 375	4 396	361.7
2023-24	6 546	6 478	477.4 ^{Note 1}
2024-25 (as at end-December 2024)	6 471	6 346	687.8 ^{Note 2}

Note 1 The Pilot Scheme on CCSV was made permanent in September 2023. The figure includes the amount of subsidy under the Pilot Scheme and the CCSV Scheme after it was made permanent in the respective financial year.

Note 2 Revised estimate for 2024-25.

Number of service places for subsidised RCS for the elderly

Year	C&A place Note 1	NH place Note 2	No. of residential care service vouchers (RCSVs)	Total
2022-23	26 812	4 652	4 000	35 464
2023-24	27 687	5 048	4 000	36 735
2024-25 (as at end-December 2024)	27 830	5 157	5 000	37 987

Note 1 Including subsidised C&A places provided at contract homes, subvented C&A homes, and private RCHes participating in the Enhanced Bought Place Scheme (EBPS), as well as subsidised C&A places provided under the GDRCS Scheme.

Note 2 Including subsidised places provided at contract homes, subvented NHs, and self-financing NHs participating in the NH Place Purchase Scheme (NHPPS), as well as subsidised NH places provided under the GDRCS Scheme.

Average monthly cost per place for various types of subsidised RCS for the elderly

	2022-23 (\$)	2023-24 (\$)	2024-25 (Revised estimate) (\$)
NH operated by non-governmental organisations (NGOs) ^{Note 1}	26,025	26,971	27,456
Contract RCHE ^{Note 2}	23,529	23,128	24,248
C&A home operated by NGOs	18,335	18,928	19,408
Private C&A home participating in EBPS	17,471	16,413	16,513

Note 1 Including subvented NHs and subsidised NH places of NHPPS.

Note 2 Contract RCHEs provide C&A and NH places. The figures represent the average monthly cost of these 2 types of places.

Table 1: Average waiting time for subsidised RCS for the elderly

	Average waiting time (in months)		
	2022-23 (as at end-March 2023)	2023-24 (as at end-March 2024)	2024-25 (as at end-December 2024)
C&A place	14	8	9
NH place	18	10	9

Table 2: Number of persons waitlisted for subsidised RCS for the elderly

	2022-23	2023-24	2024-25 (as at end-December 2024)
No. of persons waitlisted for C&A places ^{Note 1 Note 2}	14 040	14 238	14 407
No. of persons waitlisted for NH places ^{Note 1 Note 2}	2 796	2 381	2 181

Note 1 Elderly persons currently using RCSVs may be admitted to RCHEs participating in the RCSV Scheme with government subsidies, without the need to wait for a vacancy.

Note 2 Excluding elderly persons classified as “inactive cases” on the central waiting list.

(Question Serial No. 3732)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the provision of various rehabilitation services for persons with disabilities (PWDs) by the Social Welfare Department (SWD), will the Government inform this Committee of the following:

1. It is mentioned in the Programme that additional places for day training, vocational rehabilitation, residential and pre-school rehabilitation services, and additional places under the Work Extension Programme (WEP) in Sheltered Workshops (SWs)/Integrated Vocational Rehabilitation Services Centres (IVRSCs) will be provided. What were the numbers of places, the average waiting times and the utilisation rates for various vocational rehabilitation services/day services in the past 3 years?
2. The estimated number of additional places for the above services.
3. A breakdown of the numbers of employees and employers participating in the Supported Employment Training for PWDs (SET), the number of participants who successfully completed their job attachment, the number of participants who successfully secured employment in the open market, and the amount of subsidy involved in each of the past 3 years.

Asked by: Hon LEUNG Yuk-wai, Kenneth (LegCo internal reference no.: 23)

Reply:

1. The number of places of various day training and vocational rehabilitation services for PWDs, along with their average waiting time and utilisation rates in the past 3 years are set out at Annexes 1 to 3, respectively. SWD does not have information on the utilisation rates of other day training and vocational rehabilitation services for PWDs except for Day Activity Centres (DACs) and SWs.
2. SWD's estimated number of additional places for day training and vocational rehabilitation services in 2025-26 is set out at Annex 4.
3. The number of persons who successfully secured employment for more than 6 months through SET and the amount of subsidy involved in the past 3 years are set out at Annexes 5 and 6, respectively. SWD does not have information on the numbers of employees and employers participating in SET and the number of participants who successfully completed their job attachment.

**Number of service places of various day training and
vocational rehabilitation services for PWDs from 2022-23 to 2024-25**

CONTROLLING OFFICER'S REPLY**LWB(W)266****(Question Serial No. 3733)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (7) Young PeopleControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

Regarding the implementation of the Strive and Rise Programme (the Programme), would the Government please inform this Committee:

1. of the manpower and expenditure involved in the first and second cohorts of the Programme respectively, as well as the estimated expenditure of the third cohort;
2. of the types, numbers and attendance of the activities arranged for mentees by the Programme in the past year;
3. of the current number of members in the Alumni Club (the Club), as well as the number and attendance of the whole person development and exchange activities and internship programmes offered by the Club since its establishment; and
4. given that the Programme aims to help lift students out of intergenerational poverty, whether the Government has kept track of the mentees to evaluate the effectiveness of the Programme and introduce enhancements in a timely manner.

Asked by: Hon LEUNG Yuk-wai, Kenneth (LegCo internal reference no.: 24)

Reply:

1. The expenditure of the Programme since its implementation is as follows:

Expenditure (\$ million)			
2022-23 (Actual)	2023-24 (Actual)	2024-25 (Revised estimate)	2025-26 (Estimate)
23.5	61.8	113.5	131.0

The Social Welfare Department implements the Programme by deploying existing manpower. As the staff involved are also responsible for other youth services, a breakdown of the staffing establishment dedicated solely to implementing the Programme is not available.

2. The types, numbers and attendance of activities arranged for mentees in the second cohort of the Programme are tabulated as follows:

Type of activities	Number of activities	Attendance
Orientation	30	10 403
Basic training for mentees	119	11 794
Group activities	730	31 764

3. A total of 2 630 and 3 642 mentees from the first and second cohorts of the Programme, respectively, completed the 1-year intensive foundation programme. They are automatically enrolled as members of the Club and can participate in a variety of activities and programmes it organises. As at end-February 2025, the Club has organised about 1 400 activity sessions, including orientation, whole person development activities, group activities, and exchange tours to the Mainland. It also organises job internship programmes for alumni aged 16 or older. The number and attendance of these activities, broken down by type of activity, are tabulated as follows:

Type of activities	Number of activity sessions	Attendance
Whole person development activities	1 335	11 541
Group activities (including orientation)	68	4 481
Exchange tours to the Mainland	7	266
Internship programmes	N.A.	283
Total	1 410	16 571

N.A. - Not applicable

4. The evaluation of the first cohort of the Programme was undertaken by a research team from the Department of Applied Social Sciences at the Hong Kong Polytechnic University. Published in May 2024, the evaluation results revealed that the first cohort of the Programme successfully achieved the key performance indicator, i.e. at least 70% of mentees who completed the 1-year Programme demonstrated improvement in personal development and positive thinking. Ongoing evaluations will be conducted for all mentees throughout the intensive foundation programme in the first year, while a 5-year longitudinal tracking study on selected mentees will also be conducted. This study will collect data from mentees, mentors and parents in order to attain a full understanding of the Programme's impact on the personal growth of the mentees.

CONTROLLING OFFICER'S REPLY**LWB(W)267****(Question Serial No. 3734)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (7) Young PeopleControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

Regarding school social work (SSW), outreaching social work, and online and hotline services for young people, would the Government please provide the following information:

1. According to the Programme, there were 29 857 cases served and 9 166 cases closed having achieved the agreed goal under SSW. What types of problems did SSW address, what were the corresponding figures, and what was the average time to close a case in the past 3 years?
2. According to the Programme, the average cost per case per month for outreaching social work was \$1,115. What specific work or services were included in this?
3. It is noted that the cyber youth support teams (CYSTs) provide professional social work interventions to at-risk and hidden youths, including services such as online and offline counselling and groups/programmes. What types of activities were conducted by CYSTs, and what were the related expenditures in the past 3 years?
4. Will the Government provide additional services and support to young people, especially at-risk and hidden youths, in the future?

Asked by: Hon LEUNG Yuk-wai, Kenneth (LegCo internal reference no.: 26)

Reply:

1. The types of problems addressed and the corresponding numbers of cases handled by SSW in the past 3 years are tabulated below. The Social Welfare Department (SWD) does not maintain information on the average time required to close a case.

Major type of problems ^{Note}	2022-23 (figures as at 31 March 2023)	2023-24 (figures as at 31 March 2024)	2024-25 (figures as at 31 December 2024)
Emotion/mental health	7 231	7 486	7 420
Education	5 625	5 609	5 201
Family	3 150	2 962	2 857
Peer relationships	2 478	2 591	2 550
Development and adaptability	1 064	1 039	949
Sex	257	245	282

Major type of problems ^{Note}	2022-23 (figures as at 31 March 2023)	2023-24 (figures as at 31 March 2024)	2024-25 (figures as at 31 December 2024)
Social norms	227	196	168
Internet addiction	143	105	93
Bullying	99	104	101
Drug use	11	8	5
Others	264	186	166

^{Note} As a case may involve more than 1 problem, the above figures are categorised based on the primary problem identified.

- SWD subsidises non-governmental organisations to operate 16 district youth outreaching social work teams and 3 youth outreaching teams across Hong Kong. Through outreaching services, these teams reach out to high-risk youth who often loiter on the streets, establish connections with them, and provide them with guidance, counselling, crisis intervention, referral and other support services, to help them overcome problems and difficulties, develop their potentials, integrate into society, and prevent them from falling prey to negative elements.
- CYSTs proactively search and approach at-risk and hidden youths through online platforms commonly used by young people and provide timely intervention, support and counselling service through online and offline modes to youths in needs (including those who are emotionally unstable and have suicidal thoughts). The expenditure of CYSTs in each of the past 3 years is as follows:

Year	2022-23 (Actual)	2023-24 (Actual)	2024-25 (Revised estimate)
Expenditure (\$ million)	26.2	29.3	30.8

- In addition to the various services mentioned above, SWD plans to enhance CYSTs' services in the second quarter of 2025 by providing an online youth-emotional-support platform, offering real-time online counselling to students or young people facing emotional distress and immediate crises.

- End -

CONTROLLING OFFICER'S REPLY**LWB(W)268****(Question Serial No. 3735)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (7) Young PeopleControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

There are currently a total of 161 children and youth centres (CYCs) and integrated children and youth services centres (ICYSCs) in Hong Kong, serving children and young people aged from 6 to 24. In this regard, would the Government please provide the following information:

1. the average expenditure of each CYC and ICYSC in the past 5 years, and the differences in services provided by these 2 types of centres;
2. the numbers of new and renewed members of CYCs and ICYSCs in each district in the past 3 years; and
3. in the light of changing demographic structures and population shifts within districts, whether there will be adjustments or consolidation of the locations and numbers of CYCs and ICYSCs according to district circumstances, and whether the development of these centres will align with community needs.

Asked by: Hon LEUNG Yuk-wai, Kenneth (LegCo internal reference no.: 25)Reply:

1. The average expenditure of each ICYSC and CYC in the past 5 years is as follows:

Year	ICYSC (\$ million)	CYC (\$ million)
2020-21 (Actual)	8.4	3.6
2021-22 (Actual)	8.4	3.5
2022-23 (Actual)	8.6	3.6
2023-24 (Actual)	8.9	3.7
2024-25 (Revised estimate)	9.0	3.8

ICYSCs and CYCs deploy community resources to provide preventive, developmental, supportive and remedial services, with a view to meeting the multifarious welfare needs of children and youth aged 6 to 24 in specific catchment areas, particularly those from deprived families, with special needs, or from ethnic minorities. ICYSCs and CYCs also assist children and youth in developing life skills, potentials and problem-solving abilities, promote their personal development, help them strengthen interpersonal and

family relationships, and foster social competence to address the crises and challenges encountered during their growth. In addition, ICYSCs collaborate with community stakeholders to build a supportive, inclusive and responsive environment to address the needs of children and youth.

2. The number of members (including new and renewed members) of ICYSCs and CYCs in each district in the past 3 years is set out at Annex.
3. The Social Welfare Department (SWD), from time to time, reviews the service needs of ICYSCs and CYCs and makes appropriate adjustments based on demographic changes and local circumstances in various districts of Hong Kong. To strengthen the prevention of child abuse at its root, SWD will set up 4 Community Parents and Children Centres (CPCCs) on a pilot basis by re-engineering the existing 4 children and youth centres located in the Eastern, Wong Tai Sin, Sha Tin, and Yuen Long districts. These 4 CPCCs are scheduled to commence operation progressively starting from 2026, and are expected to benefit about 10 000 persons annually.

**Number of members (including new and renewed members)
of CYCs and ICYSCs in each district**

District	2022-23		2023-24		2024-25 (as at end-December 2024)	
	ICYSC	CYC	ICYSC	CYC	ICYSC	CYC
Central & Western	6 621	-	8 677	-	8 045	-

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: Not Specified

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

According to Programme (2), the Labour and Welfare Bureau will continue to oversee the purchase of premises for the provision of welfare facilities in the next financial year. The 2019-20 Budget proposed an allocation of \$20 billion to purchase 60 properties for accommodating more than 130 welfare facilities. However, as at 31 December 2024, the Social Welfare Department (SWD) has purchased only 5 properties at a cost of around \$240 million. Would the Government please explain the reasons behind such a slow pace in the purchasing process? Will the Government take advantage of the sluggish property market to actively purchase properties for the provision of welfare facilities? If so, what are the details? If not, what are the reasons?

Asked by: Hon NG Wing-ka, Jimmy (LegCo internal reference no.: 230)

Reply:

With the assistance of the Government Property Agency (GPA), SWD is striving to identify suitable premises for purchase through different channels. As at 28 February 2025, SWD has incurred about \$240 million in actual expenditure on the “purchase of welfare premises” under the Capital Works Reserve Fund, covering the payment for 5 premises. 2 of these premises are located in Sham Shui Po District, while the remaining 3 are located in Central and Western District, Eastern District and Kwun Tong District respectively. These premises are for operating a parents/relatives resource centre, a support centre for persons with autism, and a neighbourhood elderly centre, as well as for providing on-site pre-school rehabilitation services.

SWD and GPA are continuing their efforts to identify and purchase suitable premises, and have earmarked \$250 million for related work in 2025-26. The progress of purchasing premises depends on the availability of suitable properties in the market and various external factors, including whether the properties for sale have suitable fire safety and barrier-free access facilities, whether the size and location meet operational requirements, whether the surrounding land uses are compatible with welfare uses, and whether the selling prices fall within the acceptable price range determined by GPA with reference to market value. If market conditions permit, the goal of SWD and GPA is to purchase as many premises as possible in order to provide more welfare facilities. SWD will continue to implement and review the scheme.

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Social Welfare Department (SWD) launched a 3-year Ethnic Minority (EM) District Ambassador pilot scheme (EMDA pilot scheme) in 9 districts with a higher EM population. Please advise the number of EMDAs in each of these 9 districts in the past financial year. Which service units have they been assigned to? How is the manpower distributed between SWD and non-governmental organisations (NGOs)? What are the number of needy EM families contacted and the number of case referrals made each year?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 72)

Reply:

SWD launched the EMDA pilot scheme in October 2020 in 9 districts with a higher EM population to enhance district centres/service units and co-ordinate communication and co-operation with relevant stakeholders. Additional resources were allocated for 6 medical social services units of SWD and 40 welfare service units operated by subvented NGOs, including integrated family service centres/integrated services centres, parents/relatives resource centres, district elderly community centres, district support centres for persons with disabilities, and integrated service centres for ex-offenders and their families, to enhance welfare support services for EM communities by employing an additional 46 EMs or designated persons as EMDAs. A breakdown of the number of EMDAs by district is set out at Annex.

In 2024-25 (as at the end of December 2024), the EMDA pilot scheme contacted 10 313 EMs. The services provided by EMDAs do not include making case referrals.

Number of EMDAs by district

District	Number of EMDAs

Question:

Please advise whether service units assigned with Ethnic Minority (EM) District Ambassadors provide cultural sensitivity training. What is the content and format of the training? What is the number of training hours involved? What are the ranks and number of staff members who received the training?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 73)

Reply:

The Social Welfare Department (SWD) has all along been organising EM-related training courses, including seminars and workshops, for staff of different grades and ranks (such as those providing social work, social security, and other frontline services) from both SWD and non-governmental organisations to enhance their knowledge and sensitivity towards the culture, lifestyle, and service needs of EMs. Through direct approaches such as group discussions and experience sharing, staff members can further understand and respond to the needs of EMs, thus enabling them to conduct comprehensive assessments and provide appropriate services. In 2024-25, SWD organised 23 EM-related training courses, ranging from 2 to 7 hours each, with a total attendance of about 1 400.

Question:

Please provide the number of times service units assigned with Ethnic Minority (EM) District Ambassadors have used translation and interpretation services. How many EM cases required translation and interpretation services, and what percentage do they represent in the total number of EM cases?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 74)

Reply:

The Social Welfare Department (SWD) launched the EM District Ambassador pilot scheme (EMDA pilot scheme) in October 2020. As at the end of December 2024, translation and interpretation services were rendered for EMs under the EMDA pilot scheme for a total of 25 240 times. SWD does not have information on the percentage of cases that required translation and interpretation services out of the total number of cases under the EMDA pilot scheme.

Please provide the number of cases involving ethnic minorities (EMs) handled by Integrated Family Service Centres (IFSCs) in each of the past 5 years.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 75)

Reply:

The number of cases involving EMs handled by IFSCs in the past 5 years is tabulated as follows:

Year	Number of cases ^{Note}
2020-21	717
2021-22	672
2022-23	607
2023-24	670
2024-25 (as at 31 December 2024)	736

^{Note} The number of cases reflects the situation of IFSCs operated by the Social Welfare Department and non-governmental organisations at the end of the designated year. Each case involved at least 1 family member of Indonesian, Filipino, Indian, Pakistani, Nepali or Thai ethnicity.

- End -

CONTROLLING OFFICER'S REPLY**LWB(W)274****(Question Serial No. 3548)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (1) Family and Child WelfareControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

Please provide the number of ethnic minority (EM) cases handled by the Family and Child Protective Services Units (FCPSUs) in the past 5 years. How many of these cases involved sexual abuse? Is the proportion significantly lower compared to that among ethnic Chinese individuals?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 76)Reply:

Among cases of domestic violence (including spouse/cohabitant battering and child abuse) handled by FCPSUs of the Social Welfare Department (SWD) in the past 5 years, the number of cases involving EM victims is tabulated as follows:

Year	Number of cases ^{Note}
2020	137
2021	147
2022	152
2023	138
2024	137

^{Note} Including cases involving individuals of Indonesian, Filipino, Indian, Pakistani, Nepali and Thai ethnicities. In this statistic, each case involves at least 1 EM individual.

SWD does not have a breakdown of the number of above cases that involved sexual violence.

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Please advise the amount of resources the Social Welfare Department (SWD) has earmarked for interpretation and translation services for each of the next 5 years.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 78)

Reply:

When providing services for ethnic minorities (EMs), SWD and subvented non-governmental organisations (NGOs) may arrange interpretation services as appropriate through various means. For example, the Centre for Harmony and Enhancement of Ethnic Minority Residents (CHEER), operated by the Hong Kong Christian Service, provides translation and interpretation services with funding from the Home Affairs Department. If necessary, NGOs can flexibly deploy the funding provided by SWD to arrange/provide interpretation services to meet service needs and ensure service quality.

- End -

CONTROLLING OFFICER'S REPLY**LWB(W)277****(Question Serial No. 3551)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (1) Family and Child WelfareControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

Regarding the Outreaching Teams for Ethnic Minorities (OTEMs), please provide the staffing establishment of OTEMs, as well as the number of cases handled, the number of groups and programmes organised, the number of needy ethnic minority (EM) families contacted, and the number of families referred to mainstream services in the last financial year.

Further to the above, what are the number, format and number of hours of cultural sensitivity training provided by OTEMs for providers of mainstream services? What are the ranks and number of staff members who have received the training?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 79)Reply:

The Social Welfare Department (SWD) provides subvention to non-governmental organisations (NGOs) for setting up 3 OTEMs on Hong Kong Island, in Kowloon and the New Territories. The key service statistics of OTEMs in 2024-25 (as at the end of December 2024) are tabulated as follows:

Service item	Statistics
Number of new/reactivated cases handled	411
Number of groups and programmes organised	427
Number of EMs newly contacted	1 447
Number of referrals to mainstream welfare services/mainstream services made	798
Number of training sessions (including cultural sensitivity training) organised for providers of mainstream services/welfare services ^{Note}	35

^{Note} OTEMs have organised EM-related training courses, including seminars and workshops, for welfare service units to enhance their understanding of the culture and service needs of EMs and related service information. SWD does not have information on the number of training hours provided by OTEMs, or the ranks and number of staff members who received the training.

Subject to compliance with the requirements of the Funding and Service Agreements, NGOs operating subvented welfare services may determine their staffing establishment in accordance with their own human resources policies, and flexibly deploy resources and employ staff to achieve the required service outputs and outcomes. SWD does not have information on the actual number of staff in OTEMs.

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Has the Social Welfare Department (SWD) earmarked funds for providing mainstream services to ethnic minorities (EMs), such as hiring EM staff, procuring interpretation and translation services and providing training for frontline workers, etc.? If yes, what is the estimated expenditure for the next 3 financial years? What support measures will be provided?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 80)

Reply:

SWD launched the EM District Ambassador pilot scheme (EMDA pilot scheme) in October 2020 in 9 districts with a higher EM population. Additional resources were allocated for some service units of SWD or subvented non-governmental organisations (NGOs) to enhance welfare support services for EM communities by employing 46 EMs or designated persons as EMDAs. The Government has extended the EMDA pilot scheme for 3 years to 2026. SWD will keep reviewing the implementation of the EMDA pilot scheme and examine the way forward for the services. In addition, SWD has all along been organising EM-related training courses for staff of different grades and ranks from both SWD and NGOs. These courses aim to enhance participants' knowledge and sensitivity towards the culture, lifestyle, and service needs of EMs, thus enabling them to conduct comprehensive assessments and provide appropriate services tailored to the needs of EMs.

When providing services for EMs, SWD and subvented NGOs may arrange interpretation services as appropriate through various means. For example, the Centre for Harmony and Enhancement of Ethnic Minority Residents (CHEER), operated by the Hong Kong Christian Service, provides translation and interpretation services with funding from the Home Affairs Department. If necessary, NGOs can flexibly deploy the funding provided by SWD to arrange/provide interpretation services, so as to meet service needs and ensure service quality.

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

There are 5 Parents/Relatives Resource Centres (PRCs) with specialised ethnic minorities (EM) units. How does the staffing establishment (SE) for these PRCs differ from those without specialised EM units? Moreover, how many EM families have these PRCs contacted, and how many groups and activities do they organise on an annual basis?

Further to the question above, what is the proportion of EM families, groups and activities in relation to the overall numbers of specialised EM units?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 81)

Reply:

Regarding PRCs with specialised EM units, additional social workers and support staff are included in their SE. Details are provided in Table 1 of Annex. The number of registered EM family members and the number of EM groups and activities organised in 2023-24, along with their respective proportions to the overall figures, are set out in Tables 2 and 3 of Annex, respectively.

Table 1: SE of PRCs ^{Note}

Rank/post	PRC	PRC with specialised EM unit
Social Work Officer	0.125	0.25
Assistant Social Work Officer	2	3
Social Work Assistant	1	1
Welfare Worker/ Special Child Care Worker	1	1
Welfare Worker	1	2
Clerical Assistant	1	1
Workman II	0.667	1

^{Note} The Social Welfare Department calculates the amount of subventions based on the SE. Subject to compliance with the requirements of the Funding and Service Agreements, service operators may flexibly deploy resources and arrange suitable staffing.

Table 2: Number of registered members ^{Note} **and the ratio of EM family members to the overall number of family members in PRCs with specialised EM units in 2023-24**

Overall number of family members	Number of EM family members	Ratio of EM family members to the overall number
4 528	403	9%

^{Note} Including persons with disabilities and their parents/relatives or carers.

Table 3: Number of groups and activities and the ratio of EM groups and activities to the overall number of groups and activities in PRCs with specialised EM units in 2023-24

Overall number of groups and activities	Number of EM groups and activities	Ratio of EM groups and activities to the overall number
2 602	433	17%

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Please provide the number of day respite service places provided by day care centres/units for the elderly (DEs/DCUs) and the utilisation rate of day respite services of each DE/DCU in the past 5 years (with a breakdown by District Council (DC) district), as well as the method for calculating the utilisation rates.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 82)

Reply:

The number of designated day respite service places provided by DEs/DCUs by DC district and their overall utilisation rates from 2020-21 to 2024-25 are set out at Annexes 1 and 2, respectively. The Social Welfare Department does not maintain the utilisation rates for individual service units.

The utilisation rate of day respite services for the elderly is calculated based on the total attendance of service users, the total number of working days provided by DEs/DCUs, and the total number of service places.

Number of designated day respite service places provided by DEs/DCUs by district

District	No. of service places				
	2020-21	2021-22	2022-23	2023-24	2024-25 (as at end- December 2024)
Central & Western	13	13	13	11	11
Eastern	3	3	3	3	3

CONTROLLING OFFICER'S REPLY

LWB(W)283

(Question Serial No. 3557)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

What was the average monthly cost per case for Integrated Home Care Services (Frail Cases) [IHCS(FC)] in each of the past 5 financial years?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 85)

Reply:

IHCS teams were previously responsible for providing IHCS(FC), IHCS (Ordinary Cases) and Home Care and Support Services for Elderly Persons with Mild Impairment. The cost of these 3 services were aggregated prior to 2023-24 by the Social Welfare Department (SWD). The relevant information is set out in Table 1 of Annex. Starting from 2023-24, SWD conducted a separate analysis of Home Care Service (HCS) for Frail Elderly Persons [including IHCS(FC) and Enhanced Home and Community Care Services (EHCCS)] to gain a clearer understanding of the service situation. Relevant information is set out in Table 2 of Annex.

