### 1.1 Background

1.1.1 The Chief Executive of the Hong Kong Special Administrative Region (HKSAR), in the 2005 Policy Address, announced the setting up of the Partnership Fund for the Disadvantaged (the PFD) to promote tripartite partnership among the welfare sector, the business community and the Government to help the disadvantaged. Since 2005, the Government has injected a total of \$1.2 billion. Apart from a commitment of \$800 million for the “Regular Portion (RP)” of the PFD to help the disadvantaged, a total of \$400 million has been earmarked as “Dedicated Portion (DP)” under the PFD. Since its launching in 2015, the DP has encouraged the business sector to work with non-governmental welfare organisations (welfare NGOs) and schools to implement more after-school learning and support programmes for primary and secondary students from grassroots families to facilitate their whole-person development. Out of the total commitment of \$1.2 billion, \$1.19 billion is for the matching grant portion, and \$10 million is for the support measure portion<sup>Note 1</sup>.

1.1.2 Under the PFD, the Government provides matching grants having regard to the donations made by business organisations to support applicant organisations in running social welfare projects. The Advisory Committee of the PFD (the Advisory Committee), comprising non-official members from the welfare, business and academic sectors, was set up in 2005 to give advice on the approval of applications and matters relating to the operation of the PFD.

### 1.2 Objectives of the PFD

1.2.1 The PFD aims to:

- (a) incentivise the welfare sector to expand their network in seeking and securing corporate participation; and

---

<sup>Note 1</sup> Upon establishment of the PFD in 2005, an amount of \$10 million from the fund has been set aside for various support measures, such as publicity and evaluation, with a view to promoting tripartite partnership.

- (b) encourage the business sector to take up more corporate social responsibility for creating a cohesive, inclusive and caring society.

1.2.2 In meeting these objectives, applicant welfare NGOs are required to obtain donations from business corporations, and ensure that the donations are used in programmes serving the disadvantaged.

### **1.3 Provision of the PFD**

1.3.1 The PFD provides matching grants for applicant welfare NGOs in accordance with the contributions from business corporations, in cash and/or in kind, on a dollar-to-dollar matching basis. The matching grants are one-off in nature and applicant welfare NGOs will have to absorb the financial consequences, if any, after using up the grants from the PFD.

### **1.4 Launching of the PFD**

1.4.1 The funding is allocated in different rounds until depletion of the PFD. The Twelfth Round Regular Portion is now open for application, with the deadline for the first phase set on 28 June 2019 and the second phase on 30 September 2019.

### 2.1      Eligible applicants

2.1.1    Bona-fide charitable **welfare** NGOs having tax-exempted status under Section 88 of the Inland Revenue Ordinance (Cap. 112)<sup>Note 2</sup> may apply for matching grants from the PFD.

2.1.2    The applicant must prove it is financially sound and capable to deliver the proposed project by submitting documents and information in the application and upon request of the Secretariat.

### 2.2      Project proposals to be accepted for consideration

2.2.1    Project proposals meeting the following basic requirements may be considered for matching grants from the PFD :

- (a)    the project proposal shall be an initiative in support of the Government's welfare policy but shall not receive duplicate funding support from the government in any form before, during and after project implementation (e.g. being supported under a "Funding and Service Agreement" with the Social Welfare Department (SWD), being a service contract awarded by SWD, or being supported by any other public funds such as the Lotteries Fund, Community Investment and Inclusion Fund, Enhancing Self-Reliance Through District Partnership Programme, School-based After-school Learning and Support Programmes, Hong Kong Jockey Club Life-wide Learning Fund, etc.);
  
- (b)    the project proposal shall be delivered in Hong Kong to provide services, programmes and activities which will benefit directly the welfare of the underprivileged persons/groups of Hong Kong such as people with disability, elderly people in need of more social support, children from

---

<sup>Note 2</sup> For the list of charitable institutions and trusts of a public character which are exempt from tax under Section 88 of the Inland Revenue Ordinance (Cap. 112), please refer to the Homepage of the Inland Revenue Department at the following link: [http://www.ird.gov.hk/eng/tax/ach\\_index.htm](http://www.ird.gov.hk/eng/tax/ach_index.htm). Of these Section 88 organisations, only those providing welfare services are eligible to apply.

deprived families, family members of family violence/abuse cases, etc.;

- (c) the donations shall be made by registered business corporations operating business in Hong Kong or charitable trusts/foundations which are established and managed by such business corporations. Donations from professional associations and religious bodies, contributions from charitable trusts/foundations not established and managed by the business corporations (or without the source of funding from business corporations) and funds under the management of government departments/public bodies will not be accepted;
- (d) the project proposal shall include a donation by business corporations in cash, in kind or a combination of the two. Contribution to service is encouraged but will not be counted for allocation of matching grant from the PFD because this may affect the development of corporate volunteering work;
- (e) the applicant welfare NGO has to obtain and confirm the committed business donation(s) for the project proposal in the application. Donation(s) received by the applicant welfare NGO should not be earlier than one year before the launching of the Twelfth Round Application on 28 December 2018, which means only donation(s) received on or after 28 December 2017 will be counted for the purpose of matching from the PFD;
- (f) the project proposal or any part of the programme seeking a matching grant from the PFD shall not start before approval of the matching grant is given;
- (g) the project proposal shall not include self-financing projects as they are already operating in a cost recovery mode through fee charging; and
- (h) any requirement from the business corporations in relation to their donations must not be in conflict with the objectives and guidelines of the PFD. Donations shall not come from corporations running business in connection with smoking.