Table 1: Average monthly cost for IHCS from 2020-21 to 2022-23

Year	Cost (\$)
2020-21	2,735
2021-22	3,133
2022-23	2,931

**Table 2: Average monthly cost for HCS for Frail Elderly Persons ^{Note}
from 2023-24 to 2024-25**

Year	Cost (\$)
2023-24	10,154
2024-25 (Revised estimate)	10,391

^{Note} Including IHCS(FC) and EHCCS.

CONTROLLING OFFICER'S REPLY

LWB(W)284

(Question Serial No. 3558)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

What was the average monthly cost per case for Enhanced Home and Community Care Services (EHCCS) in each of the past 5 financial years?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 86)

Reply:

EHCCS provides home care services for frail elderly persons. Its average monthly cost is set out at Annex.

Table 1: Average monthly cost for EHCCS from 2020-21 to 2024-25

Year	Cost (\$)
2020-21	8,337
2021-22	9,398
2022-23	9,597
2023-24 ^{Note}	10,154
2024-25 (Revised estimate) ^{Note}	10,391

^{Note} Both EHCCS and Integrated Home Care Services (Frail Cases) provide home care services for frail elderly persons. Starting from 2023-24, the cost of these 2 services was aggregated.

(Question Serial No. 3559)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Starting from October 2020, the Government has been providing supervisory manpower resources for allied health professionals (including occupational therapists, physiotherapists, speech therapists, etc.) for the Integrated Home Care Services (Frail Cases) and Enhanced Home and Community Care Services. In this connection, please provide:

- i. the ratio of supervisory staff to allied health professionals; and
- ii. the amount of resources allocated for the past 5 financial years.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 87)

Reply:

- i. & ii. Since December 2019, the Social Welfare Department (SWD) has increased the recurrent allocation to non-governmental organisations (NGOs) operating subvented welfare services by about \$104 million for the creation of about 94 positions equivalent to the ranks of senior occupational therapists and senior physiotherapists, in order to provide professional supervision and support for frontline therapists. The increased allocation has now been included in NGOs' recurrent subvention. Under the Lump Sum Grant Subvention System, subject to compliance with the requirements of the Funding and Service Agreement and the relevant statutory requirements, NGOs may flexibly deploy their manpower in accordance with their operational needs and human resources policies. SWD does not have information on the ratio of supervisory staff to allied health professionals in NGOs.

(Question Serial No. 3560)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Supplementary information sheets (SISs) for Integrated Home Care Services (IHCS) (Ordinary Cases) [IHCS(OC)] have been introduced since 2015 to assist IHCS teams in processing applications according to consistent standards. Would the Government please provide:

- i. the number of cases where individuals were assessed by IHCS teams using the SISs in each quarter of the past 5 years;
- ii. the respective numbers of applicants who were provided with immediate services, registered on the waiting list, and turned down in each quarter of the past 3 years;
- iii. the respective numbers of cases where elderly persons, persons with disabilities (PWDs), and individuals and families with social needs were provided with services in each quarter of the past 5 years;
- iv. the respective numbers of service places, service users and persons waitlisted for IHCS(OC) in each quarter of the past 5 years, with a breakdown by District Council district;
- v. the numbers of persons waitlisted for various types of primary services in each quarter of the past 5 years;
- vi. the numbers of persons using the meal service, the household cleaning service, and both services under IHCS(OC) in the past 5 years; and
- vii. the average monthly cost per case for IHCS(OC) in the past 5 years.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 88)

Reply:

The requested information is set out at Annexes 1 to 9. The Social Welfare Department (SWD) does not have information on the number of persons using household cleaning services under IHCS(OC) and Home Support Services (HSS).

Number of cases assessed by IHCS teams using the SISs ^{Note}

Quarter	No.
April to June 2020	3 004

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Please provide the number of elderly persons waitlisted for Integrated Home Care Services (Frail Cases) [IHCS(FC)] and their waiting time, as well as the latest application dates with turn for placement offer in the past 5 years, with a breakdown by administrative district of the Social Welfare Department (SWD).

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 89)

Reply:

IHCS(FC) and Enhanced Home and Community Care Services (EHCCS) provide home care services to frail elderly persons. SWD currently processes the allocation of these 2 services together.

The number of elderly persons waitlisted for the services by 18 District Council districts from 2020-21 to 2024-25 (as at the end of December 2024) is set out at Annex 1. The average waiting time is set out at Annex 2.

SWD does not maintain the latest application dates with turn for placement offer.

Director of Bureau: Secretary for Labour and Welfare

Question:

Please provide the number of elderly persons waitlisted for day care centres/units for the elderly (DEs/DCUs) and their waiting time, as well as the latest application dates with turn for placement offer, with a breakdown by administrative district of the Social Welfare Department (SWD), over the past 5 years.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 91)

Reply:

SWD records the number of elderly persons waitlisted for DEs/DCUs based on the 18 District Council (DC) districts. Relevant information for the period from 2020-21 to 2024-25 is set out at Annex 1.

The average waiting time for DEs/DCUs during the period from 2020-21 to 2024-25 is set out at Annex 2.

SWD does not compile the above statistics by its administrative districts, nor does it maintain information on the latest application dates with turn for placement offer, broken down by DC district or its administrative districts.

Number of persons waitlisted for DEs/DCUs^{Note}

CONTROLLING OFFICER'S REPLY

LWB(W)292

(Question Serial No. 3566)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

What is the current total subvention for residential child care services (RCCS)? What is the allocation for each service operator? Please provide a detailed breakdown of the total allocation for each service operator.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 94)

Reply:

At present, there are 21 non-governmental organisations (NGOs) receiving subvention from the Social Welfare Department (SWD) under the Lump Sum Grant Subvention System (LSGSS) to operate RCCS, including foster care services, small group homes, and residential homes for children (i.e. residential child care centres, children's homes, boys'/girls' homes and boys'/girls' hostels). The provisional allocation for each NGO in 2025-26, which involves a total sum of about \$1,212 million, is set out at Annex.

Under the LSGSS, subject to their compliance with the requirements of the Funding and Service Agreements and the relevant statutory staffing requirements, NGOs operating subvented welfare services may determine their staffing establishment and remuneration of their staff in accordance with their own human resource policies, and flexibly deploy resources and employ staff to achieve the service outputs and outcomes required. Therefore, SWD does not have a detailed breakdown of the allocation for each service operator.

NGOs operating subvented RCCS and their provisional allocations in 2025-26

Name of NGO	Provisional allocation in 2025-26 ^{Note} (\$ million)
1. Caritas - Hong Kong	41.9
2. Evangelical Free Church of China - Evangel Children's Home	16.7
3. Hong Kong Children and Youth Services	50.4
4. Hong Kong Christian Service	125.3
5. Hong Kong Juvenile Care Centre	23.7
6. Hong Kong Family Welfare Society	91.5

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Please provide the annual funding amounts and the corresponding funding calculation methods for the following services:

- i. Agency-based Enhancement of Professional Staff Support Services in Residential Care Homes (since 2014); and
- ii. Agency-based Enhancement of Clinical Psychological Support Services for Children under Foster Care (since 2020).

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 96)

Reply:

The Social Welfare Department determines the funding amounts for Agency-based Enhancement of Professional Staff Support Services in Residential Care Homes and Agency-based Enhancement of Clinical Psychological Support Services for Children under Foster Care according to the staffing establishments set out in the relevant Funding and Service Agreements (FSAs) and operational needs. The annual funding for Agency-based Enhancement of Professional Staff Support Services in Residential Care Homes and Agency-based Enhancement of Clinical Psychological Support Services for Children under Foster Care in the past 5 years are set out in Tables 1 and 2 of Annex, respectively.

Under the Lump Sum Grant Subvention System, non-governmental organisations operating subvented welfare services may, subject to their compliance with the requirements of the FSAs and the relevant statutory staffing requirements (if applicable), determine their staffing establishment and remuneration in accordance with their human resources policies, and flexibly deploy resources and employ staff to achieve the required service outputs and outcomes.

What was the number of reported cases of suspected/confirmed abuse regarding users of residential child care service (RCCS) received under the Social Welfare Department (SWD)'s mechanism of Special Incident Report over the past 5 financial years? Please set out the numbers of suspected and confirmed cases by identity of the suspected perpetrator.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 97)Reply:

The number of special incident reports received by SWD from 2020 to 2024 in respect of suspected abuse of RCCS users, the figures on the identity of suspected perpetrators, and the number of confirmed cases are set out as follows:

Year	Identity of suspected perpetrator		Total number of cases
	Staff member/Carer (cases)	Resident (cases)	
2020	-	4 (3 confirmed)	4 (3 confirmed)
2021	13 (8 confirmed)	9 (5 confirmed)	22 (13 confirmed)
2022	16 (3 confirmed)	5 (3 confirmed)	21 (6 confirmed)

(Question Serial No. 3570)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

What were the numbers of children who withdrew from residential child care services (RCCS) for reasons such as independent living, adoption, family reunion, transfer to other types of care services or other reasons, their average length of stay in days and their average age at which they withdrew from RCCS in the past 5 financial years?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 98)

Reply:

Reasons for children to withdraw from RCCS and other information sought for the past 5 years are set out at Annex.

**Reasons for children to withdraw from RCCS, number of children withdrawn,
average length of stay in months and average age of withdrawal**

Year	2020			2021			2022			2023			2024		
Reason	Number of children withdrawn	Average length of stay (month) Note	Average age of withdrawal	Number of children withdrawn	Average length of stay (month) Note	Average age of withdrawal	Number of children withdrawn	Average length of stay (month) Note	Average age of withdrawal	Number of children withdrawn	Average length of stay (month) Note	Average age of withdrawal	Number of children withdrawn	Average length of stay (month) Note	Average age of withdrawal
Independent living	20	66.8	19.1	25	83.1	18.4	20	75.8	19.1	61	63.8	19.1	29	42.3	18.9
Adoption	30	22.1	2.7	34	14.7	2.4	32	26.4	3.4	34	30.0	5.1	34	28.2	4.2
Family reunion	692	28.2	12.4	733	29.0	12.6	782	28.8	12.6	654	19.8	12.9	436	30.4	12.0
Transfer to other types of care services	463	25.6	8.9	536	22.2	9.1	459	24.0	9.4	439	26.2	10.1	504	23.3	8.3
Other reasons	64	24.5	14.3	68	30.4	14.2	51	26.1	13.1	74	17.9	12.8	66	25.4	13.8

Note The Social Welfare Department usually calculates the average length of stay of children upon their withdrawal from RCCS in months. To ensure the consistency of information and for ease of cross reference, the above figures are also calculated in months.

Question:

What is the current funding allocation for each organisation that operates kindergarten social work services? What is the total number of service users, and what is the service cost per user?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 100)

Reply:

The Social Work Service for Pre-primary Institutions (SWSPPI) is provided by non-governmental organisations subvented by the Social Welfare Department (SWD) which aims at facilitating early identification of and assistance to pre-primary children and their families with welfare needs. The service currently covers about 120 000 pre-primary children and their families. The revised estimate for 2024-25 was \$503 million, with each social work team receiving an annual funding of about \$8.3 million. As SWSPPI covers various services and target groups, SWD does not have information on the service cost per user.

Question:

How many kindergarten (KG) students in Hong Kong are covered by KG social work services? How many KG students remain uncovered? How will the Government ensure that these students and their families receive sufficient protection and support?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 101)

Reply:

The Social Work Service for Pre-primary Institutions (SWSPPI) is provided by non-governmental organisations subvented by the Social Welfare Department (SWD) which aims at facilitating early identification of and assistance to pre-primary children and their families with welfare needs. The service currently covers about 120 000 pre-primary children and their families. According to the information of SWD and the Education Bureau as at February 2025, there were a total of 755 aided pre-primary institutions (including aided child care centres (CCCs), KGs and KG-cum-CCCs) in Hong Kong, and 751 of them have received SWSPPI. SWD does not have information on the number of students in respective KGs.

Individuals or families in need, regardless of whether they have benefited from SWSPPI, may seek assistance and support from the respective integrated family service centres serving their localities.

Director of Bureau: Secretary for Labour and Welfare

Question:

What is the annual expenditure for the Family and Child Protective Services Units (FCPSUs)?
What is the total number of service users per year, and what is the service cost per user?
What are the number of staff members, their lengths of service, and turnover rates across different positions?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 102)

Reply:

The staffing establishment of FCPSUs under the Social Welfare Department (SWD) comprises 14 Senior Social Work Officers, 155 Social Work Officers and 51 Assistant Social Work Officers. The revised estimate of expenditure for FCPSUs for 2024-25 was \$325 million. SWD does not have information on the total number of service users, the service cost per user, or the length of service and turnover rate of staff in FCPSUs.

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the residential and day respite services for persons with disabilities (PWDs), please provide the following information:

- i. the numbers of service places, applicants, users and waitlisted persons, as well as the average waiting time for each service unit in the past 5 years;
- ii. the shortest, longest and average durations of stay in days (applicable to residential respite service) in the past 5 years;
- iii. the estimated and actual numbers of additional places in the past 5 years;
- iv. the number of service users in each quarter (with the same service user in the same quarter counted as 1 user) in the past 5 years, with a breakdown by district of residence, gender and age group;
- v. the number of persons for whom services were not arranged (with the same person who was refused service in more than 1 district counted as 1 person) and the cost per service user in the past 5 years; and
- vi. the number of places for planned services, with a detailed breakdown by district.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 103)

Reply:

- i. & ii. The number of service places and the headcount of service users for each type of service units providing day and residential respite services for PWDs from 2021-22 to 2024-25 are set out in Tables 1 to 4 of Annex 1. As the Social Welfare Department (SWD) only established a data system for relevant respite services in 2021-22, statistics for 2020-21 are not available. SWD does not maintain information such as the shortest, longest and average durations of stay (in days) for day and residential respite services provided for PWDs by various service units. Since service users are not required to apply for day or residential respite services through SWD's central referral system, SWD does not have information on the number of waitlisted persons and their waiting time. Service units will accord priority to service users with pressing needs based on the circumstances of each individual case.

- iii., iv. & v. SWD added 71 and 48 service places for day and residential respite services for PWDs, respectively, between 2020-21 and 2024-25. The number of service places and the headcount of service users each year are set out in Tables 1 and 2 of Annex 2. The respective headcounts of service users per quarter for residential and day respite services are set out in Tables 1 to 10 of Annex 3. SWD does not maintain statistical information on the districts of residence, genders, ages or per capita costs of respite service users. Besides, SWD has not received any reports of cases where services could not be arranged.
- vi. SWD will provide 33 additional places of respite services in 2024-25 and 2025-26. The distribution of the service places is set out in Tables 1 and 2 of Annex 4.

Table 1: Number of service places for each type of day respite services for PWDs from 2021-22 to 2024-25

(Question Serial No. 3576)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding day training and vocational rehabilitation services, including Sheltered Workshops (SWs), Supported Employment (SE) service, on-the-job training programmes, Integrated Vocational Rehabilitation Services Centres (IVRSCs), Integrated Vocational Training Centres (Day Service) [IVTCs(Day)] and Work Extension Programme (WEP), please inform this Committee of:

- i. the number of service places, the planned and actual numbers of additional service places, and the longest, shortest, average and median waiting time (broken down by priority and normal waiting list, if applicable) in each of the past 5 years;
- ii. the per capita costs of services in each of the past 5 years;
- iii. the numbers of applicants, persons served and persons applying for a freeze in service allocation in the past 5 years, broken down by district of residence, age group and gender;
- iv. the number of persons who refused service allocation, the length of their waiting time in years, and their reasons for refusal in the past 5 years;
- v. the age distribution of service users in each service unit across the territory; and
- vi. the number of places for planned services, broken down by district.
- vii. The current rate of incentive payment for service users of SWs and IVRSCs is \$26.5 per day, which was set in 2014. The previous adjustment was made in 2008 (\$21). What is the mechanism for setting and adjusting the rate of incentive payment?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 104)

Reply:

- i. The number of service places for various vocational rehabilitation services in each of the past 5 years is set out at Annex 1, while the planned and actual numbers of additional service places for SWs, IVRSCs and WEP per annum during the same period are set out at Annex 2. The average waiting time for the above services in each of the past 5 years is set out at Annex 3. The Social Welfare Department

(SWD) does not have a breakdown of the statistical information on the longest, shortest or median waiting time.

- ii. The average monthly cost per SW place in each of the past 5 years is set out at Annex 4. SWD does not have a breakdown on the unit costs of other vocational rehabilitation services.
- iii. & iv. The numbers of applicants for SWs and SE service in each of the past 5 years, broken down by administrative district of SWD and age group, are set out at Annex 5. The numbers of service users of various vocational rehabilitation services are set out at Annex 6. Since On the Job Training Programme for People with Disabilities (OJT), Sunnyway – On the Job Training Programme for Young People with Disabilities (Sunnyway) and IVTCs(Day) may admit service users directly or through referrals, SWD does not have information on the number of applicants, the number of persons applying for a freeze in service allocation, the number of persons who refused service allocation, the length of their waiting time, or the age distribution of service users of the relevant service units. Since the integration of relevant services into SET in 2024, service units have been registering the details of service users in the Central Referral System for Rehabilitation Services (CRSRehab) upon their admission, thus enabling the provision of data on the number and age distribution of service users. As services are allocated to applicants based on the order of their registration in CRSRehab without considering gender, SWD does not have statistical information on the applicants' gender. As there is no central waiting list (CWL) for WEP and applicants are selected from SWs, SWD does not have the relevant statistical information.
- v. The age distribution of service users of SWs, IVRSCs and SET is set out at Annex 7. As SE service, OJT and Sunnyway were integrated as SET in April 2024, information on the age distribution of service users by the above service types is no longer available. Since IVTCs (Day) may admit service users directly or through referrals, SWD does not have information on the age distribution of service users of relevant service units. As there is no CWL for WEP and applicants are selected from SWs, SWD does not have information on the age distribution of service users of WEP.
- vi. The number and geographical distribution of additional IVRSC places planned by SWD are set out at Annex 8. A total of 770 service places are expected to be added in the next 5 years.
- vii. The purpose of incentive payment is to encourage persons with disabilities (PWDs) to attend vocational rehabilitation training programmes. According to the mechanism endorsed by the Finance Committee of the Legislative Council, the rate of incentive payment will be adjusted if there is an increase of more than 20% in the Consumer Price Index (A). SWD has increased the rate of incentive payment to \$33 per day starting from October 2023 in accordance with the mechanism.

**Number of service places of various vocational rehabilitation services
from 2020-21 to 2024-25**

Service type	No. of service places

WEP ^{Note 4}	N.A.	N.A.	N.A.	N.A.	N.A.

N.A. - Not applicable

Note 1 SE, OJT and Sunnyway were integrated as SET in April 2024.

Note 2 As this service may admit service users directly or through referrals, SWD does not have relevant statistics.

Note 3 There is no CWL for IVRSCs and applicants are selected from CWLs for SWs and SE.

Note 4 There is no CWL for WEP and applicants are selected from SWs.

Note 5 The waiting time is affected by multiple factors, such as the applicant's preference for the location of service units, indication on specific service unit, the turnover rate of the selected service units, etc.

Note 6 As the average waiting time is calculated on a financial-year basis, spanning from 1 April of one year to 31 March of the following year, the figures for 2024-25 are not yet available.

CONTROLLING OFFICER'S REPLY

LWB(W)303

(Question Serial No. 3577)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the support for carers of persons with disabilities (PWDs) living in the community, please provide the following information:

- i. the number of carers who received home respite service, carer training, carer emotional support services and case management services in the past 5 years;
- ii. the respective numbers of carers of PWDs served by district support centres for PWDs (DSCs), parents/relatives resource centres (PRCs), integrated community centres for mental wellness (ICCMWs), home care service for persons with severe disabilities (HCS), and integrated support service for persons with severe physical disabilities (ISS) in the past 5 years, broken down by service type; and
- iii. the numbers of applicants, service places, service users and related activities organised by DSCs, PRCs, ICCMWs, HCS, and ISS in each of the past 5 years, broken down by type of service received by carers.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 105)

Reply:

- i. & ii. Home respite services are provided through DSCs, HCS and ISS. The headcount of users of home respite services for PWDs in the past 5 years is set out in Table 1 of Annex 1. In addition, DSCs, HCS, ISS, PRCs and ICCMWs also provide case management, carer training and emotional support services to PWDs and their families/carers. These services do not require referral or waitlisting under a central system. The number of cases receiving case management services under the above services in the past 5 years is set out in Table 2 of Annex 1. The Social Welfare Department does not maintain a breakdown of training and emotional support services provided for carers of PWDs.
- iii. The service places for HCS and ISS from 2020-21 to 2024-25 were 3 550 and 900, respectively. There are no quotas set for DSCs, PRCs and ICCMWs. The numbers of service users and activities organised under the above services in the past 5 years are set out in Tables 1 and 2 of Annex 2.

(Question Serial No. 3578)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the services of district support centres for persons with disabilities (DSCs), would the Government please provide:

- i. the total number of members in each unit in the past 5 years, broken down by type of disability, gender and age (in 10-year age groups for those aged 15 and above);
- ii. the number of persons who were refused service in each unit, broken down by reason for refusal, in the past 5 years;
- iii. the average waiting time for each service unit in the past 5 years; and
- iv. the expenditure on the entire scheme, the per capita cost of each service unit, and the per capita cost by service type in the past 5 years.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 106)

Reply:

- i. The number of DSC members in each of the past 5 years, broken down by unit, is set out in Table 1 of Annex. The Social Welfare Department (SWD) does not maintain a breakdown of the number of members by type of disability, gender and age.
- ii. SWD does not have information on the number of persons who were refused service in each unit.
- iii. As DSC service users do not need to wait for services through a central referral system, SWD does not maintain record of the average waiting time for each service unit.
- iv. The annual expenditure on DSCs in the past 5 years is set out in Table 2 of Annex. SWD does not maintain a breakdown of the per capita cost by service unit or service type.

Table 1: Number of DSC service users from 2020-21 to 2024-25 by district

Service district	No. of members				
	2020-21	2021-22	2022-23	2023-24	2024-25 (as at end-December 2024)

CONTROLLING OFFICER'S REPLY

LWB(W)305

(Question Serial No. 3579)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Please provide the following information for the past 5 years:

- i. the numbers of Bought Place Scheme (BPS) and non-BPS places of various types of subsidised residential care services (RCS) for persons with disabilities (PWDs), the average and median waiting time, broken down by gender, age and district;
- ii. the per capita cost, fees and charges and total subsidy amount as regards BPS and non-BPS places of various types of subsidised RCS for PWDs;
- iii. the total number of PWDs who passed away or withdrew their applications while waiting for residential places, and their percentages out of the number of waitlisted persons, broken down by age;
- iv. the number of persons who left residential care homes for PWDs (RCHDs) and their reasons for leaving, broken down by type of residential care homes; and
- v. the number of surprise inspections of private RCHDs under the Enhanced Bought Place Scheme (EBPS) conducted by the Licensing Office of Residential Care Homes for the Elderly of the Social Welfare Department (SWD).

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 107)

Reply:

- i. In the past 5 years, the number of places for various types of residential care services for PWDs, with a breakdown by SWD's administrative district, is set out at Annex 1. The average waiting time is set out at Annex 2. SWD does not have statistical information on the number of service places, or the average and median waiting time by gender and age.
- ii. In the past 5 years, the average cost per place per month for the overall residential care services for PWDs is set out at Annex 3. SWD does not have statistical breakdown on the average cost of each type of residential places. The fees and charges for various types of subsidised residential care services are set out at Annex 4. The total subsidy amount is set out at Annex 5.

- iii. In the past 5 years, the number of persons who passed away or withdrew their applications while waiting for residential rehabilitation services for PWDs and their percentages out of the number of waitlisted persons are set out at Annex 6. SWD does not have statistical breakdown by age on the number of persons who passed away or withdrew their applications while waiting for residential rehabilitation services.
- iv. In the past 5 years, the number of persons who left various types of RCHDs and their reasons for leaving are set out at Annex 7.
- v. In the past 5 years, the number of surprise inspections at private RCHDs under BPS conducted by the Licensing Office of RCHDs (LORCHD) of SWD is set out at Annex 8.

Note SGHs(MMHC) include integrated small group homes (ISGHs).

Legend

HMMH - hostel for moderately mentally handicapped persons

HSMH - hostel for severely mentally handicapped persons

HSPH - hostel for severely physically handicapped persons

C&A/SD - care-and-attention home for severely disabled persons

C&A/AB - care-and-attention home for the aged blind

SGH(MMHC) - small group home for mildly mentally handicapped children

SHOS - supported hostel

HWH - halfway house

LSCH - long stay care home

Private RCHD under BPS - private RCHD under the Bought Place Scheme

CONTROLLING OFFICER'S REPLY

LWB(W)306

(Question Serial No. 3580)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding hostels for severely mentally handicapped persons (HSMHs), hostels for moderately mentally handicapped persons (HMMHs), care and attention homes for severely disabled persons (C&A/SDs), supported hostels (SHOSs), private residential care homes for persons with disabilities (RCHDs) under the Bought Place Scheme (BPS) and small group homes for mildly mentally handicapped children [SGHs(MMHC)] provided for persons with intellectual disability, would the Government please inform this Committee of the following:

- i. the number of service places, the planned and actual number of additional service places and the longest, shortest and average waiting time for these services in each of the past 5 years;
- ii. the per capita service cost in each of the past 5 years;
- iii. the number of applicants, the number of service users and the number of persons applying for a freeze in service allocation with a breakdown by district of residence, age group and gender in the past 5 years; and
- iv. the number of persons who refused service allocation, their waiting time in years and their reasons for refusal in the past 5 years.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 108)

Reply:

- i. The numbers of service places of HSMHs, HMMHs, C&A/SDs, SHOSs, SGHs(MMHC) and private RCHDs under BPS, and the planned and actual numbers of additional service places in each of the past 5 years are set out at Annexes 1 and 2, respectively. The average waiting time for these services is set out at Annex 3. The Social Welfare Department (SWD) does not have statistics on the longest, shortest or median waiting time.
- ii. The average monthly cost per place of the overall residential care services for persons with disabilities (PWDs) in the past 5 years is set out at Annex 4. SWD does not have a breakdown of the average cost of each type of places.

- iii. The number of applicants of the above residential rehabilitation services broken down by administrative district of SWD and age group in the past 5 years is set out at Annex 5. The number of service users broken down by age group in the past 5 years is set out at Annex 6. The number of applicants on the Inactive Waiting List (IWL) for various types of residential rehabilitation services for PWDs is set out at Annex 7.

SWD does not have a breakdown of the number of service users of residential rehabilitation services or the number of persons applying for a freeze in service allocation by district or age.

As services are allocated to applicants based on the sequential order of their registration in SWD's Central Referral System for Rehabilitation Services without considering gender, SWD does not maintain statistics on applicants broken down by gender.

Since there is no central waiting list for BPS, statistics on the number of applicants are not available.

- iv. SWD does not have a breakdown of the number of persons who refused service allocation in the past 5 years by waiting time or reasons for refusal.

**Number of service places for various types of residential services for PWDs
from 2020-21 to 2024-25**

Service type	No. of service places				
	2020-21	2021-22	2022-23	2023-24	2024-25 (as at end-December 2024)
HSMH	4 060	4 060	4 112	4 523	4 573
HMMH	2 800	2 800	2 851	2 926	2 926
C&A/SD	1 132	1 132	1 132	1 332	1 372
SHOS	784	804	866	866	866
SGH(MMHC) ^{Note 1}	128	128	128	128	128
Private RCHD under BPS	1 018	1 264	1 379	1 266 ^{Note 2}	1 448

Note 1 SGHs(MMHC) include integrated small group homes (ISGHs).

Note 2 Including the reduction of 51 service places due to the termination of the contract for 1 private RCHD under BPS in September 2023, and the reduction of 62 service places due to the termination of the contract for 1 private RCHD under BPS in January 2024.

**Planned and actual number of additional service places for
various types of residential services for PWDs from 2020-21 to 2024-25**

Year	2020-21		2021-22		2022-23		2023-24		2024-25 (as at end- December 2024)	
	Planned number of additional service places	Actual number of additional service places	Planned number of additional service places	Actual number of additional service places	Planned number of additional service places	Actual number of additional service places	Planned number of additional service places	Actual number of additional service places	Planned number of additional service places	Actual number of additional service places
HSMH	131	131	0	0	52	52	411	411	50	50
HMMH	142	142	0	0	51	51	75	75	0	0
C&A/SD	90	90	0	0	0	0	240	200	40	40
SHOS ^{Note 1}	60	40 ^{Note 1}	50	20 ^{Note 1}	62	62 ^{Note 1}	0	0	0	0
SGH(MMHC) ^{Note 2}	0	0	0	0	0	0	0	0	0	0
Private RCHD under BPS	300	0 ^{Note 3}	300	246	100	115	196	0	239	182

Note 1 Due to the impact of the COVID-19 pandemic on the progress of the fitting-out works, 1 SHOS with 20 service places and another with 30 service places had to postpone their commencement of services to 2021-22 and 2022-23, respectively.

Note 2 SGHs(MMHC) include ISGHs.

Note 3 The COVID-19 pandemic has affected the plans of some private RCHDs to improve manpower, equipment, and space, making it difficult for them to vacate places scheduled to be bought under BPS, thus affecting the progress of BPS.

**Average waiting time for various types of residential services for PWDs
from 2020-21 to 2024-25**

Service type	Average waiting time (in months)				
	2020-21	2021-22	2022-23	2023-24	2024-25 ^{Note 1}
HSMH	156.1	150.8	171.1	166.6	Not yet available
HMMH	127.6	144.8	154.1	145.1	
C&A/SD	64.3	65.6	60.6	48.6	
SHOS	71.8	63.5	78.8	65.7	
SGH(MMHC) ^{Note 2}	13.1	15.1	17.5	14.7	
Private RCHD under BPS ^{Note 3}	N.A. ^{Note 3}				

N.A. - Not applicable

^{Note 1} As the average waiting time is compiled on a financial-year basis covering from 1 April of a year to 31 March of the next year, the figures for 2024-25 are not yet available.

^{Note 2} SGHs(MMHC) include ISGHs.

^{Note 3} There is no separate central waiting list or statistics on the waiting time for BPS. For applicants on the waiting list for long stay care homes, HMMHs, halfway houses and SHOSs under the Central Referral System for Rehabilitation Services, BPS places will be allocated by SWD according to the preferences of applicants who have indicated their acceptance of BPS.

**Average cost per place per month for residential services for PWDs
from 2020-21 to 2024-25**

Year	Average cost per place per month for subsidised residential rehabilitation services (\$)	Average cost per place per month for private RCHDs under BPS (\$)
2020-21 (Actual)	18,033	11,773
2021-22 (Actual)	18,011	13,131
2022-23 (Actual)	18,531	13,287
2023-24 (Actual)	20,543	13,969
2024-25 (Revised estimate)	20,811	14,107

(Question Serial No. 3581)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Please provide the number of cases of persons with disabilities (PWDs) under 60 teams of Integrated Home Care Services (Ordinary Cases) [IHCS(OC)] across the territory in the past 5 years, with a breakdown by district.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 109)

Reply:

IHCS(OC) and Home Care and Support Services for Elderly Persons with Mild Impairment (HSMI) were merged into Home Support Services (HSS) in October 2024 for better utilisation of resources and service enhancement. The requested information is set out at Annex.

CONTROLLING OFFICER'S REPLY

LWB(W)308

(Question Serial No. 3582)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Would the Government please provide the following information regarding the rehabilitation services, including home care service for persons with severe disabilities (HCS) and integrated support service for persons with severe physical disabilities (ISS):

- i. the total service cost, unit cost per capita and service cost of each service sub-type under the 2 services in the past 5 years;
- ii. the total number of service places, number of service places for each service sub-type, total number of service users, and average waiting time for the 2 services in the past 5 years;
- iii. for each service sub-type under the 2 services, the number of service sessions provided, waiting situation, number of service users (with a breakdown by type of disability and age group in 10-year bands from the age over 15) and number of persons who were refused services (with a breakdown by reason for refusal) in the past 5 years; and
- iv. the number of persons who requested household cleaning and meal delivery services and the actual number of times such services were provided under the 2 services in the past 5 years.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 110)

Reply:

- i. The expenditure on HCS and ISS in the past 5 years is set out at Annex 1. The Social Welfare Department (SWD) does not have statistics on the unit cost per capita or service cost of each service sub-type under the 2 services.
- ii. In the past 5 years, the service places for HCS and ISS were 3 550 and 900, respectively. SWD does not have a breakdown of service places by service sub-type of the 2 services. The number of service users of the 2 services from 2020-21 to 2024-25 is set out at Annex 2. As applicants do not have to waitlist for services through a central referral system, SWD does not have information on the average waiting time of the 2 services. Applications made by individuals with pressing needs will be processed with priority based on their individual circumstances.

- iii & iv. The volume of services provided under HCS and ISS in the past 5 years is set out in Tables 1 and 2 of Annex 3 respectively. SWD does not have information on the waiting situation for each service sub-type under the 2 services, breakdown on number of service users by type of disabilities and age group, number of persons who were refused services, and number of applicants for household cleaning/meal delivery services.

Service expenditures on HCS and ISS

Service type/ Year	2020-21 (Actual) (\$ million)	2021-22 (Actual) (\$ million)	2022-23 (Actual) (\$ million)	2023-24 (Actual) (\$ million)	2024-25 (Revised estimate) (\$ million)
HCS	330.5	329.7	336.5	351.8	361.7
ISS	72.5	72.6	74.4	77.5	79.4

CONTROLLING OFFICER'S REPLY

LWB(W)309

(Question Serial No. 3583)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding hostels for severely physically handicapped persons (HSPHs), hostels for severely physically and mentally handicapped persons (HSPH/MHs) and supported hostels (SHOSs) for physically handicapped persons, would the Government please provide the following information:

- i. the current number of service places, the planned and actual number of additional service places, and the longest, shortest, average and median waiting time for each of the past 5 years;
- ii. the per capita service cost for each of the past 5 years;
- iii. the number of applicants, the number of persons served, and the number of persons applying for a freeze in service allocation in the past 5 years, with a breakdown by district of residence, age group, and gender;
- iv. the number of persons having refused service allocation, the waiting time (in years), and their reasons for refusal in the past 5 years;
- v. the age of service users of all service units in Hong Kong; and
- vi. the number of planned service places, with a detailed breakdown by district.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 111)

Reply:

- i. The respective numbers of service places, the planned and actual numbers of additional service places, as well as the average waiting time for HSPHs (including HSPH/MHs) and SHOSs (including those for severely physically handicapped persons, mentally handicapped persons, persons in mental recovery, and mentally handicapped persons with visual impairment) in each of the past 5 years are set out at Annex 1. The Social Welfare Department (SWD) does not have statistical information on the longest, shortest or median waiting time.
- ii. The average cost per place per month for residential services for people with disabilities (PWDs) in the past 5 years is set out at Annex 2.

- iii. & v. The respective numbers of applicants for HSPHs (including HSPH/MHs) and SHOSs (including those for severely physically handicapped persons, mentally handicapped persons, persons in mental recovery, and mentally handicapped persons with visual impairment) in the past 5 years, broken down by administrative district of SWD and age group, are set out at Annex 3. The number of service users, broken down by age group, and the number of applicants on the Inactive Waiting List (IWL) are set out at Annexes 4 and 5, respectively. SWD does not have information on the number of service users broken down by district of residence. As services are allocated to applicants on the Central Referral System of SWD in sequential order without considering gender, SWD does not maintain statistics on applicants broken down by gender.
- iv. SWD does not have information on the number of persons having refused service allocation, their waiting time (in years) or their reasons for refusal, etc.
- vi. The planned numbers of additional service places for HSPHs (including HSPH/MHs) and SHOSs (including those for severely physically handicapped persons, mentally handicapped persons, persons in mental recovery, and mentally handicapped persons with visual impairment) for the next 5 years, broken down by District Council (DC) district, are set out at Annex 6.

Table 1: Number of service places for HSPHs and SHOSs by year from 2020-21 to 2024-25

Service type	No. of service places				
	2020-21	2021-22	2022-23	2023-24	2024-25 (as at end-December 2024)
HSPH	715	715	715	790	790
SHOS	784	804	866	866	866

Table 2: Planned and actual numbers of additional service places for HSPHs and SHOSs by year from 2020-21 to 2024-25

Service type	2020-21		2021-22		2022-23		2023-24		2024-25 (as at end-December 2024)	
	Planned no. of additional service places	Actual no. of additional service places	Planned no. of additional service places	Actual no. of additional service places	Planned no. of additional service places	Actual no. of additional service places	Planned no. of additional service places	Actual no. of additional service places	Planned no. of additional service places	Actual no. of additional service places
HSPH	50	50	0	0	0	0	75	75	0	0
SHOS	60	40 ^{Note 1}	50	20 ^{Note 1}	62	62 ^{Note 1}	0	0	0	0

Note 1 Due to the impact of the COVID-19 pandemic on the progress of the fitting-out works, 1 SHOS with 20 service places and another with 30 service places had to postpone their commencement of services to 2021-22 and 2022-23, respectively.

Table 3: Average waiting time for HSPHs and SHOSs from 2020-21 to 2024-25

Service type	2020-21	2021-22	2022-23	2023-24	2024-25
	Average waiting time (in months) ^{Note 2}				Not yet available ^{Note 3}
HSPH	77.8	80.9	73.0	51.5	
SHOS	71.8	63.5	78.8	65.7	

Note 2 The waiting time is affected by multiple factors, such as the applicant's preference for the location of service units, indication on specific service unit, the turnover rate of the selected service units, etc.

Note 3 As the average waiting time is calculated on a financial-year basis, spanning from 1 April of one year to 31 March of the following year, the figures for 2024-25 are not yet available.

**Average cost per place per month for residential services for PWDs
from 2020-21 to 2024-25**

Year	Average cost per place per month (\$)
2020-21 (Actual)	18,033

CONTROLLING OFFICER'S REPLY

LWB(W)310

(Question Serial No. 3584)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding pre-school rehabilitation services, including early education and training centres (EETCs), integrated programme in kindergarten-cum-child care centres (IP), special child care centres (SCCCs), occasional child care service (OCCS) for children with disabilities, and on-site pre-school rehabilitation services (OPRS), would the Government please provide the following information:

- i. the respective numbers of pre-school children and primary students currently awaiting assessments of special educational needs in Hong Kong;
- ii. the number of service places, the actual increase in the number of service places, the utilisation rate, the per capita service cost, as well as the median, average, longest and shortest waiting time for various types of services for each of the past 5 years;
- iii. the numbers of applicants, service users and persons who applied for a freeze in service allocation in each of the past 5 years, with a breakdown by district of residence, age group (i.e. aged 0 to 2, aged 3 to 4, and aged 5 to 6) and gender of the applicants;
- iv. the number of persons having refused service allocation, their waiting time (in years), and their reasons for refusal for each of the past 5 years;
- v. the number of users of various service units in each district in Hong Kong, with a breakdown by age group (i.e. aged 0 to 2, aged 3 to 4, and aged 5 to 6); and
- vi. the number of planned service places, with a detailed breakdown by district.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 112)

Reply:

- i. The Child Assessment Service (CAS) of the Department of Health (DH) provides comprehensive professional assessment services for children under the age of 12 with suspected developmental problems. In 2024, CAS received 7 814 and 782 new case referrals (provisional figures) for pre-school children and primary students, respectively. Apart from DH, the Hospital Authority, non-governmental organisations and private recognised professionals also offer assessment services. The Government does not have statistical information on the number of children who have been assessed as requiring pre-school rehabilitation services.

All public sector ordinary primary schools have implemented the Early Identification and Intervention Programme for Primary One (P1) Students with Learning Difficulties to facilitate early identification of and support for P1 students who are suspected of having learning difficulties. Schools will consult school-based educational psychologists (EPs) regarding the educational needs of students with learning or emotional and behavioural difficulties. For students who continue to show severe or persistent difficulties despite the intervention rendered, schools will refer them to school-based EPs or other professionals for further assessment as appropriate. The Education Bureau (EDB) has all along been encouraging schools to adopt the “intervention before assessment” principle, ensuring appropriate support is provided to students displaying learning or emotional and behavioural difficulties without the need to wait for the completion of assessments. EDB does not have information on the number of students with special educational needs awaiting assessment.

- ii. The number of service places, the actual number of additional service places, the utilisation rate, the average waiting time, and the average monthly cost per place for various pre-school rehabilitation services (including OPRS, EETCs, IP, SCCCs, and OCCS for children with disabilities) in each of the past 5 years are set out at Annex 1. The Social Welfare Department (SWD) does not have statistical information on the shortest, longest or median waiting time for pre-school rehabilitation services. Regarding OCCS for children with disabilities, applications can be made by parents/carers to the service operators directly or through referrals by medical social workers, family caseworkers, staff of pre-school rehabilitation service centres, etc. Therefore, SWD does not have information on the utilisation rate or average waiting time of the service.
- iii. The numbers of new applicants and service users for various pre-school rehabilitation services (including OPRS, EETCs, IP, and SCCCs) in the past 5 years, broken down by administrative district of SWD and age group, are set out at Annex 2. SWD does not have the statistics on the numbers of applicants and service users for pre-school rehabilitation services broken down by gender, or the number of persons who have applied for a freeze on service allocation. Regarding OCCS for children with disabilities, applications can be made by parents/carers to the service operators directly or through referral by medical social workers, family caseworkers, staff of pre-school rehabilitation service centres, etc. Therefore, SWD does not have information on the number of applicants or users of the service.
- iv. The number of cases where service allocation was refused for various pre-school rehabilitation services (including OPRS, EETCs, IP, and SCCCs) in the past 5 years is set out at Annex 3. SWD does not have statistical information on the length of waiting time or the reasons for refusal in these cases.
- v. SWD does not have statistical information on the service users of various pre-school rehabilitation service units broken down by age across different districts in Hong Kong.
- vi. The estimated number of additional service places for pre-school rehabilitation services broken down by administrative district of SWD in 2025-26 is set out at Annex 4.

**Table 1: Number of service places for pre-school rehabilitation services
from 2020-21 to 2024-25**

Service type	2020-21	2021-22	2022-23	2023-24	2024-25 (as at 31 December 2024)
OPRS	8 074	9 074	10 074	10 124	10 124
EETC	3 888	4 174	4 393	4 413	4 605

SCCC	2 170	2 274	2 364	2 456	2 516
OCCS for children with disabilities	102	111	117	120	120

**Table 2: Actual number of additional service places for pre-school
rehabilitation services from 2020-21 to 2024-25**

Service type	2020-21	2021-22	2022-23	2023-24	2024-25 (as at 31 December 2024)
OPRS	1 000	1 000	1 000	50	-
EETC	117	286	219	20	192
IP	-	-	-	-	-
SCCC	150	104	90	92	60
OCCS for children with disabilities	5	9	6	3	-

**Table 3: Utilisation rate of pre-school rehabilitation services
from 2020-21 to 2024-25**

Service type	2020-21 (%)	2021-22 (%)	2022-23 (%)	2023-24 (%)	2024-25 (as at 31 December 2024) (%)
OPRS	96.5	98.4	98.8	99.8	99.0
EETC	94.6	95.4	95.1	96.4	94.7
IP	96.3	97.9	97.2	96.2	93.4
SCCC	97.4	94.7	93.0	97.4	96.6
OCCS for children with disabilities ^{Note}	-	-	-	-	-

^{Note} The service may admit service users directly or through referral and hence SWD does not have the statistics on the number of service users.

**Table 4: Average waiting time for pre-school rehabilitation services
from 2019-20 to 2023-24**

Service type	Average waiting time (in months) ^{Note 1} ^{Note 2}				
	2019-20	2020-21	2021-22	2022-23	2023-24
OPRS	4.8	5.2	4.3	4.2	3.4
EETC	11.2	8	5.4	5	5
IP	7.5	8	6.3	5.3	3.6
SCCC	17.5	19.9	20.2	19.3	19.2
OCCS for children with disabilities ^{Note 3}	-	-	-	-	-

Note 1 As the average waiting time is compiled on a financial-year basis from 1 April of a year to 31 March of the next, the figure for 2024-25 is not yet available.

Note 2 OPRS has achieved “zero waiting time” in 2024-25. Starting from 2024-25, the number of persons waitlisted is no longer applicable to OPRS.

Note 3 The service may admit service users directly or through referral and hence SWD does not have the statistics on the waiting time.

**Table 5: Average monthly cost per place for pre-school rehabilitation services
from 2020-21 to 2024-25**

Service type	Average cost per place per month

CONTROLLING OFFICER'S REPLY

LWB(W)311

(Question Serial No. 3585)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Since 2020, the Government has allocated some \$30 million to subsidise soft meals for residents of residential care homes (RCHs) for the elderly (RCHEs). What is the average daily subsidy provided for each elderly resident? Will the Government extend this policy to include residents of subvented RCHs for persons with disabilities (RCHDs)?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 113)

Reply:

Since October 2020, the Social Welfare Department (SWD) has been providing additional funding to subvented RCHEs, subvented nursing homes, contract RCHEs, private and self-financing RCHEs participating in the Bought Place Schemes, as well as subvented RCHDs and private RCHDs participating in Bought Place Scheme, for their flexible deployment in providing soft meals according to residents' needs. The annual expenditure involved is about \$65 million for RCHEs and \$52 million for RCHDs. SWD does not have information on the average subsidy for residents using soft meal service.

CONTROLLING OFFICER'S REPLY

LWB(W)312

(Question Serial No. 3586)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding long stay care homes (LSCHs), halfway houses (HWHs) and supported hostels (SHOSs) for persons in mental recovery, would the Government please provide the following information:

- i. the current number of service places, the planned and actual number of additional service places, and the longest, shortest, average and median waiting time for each of the past 5 years;
- ii. the per capita service cost for each of the past 5 years;
- iii. the number of applicants, the number of persons served, and the number of persons applying for a freeze in service allocation in the past 5 years, with a breakdown by district of residence, age group, and gender;
- iv. the number of persons having refused service allocation, their waiting time (in years), and their reasons for refusal in the past 5 years;
- v. the age of service users of all service units in Hong Kong; and
- vi. the number of planned service places, with a detailed breakdown by district.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 114)

Reply:

- i. The respective numbers of service places, the planned and actual numbers of additional service places, as well as the average waiting time for LSCHs, HWHs and SHOSs (including those for severely physically handicapped persons, mentally handicapped persons, persons in mental recovery, and mentally handicapped persons with visual impairment) in each of the past 5 years are set out in Tables 1 to 3 of Annex 1. The Social Welfare Department (SWD) does not have statistical information on the longest, shortest or median waiting time.
- ii. The average cost per place per month for residential rehabilitation services in the past 5 years is set out at Annex 2.
- iii. & v. The respective numbers of applicants for LSCHs, HWHs and SHOSs (including those for severely physically handicapped persons, mentally handicapped persons,

persons in mental recovery, and mentally handicapped persons with visual impairment) in the past 5 years, broken down by administrative district of SWD and age group, are set out in Tables 1 to 15 of Annex 3. The number of service users, broken down by age group, and the number of applicants on the Inactive Waiting List (IWL) are set out in Tables 1 to 3 of Annex 4, and Annex 5, respectively. SWD does not have information on the number of service users broken down by district of residence. As services are allocated to applicants on the Central Referral System of SWD in sequential order without considering gender, SWD does not have statistical information on the applicants' gender.

- iv. SWD does not have information on the number of persons having refused service allocation, their waiting time (in years) or their reasons for refusal.
- vi. The planned numbers of additional service places for LSCHs, HWH and SHOSs (including those for severely physically handicapped persons, mentally handicapped persons, persons in mental recovery, and mentally handicapped persons with visual impairment) for the next 5 years, broken down by District Council (DC) district, are set out at Annex 6.

**Table 1: Numbers of service places for LSCHs, HWHs and SHOSs
by year from 2020-21 to 2024-25**

Service type	No. of service places				
	2020-21	2021-22	2022-23	2023-24	2024-25 (as at 31 December 2024)
LSCH	1 587	1 587	1 587	1 987	1 987
HWH	1 594	1 594	1 594	1 594	1 594
SHOS	784	804	866	866	866

**Table 2: Planned and actual numbers of additional service places for LSCHs, HWHs
and SHOSs by year from 2020-21 to 2024-25**

Service type	2020-21		2021-22		2022-23		2023-24		2024-25 (as at 31 December 2024)	
	Planned no. of additional service places	Actual no. of additional service places	Planned no. of additional service places	Actual no. of additional service places	Planned no. of additional service places	Actual no. of additional service places	Planned no. of additional service places	Actual no. of additional service places	Planned no. of additional service places	Actual no. of additional service places
LSCH	0	0	0	0	0	0	400	400	0	0
HWH	0	0	0	0	0	0	0	0	0	0
SHOS ^{Note 1}	60	40 ^{Note 1}	50	20 ^{Note 1}	62	62 ^{Note 1}	0	0	0	0

^{Note 1} Due to the impact of the COVID-19 pandemic on the progress of the fitting-out works, 1 SHOS with 20 service places and another with 30 service places had to postpone their commencement of services until 2021-22 and 2022-23, respectively.

Table 3: Average waiting time for LSCHs, HWHs and SHOSs from 2020-21 to 2024-25

Service type	2020-21	2021-22	2022-23	2023-24	2024-25
	Average waiting time (in months) ^{Note 2}				Not yet available ^{Note 3}
LSCH	64.9	57.8	72.3	56.8	
HWH	4.7	4.2	4.2	4.3	
SHOS	71.8	63.5	78.8	65.7	

^{Note 2} The waiting time is affected by multiple factors, such as the applicant's preference for the location of service units, indication on specific service unit, the turnover rate of the selected service units, etc.

^{Note 3} As the average waiting time is calculated on a financial-year basis, spanning from 1 April of one year to 31 March of the following year, the figures for 2024-25 are not yet available.

LWB(W)314

(Question Serial No. 3588)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (2) Social Security

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding unemployed Comprehensive Social Security Assistance (CSSA) recipients, what were their ages, durations of receiving CSSA, educational attainments, previous job positions, employment earnings, and districts of residence in the past 5 years?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 116)

Reply:

The numbers of unemployed CSSA recipients from 2020-21 to 2024-25, broken down by age group, duration of receiving CSSA, educational attainment, occupation, monthly employment earnings and district, are set out in Tables 1 to 6 of Annex, respectively.

Table 1 Number of unemployed CSSA recipients from 2020-21 to 2024-25 by age group

Age group	2020-21	2021-22	2022-23	2023-24	2024-25 (as at end-December 2024)
15 to 19	427	353	296	271	297
20 to 29	1 343	1 058	896	745	743
30 to 39	2 146	1 809	1 478	1 220	1 198
40 to 49	6 232	5 298	4 523	3 940	3 658
50 to 59	7 240	6 440	5 733	5 069	4 808
60 to 64	4 289	5 065	5 800	6 050	5 788
Total	21 677	20 023	18 726	17 295	16 492

Table 2 Number of unemployed CSSA recipients ^{Note} from 2020-21 to 2024-25 by duration of receiving CSSA

Duration of receiving CSSA	2020-21	2021-22	2022-23	2023-24	2024-25 (as at end-December 2024)
1 year or less	6 901	2 399	1 972	1 634	1 753
More than 1 year to 2 years	2 462	4 472	1 678	1 405	1 303
More than 2 years to 3 years	1 153	1 871	3 319	1 302	1 145
More than 3 years to 4 years	993	1 074	1 474	2 545	1 200
More than 4 years to 5 years	855	927	978	1 200	2 029
More than 5 years	9 313	9 280	9 305	9 209	9 062
Total	21 677	20 023	18 726	17 295	16 492

^{Note} Unemployed CSSA recipients might have received CSSA in the past for other reasons (such as ill health or single parent), and not all of them have received CSSA all along due to unemployment.

Table 3 Number of unemployed CSSA recipients from 2020-21 to 2024-25 by educational attainment

Educational attainment	2020-21	2021-22	2022-23	2023-24	2024-25 (as at end-December 2024)

CONTROLLING OFFICER'S REPLY**LWB(W)316****(Question Serial No. 3590)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (2) Social SecurityControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

1. How many Comprehensive Social Security Assistance (CSSA) recipients participated in the Integrated Employment Assistance Programme for Self-reliance (IEAPS) in the past 5 years?
2. What were the respective numbers of persons who successfully secured employment or returned to mainstream education after participating in the IEAPS in the past 5 years?
3. What was the number of cases in which the recipients left the CSSA net after participating in the IEAPS in the past 5 years?
4. What were the numbers and percentages of various categories of recipients (unemployed CSSA recipients, as well as single parents and child carers on CSSA with their youngest child aged 12 to 14) who secured employment or returned to mainstream education (for at least 1 month and 3 months) after participating in the IEAPS in the past 5 years?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 118)Reply:

1. The Social Welfare Department (SWD) currently implements the Support for Self-reliance Scheme, including the Employment Support Services (EmSS). The headcounts of persons who received EmSS in 2023-24 and 2024-25 are tabulated below. SWD does not have a breakdown of the headcounts by year prior to April 2023.

Year	Headcount of persons who received EmSS
2023-24	16 480
2024-25 (up to end-December 2024)	14 022

2. Among the recipients of EmSS, the headcounts of persons who secured employment and those who returned to mainstream education for at least 1 month in 2023-24 and 2024-25 are tabulated below. SWD does not have a breakdown of the headcounts by year prior to April 2023.

Year	Headcount of persons who secured employment for at least 1 month	Headcount of persons who returned to mainstream education for at least 1 month
2023-24	1 891	110
2024-25 (up to end-December 2024)	1 307	93

3. Among the recipients of EmSS, the headcounts of persons who left the CSSA net owing to securing employment and those who left owing to returning to mainstream education in 2023-24 and 2024-25 are tabulated below. SWD does not have a breakdown of the headcounts by year prior to April 2023.

Year	Headcount of persons who left the CSSA net owing to securing employment	Headcount of persons who left the CSSA net owing to returning to mainstream education
2023-24	489	37
2024-25 (up to end-December 2024)	311	42

4. The headcounts and percentages of persons who received EmSS and secured employment or returned to mainstream education for at least 1 month or 3 months, respectively, in 2023-24 and 2024-25, broken down by category of recipients, are set out at Annex. SWD does not have a breakdown of the headcounts by year and the relevant percentages prior to April 2023.

**Headcounts and percentages of persons who received EmSS
and secured employment or returned to mainstream education
for at least 1 month or 3 months respectively
in 2023-24 and 2024-25,
broken down by category of recipients**

Category of recipients	Year	Headcount of persons who received the services	Headcount of persons who secured employment ^{Note 2} or returned to mainstream education ^{Note 3} for at least 1 month (%)	Headcount of persons who secured employment ^{Note 2} or returned to mainstream education ^{Note 3} for at least 3 months (%)
Unemployed able-bodied CSSA recipients aged 15 to 64 ^{Note 1}	2023-24	15 267 (100%)	1 758 (11.5%)	1 586 (10.4%)
	2024-25 ^{Note 4}	12 961 (100%)	1 207 (9.3%)	1 045 (8.1%)
Single parents and child carers on CSSA with their youngest child aged 12 to 14 ^{Note 1}	2023-24	1 213 (100%)	243 (20.0%)	218 (18.0%)
	2024-25 ^{Note 4}	1 061 (100%)	193 (18.2%)	158 (14.9%)

Note 1 Unemployed able-bodied CSSA recipients aged 60 to 64 may receive EmSS on a voluntary basis.

Note 2 For unemployed able-bodied CSSA recipients aged 15 to 59, having secured employment refers to securing employment with monthly earnings no less than the prescribed level (\$2,665 per month with effect from 1 February 2025) and working hours no less than 120 hours per month. For single parents and child carers on CSSA with their youngest child aged 12 to 14, having secured employment refers to securing paid employment with working hours no less than 32 hours per month.

Note 3 Returning to mainstream education refers to CSSA recipients aged below 22 returning to full-time education.

Note 4 Up to the end of December 2024.

CONTROLLING OFFICER'S REPLY**LWB(W)318****(Question Serial No. 3592)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (2) Social SecurityControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

What were the respective numbers of Comprehensive Social Security Assistance (CSSA) cases involving ill-health and disabled adults aged 60 to 64 in the past 5 years?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 120)

Reply:

The number of CSSA cases involving households with disabled or ill-health recipients aged between 60 and 64 from 2020-21 to 2024-25 is tabulated as follows.

Year	Number of CSSA cases	
	Households with disabled recipients aged between 60 and 64 ^{Note}	Households with ill-health recipients aged between 60 and 64
2020-21	12 244	528
2021-22	12 313	623
2022-23	12 749	721
2023-24	12 887	732
2024-25 (as at end-December 2024)	12 878	695

^{Note} Disabled CSSA recipients refer to those receiving the standard rate for 50% disabled, 100% disabled or requiring constant attendance, but do not include 50% disabled recipients aged 65 or above, or 50% disabled recipients aged between 60 and 64 who were already receiving elderly CSSA before 1 February 2019.

LWB(W)322

(Question Serial No. 3596)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (2) Social Security

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Please provide the numbers of Comprehensive Social Security Assistance (CSSA) cases and recipients in the past 5 years, with a breakdown by age, case nature and duration of CSSA receipt (for less than 1 year, 1 year to less than 3 years, 3 years to less than 5 years, and 5 years or above).

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 124)

Reply:

From 2020-21 to 2024-25, the numbers of CSSA recipients who have been on CSSA for less than 1 year, 1 year to less than 3 years, 3 years to less than 5 years, and 5 years or above, broken down by age group and case nature, are set out in Tables 1 to 4 of Annex, respectively. The numbers of cases where CSSA has been received for less than 1 year, 1 year to less than 3 years, 3 years to less than 5 years, and 5 years or above, broken down by case nature, are set out in Tables 5 to 8 of Annex, respectively. As CSSA is payable on a household basis and the age groups of household members vary from case to case, statistics on the duration of CSSA receipt by cases cannot be broken down by age group.

Table 1 Number of CSSA recipients who have been on CSSA for less than 1 year from 2020-21 to 2024-25 by age group and case nature**(i) 2020-21**

CONTROLLING OFFICER'S REPLY

LWB(W)323

(Question Serial No. 3597)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (2) Social Security

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

What was the number of employable Comprehensive Social Security Assistance (CSSA) recipients in the past 5 years, with a breakdown by age group and educational attainment?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 125)

Reply:

The number of employable CSSA recipients from 2020-21 to 2024-25, broken down by age group and educational attainment, is set out at Annex.

Number of employable CSSA recipients ^{Note} from 2020-21 to 2024-25 by age group and educational attainment

Year	Age group	Educational attainment				
		Primary or below	Secondary	Post-secondary	Others	Total
2020-21	15 to 19	72	413	7	16	508
	20 to 29	240	1 220	302	57	1 819

CONTROLLING OFFICER'S REPLY**LWB(W)326****(Question Serial No. 3600)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (2) Social SecurityControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

What was the number of Comprehensive Social Security Assistance (CSSA) fraud and abuse cases (including suspected cases reported, established fraud cases and prosecuted cases) for each of the past 5 years?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 128)

Reply:

The Social Welfare Department (SWD) adopts a multifaceted approach to combat CSSA fraud. The number of fraud cases related to CSSA from 2020-21 to 2024-25 is tabulated below.

	2020-21	2021-22	2022-23	2023-24	2024-25 (up to end-December 2024)
Number of suspected cases reported by members of the public	1 685	1 143	1 968	2 322	1 523
Number of established fraud cases upon SWD's in-depth investigation (the percentage out of the total CSSA cases as at end-March of the year)	370 (0.2%)	323 (0.1%)	367 (0.2%)	589 (0.3%)	344 (0.2%)
Number of prosecuted cases	45	24	21	24	17

The above figures indicate that CSSA fraud is not common as a matter of fact. SWD will conduct in-depth investigation and take follow-up action on all suspected fraud cases, while referring more serious cases to law enforcement agencies for further investigation. SWD will require all persons concerned to repay the overpayments (if any) as soon as possible. Anyone who knowingly or wilfully provides false statements or withholds any information to obtain CSSA by deception commits an offence. Apart from being disqualified from CSSA, he/she may be prosecuted under the Theft Ordinance (Cap. 210), liable to a maximum penalty of 14 years of imprisonment upon conviction.

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (2) Social Security

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Please provide the respective numbers of cases of various types of social security, including the Old Age Living Allowance (OALA), the Higher OALA, the Disability Allowance (DA), and the Comprehensive Social Security Assistance (CSSA), with a breakdown by 18 districts.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 129)

Reply:

As at the end of December 2024, the numbers of OALA and DA cases, broken down by district, are set out in Table 1 of Annex, while the number of CSSA cases, broken down by district, is set out in Table 2 of Annex.

Table 1 Number of OALA cases (excluding those under the Guangdong Scheme and the Fujian Scheme) and DA cases as at end-December 2024 by district ^{Note 1}

District	OALA ^{Note 2}	DA
Central & Western	10 683	4 670
Eastern	51 282	14 815
Islands	14 030	3 891
Kowloon City	32 116	8 514
Kwai Tsing	70 965	13 456
Kwun Tong	90 689	16 006
North	34 704	8 750

CONTROLLING OFFICER'S REPLY

LWB(W)331

(Question Serial No. 3605)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (2) Social Security

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

What are the respective numbers of Comprehensive Social Security Assistance (CSSA) cases and recipients in each public housing estate, broken down by case nature (including old age, disability, ill health, single parent, low-earnings, unemployment, and others)?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 133)

Reply:

The numbers of CSSA cases and recipients as at the end of December 2024, broken down by public housing estate and case nature, are set out in Tables 1 and 2 of Annex, respectively.

Table 1 Number of CSSA cases as at end-December 2024 by public housing estate ^{Note}
and case nature

Programme: (2) Social Security

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Please provide the number of Comprehensive Social Security Assistance (CSSA) recipients by year of residence in Hong Kong (less than 1 year, 1 year to less than 7 years, and 7 years or more), as well as the number of CSSA cases involving families with members of varying lengths of residence in Hong Kong, broken down by the 18 districts.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 134)

Reply:

The Social Welfare Department (SWD) only maintains information on the year of residence in Hong Kong for non-Hong Kong-born CSSA recipients. As at the end of December 2024, the number of such CSSA recipients who had resided in Hong Kong for less than 1 year, 1 year to less than 7 years, and 7 years or more was 206, 7 620, and 130 867, respectively. SWD does not have the other information sought.

Question:

Regarding Comprehensive Social Security Assistance (CSSA) households receiving rent allowance in the past 5 years, please provide:

- i. the numbers of cases and recipients, and the median actual rent;
- ii. the number of CSSA cases with the actual rent not exceeding the maximum rent allowance (MRA);
- iii. the number of CSSA cases with the actual rent exceeding MRA, and the percentage of such cases out of all CSSA cases receiving rent allowance;
- iv. the median rent of CSSA cases with the actual rent not exceeding MRA; and
- v. the median rent of CSSA cases with the actual rent exceeding MRA.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 135)

Reply:

The numbers of CSSA cases receiving rent allowance in public housing estates or private housing, along with the number of recipients and their median actual rent from 2020-21 to 2024-25, are set out in Table 1 of Annex. The numbers of these cases with actual rent less than, equal to, or exceeding MRA, their respective percentages out of all CSSA cases receiving rent allowance, and their median actual rent are set out in Table 2 of Annex.

Table 1 Numbers of CSSA cases receiving rent allowance in public housing estates ^{Note 1} or private housing, along with the number of recipients and their median actual rent from 2020-21 to 2024-25 ^{Note 2}

Year	Number of CSSA cases receiving rent allowance	Number of CSSA recipients receiving rent allowance	Median actual rent (\$)

Question:

Regarding Comprehensive Social Security Assistance (CSSA) households receiving rent allowance in the past 5 years, please provide the following information, broken down by household size:

- i. the numbers of cases and recipients, and the median actual rent;
- ii. the number of CSSA cases with the actual rent not exceeding the maximum rent allowance (MRA);
- iii. the number of CSSA cases with the actual rent exceeding MRA, and the percentage of such cases out of all CSSA cases receiving rent allowance;
- iv. the median rent of CSSA cases with the actual rent not exceeding MRA; and
- v. the median rent of CSSA cases with the actual rent exceeding MRA.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 136)

Reply:

From 2020-21 to 2024-25, the number of CSSA cases receiving rent allowance in public housing estates and private housing and the median actual rents of these cases, broken down by number of eligible household members, are set out in Tables 1 and 2 of Annex, respectively. The number of cases with the actual rent less than, equal to or exceeding MRA, along with the percentage of these cases out of all cases receiving rent allowance, is set out in Table 3 of Annex. The median actual rents of cases with the actual rent less than, equal to or exceeding MRA are set out in Table 4 of Annex.

Some household members in individual CSSA cases may not be eligible for rent allowance. The Social Welfare Department maintains only the number of CSSA cases receiving rent allowance but not the number of recipients.

Question:

Regarding Comprehensive Social Security Assistance (CSSA) households residing in private and public housing and receiving rent allowance in the past 5 years, please provide the following information, broken down by household size:

- i. the numbers of cases and recipients, and the median actual rent;
- ii. the number of CSSA cases with the actual rent not exceeding the maximum rent allowance (MRA);
- iii. the number of CSSA cases with the actual rent exceeding MRA, and the percentage of such cases in its own type of housing (i.e. public/private housing);
- iv. the median rent of CSSA cases with the actual rent not exceeding MRA; and
- v. the median rent of CSSA cases with the actual rent exceeding MRA.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 137)

Reply:

From 2020-21 to 2024-25, the number of CSSA cases receiving rent allowance, and the median actual rents, broken down by number of eligible household members and type of housing, are set out in Tables 1 and 2 of Annex, respectively. The number of cases with the actual rent exceeding MRA, the percentage of these cases out of the number of cases receiving rent allowance in respective types of housing, and the median actual rents, are set out in Tables 3 and 4 of Annex, respectively. The number of cases with the actual rent less than or equal to MRA, the percentage of these cases out of the number of cases receiving rent allowance in respective types of housing, and the median actual rents, are set out in Tables 5 and 6 of Annex, respectively.

Some recipients in individual CSSA cases may not be eligible for rent allowance. The Social Welfare Department maintains only the number of CSSA cases receiving rent allowance but not the number of recipients.

CONTROLLING OFFICER'S REPLY

LWB(W)336

(Question Serial No. 3610)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (2) Social Security

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding Comprehensive Social Security Assistance (CSSA) households residing in private and public housing and receiving rent allowance in the past 5 years, please provide the following information, broken down by case nature:

- i. the numbers of cases and recipients, and the median actual rent;
- ii. the number of CSSA cases with the actual rent not exceeding the maximum rent allowance (MRA);
- iii. the number of CSSA cases with the actual rent exceeding MRA, and the percentage of such cases in its own type of housing (i.e. public/private housing);
- iv. the median rent of CSSA cases with the actual rent not exceeding MRA; and
- v. the median rent of CSSA cases with the actual rent exceeding MRA.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 138)

Reply:

From 2020-21 to 2024-25, the number of CSSA cases receiving rent allowance, broken down by case nature and type of housing, is set out in Tables 1 and 2 of Annex, respectively. The median actual rents of these cases are set out in Tables 3 and 4 of Annex, respectively.

Some recipients in individual CSSA cases may not be eligible for rent allowance. The Social Welfare Department (SWD) maintains only the number of CSSA cases receiving rent allowance but not the number of recipients. SWD also does not have a breakdown, by case nature or type of housing, of the number of CSSA cases receiving rent allowance with the actual rent less than, equal to or exceeding MRA, the percentage of these cases out of the number of cases receiving rent allowance in respective types of housing, or the median actual rent of these cases.

Table 1 Number of CSSA cases receiving rent allowance in public housing estates ^{Note} from 2020-21 to 2024-25 by case nature

CONTROLLING OFFICER'S REPLY**LWB(W)338****(Question Serial No. 3612)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (2) Social SecurityControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

Please provide the total number of Comprehensive Social Security Assistance (CSSA) cases in each of the 3 categories, namely “able-bodied/50% disabled”, “100% disabled” and “requiring constant attendance”, and the percentage of cases in each category out of all cases in the past 5 years.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 140)Reply:

The respective numbers of CSSA cases involving households with recipients who are 50% disabled, 100% disabled and requiring constant attendance from 2020-21 to 2024-25 are tabulated as follows. Since there may be overlaps among the different categories of cases mentioned above, the Social Welfare Department does not have the percentage of cases in each category in relation to the total number of cases.

Year	Number of CSSA cases		
	Households with recipients who are 50% disabled ^{Note}	Households with recipients who are 100% disabled	Households with recipients requiring constant attendance
2020-21	5 062	83 757	22 179
2021-22	5 047	82 849	21 128
2022-23	4 991	82 087	20 474
2023-24	4 722	81 758	21 160
2024-25 (as at end-December 2024)	4 501	81 763	22 154

^{Note} Disabled CSSA recipients refer to those receiving the standard rate for 50% disabled, 100% disabled or requiring constant attendance, but do not include 50% disabled recipients aged 65 or above, or 50% disabled recipients aged between 60 and 64 who were already receiving elderly CSSA before 1 February 2019.

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (2) Social Security

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Please provide the number of Comprehensive Social Security Assistance (CSSA) cases in the past 5 years by the following categories:

- i. Households with members aged 65 or above
- ii. Households with members aged 15 or below
- iii. Households with disabled members
- iv. Households with ill-health members
- v. Households with able-bodied adults
- vi. Households with members with full-time/long-term employment
- vii. Households with members with part-time/casual employment
- viii. Households with unemployed members
- ix. Households with members who have resided in Hong Kong for less than 7 years

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 141)

Reply:

From 2020-21 to 2024-25, the respective numbers of CSSA cases involving households with members aged below 15 or aged 65 or above are set out in Table 1 of Annex; the respective numbers of CSSA cases involving households with disabled, ill-health or able-bodied adult recipients are set out in Table 2 of Annex; and the number of CSSA cases involving households with recipients who have resided in Hong Kong for less than 7 years is set out in Table 3 of Annex.

The Social Welfare Department (SWD) does not maintain information on the employment status of household members for CSSA cases.

Table 1 Number of CSSA cases involving households with members aged below 15 or aged 65 or above from 2020-21 to 2024-25

Year	Number of CSSA cases	
	Households with members aged below 15	Households with members aged 65 or above
2020-21	31 727	116 996
2021-22	29 335	114 161
2022-23	26 701	110 238
2023-24	24 177	109 320
2024-25 (as at end-December 2024)	22 746	109 318

Table 2 Number of CSSA cases involving households with disabled, ill-health or able-bodied adult recipients from 2020-21 to 2024-25

Year	Number of CSSA cases		
	Households with disabled recipients Note	Households with ill-health recipients	Households with able-bodied adult recipients
2020-21	109 160	3 748	47 477
2021-22	107 149	3 507	44 491
2022-23	105 672	3 170	41 158
2023-24	105 748	2 854	37 728
2024-25 (as at end-December 2024)	106 521	2 607	35 356

Note Disabled CSSA recipients refer to those receiving the standard rate for 50% disabled, 100% disabled or being in need of constant attendance, excluding cases involving recipients aged 65 or above being 50% disabled, and cases involving recipients aged between 60 and 64 being 50% disabled who were receiving elderly CSSA before 1 February 2019.

Table 3 Number of CSSA cases involving households with recipients who have resided in Hong Kong for less than 7 years Note from 2020-21 to 2024-25

Year	Number of CSSA cases
2020-21	10 600
2021-22	9 331
2022-23	7 946
2023-24	6 278
2024-25 (as at end-December 2024)	5 567

Note SWD only maintains information on the year of residence in Hong Kong for non-Hong Kong born CSSA recipients.

- viii. Unemployed CSSA recipients
- ix. Members who have resided in Hong Kong for less than 7 years

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 142)

Reply:

From 2020-21 to 2024-25, the numbers of CSSA recipients aged below 15 and those aged 65 or above are set out in Table 1 of Annex; the numbers of CSSA recipients who are disabled, ill-health and able-bodied adults are set out in Table 2 of Annex; the number of CSSA recipients with a breakdown by full-time and part-time/casual employment is set out in Table 3 of Annex; the number of unemployed CSSA recipients is set out in Table 4 of Annex; and the number of CSSA recipients having resided in Hong Kong for less than 7 years is set out in Table 5 of Annex.

Table 1 Number of CSSA recipients aged below 15 and those aged 65 or above from 2020-21 to 2024-25

Year	Aged below 15	Aged 65 or above
2020-21	47 507	131 425
2021-22	43 751	127 782
2022-23	39 910	122 883
2023-24	36 301	121 218
2024-25 (as at end-December 2024)	34 198	120 771

Table 2 Number of CSSA recipients who are disabled, ill-health and able-bodied adults from 2020-21 to 2024-25

Year	Disabled ^{Note}	Ill-health	Able-bodied adults
2020-21	116 786	3 780	53 972
2021-22	114 932	3 533	50 108
2022-23	113 669	3 195	46 093
2023-24	113 956	2 876	41 967
2024-25 (as at end-December 2024)	114 914	2 621	39 341

^{Note} Disabled CSSA recipients refer to those receiving the standard rate for 50% disabled, 100% disabled or being in need of constant attendance, but do not include recipients aged 65 or above who are 50% disabled, as well as recipients aged between 60 and 64 who have received elderly CSSA before 1 February 2019 while being 50% disabled.

Table 3 Number of CSSA recipients with a breakdown by full-time and part-time/casual employment from 2020-21 to 2024-25

Year	Full-time employment ^{Note 1}	Part-time/casual employment ^{Note 2}
2020-21	3 340	9 313
2021-22	3 145	9 096
2022-23	2 733	8 967
2023-24	2 361	9 125
2024-25 (as at end-December 2024)	2 174	9 010

^{Note 1} CSSA recipients with full-time employment refer to those with working hours no less than 120 hours per month.

^{Note 2} CSSA recipients with part-time/casual employment refer to those with working hours less than 120 hours per month.

Table 4 Number of unemployed CSSA recipients from 2020-21 to 2024-25

Year	Number of unemployed CSSA recipients ^{Note}
2020-21	21 677
2021-22	20 023
2022-23	18 726
2023-24	17 295
2024-25 (as at end-December 2024)	16 492

^{Note} Unemployed CSSA recipients aged 15 to 59 refer to recipients who are unemployed, those with monthly employment earnings below the “prescribed level”, or those with working hours less than 120 hours per month. The “prescribed level” was \$2,395, \$2,455 and \$2,545 from 2020-21 to 2022-23 respectively, while the “prescribed level” in 2023-24 and 2024-25 (as at the end of December 2024) was \$2,630. Unemployed CSSA recipients aged 60 to 64 refer to recipients who are unemployed, or those engaged in paid employment with working hours less than 60 hours per month.

Table 5 Number of CSSA recipients having resided in Hong Kong for less than 7 years ^{Note} from 2020-21 to 2024-25

Year	Number of CSSA recipients having resided in Hong Kong for less than 7 years
2020-21	14 905
2021-22	12 964
2022-23	11 074
2023-24	8 786
2024-25 (as at end-December 2024)	7 826

^{Note} The Social Welfare Department only maintains information on the year of residence in Hong Kong for non-Hong Kong born CSSA recipients.

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Please provide the number of Comprehensive Social Security Assistance (CSSA) recipients over the past 5 years by the following categories, with a breakdown by the 18 districts in Hong Kong:

- i. CSSA recipients aged 65 or above
- ii. CSSA recipients aged 15 or below
- iii. Disabled persons
- iv. Ill-health persons
- v. Able-bodied adults
- vi. CSSA recipients with full-time/long-term employment
- vii. CSSA recipients with part-time/casual employment
- viii. Unemployed CSSA recipients

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 143)

Reply:

From 2020-21 to 2024-25, the number of CSSA recipients aged 65 or above, broken down by district, is set out in Table 1 of Annex; the number of CSSA recipients aged below 15 is set out in Table 2 of Annex; the number of disabled CSSA recipients is set out in Table 3 of Annex; the number of ill-health CSSA recipients is set out in Table 4 of Annex; the number of able-bodied adult CSSA recipients is set out in Table 5 of Annex; and the number of unemployed CSSA recipients is set out in Table 6 of Annex.

The Social Welfare Department does not have a breakdown of the number of CSSA recipients with full-time or part-time/casual employment by district.

LWB(W)342

(Question Serial No. 3616)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (2) Social Security

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Please provide the number and percentage of Comprehensive Social Security Assistance (CSSA) households residing in private rental housing (i.e. non-public housing units) and receiving CSSA rent allowance, while being eligible for the Subsidy for CSSA Recipients Living in Rented Private Housing implemented by the Community Care Fund (CCF), with actual rent exceeding the maximum rent allowance (MRA) by \$0 to \$300, \$301 to \$600, and \$601 or above.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 144)

Reply:

CCF launched an assistance programme to provide a subsidy to CSSA households residing in private rental housing and paying rent that exceeds MRA under the CSSA Scheme. The monthly subsidy is either 50% of the portion of the eligible CSSA household's rental amount exceeding the applicable MRA or 15% of the applicable MRA, whichever is less. The assistance programme ended on 30 April 2021. The number of CSSA cases where the recipients were eligible for the CCF subsidy and were receiving CSSA rent allowance, with actual rent exceeding the total subsidy amount ^{Note} in 2020-21, broken down by number of eligible household members, along with the percentage of these cases out of the number of cases where the recipients were residing in private rental housing and receiving CSSA rent allowance, is set out at Annex.

^{Note} Total subsidy amount refers to the sum of MRA corresponding to the number of eligible household members under the CSSA Scheme and the average monthly subsidy provided by CCF for cases of the same category.

Number of CSSA cases where the recipients were eligible for the CCF subsidy, with actual rent exceeding the total subsidy amount ^{Note} in 2020-21, broken down by number of eligible household members, and the percentage of these cases out of the number of cases where the recipients were residing in private rental housing and receiving CSSA rent allowance

CONTROLLING OFFICER'S REPLY

LWB(W)345

(Question Serial No. 3619)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: Not Specified

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Labour and Welfare Bureau announced in 2021 that the Task Force appointed by the Secretary for Labour and Welfare had completed the review on the Lump Sum Grant Subvention System (LSGSS) and released its Review Report. The Task Force considered that the LSGSS, including the prevailing method of calculating subvention to non-governmental organisations (NGOs), should be retained, and made 30 recommendations under 5 domains to enhance the system. Regarding the recommendations:

1. Has any funding been earmarked for implementing the recommendations in the 5 domains? If so, how much has been earmarked, and what are the details?
2. How much funding per year has the Government provided to NGOs in the form of Lump Sum Grant (LSG) in the past 10 years?
3. At present, how many social workers are being paid less than the mid-point salaries of the pay system of the social welfare sector, and what percentage do they represent of all contract social workers?
4. For the following 17 types of services, please provide the notional subvented staffing establishment set by the Social Welfare Department (SWD), the actual staffing establishment of the NGOs, and the salary expenditure projected with reference to relevant civil service pay scales in the past 5 years

Notional subvented staffing establishment set by SWD

Actual subvented staffing establishment of the NGOs

Notional and actual salary expenditure calculated with reference to starting-point salaries

Notional and actual salary expenditure calculated with reference to mid-point salaries

Notional and actual salary expenditure calculated with reference to maximum-point salaries

1. Hostel for moderately mentally handicapped persons (HMMH)
2. Small group home (SGH)

3. Neighbourhood elderly centre (NEC)
 4. Hostel for severely mentally handicapped persons (HSMH)
 5. Care-and-attention home for the elderly (C&A)
 6. Integrated children and youth services centre (ICYSC)
 7. Integrated family service centre (IFSC)
 8. Integrated community centre for mental wellness (ICCMW)
 9. Special child care centre (SCCC)
 10. Early education and training centre (EETC)
 11. Day care centre for the elderly (DE)
 12. Home care service for persons with severe disabilities (HCS)
 13. Integrated vocational rehabilitation services centre (IVRSC)
 14. Day activity centre (DAC)
 15. Foster care (FC)
 16. District youth outreaching social work team (DYOT)
 17. District elderly community centre (DECC)
5. Some NGOs have established their own salary structures and pay scales for employees, resulting in a situation of “unequal pay for equal work”. Furthermore, when employees switch jobs or start a new position, their seniority may not always be fully recognised. Will the Government consider stepping up its review of the subvention benchmark at mid-point salaries so as to align the salaries of NGO employees with the salary structures and pay scales of the Government?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 147)

Reply:

1. The review on the enhancement of the LSGSS was completed in July 2021. The Review Report made 30 recommendations under 5 domains, namely (1) quality of welfare services; (2) staffing establishment, subvention benchmark and human resource management matters; (3) financial planning; (4) relevance of utilising LSG subvention; and (5) accountability and corporate governance of NGOs. SWD has been implementing the recommendations from 2022-23 onwards. For recommendations that involve additional financial resources, SWD will seek the required resources in accordance with the established procedures where the financial conditions of the Government permit.
2. The amount of LSG allocated by SWD to NGOs operating subvented services under the LSGSS in each of the past 5 years is tabulated below:

Year	Amount of LSG (\$ billion)
2020-21 (Actual)	18.541
2021-22 (Actual)	19.603
2022-23 (Actual)	20.050
2023-24 (Actual)	21.953
2024-25 (Revised estimate)	23.710

3. & 4. The LSGSS focuses on the effectiveness of service delivery and hence allows NGOs greater flexibility and efficiency in utilising public funds and providing quality services. It also helps simplify administrative work and enhance the quality of service substantively. Subject to their compliance with the requirements of the Funding and Service Agreements and the relevant statutory staffing requirements, NGOs may determine their staffing establishment in accordance with their human resource policies, and flexibly deploy resources and employ staff to achieve the service outputs and outcomes required. SWD does not have information on the actual staffing establishments of NGOs or their staff remuneration. For staffing establishment of individual service areas, please refer to SWD's website (<https://www.swd.gov.hk/en/ngo/subventions/suballoc/subvention/>).
5. Under the LSGSS, the subvention benchmark at mid-point salaries is adopted by SWD to calculate individual NGOs' funding. It is not intended to prescribe NGOs' pay practices. The existing arrangement aims to allow NGOs to exercise the flexibility to deploy resources and employ staff, and, in line with their human resource management and service development strategies, respond to service needs swiftly and provide welfare services efficiently.

Director of Bureau: Secretary for Labour and Welfare

Question:

Despite operating under fiscal deficits, the Government has historically provided additional allowances to recipients of the Comprehensive Social Security Assistance (CSSA), the Old Age Living Allowance (OALA), the Old Age Allowance (OAA), and the Disability Allowance (DA) in past Budgets. However, last year, these recipients received only half the standard rate of the additional allowance. Does this indicate that there will be no additional allowances or a further reduction in the amount in this year's Budget?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 183)

Reply:

The Financial Secretary announced in the 2025-26 Budget that an extra allowance equal to one half of the monthly payment or allowance would be provided to eligible recipients of social security payments, including recipients of CSSA standard rate, OAA, OALA, and DA.

(Question Serial No. 3658)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Please provide the number of dementia patients, broken down by district, as well as the number of those receiving community services such as residential care homes for the elderly (RCHEs), hospital care, home care services, etc., in the past 5 years.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 186)

Reply:

The number of dementia patients receiving treatment in each hospital cluster under the Hospital Authority (HA) in the past 5 years is set out at Annex 1.

The Government has regularised the Dementia Community Support Scheme (DCSS) since February 2019, extending its services to all 7 HA clusters and all the 41 district elderly community centres across the territory to provide cross-sectoral and multi-disciplinary support services for elderly persons with mild or moderate dementia and their carers in the community. From April 2020 to the end of 2024, DCSS has cumulatively served more than 8 600 elderly persons. In addition, 214 elderly centres subvented by the Social Welfare Department (SWD) across the territory also provide a wide range of community support services to elderly persons and their carers.

SWD provides support for frail elderly persons (including those with dementia) through RCHEs, day care centres/units for the elderly (DEs/DCUs), home care services teams, the Community Care Service Voucher (CCSV) Scheme for the Elderly (CCSV Scheme) and the Residential Care Service Voucher (RCSV) Scheme for the Elderly. In addition, SWD disburses a Dementia Supplement to about 290 subvented RCHEs and private RCHEs participating in the Enhanced Bought Place Scheme to provide additional support to dementia patients. SWD also provides special supplement to RCSV users (including dementia patients) living in care-and-attention homes based on their care needs. Moreover, subvented community care service (CCS) units for the elderly and recognised service providers (RSPs) under the CCSV Scheme provide services such as reminiscence therapy, reality orientation and cognitive training etc. for elderly patients with dementia, while RSPs specialising in serving elderly persons with dementia concentrate their resources on designing service content tailored to the needs of patients. From 2020-21 to 2024-25 (as at the end of December 2024), the number of persons who received dementia services provided by subvented CCS units is set out at Annex 2.

**Number of dementia patients^{Note 1} receiving treatment
in each hospital cluster under the HA**

Year	Hospital cluster							HA overall Note 2
	HKEC	HKWC	KCC	KEC	KWC	NTEC	NTWC	
2020	11 200	7 700	18 700	12 700	20 100	15 300	9 900	79 400
2021	11 800	8 300	19 600	13 500	21 100	15 900	10 400	82 200
2022	12 200	8 800	19 900	14 000	24 200	16 400	11 100	84 100
2023	12 200	9 000	20 200	14 300	22 500	16 700	10 500	83 900
2024 ^{Note 3}	12 300	9 300	20 600	14 500	22 400	17 100	10 700	85 500

Note 1 Figures are rounded to the nearest hundred.

Note 2 The figures for each hospital cluster may not add up to the total as patients may be treated in more than one hospital cluster.

Note 3 The figures represent a full-year projection.

CONTROLLING OFFICER'S REPLY

LWB(W)348

(Question Serial No. 3659)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Please provide a breakdown of the social welfare and medical expenses allocated for dementia patients in the past 5 years by category.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 187)

Reply:

The Social Welfare Department (SWD) provides support to elderly persons in need (including those with dementia) and their carers by subsidising residential care homes for the elderly, day care centres/units for the elderly (DEs/DCUs), home care service teams, elderly centres, Community Care Service Voucher (CCSV) Scheme for the Elderly, and the Residential Care Service Voucher (RCSV) Scheme for the Elderly, etc. The key measures and related expenditures are as follows:

Since February 2019, the Government has regularised the Dementia Community Support Scheme, which now covers 7 Hospital Authority (HA) clusters and all 41 district elderly community centres (DECCs) across the territory. The Scheme provides cross-sectoral and multi-disciplinary support services to elderly persons with mild or moderate dementia living in the community, as well as their carers. The Scheme is expected to serve over 2 000 elderly persons each year. To this end, SWD has allocated an additional annual provision of approximately \$84 million to DECCs to enhance support for elderly persons with dementia;

Since October 2018, SWD has allocated additional resources to all neighbourhood elderly centres (NECs) across Hong Kong to recruit more staff, in order to facilitate the early identification of elderly persons suspected of having dementia, while also enhancing public education and strengthening support services for dementia patients living in the community and their carers. At the same time, SWD has provided additional resources to all DEs/DCUs and home care service teams to recruit more staff, with a view to improving care for dementia patients, as well as strengthening support for their carers. The additional annual provision amounts to approximately \$104 million for NECs and \$57 million for day care and home care services, respectively;

SWD provides Dementia Supplement to subsidised residential care homes for the elderly (RCHEs). RCHEs receiving the supplement can use it to recruit additional professionals, such as occupational therapists, nurses, and social workers, or to procure related professional

services. Prior to 2024-25, SWD disbursed approximately \$380 million in Dementia Supplement each year. Since 2024-25, the Government has incorporated the Dementia Supplement for subvented care and attention homes into the Lump Sum Grant. As a result, SWD does not have the relevant expenditure figures;

The RCSV Scheme involves an annual expenditure of approximately \$1.71 billion, which includes the provision of Special Supplement to meet the care needs of voucher users residing in nursing home places (including those with dementia); and

The CCSV Scheme involves an annual expenditure of approximately \$900 million. Services under the CCSV Scheme include reminiscence therapy, reality orientation, and cognitive training for elderly persons with dementia. Recognised service providers specialising in dementia care for the elderly also focus their resources on designing services tailored to the needs of dementia patients.

Regarding medical services, dementia patients commonly suffer from multiple chronic diseases (for example, hypertension, diabetes mellitus, cardiovascular diseases), as well as physical deterioration (for example, memory loss, falls and continence). To flexibly utilise resources, HA will refer patients to different specialist out-patient clinics under HA, including medicine, geriatrics, psychogeriatrics and memory clinics, according to their needs, allowing patients to receive joint consultation and treatment. As dementia patients often require services from different specialist out-patient clinics, the health expenditure arising from the provision of treatment and care services to dementia patients cannot be separately quantified.

The table below sets out the expenditure of HA on providing medical services to patients aged 65 or above from 2020-21 to 2024-25.

	2020-21 (Actual) (\$ million)	2021-22 (Actual) (\$ million)	2022-23 (Actual) (\$ million)	2023-24 (Actual) (\$ million)	2024-25 (Revised estimate) (\$ million)
Expenditure of HA on providing medical services to patients aged 65 or above	40,082.2	42,734.2	47,298.5	49,955.9	52,329.9

CONTROLLING OFFICER'S REPLY**LWB(W)349****(Question Serial No. 3678)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (2) Social SecurityControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

Regarding the Comprehensive Social Security Assistance (CSSA) Scheme, please provide the following information for the past 3 years, with a breakdown by District Council (DC) district:

- 1) the number of CSSA cases where the households concerned are residing in private rental housing with the actual rent exceeding the maximum rent allowance (MRA):

District	1-person household	2-person household	3-person household	4-person household	5-person household	Household with 6 persons or above
Central & Western						
Wan Chai						
Eastern						
Southern						
Sham Shui Po						
Yau Tsim Mong						
Kowloon City						
Wong Tai Sin						
Kwun Tong						
Kwai Tsing						
Tsuen Wan						
Tuen Mun						
Yuen Long						
North						
Tai Po						
Sha Tin						
Sai Kung						
Islands						

- 2) the number of CSSA cases where the households concerned are residing in public rental housing with the actual rent exceeding MRA:

District	1-person household	2-person household	3-person household	4-person household	5-person household	Household with 6 persons or above
Central & Western						
Wan Chai						
Eastern						
Southern						
Sham Shui Po						
Yau Tsim Mong						
Kowloon City						
Wong Tai Sin						
Kwun Tong						
Kwai Tsing						
Tsuen Wan						
Tuen Mun						
Yuen Long						
North						
Tai Po						
Sha Tin						
Sai Kung						
Islands						

- 3) the number of CSSA cases benefited from the provision of “disregarded earnings” (DE):

District	1-person household	2-person household	3-person household	4-person household	5-person household	Household with 6 persons or above
Central & Western						
Wan Chai						
Eastern						
Southern						
Sham Shui Po						
Yau Tsim Mong						
Kowloon City						
Wong Tai Sin						
Kwun Tong						
Kwai Tsing						
Tsuen Wan						
Tuen Mun						
Yuen Long						
North						
Tai Po						
Sha Tin						
Sai Kung						
Islands						

4) the amount of DE for CSSA cases benefited from the DE arrangement:

District	1-person household	2-person household	3-person household	4-person household	5-person household	Household with 6 persons or above
Central & Western						
Wan Chai						
Eastern						
Southern						
Sham Shui Po						
Yau Tsim Mong						
Kowloon City						
Wong Tai Sin						
Kwun Tong						
Kwai Tsing						
Tsuen Wan						
Tuen Mun						
Yuen Long						
North						
Tai Po						
Sha Tin						
Sai Kung						
Islands						

5) the number of CSSA recipients categorised under the case nature of “permanent disability”:

District	Aged 18 or below	Aged 19-29	Aged 30-39	Aged 40-49	Aged 50-59	Aged 60-64	Aged 65 or above
Central & Western							
Wan Chai							
Eastern							
Southern							
Sham Shui Po							
Yau Tsim Mong							
Kowloon City							
Wong Tai Sin							
Kwun Tong							
Kwai Tsing							
Tsuen Wan							
Tuen Mun							
Yuen Long							
North							
Tai Po							
Sha Tin							
Sai Kung							
Islands							

6) the number of CSSA recipients categorised under the case nature of “ill health”:

District	Aged 18 or below	Aged 19-29	Aged 30-39	Aged 40-49	Aged 50-59	Aged 60-64	Aged 65 or above
Central & Western							
Wan Chai							
Eastern							
Southern							
Sham Shui Po							
Yau Tsim Mong							
Kowloon City							
Wong Tai Sin							
Kwun Tong							
Kwai Tsing							
Tsuen Wan							
Tuen Mun							
Yuen Long							
North							
Tai Po							
Sha Tin							
Sai Kung							
Islands							

7) the number of CSSA recipients categorised under the case nature of “single parent”:

District	Aged 18 or below	Aged 19-29	Aged 30-39	Aged 40-49	Aged 50-59	Aged 60-64	Aged 65 or above
Central & Western							
Wan Chai							
Eastern							
Southern							
Sham Shui Po							
Yau Tsim Mong							
Kowloon City							
Wong Tai Sin							
Kwun Tong							
Kwai Tsing							
Tsuen Wan							
Tuen Mun							
Yuen Long							
North							
Tai Po							
Sha Tin							
Sai Kung							
Islands							

8) the number of CSSA recipients categorised under the case nature of “low-earnings”:

District	Aged 18 or below	Aged 19-29	Aged 30-39	Aged 40-49	Aged 50-59	Aged 60-64	Aged 65 or above
Central & Western							
Wan Chai							
Eastern							
Southern							
Sham Shui Po							
Yau Tsim Mong							
Kowloon City							
Wong Tai Sin							
Kwun Tong							
Kwai Tsing							
Tsuen Wan							
Tuen Mun							
Yuen Long							
North							
Tai Po							
Sha Tin							
Sai Kung							
Islands							

9) the number of CSSA recipients categorised under the case nature of “unemployment”:

District	Aged 18 or below	Aged 19-29	Aged 30-39	Aged 40-49	Aged 50-59	Aged 60-64	Aged 65 or above
Central & Western							
Wan Chai							
Eastern							
Southern							
Sham Shui Po							
Yau Tsim Mong							
Kowloon City							
Wong Tai Sin							
Kwun Tong							
Kwai Tsing							
Tsuen Wan							
Tuen Mun							
Yuen Long							
North							
Tai Po							
Sha Tin							
Sai Kung							
Islands							

10) the number of CSSA recipients categorised under the case nature of “others”:

District	Aged 18 or below	Aged 19-29	Aged 30-39	Aged 40-49	Aged 50-59	Aged 60-64	Aged 65 or above
Central & Western							
Wan Chai							
Eastern							
Southern							
Sham Shui Po							
Yau Tsim Mong							
Kowloon City							
Wong Tai Sin							
Kwun Tong							
Kwai Tsing							
Tsuen Wan							
Tuen Mun							
Yuen Long							
North							
Tai Po							
Sha Tin							
Sai Kung							
Islands							

11) the number of CSSA recipients residing in subsidised residential care services (RCS) places:

District	Aged below 3	Aged 3-5	Aged 6-11	Aged 12-15	Aged 16-18	Aged 19-20	Aged 21-29	Aged 30-39	Aged 40-49	Aged 50-59	Aged 60-64	Aged 65 or above
Central & Western												
Wan Chai												
Eastern												
Southern												
Sham Shui Po												
Yau Tsim Mong												
Kowloon City												
Wong Tai Sin												
Kwun Tong												
Kwai Tsing												
Tsuen Wan												
Tuen Mun												
Yuen Long												
North												
Tai Po												
Sha Tin												
Sai Kung												
Islands												

- 12) the number of CSSA recipients residing in non-subsidised RCS places:

District	Aged below 3	Aged 3-5	Aged 6-11	Aged 12-15	Aged 16-18	Aged 19-20	Aged 21-29	Aged 30-39	Aged 40-49	Aged 50-59	Aged 60-64	Aged 65 or above
Central & Western												
Wan Chai												
Eastern												
Southern												
Sham Shui Po												
Yau Tsim Mong												
Kowloon City												
Wong Tai Sin												
Kwun Tong												
Kwai Tsing												
Tsuen Wan												
Tuen Mun												
Yuen Long												
North												
Tai Po												
Sha Tin												
Sai Kung												
Islands												

- 13) the number of recipients under the Portable Comprehensive Social Security Assistance (PCSSA) Scheme in Guangdong (GD) Province:

Aged 60-64	Aged 65-74	Aged 75 or above

- 14) the number of recipients under the PCSSA Scheme in Fujian (FJ) Province:

Aged 60-64	Aged 65-74	Aged 75 or above

- 15) a list of dental clinics designated by the Social Welfare Department (SWD) under the current CSSA system.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 206)

Reply:

- 1) & 2) The number of CSSA cases where the recipients are receiving rent allowance with the actual rent exceeding MRA from 2022-23 to 2024-25, broken down by number of eligible household members and type of housing, is set out in Tables 1 and 2 of Annex. SWD does not have information on the number of cases by district.
- 3) The number of CSSA cases benefited from the provision of DE from 2022-23 to 2024-25 is set out in Table 3 of Annex. SWD does not have information on the number of cases by district and number of eligible household members.
- 4) The average monthly DE of each CSSA recipient benefited from the DE arrangement from 2022-23 to 2024-25 is set out in Table 4 of Annex. SWD does not have information on the average monthly DE by district and number of eligible household members.
- 5) to 10) The number of CSSA recipients from 2022-23 to 2024-25, broken down by district and case nature, is set out in Table 5 of Annex. SWD does not have information on the number of CSSA recipients by age group.
- 11) to 12) The number of CSSA recipients residing in residential care homes (RCHs) from 2022-23 to 2024-25, broken down by age group and type of residential care places (RCPs), is set out in Table 6 of Annex. SWD does not have information on the number of CSSA recipients by district and the requested age group.
- 13) to 14) The number of PCSSA recipients from 2022-23 to 2024-25, broken down by province of residence and age group, is set out in Table 7 of Annex.
- 15) The CSSA Scheme provides a dental grant for its recipients to pay for dental treatment services (including scaling and polishing, fillings, tooth extraction, crown, bridge, post, post and core, root canal treatment, and denture). Eligible CSSA recipients may approach the 80 dental clinics (including 2 mobile dental vans) designated by SWD for dental examination. The dentists of the dental clinics will make recommendation on necessary dental treatments. CSSA recipients may then choose to receive relevant dental treatments from any registered dentists in Hong Kong, including those of the SWD designated dental clinics, according to the cost estimate made by the designated dental clinic. The amount of the dental grant payable is the cost estimated by the designated clinic, or the actual cost charged by the clinic, or the ceiling amount of the dental treatment item set by SWD, whichever is less. A list of the dental clinics designated by SWD to provide dental examination and cost estimate for CSSA recipients as at the end of December 2024 is set out in Table 8 of Annex.

Table 1 Number of CSSA cases where the recipients are residing in private rental housing with the actual rent exceeding MRA from 2022-23 to 2024-25 by number of eligible household members

Number of eligible household members	2022-23	2023-24	2024-25 (as at end-December 2024)

CONTROLLING OFFICER'S REPLY**LWB(W)350****(Question Serial No. 3679)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (2) Social SecurityControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

Regarding the Social Security Allowance Scheme, please provide the following information for the past 3 years, with a breakdown by District Council (DC) district:

1) the number of Old Age Allowance (OAA) applicants:

	Aged 70 to 75	Aged 76 to 80	Aged 81 or above
Central & Western			
Wan Chai			
Eastern			
Southern			
Sham Shui Po			
Yau Tsim Mong			
Kowloon City			
Wong Tai Sin			
Kwun Tong			
Kwai Tsing			
Tsuen Wan			
Tuen Mun			
Yuen Long			
North			
Tai Po			
Sha Tin			
Sai Kung			
Islands			

2) the number of Old Age Living Allowance (OALA) applicants:

	Aged 65 to 70	Aged 70 to 75	Aged 76 to 80	Aged 81 or above
Central & Western				
Wan Chai				
Eastern				
Southern				
Sham Shui Po				
Yau Tsim Mong				
Kowloon City				
Wong Tai Sin				
Kwun Tong				
Kwai Tsing				
Tsuen Wan				
Tuen Mun				
Yuen Long				
North				
Tai Po				
Sha Tin				
Sai Kung				
Islands				

3) the number of OAA applicants under the Guangdong Scheme (GD Scheme):

Aged 70 to 75	Aged 76 to 80	Aged 81 or above

4) the number of OALA applicants under the GD Scheme:

Aged 65 to 70	Aged 70 to 75	Aged 76 to 80	Aged 81 or above

5) the number of OAA applicants under the Fujian Scheme (FJ Scheme):

Aged 70 to 75	Aged 76 to 80	Aged 81 or above

6) the number of OALA applicants under the FJ Scheme:

Aged 65 to 70	Aged 70 to 75	Aged 76 to 80	Aged 81 or above

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 207)

Reply:

From 2022-23 to 2024-25, the numbers of OAA and OALA recipients (excluding those under the GD Scheme and the FJ Scheme), broken down by age group and district, are set out in Tables 1 and 2 of Annex, respectively; while the numbers of OAA and OALA recipients under the GD Scheme and the FJ Scheme, broken down by age group, are set out in Tables 3 and 4 of Annex, respectively.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 208)

Reply:

- 1) & 2) The numbers of NDA and HDA recipients aged below 65 from 2022-23 to 2024-25, broken down by district, are set out in Table 1 of Annex. The Social Welfare Department does not have the requested information on the number of recipients broken down by age group.
- 3) to 5) The Special Care Subsidy Scheme for Persons with Severe Disabilities (Subsidy Scheme) has been incorporated into the Government's regular assistance programme in October 2023. The subsidy is granted at full rate, 3/4 rate or half rate. A total of 3 379 and 3 538 persons have received the subsidy under the Subsidy Scheme in 2023-24 and 2024-25 respectively. The breakdowns on numbers of recipients of full-rate, 3/4-rate and half-rate subsidy by district are set out in Tables 2 to 7 of Annex respectively.

- 3) the reasons for carers to leave the Scheme for Carers of PWDs in the past and the number of cases involved.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 209)

Reply:

- 1) & 2) The Scheme for Carers of PWDs was incorporated into the Government's regular assistance programme in October 2023. At present, all cases have been receiving the allowance continuously for less than 2 years. In 2023-24 and 2024-25, 3 213 and 3 697 carers respectively were granted the allowance under the Scheme for Carers of PWDs. Breakdown on the number of carers with the allowance granted by district and age is set out in Tables 1 and 2 of Annex 1.
- 3) The number of persons who withdrew from the Scheme for Carers of PWDs and the reasons for their withdrawal are set out at Annex 2.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 210)

Reply:

- 1) The Scheme for Carers of Elderly Persons was made a permanent measure by the Government in October 2023. The respective numbers of carers granted the allowance in 2023-24 and 2024-25 (as at the end of December 2024) are set out at Annex.
- 2) Currently, all cases under the Scheme for Carers of Elderly Persons have been receiving the allowance continuously for less than 2 years.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 212)

Reply:

1. & 4. The number of various types of subsidised RCS places from 2022-23 to 2024-25, broken down by DC district, is set out at Annexes 1 to 3. The average waiting time for various types of subsidised RCS for the elderly and number of elderly persons waitlisted for the services, broken down by gender and age group, are set out at Annexes 4 and 5, respectively.

Since elderly persons waitlisted for subsidised RCS are not required to update their personal particulars such as their address, with the Social Welfare Department (SWD), SWD has not conducted any statistical analysis on their district of residence.

The number of applicants on the central waiting list for subsidised RCS with an application status of “inactive cases” from 2022-23 to 2024-25 is as follows:

2022-23	2023-24	2024-25 (as at end-December 2024)
31 600	33 719	36 375

^{Note} Prior to SWD updating the Standardised Care Need Assessment Mechanism for Elderly Services (SCNAMES) in July 2021, only applicants who were using subsidised community care services (CCS) could have their status of subsidised RCS application changed to “inactive cases”. After SWD updated SCNAMES, those who are waiting for subsidised RCS for the elderly may have their status of subsidised RCS application changed to “inactive cases”, irrespective of whether they are waiting for, using or have already withdrawn from subsidised CCS.

2. The average monthly cost per place, monthly fees and charges, and total expenditure on various types of subsidised RCS for the elderly from 2022-23 to 2024-25 are set out at Annexes 6 to 9.

3. The numbers and percentages of elderly persons who passed away or withdrew their applications while waiting for subsidised C&A places are as follows:

	2022	2023	2024
No. of elderly persons who passed away	4 752	3 089	2 968
Percentage of elderly persons who passed away out of the no. of waitlisted applicants	13.0%	9.2%	9.0%
No. of elderly persons who withdrew their applications	2 148	1 841	1 664
Percentage of elderly persons who withdrew their applications out of the no. of waitlisted applicants	5.9%	5.5%	5.0%

The numbers and percentages of elderly persons who passed away or withdrew their applications while waiting for subsidised NH places are set out as follows:

	2022	2023	2024
No. of elderly persons who passed away	1 863	1 299	1 024
Percentage of elderly persons who passed away out of the no. of waitlisted applicants	23.1%	18.8%	17.2%
No. of elderly persons who withdrew their applications	576	479	417
Percentage of elderly persons who withdrew their applications out of the no. of waitlisted applicants	7.1%	6.9%	7.0%

SWD has not conducted any statistical analysis on the age distribution of elderly persons who passed away or withdrew their applications while waiting for subsidised residential care places.

5. The number of users of various subsidised RCS for the elderly from 2022-23 to 2024-25 is set out at Annex 10. SWD does not have information on the number of elderly persons using subsidised RCS for the elderly broken down by gender, age and DC district.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 213)

Reply:

HSMI was launched on a pilot basis in December 2017 with funding from CCF and was made a regular measure in January 2023. Subsequently, the Social Welfare Department (SWD) merged HSMI and IHCS(OC) into Home Support Services (HSS) in October 2024 for better utilisation of resources.

1. to 4. By the completion of the Pilot Scheme at the end of December 2022, a cumulative total of 7 747 elderly persons had undergone simplified assessments. Among them, 6 135 were assessed with mild impairment, deemed eligible for HSMI by CCF, and referred to service units for follow-up. 229 were assessed with no impairment, while 177 were assessed that their physical function might require a higher level of care and were referred for further assessment. Another 86 did not meet the stipulated eligibility criteria. SWD does not have the number of eligible persons who declined to use the services.
5. The requested information is set out at Annex 1.
6. As at the end of December 2024, SWD trained a total of 767 accredited assessors.
7. The total expenditure of the Pilot Scheme amounted to about \$250 million.
8. The requested information is set out at Annexes 2 and 3.

Number of persons who left the Pilot Scheme on HSMI ^{Note 1}

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the Pilot Scheme on Community Care Service Voucher (CCSV) for the Elderly (Pilot Scheme on CCSV), the Pilot Scheme on Home Care and Support for Elderly Persons with Mild Impairment (Pilot Scheme on HSMI) and the Pilot Scheme on Residential Care Service Voucher (RCSV) for the Elderly (Pilot Scheme on RCSV), please inform this Committee of the following:

1. the number of recognised service providers (RSPs), the number of service places, the number of current voucher users, the number of persons who left, as well as the expenditure involved since the launch of the 3 pilot schemes;
2. the average time it takes for elderly persons to receive services from the date they apply for the 3 pilot schemes;
3. the average time it takes for elderly persons to receive services from the date their applications for the 3 pilot schemes are approved;
4. a breakdown of the cumulative number of elderly persons who left the 3 pilot schemes by reason for leaving; and
5. a breakdown of the cumulative number of voucher holders under the 3 pilot schemes by co-payment level.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 214)

Reply:

1. & 4. As at the end of December 2024, there were a total of 11 402 CCSV users and 297 RSPs. The revised estimate for the CCSV Scheme for the Elderly (CCSV Scheme) for 2024-25 was about \$687.8 million. The total number of CCSVs was 11 000, and will be increased to 12 000 in 2025-26.

As at the end of December 2024, there were a total of 4 807 RCSV users and 221 RSPs. The revised estimate for the RCSV Scheme for the Elderly (RCSV Scheme) for 2024-25 was about \$1.0558 billion. The total number of RCSVs increased to 5 000, and will be further increased to 6 000 in 2025-26.

HSMI was launched on a pilot basis in December 2017 and implemented by 61 Integrated Home Care Services (IHCS) teams across Hong Kong. The cumulative total expenditure on the Pilot Scheme on HSMI amounted to about \$250 million. HSMI was made a regular measure in January 2023, providing a total of 4 000 service places. Subsequently, in October 2024, HSMI and IHCS (Ordinary Cases) were merged into Home Support Services for better utilisation of resources and service enhancement.

The numbers of persons who left the above 3 schemes and their reasons for leaving are set out at Annex 1.

2. & 3. As at the end of December 2024, the average processing time for issuing CCSVs to elderly persons upon receipt of application was about 12 days. The Social Welfare Department (SWD) does not have information on the average time it takes for CCSV holders to use the services for the first time from the date of issuance.

As at the end of December 2024, the average processing time for issuing RCSVs to elderly persons upon receipt of an application was about 1.9 months, while the average time from the date of issuance to using the services was about 17 days.

SWD does not have information on the time it takes for service users under HSMI to receive services from the date of application during the pilot phase up until now.

5. The numbers of elderly person using the above 3 schemes, broken down by co-payment level, are set out at Annex 2.

Table 1: Number of persons who left the CCSV Scheme and reasons

Reason ^{Note 1}	No. of persons			
	Pilot Scheme			Upon converting into a permanent measure ^{Note 2} (as at end-December 2024)
	First phase	Second phase	Third phase	
Will be/have been allocated with/ receiving subsidised community care services (CCS) or subsidised/ private residential care services (RCS)	845	2 739	4 347	2 376
Being taken care of by family members or domestic helpers, etc.	264	680	698	147
Others (e.g. hospitalisation, out of town, etc.)	106	473	135	154
No suitable RSPs/service packages	401	295	0	5
Total	1 616	4 187	5 180	2 682

Note 1 Excluding elderly persons who passed away after joining the scheme.

Note 2 The CCSV Scheme was made permanent in September 2023.

Table 2: Number of elderly persons who left the RCSV Scheme and reasons (as at end-December 2024)

Reason for leaving ^{Note 1}	No. of persons who left ^{Note 2}
Having no immediate need for RCS (e.g. being taken care of by family members or domestic helpers, etc.)	490
The preferred RSP was full/no suitable RSPs	210
Chose to wait for subsidised residential care places	166
Refused to accept the co-payment arrangement	60
Others (e.g. long-term hospitalisation, out of town, etc.)	94
Total	1 020

Note 1 Excluding elderly persons who passed away after joining the scheme.

Note 2 The RCSV Scheme was made permanent in April 2023.

Table 3: Number of persons who left the Pilot Scheme on HSMI and reasons

Reason for leaving ^{Note 1}	Admitted to RCS	Admitted to government subsidised CCS	Others ^{Note 2}	Total
No. of persons	387	550	1 125	2 062

Note 1 Excluding elderly persons who passed away after joining the scheme.

Note 2 Mainly including reasons such as hospitalisation and changes in family support arrangements, etc.

Table 1: Cumulative number of CCSV holders by co-payment level under the first phase of the Pilot Scheme on CCSV

Co-payment level ^{Note}	No. of persons
I	2 031
II	312
III	299
IV	53
V	273
Total	2 968

^{Note} The amounts of co-payment payable by CCSV holders in the first phase of the CCSV Scheme were set according to affordability at 5 levels, namely (I) to (V) (i.e. \$500 (I), \$750 (II), \$1,000 (III), \$1,500 (IV) and \$2,500 (V)).

V	406
VI	3 119
Total	21 626

Note 1 The CCSV Scheme was made permanent in September 2023.

Note 2 After the CCSV Scheme was made permanent, the amounts of co-payment payable by CCSV holders are set according to affordability at 6 levels, namely (I) to (VI) (i.e. 5% (I), 8% (II), 12% (III), 16% (IV), 25% (V) and 40% (VI) of the CCSV value). CCSV holders shall settle their service fees each month in accordance with the voucher value of the CCSVs they used and their corresponding co-payment percentages. The CCSV values in 2024-25 range from \$4,372 to \$10,455 per month.

Table 5: Cumulative number of RCSV holders by co-payment level (as at end-December 2024)

Co-payment level ^{Note 1}	0	1	2	3	4	5	6	7
Co-payment percentage	0.0%	10.0%	20.0%	30.0%	40.0%	50.0%	62.5%	75.0%
Co-payment amount (\$) (Care-and-attention (C&A) places)	-	1,644	3,287	4,931	6,574	8,218	10,272	12,326
Co-payment amount (\$) (Nursing home (NH) places)	-	2,123	4,246	6,370	8,493	10,616	13,270	15,924
No. of RCSV holders (C&A places)	7 506	849	33	19	8	8	-	422
No. of RCSV holders (NH places) ^{Note 2}	124	17	1	-	-	-	-	9

Note 1 As at the end of December 2024, there were a cumulative total of 8 996 elderly persons holding RCSVs (including 8 845 holders under C&A category and 151 holders under NH category). The RCSV values for C&A places and NH places are set at \$16,435 per month (effective from 1 April 2024) and \$21,232 per month (effective from 11 June 2024), respectively. The RCSV Scheme has 8 co-payment levels, ranging from the lowest Level 0 to the highest Level 7. While RCSV holders at Level 0 are fully subsidised by the Government, those at Levels 1 to 7 are required to pay for a portion of the voucher value based on their respective co-payment percentages.

Note 2 The coverage of RCSV has been extended to NH places since the second quarter of 2024.

Table 6: Cumulative number of service users under the Pilot Scheme on HSMI by co-payment level (by the completion of the Pilot Scheme) ^{Note 1}

Co-payment level ^{Note 2}	No. of persons
I	2 328
II	2 902
III	306
IV	286
V	52
Total	5 874

Note 1 Upon the completion of the Pilot Scheme on HSMI at the end of December 2022, HSMI was made a regular measure in January 2023.

Note 2 The 5 co-payment percentages for meal services were set at 20%, 30%, 35%, 40% and 45% of the service value, whereas the 5 co-payment percentages for home services were set at 0%, 9%, 15%, 21% and 27% of the service value.

Director of Bureau: Secretary for Labour and Welfare

Question:

Please inform this Committee of the following information for the past 3 years:

- 1) the number of participants in the Navigation Scheme for Young Persons in Care Services (Navigation Scheme);
- 2) the number of participants who graduated from the Navigation Scheme and the number of those who dropped out from it, along with their reasons for dropping out; and
- 3) the per capita cost of the Navigation Scheme.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 215)

Reply:

- 1) & 2) Since the enhancement of the Navigation Scheme in 2020-21, a total of 1 377 trainees have been recruited as at the end of December 2024. Among these trainees, 486 have graduated, 221 are still undergoing training, and 670 have dropped out for various reasons, including pursuing further studies and moving on to other jobs, etc.
- 3) As trainees join the Navigation Scheme at different times, the actual admission capacity of each service operator varies yearly, and suitable staffing is flexibly arranged accordingly. Hence, no information on the per capita cost can be provided.

- End -

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 221)

Reply:

1. The numbers of service places and attendances by service users of day and residential respite services for PWDs in the past 3 years are set out in Tables 1 and 2 of Annex 1 respectively. Meanwhile, the numbers of service places of integrated support service for persons with severe physical disabilities (ISS) and home care service for persons with severe disabilities (HCS) are set out in Table 3 of Annex 1. The Social Welfare Department (SWD) does not have information on the average waiting time for day and residential respite services, ISS and HCS by age and 18 administrative districts.
2. The charges for day and residential respite services for PWDs, HCS and ISS are set out in Tables 1 and 2 of Annex 2. The respective total amounts of subsidies for day respite services for PWDs, ISS and HCS are set out in Table 3 of Annex 2. As residential respite services for PWDs are part of the residential care services for PWDs, SWD does not independently calculate and maintain separate records regarding the total amount of subsidies for residential respite services for PWDs or per capita costs of various services.
3. & 4. SWD does not have information on the number of users of or persons waiting for various day care and community care services for PWDs (including day and residential respite services, ISS and home-based support services) by gender, age and 18 administrative districts.

Table 1: Numbers of places for day and residential respite services for PWDs from 2022-23 to 2024-25

Year	No. of places ^{Note}	
	Day respite service	Residential respite service
2022-23	172	403
2023-24	231	428
2024-25 (as at 31 December 2024)	231	428

^{Note} Including designated day/residential respite service places under the Bought Place Scheme (BPS) for private residential care homes for PWDs (RCHDs).

Table 2: Numbers of attendances of day and residential respite services for PWDs from 2022-23 to 2024-25

Year	No. of attendances ^{Note}	
	Day respite service	Residential respite service
2022-23	1 221	578
2023-24	2 048	1 626
2024-25 (as at 31 December 2024)	1 832	1 552

^{Note} 1 service user may use day or residential respite services multiple times in the same year. For example, he/she may use the designated day/residential respite service under BPS for private RCHDs.

Table 3: Numbers of service places for ISS and HCS from 2022-23 to 2024-25

Year	No. of service places	
	ISS	HCS
2022-23	900	3 550
2023-24	900	3 550
2024-25 (as at 31 December 2024)	900	3 550

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the Integrated Support Service for Persons with Severe Physical Disabilities (ISS), please provide the following information for the past 3 years:

- a) the respective numbers of applications received and approved for the 2 cash assistance programmes under ISS, and a breakdown of the approved applications by the amount of subsidy granted;
- b) the age distribution of applicants (in 10-year bands);
- c) the amount of subsidy granted; and
- d) the estimated total number of eligible applicants.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 223)

Reply:

ISS is comprised of 2 parts, cash subsidy and integrated home-based support service. There are 2 types of cash subsidies, namely the Special Subsidy for Renting Respiratory Support Medical Equipment (Subsidy for RSME) and the Special Subsidy for Purchasing Medical Consumables (Subsidy for Consumables). The numbers of applicants and recipients of these 2 cash subsidies in the past 3 years are set out in Table 1 of Annex, while the annual expenditure on these 2 cash subsidies is set out in Table 2 of Annex. The Social Welfare Department (SWD) does not have a breakdown of the amount of subsidy granted, the age distribution of applicants or the estimated total number of eligible applicants.

Table 1: Numbers of applicants and recipients of Subsidy for RSME and Subsidy for Consumables

Year Type of subsidy	2022-23		2023-24		2024-25 (as at end-December 2024)	
	No. of new applicants Note 1	No. of recipients	No. of new applicants Note 1	No. of recipients	No. of new applicants Note 1	No. of recipients
Subsidy for RSME	58	232	79	232	64	211
Subsidy for Consumables		249		247		225
Total	58	249 Note 2	79	247 Note 2	64	225 Note 2

Note 1 SWD does not have the respective numbers of applicants for these 2 special subsidies.

Note 2 The total number includes applicants receiving only the Subsidy for RSME, applicants receiving only the Subsidy for Consumables, and applicants receiving both special subsidies.

Table 2: Annual expenditure on Subsidy for RSME and Subsidy for Consumables

Year	Expenditure (\$ million)
2022-23	6.34
2023-24	6.23
2024-25 (as at end-December 2024)	4.31

Question:

Please provide the following information for each of the past 3 years by District Council district:

- 1) the number, age distribution, and amount of subsidy granted to recipients under the Pilot Scheme on Living Allowance for Low-income Carers of Persons with Disabilities (PWDs) launched by the Community Care Fund (CCF);
- 2) the number, age distribution, and amount of subsidy granted to recipients under the Special Care Subsidy for the Severely Disabled launched by CCF;
- 3) the number, age distribution, and amount of subsidy granted to recipients under the Pilot Scheme on Providing Subsidy for Higher Disability Allowance Recipients in Paid Employment to Hire Carers launched by CCF; and
- 4) the number of beneficiaries under the Pilot Scheme on Raising the Maximum Level of Disregarded Earnings (DE) for Recipients with Disabilities under the Comprehensive Social Security Assistance Scheme (Pilot Scheme on Raising the Maximum Level of DE) under CCF.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 224)

Reply:

- 1) The Scheme on Living Allowance for Low-income Carers of PWDs (Scheme for Carers of PWDs) has been incorporated into the Government's regular assistance programmes since October 2023. The funding allocation for 2024-25 was \$215.8 million. The number of allowance recipients in 2023-24 and 2024-25 was 3 213 and 3 697, respectively. A breakdown of the number of allowance recipients by district and age is set out in Tables 1 and 2 of Annex 1. The Social Welfare Department (SWD) does not have a breakdown of the amount of allowance granted by district under the Scheme for Carers of PWDs.
- 2) The Special Care Subsidy Scheme for Persons with Severe Disabilities (the Subsidy Scheme) has been incorporated into the Government's regular assistance programmes since October 2023. The amount of subsidy granted under the Subsidy Scheme in 2023-24 and 2024-25 (as at 31 December 2024) was \$36.16 million and \$66.48 million,

respectively, while the number of successful applicants in the 2 financial years was 3 379 and 3 538, respectively. A breakdown of the number of successful applicants by district and age is set out in Tables 1 and 2 of Annex 2. SWD does not have a breakdown of the amount of subsidy granted by district under the Subsidy Scheme.

- 3) The Scheme on Providing Subsidy for Higher Disability Allowance Recipients in Paid Employment to Hire Carers (the Scheme to Hire Carers) has been incorporated into the Government's regular assistance programmes since October 2023. The amount of subsidy granted under the Scheme to Hire Carers in 2023-24 and 2024-25 (as at 31 December 2024) was \$1.01 million and \$1.82 million, respectively, while the number of successful applicants in the 2 financial years was 40 and 50, respectively. A breakdown of the number of successful applicants by district and age is set out in Tables 1 and 2 of Annex 3. SWD does not have a breakdown of the amount of subsidy granted by district under the Scheme to Hire Carers.
- 4) The Pilot Scheme on Raising the Maximum Level of DE under CCF was launched in 2016 and has been incorporated into the Government's regular assistance programmes since February 2021. Under the Pilot Scheme on Raising the Maximum Level of DE, a total of 9 820 beneficiaries received subsidies.

CONTROLLING OFFICER'S REPLY

LWB(W)362

(Question Serial No. 3697)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: Not Specified

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Please provide a detailed breakdown of the progress and expected completion dates of the projects under the Special Scheme on Privately Owned Sites for Welfare Uses (Special Sites Scheme), as well as the number of places for various types of services these projects will provide.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 225)

Reply:

The Government launched Phase One and Phase Two of the Special Sites Scheme in September 2013 and April 2019 respectively to encourage non-governmental organisations (NGOs) to provide or expand the supply of welfare facilities that are in acute demand through expansion, redevelopment or new development. Out of the 88 project proposals received under Phase One and Phase Two of the Special Sites Scheme, 23 projects were withdrawn by the applicant NGOs or removed from the Special Sites Scheme because they could not proceed further due to various reasons including site constraints. As at the end of February 2025, 6 projects have been completed and put into service, 3 projects are at the construction stage, 11 projects are at the detailed design stage, and 23 projects are undergoing technical feasibility studies (TFS). Details of these 43 Special Sites Scheme projects are provided at Annex. The remaining 22 projects are currently at the project formulation and preliminary planning stage. The Social Welfare Department will support the relevant NGOs in proceeding with TFS, taking into account the actual progress of individual projects.

**Completed projects and projects at construction, detailed design or TFS stages
under the Special Sites Scheme**

Project	Estimated number of additional welfare service places
6 completed projects (commenced service in 2016-2021)

CONTROLLING OFFICER'S REPLY

LWB(W)363

(Question Serial No. 3698)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Please tabulate the following information for the past 3 years:

- 1) the number of abuse cases involving the elderly, youth, children, women, and spouses/cohabitants;
- 2) a breakdown of the number of referrals made by teachers, police officers, medical professionals, relatives, or others in these cases;
- 3) the age distribution, types of abuse, usual places of occurrence, and duration of continued abuse for each type of abuse case;
- 4) an overview of the relationships between the perpetrators and victims of abuse known to the Social Welfare Department (SWD);
- 5) support services that are in place to support victims of abuse and their families; and
- 6) the average waiting time for victims of abuse to receive support services after contacting SWD, and the per capita cost incurred.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 226)

Reply:

- 1) to 4) The numbers of newly reported spouse/cohabitant battering cases, child protection cases (including cases with high-risk/maltreated children) and elder abuse cases over the past 3 years, with a breakdown by age, gender, and reporting/referring agency, are set out at Annex. SWD does not have information on the duration of continued abuse in respect of these cases. Information on case types, residential districts of the victims/usual places of occurrence and relationships between perpetrators and victims, etc. has been uploaded to SWD's website (addresses as below):

Support for Victims of Child Abuse, Spouse/Cohabitant Battering and Sexual Violence

https://www.swd.gov.hk/vs/index_e.html#s3

Statistics on Elder Abuse Cases

https://www.swd.gov.hk/en/pubsvc/elderly/elderly_info/protectep/stat_eac/

- 5) SWD provides a wide range of preventive, supportive and specialised services to combat domestic violence and support victims of domestic violence and families in need. These services are provided through integrated family service centres (IFSCs)/integrated services centres, Family and Child Protective Services Units (FCPSUs), Clinical Psychology Units, family support networking teams, refuge centres for women, the Family Crisis Support Centre, the Multi-purpose Crisis Intervention and Support Centre, the Victim Support Programme for Victims of Family Violence, residential child care services and child care centres, etc.
- 6) Victims of domestic violence, child maltreatment, spouse/cohabitant battering or elder abuse cases do not have to wait to receive the above emergency support services. SWD does not have information on the per capita cost for handling abuse cases.

Others	-	-	-
Total	2 077	1 938	1 666

^{Note 1} The figures on newly reported spouse/cohabitant battering cases come from the Central Information System on Spouse/Cohabitant Battering and Sexual Violence Cases. If the victim is aged 60 or above, the case is also registered in the Central Information System on Elder Abuse Cases. As such, the number of cases involving victims aged 60 or above in Table 1(1) is also reflected in the figures in Table 3(1).

^{Note 2} If more than 1 agency reports the same case, the first agency to provide the information will be recorded as the reporting agency.

Table 2: Child protection cases

(1) Age distribution of high-risk and maltreated children newly registered in the Child Protection Registry

Age	2022	2023	2024
0-2	230	190	183
3-5	142	135	132
6-8	200	194	203
9-11	273	291	291
12-14	383	412	449
15-17	211	235	246
Total	1 439	1 457	1 504

(2) Number of child protection cases newly received by FCPSUs with a breakdown by source of referral

Source of referral	2022	2023	2024
Medical professionals and medical social workers	225	207	206
Schools (including teachers and school social workers)	298	323	349
The Police	138	163	145
Social service units (including other service units under SWD, IFSCs, and NGOs, etc.)	498	458	508
Members of the public/media/SWD hotlines	2	2	4
Courts/other government departments	8	6	4
The person concerned	14	9	11
Others	16	6	8
Total ^{Note 3}	1 199	1 174	1 235

Note 3 As each case may involve more than 1 high-risk/maltreated child, the number of child protection cases newly received by FCPSUs does not tally with the total number of high-risk/maltreated children newly registered in the Child Protection Registry of the year.

Table 3: Elder abuse cases ^{Note 4}**(1) Age and gender distribution of victims**

CONTROLLING OFFICER'S REPLY

LWB(W)364

(Question Serial No. 3699)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Please provide in tabular form the number of persons or families who have successfully resolved their housing issues through Compassionate Rehousing (CR) in the past 3 years, along with their reasons for applying for CR.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 227)

Reply:

The number of CR cases recommended by the Social Welfare Department (SWD) to the Housing Department in the past 3 years (2022-23, 2023-24 and 2024-25 (as at December 2024)) was 387, 277 and 201, respectively.

SWD does not have a breakdown of statistics on the reasons applicants provide for seeking a CR recommendation.

CONTROLLING OFFICER'S REPLY**LWB(W)365****(Question Serial No. 3700)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (3) Services for The ElderlyControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

Regarding the Standardised Care Need Assessment Mechanism for Elderly Services (SCNAMES), please advise:

The annual number of cases referred for assessment under SCNAMES, the number of cases that completed the assessment, the number of accredited assessors under SCNAMES, the number of cases in which the service users requested pre-appeal mediation, and the number of appeal cases lodged by service users over the past 5 years, with a breakdown by service unit.

Please set out the following figures over the past 5 years in the table below:

Party lodging the appeal	No. of cases for pre-appeal mediation	No. of appeal cases
Service user		
Service provider (Residential care home for the elderly (RCHE))		
Service provider (community service unit)		

For elderly persons who have been assessed and confirmed to require long term care (LTC) services, their applications may be placed on a Central Waiting List for Subsidised LTC Services to await the provision of subsidised LTC services, i.e. residential care services (RCS) or community care services (CCS). In this connection, would the Government please inform this Committee of the respective numbers of applicants assessed as suitable for both RCS and CCS, suitable for RCS only, and suitable for CCS only in the past 5 years.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 228)

Reply:

The number of cases referred for standardised care need assessment, the number of assessments completed, the number of trained and accredited assessors, and the number of cases for pre-appeal mediation from 2020 to 2024 are set out at Annexes 1 to 4.

From 2020 to 2024, there were no appeal cases related to assessments under SCNAMES.

The number of elderly persons assessed as “suitable for RCS”, “suitable for CCS” or “dual option” from 2020-21 to 2024-25 are as follows:

LTC service matching	2020-21	2021-22	2022-23	2023-24	2024-25 (as at end-December 2024)
Suitable for RCS	10 151	5 297	29 160	28 909	21 609
Suitable for CCS	267	4 377	8 115	8 230	6 458
Dual option	19 908	21 336	N.A. ^{Note}	N.A. ^{Note}	N.A. ^{Note}

N.A. - Not applicable

^{Note} The Social Welfare Department (SWD) updated SCNAMES in July 2021, which included upgrading the assessment tool, the interRAI-Home Care (interRAI-HC), from version 2.0 to version 9.3, as well as updating the service matching mechanism. Under the new mechanism, “dual option” is no longer available.

Number of cases referred for standardised care need assessment

Organisation	Service type	No. of cases

CONTROLLING OFFICER'S REPLY

LWB(W)366

(Question Serial No. 3701)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Please provide the following information for the past 5 years:

the numbers of Bought Place Scheme (BPS) and non-BPS places of various subsidised residential care services (RCS) for persons with disabilities (PWDs), the average waiting time, the number of persons who applied for a freeze on service allocation and the number of persons who withdrew from the service and the reasons for withdrawal, with a breakdown by age and 18 District Council (DC) districts;

the per capita costs, fees and charges, and total amount of subsidies as regards BPS and non-BPS places of various subsidised RCS for PWDs;

the total number of PWDs who passed away or withdrew their applications while waiting for residential places and their percentages out of the number of waitlisted PWDs, with a breakdown by age;

the number of persons waitlisted for BPS and non-BPS places of various subsidised RCS for PWDs, with a breakdown by age (aged 18 to 30, 31 to 40, 41 to 50, 51 to 60, 61 to 70, 71 to 80, 81 or above) and 18 DC districts; and

the number of users of BPS and non-BPS places of various subsidised RCS for PWDs, with a breakdown by age (aged 18 to 30, 31 to 40, 41 to 50, 51 to 60, 61 to 70, 71 to 80, 81 or above) and 18 DC districts.

Regarding the elderly services provided by the Social Welfare Department (SWD), please inform this Committee of the following:

the number of residential care home (RCH) places provided or subsidised by SWD, along with the expenditure involved in the past 5 years; and

the numbers of homes and service places for the above service, with a breakdown by 18 districts, the number of elderly persons currently waitlisted for RCH places, average waiting time in years, and longest waiting time in years.

At present, the Government provides insufficient subsidised RCH places for the elderly and PWDs, resulting in long waiting time. In this connection, please inform this Committee of:

the following information on subsidised RCS for the past 5 years: (i) the numbers of subsidised RCH places for the elderly and PWDs; (ii) the numbers of elderly persons and PWDs waitlisted for subsidised RCH places; (iii) the average waiting time for subsidised RCH places; (iv) the total number of elderly persons who passed away or withdrew their applications while waiting for places in subsidised care-and-attention (C&A) homes and subsidised nursing homes (NH), and their percentages out of the number of waitlisted elderly persons, with a breakdown by age; and

the number of “Government, Institution or Community” sites earmarked for the construction of subsidised RCH for the elderly (RCHEs) and RCH for PWDs (RCHDs), and the number of places expected to be provided in the next 5 years; and

the information on the Special Scheme on Privately Owned Sites for Welfare Uses (Special Sites Scheme) since its launch: (i) the number of applications received; (ii) the names of non-governmental organisation (NGO) applicants, (iii) the approval dates and current progress of each project; and (iv) whether the Government has put in place any support measures to facilitate applicants in completing their projects sooner; If so, of the details; if not, the reasons for this.

Regarding the regulation of RCHEs and RCHDs, will the Government please inform this Committee of:

the details of the inspections conducted by SWD’s staff at various types of RCHEs and RCHDs (i.e. private RCHEs, subsidised RCHEs, private RCHDs and subsidised RCHDs) in 2024-25, including: (i) the number of regular inspections; (ii) the number of surprise inspections; and (iii) the number and types of suspected non-compliance cases found during inspections;

the number and categories of complaints against various types of RCHEs and RCHDs received by SWD, and the number of substantiated complaints in each of the past 5 years; and

the number of warning letters issued by SWD to RCHEs and RCHDs, both (i) single and (ii) multiple warnings, and whether any RCHEs and RCHDs have failed to take remedial actions after receiving warnings in the past 5 years, and if so, the follow-up actions taken by SWD.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 229)

Reply:

The number of service places for various types of residential services for PWDs by administrative district of SWD in the past 5 years is set out at Annex 1, the average waiting time is set out at Annex 2, while the number of applicants on the Inactive Waiting List (IWL) is set out at Annex 3. The number of persons having left residential care services for PWDs and their reasons for leaving are set out at Annex 4. SWD does not have statistics on the number of service places, the average waiting time or the number of applicants on IWL by age and district.

The average cost per place per month for the overall residential rehabilitation services for PWDs in the past 5 years is set out at Annex 5. SWD does not have information on the average cost of each type of residential places for PWDs. The fees and charges for various types of subsidised residential services for PWDs is set out at Annex 6, while the total subsidy amount is set out at Annex 7.

The number of persons who passed away or withdrew their applications while waiting for residential services for PWDs, along with their percentages out of the number of waitlisted PWDs in the past 5 years, is set out at Annex 8. SWD does not have statistics on the number of persons who passed away or withdrew their applications while waiting for residential services for PWDs broken down by age.

A breakdown of the number of applicants for various types of residential services for PWDs by administrative district of SWD and age group in the past 5 years is set out at Annex 9. As there is no central waiting list (CWL) for BPS for private RCHDs, no statistics on the number of applicants is available.

A breakdown of the number of service users of various types of residential services for PWDs by age group in the past 5 years is set out at Annex 10. SWD does not have statistics on the number of service users broken down by district and age.

From 2020-21 to 2024-25 (as at the end of December 2024), the number of RCHEs providing subsidised RCS, along with their respective service places, is set out at Annexes 11 and 12 respectively; while the financial expenditure and the average monthly cost per place for various types of subsidised RCS are set out at Annex 13 and Annex 14 respectively.

The waiting time for subsidised RCS is affected by a number of factors, including applicants' preferences for the location, dietary options and religious background of the RCHEs, whether they opt for a specific RCHE, whether they accept subsidised places provided under the Enhanced Bought Place Scheme (EBPS)/Nursing Home Place Purchase Scheme (NHPPS), and whether they request to join family members and/or relatives in a specific RCHE, etc. SWD does not have statistics on the longest waiting time for subsidised RCS.

As at the end of December 2024, the average waiting time and number of persons waitlisted for subsidised RCS are set out at Annex 15. The number of elderly persons who passed away or withdrew their applications while waiting for subsidised RCH places and NH places, along with their percentages out of the number of waitlisted elderly persons, is set out at Annex 16.

SWD has not conducted any statistical analysis on the age distribution of elderly persons who passed away or withdrew their applications while waiting for subsidised residential places.

Among the development projects implemented by the Government, 28 RCHEs are expected to be completed between 2025-26 and 2029-30, providing a total of about 4 080 RCHE places (including both subsidised and non-subsidised places). The number of places that can be provided each year may vary, subject to factors including the work progress. In addition, the Government is taking forward 29 development projects for RCHDs, which are expected to provide about 2 180 additional service places over the next 5 years.

The Government launched Phase One and Phase Two of the Special Sites Scheme in September 2013 and April 2019, respectively, to encourage NGOs to provide or expand the supply of welfare facilities that are in acute demand through expansion, redevelopment or new development. Out of the 88 project proposals received under Phase One and Phase Two of the Special Sites Scheme, 23 projects were withdrawn by the applicant NGOs or removed from the Special Sites Scheme because they could not proceed further due to various reasons, including site constraints. As at the end of February 2025, 6 projects have been completed and put into service, 3 projects are at the construction stage, 11 projects are at the detailed design stage, and 23 projects are undergoing technical feasibility studies (TFS). Details of these 43 Special Sites Scheme projects are provided at Annex 17. The remaining 22 projects are currently at the project formulation and preliminary planning stage. SWD will support the relevant NGOs in proceeding with TFS, taking into account the actual progress of individual projects.

To facilitate and co-ordinate the implementation of projects under the Special Sites Scheme, SWD has been providing one-stop assistance to the applicant NGOs throughout the planning and development process, and has devised various guidelines and templates on the preparation of funding applications and tender documents for NGOs' reference. SWD has been maintaining close contact with relevant government departments, including the Architectural Services Department, Lands Department, Planning Department and Buildings Department to provide assistance and co-ordination to NGOs regarding issues involved in individual projects, including amendment to outline zoning plans, obtaining planning permission and lease modification. SWD continues to collaborate with various departments, including convening inter-departmental meetings with representatives from various departments specialised in planning, land administration, traffic and environment matters, etc. to strengthen the co-ordination among government departments and NGOs, and to facilitate the applicant NGOs in tackling technical problems arising from their individual projects in the planning stage. SWD will continue to take the initiative to arrange for NGOs to meet with the government departments concerned having regard to the circumstances of individual projects so as to expedite their implementation.

The Licensing Office of RCHEs (LORCHE) and Licensing Office of RCHDs (LORCHD) of SWD are responsible for conducting inspections at RCHEs and RCHDs respectively. All inspections are conducted in a surprise manner. In 2024-25 (as at the end of December 2024), the respective numbers of inspections conducted at RCHEs and RCHDs were 4 624 and 1 915.

SWD identifies non-compliant RCHEs and RCHDs (if any) through various channels, such as inspections, complaints and special incident reports. In 2024-25 (as at the end of December 2024), 1 657 and 200 cases from RCHEs and RCHDs respectively were issued with advisory and warning letters due to non-compliance. Categories of irregularities include staffing arrangements, protection of privacy, drug management, infection control, fire safety, nursing and personal care services, etc. SWD does not have a breakdown of the number of non-compliance cases.

LORCHE and LORCHD of SWD will investigate complaints against RCHEs and RCHDs. In the event of non-compliance, SWD will consider the nature and severity of the non-compliances before issuing advisory letters, warning letters, written directions for remedial measures, or instigating prosecution against the relevant RCHs. The complaints against RCHEs and RCHDs received by SWD in the past 5 years included issues related to staffing arrangements, protection of privacy, drug management, infection control, fire safety, nursing and personal care services, etc. The number of complaints is set out in Table 1 of Annex 18. SWD does not have a breakdown of the number of complaints by category.

The number of RCHs issued with warning letters in the past 5 years is set out in Table 2 of Annex 18. The inspectorates of SWD will formulate individualised and targeted strategies and action plans based on the nature and issues of non-compliance in each RCH. These may include conducting surprise inspections at different times during office and non-office hours, with a small team or a multi-disciplinary inspectorate team to strengthen the monitoring of RCHs and ensure that they take remedial measures. If the RCHs concerned continue to fail to make any improvements, SWD will issue written directions or initiate prosecution actions against them under the relevant legislation.

CONTROLLING OFFICER'S REPLY

LWB(W)367

(Question Serial No. 3702)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding various subsidised residential care services (RCS) for the elderly, please inform this Committee of:

The number of subsidised RCS places provided by various types of residential care homes (RCHs) for the elderly (RCHes), and the number of service places in day care centres for the elderly (DEs) currently available, broken down by the 18 districts;

The total expenditure, the average monthly cost per place and the amount self-financed/supplemented by elderly persons for various types of RCS for the elderly in the past 3 years; and

The number of service places to be provided by subsidised RCHes that will be constructed and/or commencing operation with government funding in the next 10 years, along with the amount of funding involved (with a breakdown by the expected year of service commencement).

Regarding the existing provision of residential services for people with rehabilitation needs, i.e. (1) halfway houses (HWHs) for persons in mental recovery, (2) long stay care homes (LSCHs) for persons in mental recovery, (3) integrated vocational training centres (IVTCs) for the mentally handicapped, (4) hostels for moderately mentally handicapped persons (HMMHs), (5) hostels for severely physically handicapped persons (HSPHs), (6) care and attention homes for the aged blind (C&A/ABs), (7) small group homes for mildly mentally handicapped children [SGH(MMHC)s] and (8) supported hostels (SHOSs):

Please provide the number of places, enrolment rate, average waiting time, number of waitlisted persons who passed away, average age of residents and annual expenditure for various residential rehabilitation services in the past 3 years.

Does the Government plan to expand residential rehabilitation services in the future? If so, what are the details? How much expenditure is involved?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 230)

Reply:

The number of subsidised RCS places provided by various types of RCHEs as at the end of December 2024, broken down by District Council (DC) district, is set out at Annex 1. The number of service places in DEs/day care units for the elderly (DCUs), broken down by DC district, is set out at Annex 2.

The total expenditure, the average monthly cost per place and the monthly service charges for various types of subsidised RCS for the elderly from 2022-23 to 2024-25 are set out at Annexes 3 to 5.

The number of subsidised RCS places expected to be put into service between 2025-26 and 2029-30 is set out in the table below. The number of places may vary due to various factors such as progress of works, etc.

Year	No. of places put into service
2025-26	412
2026-27	1 614
2027-28	438
2028-29	600
2029-30	570

In addition, an extra 1 000 RCSVs will be provided in 2025-26, bringing the total to 6 000.

Statistics for subsidised RCS places expected to be operational in 2030 and beyond are currently unavailable, as the relevant RCHE projects are still in the planning stage and do not have exact completion dates.

The number of service places, the average enrolment rate, the average waiting time, the number of waitlisted applicants who passed away, and the annual expenditure for various residential rehabilitation services in the past 3 years are set out at Annex 6. The Social Welfare Department (SWD) does not have information on the average age of residents in residential rehabilitation services, and does not maintain the average enrolment rate for various residential rehabilitation services separately.

The number of places for various residential rehabilitation services will increase by a total of 324 in the next 2 years, involving an estimated total annual funding of about \$83.19 million. Information on these service places is set out at Annex 7.

LWB(W)368

(Question Serial No. 3703)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare
(3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

It was announced in the 2019-20 Budget that \$20 billion would be allocated for the purchase of 60 properties over some 3 years for accommodating more than 130 welfare facilities, including day child care centres (CCCs), neighbourhood elderly centres (NECs), on-site pre-school rehabilitation services (OPRS), etc., which are expected to benefit about 86 000 people. In this connection, please inform this Committee of the following:

What is the Government's latest progress in purchasing properties? Please provide the total number and value of the purchased properties, the staffing establishment and administrative costs involved, and the agency costs incurred.

Please set out in a table the location, size, price, average price per square foot, service type/nature of the welfare facilities proposed to be accommodated, expected date of service commencement, and number of beneficiaries for each purchased property.

What criteria does the Government adopt in the process of purchasing and deciding on the use of properties?

What are the objectives and timetable for this financial year?

When is the expected completion date for the purchase?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 231)

Reply:

With the assistance of the Government Property Agency (GPA), SWD is striving to identify suitable premises for purchase through different channels. As at 28 February 2025, SWD has incurred about \$240 million in actual expenditure on the "purchase of welfare premises" under the Capital Works Reserve Fund, covering the payment for 5 premises. 2 of these premises are located in Sham Shui Po District, while the remaining 3 are located in Central and Western District, Eastern District and Kwun Tong District respectively. These premises are for operating a parents/relatives resource centre, a support centre for persons with autism,

and a neighbourhood elderly centre, as well as for providing on-site pre-school rehabilitation services. Details are tabulated below:

	District	Address of premises	Welfare facility/service	Internal floor area (sq. m.)	Purchase price (HK\$)	Progress
1	Sham Shui Po	Shop 1 & 2, 1/F, Southern Lodge, 362 Un Chau Street, Kowloon	Parents/relatives resource centre	About 230 sq. m.	36.50 million	Commenced operation
2	Central and Western	Unit 1 & 2, 1/F, Hua Qin International Building, 340 Queen's Road Central, Hong Kong	(i) On-site pre-school rehabilitation services (1 group); and (ii) Support centre for persons with autism	About 500 sq. m.	75.00 million	(i) Commenced operation (ii) Commenced operation
3	Eastern	3/F, Henan Electric Development Building, 389 King's Road, North Point, Hong Kong	On-site pre-school rehabilitation services (1 group)	About 230 sq. m.	34.00 million	Commenced operation
4	Kwun Tong	Shop B, 1/F, COS Centre, 56 Tsun Yip Street, Kwun Tong, Kowloon	On-site pre-school rehabilitation services (1 group)	About 240 sq. m.	46.00 million	Expected to commence operation in the second quarter of 2025
5	Sham Shui Po	Shop 2, 3, 6, 8 & 9, G/F, AVA 228, 228 Tai Nan Street, Sham Shui Po, Kowloon	Neighbourhood elderly centre (sub-base)	About 180 sq. m.	46.80 million	Expected to commence operation in the second quarter of 2025

SWD and GPA are continuing their efforts to identify and purchase suitable premises, and have earmarked \$250 million for related work in 2025-26. The progress of purchasing premises, including the number, location, expenditure, and intended use of such premises, depends on the availability of suitable properties in the market and various external factors, including whether the properties for sale have suitable fire safety and barrier-free access facilities, whether the size and location meet operational requirements, whether the surrounding land uses are compatible with welfare uses, and whether the selling prices fall within the acceptable price range determined by GPA with reference to market value. If market conditions permit, the goal of SWD and GPA is to purchase as many premises as possible in order to provide more welfare facilities. SWD will continue to implement and review the scheme.

In 2024-25, SWD has created 2 time-limited non-directorate posts to support premises acquisition, while GPA has established 5 similar posts for the same purpose. In addition to these dedicated positions, both SWD and GPA have reallocated existing resources to manage premises acquisition. This work incurs no additional administrative or agency expenses.

(Question Serial No. 3707)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

What were the resources allocated to Supported Employment Training for Persons with Disabilities (SET) by the Social Welfare Department (SWD) in the past 5 years? Please provide details on the types of programmes, the number of participants and the amount of subsidy granted, etc. What are the resources to be allocated to SET, and what will be the types of programmes, the number of participants and the amount of subsidy granted, etc. in the next 5 years?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 235)

Reply:

SWD subvents non-governmental organisations to provide vocational rehabilitation and training services through Sheltered Workshops (SWs), Integrated Vocational Rehabilitation Services Centres (IVRSCs), Integrated Vocational Training Centres (IVTCs), and SET, etc. These services aim to assist persons with disabilities (PWDs) who are not yet able to take up open employment by offering them appropriate vocational rehabilitation services in specially designed training environments, where they can learn to fulfil basic work requirements, including developing social skills and interpersonal relationships. In the past 5 years, the funding amounts and the numbers of service users for various vocational rehabilitation services are set out in Annexes 1 and 2, respectively. SWD's planned IVRSCs are expected to provide an additional 770 service places over the next 5 years.

(Question Serial No. 3709)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Currently, parents who share custody of their children following a divorce are subject to child custody and access laws. As a result, both parents are granted regular visitation rights with their children. To support this, the Government has set up 5 Specialised Co-parenting Support Centres (SCSCs)/visitation centres to provide child custody and visitation services. In this regard, please provide a breakdown of the services provided and the corresponding funding allocations in the past 5 years. Moreover, please provide a breakdown of the projected funding allocations and the amount resources to be allocated over the next 5 years.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 237)

Reply:

Non-governmental organisations (NGOs) are subvented by the Social Welfare Department (SWD) to operate 5 SCSCs, providing one-stop co-parenting support services for separated/divorced parents and their children. In the past 5 years, the number of cases handled by SCSCs, the types of services provided, the number of child contact and exchange sessions conducted, the number of programmes/activities and groups organised, as well as the amount of annual subvention, are set out at Annex. SWD does not have a breakdown of the expenditure involved. SWD will continue to review the implementation of SCSCs regularly under the prevailing mechanism, and provide subventions to NGOs for operating the services.

Table 1 : No. of cases ^{Note 1}

LWB(W)372

(Question Serial No. 3712)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Government allocated \$1 billion to set up the Innovation and Technology Fund for Application in Elderly and Rehabilitation Care (I&T Fund) in December 2018, with an additional injection of \$1 billion thereto in 2024-25, for subsidising eligible elderly service units to procure, rent or trial technology products. As at June 2024, the I&T Fund has approved grants totalling about \$750 million, subsidising about 2 000 service units to procure or rent over 21 000 items of technology products, including pouch packaging machines and drug management system. In addition, between 2010-11 and 2020-21, the Social Welfare Development Fund launched by the Social Welfare Department (SWD) has provided funding support for welfare organisations to carry out 16 projects on drug management of residential care homes (RCHs) for the elderly (RCHes). In this regard, please provide the following information:

1. A breakdown of the I&T Fund's allocations over the past 5 years, including the number and proportion of products funded and the number of service units utilising these products.
2. Identify the services that have benefited from the I&T Fund allocations over the past 5 years, categorised by welfare services (e.g., for the elderly, persons with disabilities (PWDs)) and healthcare services, with a breakdown by type of organisation;
3. Specify the types of products/technologies used in various welfare services over the past 5 years, including RCHes and RCHs for PWDs (RCHDs), and support organisations, etc.;
4. Describe the functions and benefits of these products/technologies, their effectiveness in relation to funding allocation and the number of people served, and how the effectiveness and benefits are evaluated over the past 5 years; and
5. Outline future development plans for the next 5 years, including additional funding and new products, with a breakdown by type.

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 240)

Reply:

1. to 3. From 2020-21 to 2024-25 (as at the end of February of 2025), 7 tranches of grants have been approved under the I&T Fund to subsidise elderly and rehabilitation service units to procure or rent over 20 400 items of technology products. Relevant information is set out at Annex.
4. SWD has been continuously reviewing the operation of the I&T Fund, and collecting feedback on the I&T Fund and technology products from applicant organisations, service users and care staff through on-site visits, questionnaires and other means to evaluate the effectiveness of the I&T Fund. Respondents have provided positive feedback on the technology products funded by the I&T Fund in their service units. They considered that these products could enhance the functioning of service users in daily activities and enhance the occupational safety and health of staff. SWD will continue to collect stakeholders' feedback. As the I&T Fund is open to applications from elderly and rehabilitation service units only, SWD does not have information on the number of beneficiaries.
5. The 2023 Policy Address announced that an additional \$1 billion would be injected into the I&T Fund in 2024-25, and the scope of the I&T Fund would be expanded to cover gerontechnology products suitable for household use. SWD plans to accept a new tranche of applications in March 2025, and will implement enhancement measures, which include increasing the amount of grant for each eligible elderly and rehabilitation service unit by 50%. In addition, non-governmental organisations operating subvented elderly and rehabilitation community service units will also be allowed to apply for extra funding to procure technology products suitable for elderly persons or PWDs and their carers to borrow and use at home.

Table 1: Information pertaining to the approval of applications under the I&T Fund in the past 5 financial years (as at 28 February 2025)

Tranche no.	Operation mode	Type of service unit	No. of products approved	Amount of grant approved (\$ million)

CONTROLLING OFFICER'S REPLY

LWB(W)373

(Question Serial No. 3717)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (2) Social Security

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the support provided by the Social Welfare Department (SWD) for the replacement and maintenance of wheelchairs/electric wheelchairs for eligible persons with disabilities (PWDs), how much funding has been allocated for this purpose over the past 5 years, and how many PWDs have benefited? What is the specified timeframe or interval for the replacement and maintenance of wheelchairs/electric wheelchairs? Looking ahead to the next 5 years, does the Government plan to expand the coverage to include PWDs who are not currently eligible (such as those receiving only the Disability Allowance)? Will a dedicated fund be established to provide support to more PWDs?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 245)

Reply:

The Comprehensive Social Security Assistance (CSSA) Scheme provides a safety net of last resort for those who cannot support themselves financially due to disability, old age, ill-health, single parenthood, unemployment, low-earnings, or other reasons to help them meet their basic needs. Depending on age, family circumstances, and level of disability, the standard rates for disabled CSSA recipients range from \$3,995 to \$7,745 per month, which are higher than those for able-bodied recipients. In addition, based on their individual circumstances and actual needs, disabled recipients may receive various supplements and special grants to address the special needs arising from disabilities, e.g. grant to cover costs of medical, rehabilitation, surgical appliances and hygienic items to provide support for recipients to purchase and repair medical equipment (including electric or other types of wheelchairs). SWD does not specifically maintain the requested information on special grants provided to disabled CSSA recipients for purchasing and repairing electric or other types of wheelchairs.

PWDs who are not receiving CSSA and require to purchase or repair medical equipment may apply for a subsidy of \$2,500 per month under the Special Care Subsidy Scheme for Persons with Severe Disabilities, or seek financial support from individual charitable organisations, such as the "Community Chest Medical Assistance Fund", "Yan Chai Tetraplegic Fund" and "Ho Kam Yung Foundation". The relevant SWD service units will make referrals for suitable cases.

CONTROLLING OFFICER'S REPLY

LWB(W)374

(Question Serial No. 3854)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: Not Specified

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

The Government has earmarked \$20 billion to purchase properties for accommodating welfare facilities. In this regard:

1. How many properties does the Government plan to purchase this year for accommodating welfare facilities? What are the number of target properties and their gross floor area? Which welfare services will these purchased properties primarily support? In which districts are these properties located?
2. What is the actual amount allocated for purchasing properties out of the \$20 billion budget? Are there specific allocation ratios based on districts or service areas? How many properties has the Government successfully purchased in the past 5 years? How many properties are currently under negotiation or in the transaction completion phase?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 252)

Reply:

1. With the assistance of the Government Property Agency (GPA), the Social Welfare Department (SWD) is striving to identify suitable premises for purchase through different channels, and have earmarked \$250 million for related work in 2025-26. As the premature disclosure of details regarding the targeted premises we intend to purchase may affect the purchase negotiations of the Government, we will publish the related information in due course. If market conditions permit, the goal of SWD and GPA is to purchase as many premises as possible in order to provide more welfare facilities. SWD will continue to implement and review the scheme.
2. As at 28 February 2025, SWD has incurred about \$240 million in actual expenditure on the "purchase of welfare premises" under the Capital Works Reserve Fund, covering the payment for 5 premises. 2 of these premises are located in Sham Shui Po District, while the remaining 3 are located in Central and Western District, Eastern District and Kwun Tong District respectively. These premises are for operating a parents/relatives resource centre, a support centre for persons with autism, and a neighbourhood elderly centre, as well as for providing on-site pre-school rehabilitation services.

The progress of purchasing premises depends on the availability of suitable properties in the market and various external factors, including whether the properties for sale have suitable fire safety and barrier-free access facilities, whether the size and location meet operational requirements, whether the surrounding land uses are compatible with welfare uses, and whether the selling prices fall within the acceptable price range determined by GPA with reference to market value.

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

1. What were the Social Welfare Department's (SWD) recurrent expenditure items for residential care homes (RCHs) for persons with disabilities (RCHDs) and RCHs for the elderly (RCHes) in the past 5 years? If no such items exist, will SWD introduce recurrent expenditure items?
2. How much additional funding is expected to be allocated to private and subsidised RCHs this year and in each of the next 5 years?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 254)

Reply:

1. The expenditure on various subsidised residential care services (RCS) for persons with disabilities (PWDs) and subsidised RCS for the elderly from 2020-21 to 2024-25 is set out at Annexes 1 and 2, respectively.
2. The estimated expenditure on various subsidised RCS for PWDs for 2025-26 is about \$3.84 billion, representing an increase of about \$170 million compared with the revised estimate of about \$3.67 billion for 2024-25. The estimated expenditure on various subsidised RCS for the elderly is about \$9.55 billion, representing an increase of about \$920 million compared with the revised estimate of about \$8.63 billion for 2024-25.

Regarding the increase in expenditure beyond 2025-26, SWD will apply for funding through the established mechanism, based on the progress of individual projects as well as the demand for and supply of subsidised RCS in society.

Expenditure on various RCS for PWDs from 2020-21 to 2024-25

Service type	Annual expenditure (\$ million)				
	2020-21 (Actual)	2021-22 (Actual)	2022-23 (Actual)	2023-24 (Actual)	2024-25 (Revised estimate)
Halfway house	228.8	229.6	232.7	240.7	246.1

CONTROLLING OFFICER'S REPLY

LWB(W)376

(Question Serial No. 3965)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: Not Specified

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

1. What was the total number of vacancies in the Social Welfare Department (SWD) in each of the past 5 years? Please provide specific numbers with a breakdown by rank.
2. In which grades were these vacancies primarily found, and how many vacancies were there in each type of post during the past 5 years?
3. Did these vacancies have an impact on the public services provided by SWD during the past 5 years? If so, what specific areas were affected, and to what degree?
4. What was the total unused salary expenditure resulting from vacancies in the past 5 years? Was this amount reallocated to other purposes?
5. Did SWD conduct any recruitment exercises to fill the vacancies in the past 5 years? If so, how many recruits were hired, and how many vacancies were filled each year?
6. Did SWD take any measures (e.g. temporary employment, provision of overtime allowance, etc.) to mitigate the impact of the vacancies on its services in the past 5 years? If so, what was the expenditure involved?

Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 253)

Reply:

1. & 2. The total number of vacancies in SWD, the major grades with vacancies, and the corresponding number of vacancies in the past 5 years are set out in Table 1 of Annex.
- 3, 4. & 6. In addition to conducting recruitment exercises, SWD addresses vacancies through re-prioritisation of work, acting arrangements and internal deployment of human resources to ensure that the provision of public services remains unaffected. Salaries is subsumed under Subhead 000 "Operational Expenses" which is operated under one-line vote arrangement. SWD has been flexibly deploying resources to meet other expenses under this subhead, including other departmental expenses, and subventions and contract fees for provision of subsidised welfare services.
5. The number of vacancies successfully filled through SWD's recruitment exercises for departmental grade posts in the past 5 years is set out in Table 2 of Annex.

Table 1: Total number of vacancies in SWD, major grades with vacancies, and corresponding number of vacancies

Year (As at 31 March of each year)	Total number of vacancies	Major grades with vacancies and corresponding number of vacancies		
		Clerical Assistant Grade	Social Work Officer Grade	Social Security Assistant Grade
2020-21	350	29	63	54
2021-22	382	40	64	51
2022-23	488	74	110	58
2023-24	568	137	118	55
2024-25 (As at 31 December 2024)	506	149	90	84

Table 2: Number of vacancies successfully filled through SWD's recruitment exercises for departmental grade posts

Year	Number of vacancies successfully filled ^{Note}
2020-21	239

CONTROLLING OFFICER'S REPLY**S-LWB(W)01****(Question Serial No. S053)**Head: (170) Social Welfare DepartmentSubhead (No. & title): ()Programme: (1) Family and Child WelfareControlling Officer: Director of Social Welfare (Edward TO)Director of Bureau: Secretary for Labour and WelfareQuestion:

1. With reference to Table 1 of Annex 1 of LWB(W)046, please provide this Committee with the total expenditure for various child care service centres in the past year, along with a detailed breakdown of resource allocation across different service types.
2. With reference to Table 3 of Annex 1 of LWB(W)046, would the Government please clarify the reasons for the low utilisation rates across various types of services? Is this because of insufficient promotion? Please also provide the number of service places and the average utilisation rates for each district.

Asked by: Hon CHAN Man-ki, MaggieReply:

1. The total expenditure and resource allocation for aided standalone child care centres (CCCs), aided CCCs attached to kindergartens (KGs), Occasional Child Care Service (OCCS), Extended Hours Service (EHS), the Neighbourhood Support Child Care Project (NSCCP), and the After School Care Programme for Pre-primary Children [ASCP(PC)] in the past year are tabulated as follows:

Service type	2024-25 Revised estimate (\$ million)
Aided standalone CCC	82.4
Aided CCC attached to KG	204.2
OCCS	62.4
EHS	97.1
NSCCP	226.6
ASCP(PC)	32.1
Total	704.8

2. The utilisation rates of child care services are affected by multiple factors. Generally speaking, when choosing child care services, parents will consider factors such as the service operator's background, service features, centre facilities, location of the premises and their accessibility, etc., in addition to their family's child rearing needs. The Social Welfare Department (SWD) will continue to review the planning of child care services, taking into account the overall situation of service supply and demand, and individual factors in specific districts, including the number of service places and

utilisation rates, land supply situation and demographic changes, etc. Follow-up measures will be taken in a timely manner, including strengthening service promotion, increasing the number of centres and allocation of service places, to better meet the service demand of the community. The number of places and average utilisation rates of the abovementioned child care services in the past year (April to December 2024), broken down by District Council district, are set out at Annex.

**Number of places and average utilisation rates/number of service users for standalone CCCs, CCCs attached to KGs, OCCS, EHS, and NSCCP
(April to December 2024)**

District	Standalone CCC Note 1		CCC attached to KG Note 2		OCCS		EHS		NSCCP Note 3

N.A. - Not applicable

Note 1 2 standalone CCCs in Sham Shui Po and Kwun Tong commenced service in September and October 2024 respectively.

Note 2 Figures provided by the Education Bureau as at September 2024.

Note 3 Starting from September 2024, on the basis of 1 service team in each of the 18 districts in Hong Kong, SWD has added an additional service team in districts with higher service demands, namely Kwun Tong, Sham Shui Po, Sha Tin, Tuen Mun, and Yuen Long. As a result, the number of service teams in Hong Kong has increased from 18 to 23. Each service team is required to provide a minimum of 92 service places (i.e. the total number of places in all 18 districts should be at least 2 116). Service operators may flexibly increase the number of home-based child care service places beyond this requirement to meet the actual service demands.

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

1. LWB(W)192 mentioned that “the expenditure of a child care centre (CCC) depends on the number of places it provides. For an aided standalone CCC offering 100 places, the estimated annual expenditure is about \$7.9 million.” In this regard, please provide a detailed breakdown of the specific areas where the expenditure for each CCC is allocated.
2. LWB(W)192 also mentioned that “after understanding the services and arrangements of ancillary facilities provided by the CCC, parents can directly apply for the services from the service operator. By understanding the circumstances of the parents and their children, the service operator can also provide more flexible support to families in need, and effectively address the service needs of different districts.” In this connection, please inform this Committee of the situation and data gathered since January 2024, including the number of working families in Hong Kong, the number of service applications submitted to service operators, the number of successful applicant families, and the number of enquiry cases. If such data is unavailable, please provide an explanation.

Asked by: Hon CHAN Man-ki, Maggie

Reply:

1. The Social Welfare Department (SWD) provides subsidies to service operators of aided standalone CCCs to cover costs, including staff salaries, administrative support, minor repairs and maintenance, rental and management fees, etc. Some CCCs receive additional funding to provide Extended Hours Service and/or Occasional Child Care Service.
2. Since parents can apply directly for CCC services from the service operators based on their needs, without being waitlisted under a central system, and the applications are handled by the respective service operators, SWD does not have statistical information on the applications for these services.

Programme: (3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

1. The reply mentioned that the “Scheme is expected to incur a total expenditure of about \$107.9 million for 2025-26.” Please provide a detailed breakdown of expenditures by area.
2. Will any portion of the expenditure be used to support the Care Teams in implementing the pilot Scheme? If so, please provide the details. If not, why?

Asked by: Hon CHAN Man-ki, Maggie

Reply:

1. The Government will extend the District Services and Community Care Teams (Care Teams) – Scheme on Supporting Elderly and Carers (the Scheme) to all 18 districts across the territory in April 2025, with a total expenditure of about \$107.9 million. This expenditure will cover (1) subsidies for 452 Care Teams to implement the Scheme; (2) subsidies for eligible elderly persons and persons with disabilities (PWDs) to install and use emergency alarm systems (known as “Safety Bell”); (3) expenses for upgrading and maintaining the household information management platform used by the Care Teams; and (4) the cost for employing short-term staff by the Social Welfare Department to assist in co-ordinating the Scheme.
2. Over 80% of the total expenditure will be used to directly subsidise 452 Care Teams. These subsidies can only be used by the Care Teams to provide services for households of singleton and doubleton elderly, and carers of elderly persons and PWDs, as well as for related purposes, including but not limited to volunteer allowances, expenses for computer systems, promotional services/activities under the Scheme, rental and use of venues, relevant insurance premiums, remuneration for auditors/auditing fees, costs for the maintenance and repair of equipment/facilities, and central administrative expenses of participating organisations, etc.

Question:

Regarding the number of calls received by the Designated Hotline for Carer Support (the Carer Hotline) and the average case handling time, the Bureau stated in its reply (LWB(W)33) that there were approximately 62 800 calls, with an average call duration of about 20 minutes. Regarding the nature of calls received by the Carer Hotline, there were 33 570 calls related to emotional issues and 1 596 calls related to mental health issues, together accounting for approximately 56% of the total. As social work services are the primary form of support provided, would the Bureau please provide the number of cases that received second-tier support, such as counselling services or other forms of assistance?

Asked by: Hon KWOK Ling-lai, Lillian

Reply:

As at 31 December 2024, among the 62 800 calls received, there were 1 093 cases that required further support through referrals for counselling or social welfare services. Moreover, there were 93 cases that required emergency support or outreach visits.

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding foster care service, the Bureau indicated in its reply from the previous year that the revised estimate for foster care service in 2023-24 was approximately \$253 million, with a provision of 1 230 service places. However, in LWB(W)017, the Bureau reported that the actual number of service users in 2023-24 was 863, while the expenditure remained unchanged at \$253 million. Could the Bureau account for the discrepancy in the figures, and explain why the expenditure remained the same despite a reduction in the number of service users?

Asked by: Hon KWOK Ling-lai, Lillian

Reply:

In 2023-24, the Social Welfare Department allocated \$253 million to non-governmental organisations (NGOs) operating foster care service to provide 1 230 foster care places, while the actual number of children receiving foster care service was 863. The provision covered items such as incentive payments, maintenance grant and setting-up grant for foster children, etc. disbursed to foster parents through NGOs on an actual cost basis. NGOs disburse incentive payments/allowances based on the actual numbers of foster families and foster children. They are required to refund the unspent amount to the Government in the following year if there is any surplus in the provision for the relevant items.

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the Navigation Scheme for Young Persons in Care Services (Navigation Scheme), the document indicates a total expenditure of \$266 million over 5 years. In 2022-23, 222 trainees were enrolled in the Navigation Scheme, with an expenditure of \$40.5 million. In 2023-24, the number of trainees increased slightly to 225, yet the expenditure more than doubled to \$82 million. In contrast, by the final year (i.e. 2025-26), the expenditure was merely \$4.2 million, while the number of trainees dropped to 141. What accounts for these discrepancies?

Asked by: Hon KWOK Ling-lai, Lillian

Reply:

The Social Welfare Department launched the Navigation Scheme in 2015-16 and enhanced it in 2020-21. The annual expenditure includes the operating cost of the service operators, training fees, the incentive allowance for trainees on top of their salaries, and training subsidies for the service units.

As trainees can join or drop out of the Navigation Scheme at different times, the actual number of trainees admitted by each service operator and the number of trainees eligible for the incentive allowance vary from year to year. In addition, service operators may also utilise resources from previous years, freed up by trainee dropouts, to admit trainees beyond the training quota for the current year. Therefore, the average expenditure per trainee cannot be deduced and compared based on the number of admissions or the expenditure incurred in any given year.

CONTROLLING OFFICER'S REPLY

S-LWB(W)08

(Question Serial No. SV019)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the Residential Care Services Scheme in Guangdong (GDRCS Scheme), how will the Government enhance its publicity efforts to ensure that elderly persons currently waiting for subsidised residential care homes (RCHs) in Hong Kong have access to comprehensive information about the scheme? Moreover, has the Government conducted any research or analysis on the enquiries received to understand the factors influencing elderly persons or their families in deciding whether or not to participate in the GDRCS Scheme, with a view to enhancing the scheme? If so, what are the details? If not, what are the reasons?

Asked by: Hon LEUNG Man-kwong

Reply:

The Social Welfare Department (SWD) has been promoting the GDRCS Scheme through various channels. These include providing the latest information about the scheme on SWD's website, uploading introductory videos of participating RCHs for the Elderly (RCHes) to SWD's YouTube channel, and holding briefing sessions and district coordinating committee meetings to introduce the scheme to caseworkers from referring offices who handle elderly persons' applications for long-term care (LTC) services so that they can promote the scheme to eligible elderly persons and their families. In addition, in November 2024, SWD broadcast a 4-episode promotional video series titled “灣區安老知多啲” on television. The videos have been uploaded to SWD's YouTube channel for continuous viewing, and are being shown at all LTC referring offices to ensure elderly persons and their families understand the scheme's services and the conditions of participating RCHes. In March 2025, SWD launched a government promotional video with the theme “Greater Bay Area: An Ideal Option for Retirement”. Broadcast on television, the video introduces RCHes and services offered under the scheme, covering various aspects such as environment, facilities and services, etc. to provide the public with more information about the scheme.

The Government has implemented the scheme to provide an additional option for Hong Kong elderly persons who are waitlisted for subsidised residential care places and interested in retiring in Guangdong (GD). Whether or not an elderly person participates in the scheme depends on various factors, such as the ease of visits by family members and friends, and

medical treatment arrangements, etc. SWD will engage a Hong Kong-based non-governmental organisation (NGO) experienced in Mainland social services to provide care services for elderly persons participating in the scheme and their families. In addition to supporting elderly persons in adapting to life in RCHEs in GD, the NGO will conduct standardised care need assessment for elderly persons from Hong Kong who have settled in Mainland cities within the Greater Bay Area, and follow up on the applications of eligible elderly persons to join the scheme. These services are expected to be rolled out in May 2025. Moreover, to address the concerns of elderly persons regarding medical expenses, SWD is currently finalising the implementation details of a 2-year pilot scheme. Expected to launch in the second half of 2025, this scheme aims to share part of the medical costs incurred by elderly participants in relevant Mainland cities. The annual subsidy is capped at RMB10,000 per person for outpatient services, and RMB30,000 per person for inpatient services. The above enhancement measures are expected to provide greater convenience for elderly persons interested in retiring in GD.

CONTROLLING OFFICER'S REPLY

S-LWB(W)09

(Question Serial No. S0043)

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

It is evident from Annex 2 of both LWB(W)135 and LWB(W)140 that the utilisation rates of day care centres/units for the elderly (DEs/DCUs) are consistently high, with most exceeding 80% and some even surpassing 100%. However, there are only 662 day respite service places available for the elderly across all 18 districts in Hong Kong. Many carers have shared their frustrations, saying that the difficulty in finding these day care centres sends their stress levels “through the roof.” Given Hong Kong’s ageing population and the Government’s promotion of ageing in place, there appears to be a lack of support services for carers. Does the Government have plans to systematically expand these services in the future?

Asked by: Hon LI Sai-wing, Stanley

Reply:

The Social Welfare Department (SWD) has all along been committed to providing a wide range of subsidised community care and support services to enable elderly persons to age in place while providing various types of support to carers. Among these services, the number of subsidised day care service places for the elderly increased from 3 059 in July 2017 to 4 123 in December 2024, with the average waiting time significantly reduced from 11 months to 4 months. The number of day respite service places for the elderly also increased substantially from 252 in March 2023 to 662 in December 2024, covering all districts across Hong Kong. In 2024-25 (as at the end of December 2024), the average utilisation rate of day respite service of DEs/DCUs was about 52%.

In addition, SWD increased the number of service places for Enhanced Home and Community Care Services by 2 000 in October 2019, and added a total of 3 000 service places for Integrated Home Care Services (Frail Cases) in October 2020 and April 2021. As at the end of December 2024, the number of subsidised home care service places had increased to 13 365. SWD also increases the number of Community Care Service Vouchers by 1 000 in 2025-26, bringing the total to 12 000, to allow more eligible elderly persons the flexibility to choose recognised service providers and service packages based on their needs.

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (3) Services for The Elderly

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

As at the end of December 2024, 316 elderly persons from Hong Kong have been admitted to residential care homes for the elderly (RCHEs) under the Residential Care Services Scheme in Guangdong (GDRCS Scheme). As indicated in the table of LWB(W)146, 3 RCHEs (namely Guangdong Yishou, Guangzhou Tianyue Hexihui, and Foshan Hetai) reported zero admissions.

Has the Government investigated why these 3 RCHEs have attracted no applicants? Will more stringent screening criteria be introduced to ensure that future participating RCHEs better meet the preferences of Hong Kong residents? Will the unpopularity of certain facilities affect the Government's plan to add more RCHEs in the future?

Asked by: Hon LI Sai-wing, Stanley

Reply:

The 3 Mainland RCHEs mentioned in the question joined the GDRCS Scheme as recently as in November 2024. Starting from December 2024, they have gradually been selected by elderly persons in Hong Kong for admission.

The Social Welfare Department (SWD) has adopted a rigorous approach to selecting suitable RCHEs for inclusion in the GDRCS Scheme. When considering each application, SWD not only reviews the application documents but also conducts on-site inspections to assess the overall condition of the RCHE. Applications from RCHEs that fail to meet the service standards set by SWD will not be approved.

Since the expansion of the GDRCS Scheme in July 2023, the numbers of participating RCHEs and elderly persons have been on the rise. SWD will monitor the occupancy of each RCHE, actively promote the GDRCS Scheme, and extend its coverage to other Mainland cities within the Guangdong-Hong Kong-Macao Greater Bay Area to provide more options for elderly persons.

Director of Bureau: Secretary for Labour and Welfare

Question:

The Navigation Scheme for Young Persons in Care Services (Navigation Scheme) offered 1 200 places, with a total expenditure of \$266 million, averaging \$220,000 per trainee. However, out of 486 graduates, only 283 remained in social welfare service units, while the 200 who left accounted for approximately \$44 million of the expenditure. Has the Bureau investigated the reasons behind this high attrition rate? What measures will the Government implement to improve talent retention? Will it consider adopting practices from other schemes, such as requiring graduates to serve in social welfare service units for 2 to 3 years after graduation?

Asked by: Hon LI Sai-wing, Stanley

Reply:

To attract more young people to join the social welfare care sector, SWD enhanced the Navigation Scheme in 2020-21 by expanding the age range of trainees from 18-25 to 17-29, reducing the weekly working hours from 44 to 40 to allow trainees to further their studies more effectively, and raising their salaries and training subsidies, etc.

The enhanced Navigation Scheme recruited a total of 1 377 trainees, of whom 486 had graduated as at the end of December 2024. According to the information provided by some trainees at the time of graduation, 283 indicated that they would continue to be employed in social welfare service units. Since not all graduates provided employment information, this figure may not reflect the complete picture of those remaining in the social welfare sector. Service operators will follow up on the career development of the 221 trainees who remain in the Navigation Scheme upon their graduation, until they complete or leave the scheme. The reasons for trainees to drop out of the Navigation Scheme include pursuing further studies and moving on to other jobs, etc.

The final-year (i.e. 2024-25) intake of the Navigation Scheme was completed in September 2024, with a total of 141 trainees admitted.

Head: (170) Social Welfare Department

Subhead (No. & title): ()

Programme: (1) Family and Child Welfare

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

According to Annex 2 of LWB(W)150, the number of children served is relatively consistent across all districts, except for Kowloon City, where the centre-based care group has only 5 users. Has the Government examined the reasons for this? Is it because of inadequate promotion or a lack of centres providing the service?

Asked by: Hon LI Sai-wing, Stanley

Reply:

A new service agreement for the Neighbourhood Support Child Care Project began in September 2024. Due to the change in service operator and relocation of the centre-based care group in Kowloon City District, service users need time to understand the new operator's service arrangements and adapt to the new service location. The Social Welfare Department will continue to monitor the service utilisation of the centre-based care group in the district, and liaise with the operator to help it in formulating service promotion strategies and strengthening publicity of the service in order to address the district's demand for the service in a timely manner.

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Many people have been invited to apply for the Scheme on Providing Subsidy for Higher Disability Allowance Recipients in Paid Employment to Hire Carers (the Scheme to Hire Carers). Nevertheless, the numbers of applications and beneficiaries were small. Has the Government reviewed the reasons behind? Would high eligibility thresholds be a reason for this?

Asked by: Hon LI Sai-wing, Stanley

Reply:

All Higher Disability Allowance (HDA) recipients are regularly invited by the Social Welfare Department to apply for the Scheme to Hire Carers. However, to qualify for the scheme, applicants must be recipients of HDA under the Social Security Allowance Scheme, engaged in paid employment (excluding self-employment or work-from-home arrangements), make a monthly income between \$7,950 and \$31,800, and employ a full-time carer. Hence, the number of subsidy recipients is smaller than the number of invitees. To ensure proper use of public funds, the Government must establish appropriate eligibility requirements like income thresholds.

Subhead (No. & title): ()

Programme: (2) Social Security

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

According to the data provided in the Government's reply, over the past 2 years, more than 10 000 individuals received support. However, only about 10% successfully secured employment, and about 5% managed to leave the Comprehensive Social Security Assistance (CSSA) net.

Has the Government reviewed the existing support measures or followed up on the employment services for CSSA recipients?

Are there plans to evaluate or enhance the relevant services in the future?

Is the Government satisfied with these outcomes? Specifically, regarding the ability of CSSA recipients to leave the CSSA net, does the Government have any strategies to promote their upward mobility?

Asked by: Hon LI Sai-wing, Stanley

Reply:

The 5-and-a-half year Employment Support Services (EmSS) contract period will end in September 2025. Taking into account the past experience of EmSS, public views on EmSS as well as the labour market situation in recent years, the Social Welfare Department (SWD) will replace EmSS with the Support Programme for the Unemployed (SPU) starting from October 2025.

SPU will be operated on a pilot basis for 2 years by non-governmental organisations and/or other organisations. All unemployed able-bodied CSSA recipients aged 15 to 59 will be mandated to participate in SPU and take up unpaid work on a weekly basis arranged by SPU operators, until they have secured gainful employment or returned to mainstream education. Incompliance with the unpaid work requirement will result in CSSA stoppage for the participant and his/her household. Meanwhile, SPU participants will continue to have access to a range of free employment services and training resources as well as relevant training allowances provided by the Labour Department and the Employees Retraining Board.

SWD expects SPU to be more effective in motivating the unemployed able-bodied CSSA recipients to connect with the community, develop a work habit and accumulate work experience to enhance employability, thereby reducing their reliance on CSSA in the long term.

Programme: (3) Services for The Elderly
(4) Rehabilitation and Medical Social Services

Controlling Officer: Director of Social Welfare (Edward TO)

Director of Bureau: Secretary for Labour and Welfare

Question:

Regarding the District Services and Community Care Teams – Scheme on Supporting Elderly and Carers (the Scheme), the expenditure for 2024-25 was \$9.20 million with around 7 000 needy households visited, which represents an average unit cost of about \$1,300 per household. For 2025-26, the Scheme will expand to all 18 districts across the territory, with an expected expenditure of \$107.9 million and a target of visiting 60 000 households. This results in an average unit cost of approximately \$1,800 per household. Would the Government please elaborate on the factors contributing to the increase in unit costs?

Asked by: Hon TAN Yueheng

Reply:

The expenditure of the Scheme was \$9.20 million in 2024-25. The Government initially estimated that during the pilot phase, 36 Care Teams in Tsuen Wan and the Southern District would contact/visit 5 400 needy households of singleton and doubleton elderly, as well as carers of elderly persons and persons with disabilities. The Care Teams ultimately contacted/visited over 7 000 households, exceeding the key performance indicator.

In 2025-26, the Government has extended the Scheme to all 18 districts across the territory. It is expected that during the 12-month implementation period of the Scheme, the Care Teams will contact/visit over 60 000 households in need. The number of households contacted/visited finally will only be available upon conclusion of the Scheme at the end of March 2026.

The Government provides a grant for emergency alarm system (EAS) (commonly known as "Safety Bell") to elderly persons under the Comprehensive Social Security Assistance (CSSA) Scheme. In this connection, please provide this Committee with the following information:

- (a) What is the age distribution of elderly persons receiving the grant for EAS (i.e. the number and percentage of such persons in the following age groups: 65 to 70, 70 to 80, and 80 or above) in the past 5 years?
- (b) What are the household sizes and corresponding percentages of elderly persons receiving the grant for EAS in the past 5 years? Please present the data using the following table.

Year/Household Size	1 person (%)	2 persons (%)	3 persons (%)	4 persons or more (%)
2020				
2021				
2022				
2023				
2024				

- (c) Given the use of public funds to cover the costs of EAS, is there an established mechanism to regularly review the service quality of various EAS providers? If so, what are the details? If not, what are the reasons?

Asked by: Hon TANG Ka-piuReply:

- (a) The number and percentage of CSSA recipients aged 65 or above receiving the grant for EAS from 2020-21 to 2024-25, broken down by age group, are set out at Annex.
- (b) The Social Welfare Department (SWD) does not maintain information on the household sizes of CSSA recipients receiving the grant for EAS.

- (c) CSSA recipients are free to choose a suitable EAS service provider according to their specific needs. As is the case with other special grants under the CSSA Scheme, SWD has not designated any service providers for EAS services.

Number and percentage of CSSA recipients aged 65 or above receiving the grant for EAS from 2020-21 to 2024-25 by age group

Year	Number of CSSA recipients receiving the grant for EAS				Percentage relative to the number of CSSA recipients in the same age group (%)			
	Aged 65 to 69	Aged 70 to 79	Aged 80 or above	Total	Aged 65 to 69	Aged 70 to 79	Aged 80 or above	Total