## **2.3 Guidelines for assessing applications**

2.3.1 The following guidelines will be adopted in assessing applications:

- (a) priority consideration will be given to applications which are :
  - (i) in pursuit of 4“E”s, namely Enhancement of quality of life, Employment/Skill development, Empowerment and Exclusion prevention;
  - (ii) with output and outcome evaluation;
  - (iii) with promising sustainability and strategic partnerships with the business corporations as wider participation and support from the business sector, e.g. involvement of business partners and active participation of corporate volunteers, is essential to the successful implementation and continuity of the project initiative;
  - (iv) with elements of early intervention and preventive measures targeting a social problem. Proposals with strategic plan to reach and provide support and services to the disadvantaged such as hidden elders, ill health people, poor and isolated families, deprived children living in disadvantaged circumstances, ethnic minority families, non-engaged youths and unemployed able-bodied will carry more weight in the selection; and
  - (v) demonstrative of the initiatives of the applicant welfare NGO in rendering appropriate services to meet the changing needs of the target groups and expand their social partnership;
- (b) low priority will be given to the project proposal seeking funding to upgrade facilities and/or purchase equipment, or the related proportions of the funding sought will be heavily cut so that the PFD may benefit the disadvantaged more directly;
- (c) a project proposal that does not address the welfare needs of underprivileged persons/groups of Hong Kong such as

medical service, environmental protection programme, education service, etc. may not be considered;

- (d) the proposed expenditure should contribute to the direct benefit of the service users as far as possible, unless with acceptable justifications;
- (e) applications with the same substance as other previously approved projects may not be considered unless a new service component, which may include new service elements, new service scope, new target clientele, or new geographical coverage, has been added. Application with proven outcome and/or output effectiveness may be allowed to repeat only once;
- (f) business corporations are encouraged to contribute as much as possible rather than being constrained by the ceiling of the matching grant from the PFD for each application;
- (g) business contributions in kind and used in the project proposal will be translated into monetary value for the purpose of allocation of matching grants. Applicant welfare NGOs are required to provide quotations as stated in paragraphs 3.2.2 to 3.2.3 of this Guide if the donated items are not on the designated list<sup>Note 3</sup>. Only new and saleable items which are of use or benefit to the disadvantaged under the project proposal would be counted for allocation of matching grants;
- (h) joint applications with more than one applicant welfare NGO or joint contributions with more than one business corporation in respect of the same application may be accepted. In such cases, a principal applicant welfare NGO shall be responsible for the application and comply with all the conditions of the grant;
- (i) funding resource for staffing may be considered for the purpose of direct service provision while staff training and train-the-trainer programmes will be accorded low priority. Staff costs, upon taking into account the nature of the project,

---

Note 3 The designated list refers to the “Government’s Price List of Common Furniture and Equipment” (the List) as stated in paragraph 3.2.1 of this Guide.

the nature and number of sessions/hours of tasks involved, the required qualification and experience of the staff, the market rate of similar jobs, and any other duties, knowledge and skills required of the staff, may be considered up to 50% of the total budget of the project proposal, and up to 70% of the total budget of the project proposal for a manpower intensive programme/ activity; and

- (j) the administration overheads, subject to item-by-item vetting of the justifications provided by the applicant, may be considered up to 10% of the total budget of the project proposal. Administration overheads will cover items for service planning and management, coordination and quality assurance; human resource management; accounting management and financial monitoring; risk management, internal audit and compliance; public relations, partnership, corporate communication and publicity; office/project venue, equipment and facilities, and consumables; and information technology facilities and support.

### 3.1      Allocation of the matching grant

3.1.1    Subject to availability of funds and approval of the budget of the project proposals, the Government will provide grants for the applicant welfare NGOs in accordance with donations made by business corporations on a matching basis. Allocation of grant for each approved project proposal will be capped at a maximum of **HK\$2 million**. There is no limit to the amount of contribution from the business corporations.

3.1.2    Contributions in cash will be matched on a dollar-to-dollar basis. For contributions in kind, items may include but are not limited to equipment, tools and supplies, products<sup>Note 4</sup>, vehicles, etc. They should be translated into monetary value as stated in paragraphs 3.2.1 to 3.2.3 of this Guide for matching purpose and items should be of use or benefit to the disadvantaged and used in the project proposed.

3.1.3    Each applicant welfare NGO is allowed to submit and may be approved of a maximum of ten applications for the Twelfth Round Application provided that they can demonstrate the ability to deliver all the projects within the specified period of time.

### 3.2      Translation of contribution in kind to monetary value

3.2.1    Reference should be made to the Government's Price List of Common Furniture and Equipment (the List) for the monetary value of the contributions in kind. The link to the List is available on the SWD Homepage (<http://www.swd.gov.hk/en/index/>) → NGO Corner → Lotteries Fund:

(a) Not exceeding \$50,000	Applicant welfare NGO should obtain at least two written quotations
(b) Exceeding \$50,000	Applicant welfare NGO should obtain at least five written quotations

3.2.3 All the written quotations provided should be certified by the Head of applicant welfare NGO as i) being genuinely obtained from market and ii) not being provided by the supplier or associated company of the business corporation offering contribution in kind to avoid any conflict of interest. Written quotation with the lowest value will be referred to. If any contribution in kind claims to have some unique value, justifications for the value will be required.

### **3.3. Procurement of furniture and equipment, works and other services**

3.3.1 If the approved projects involve furniture and equipment (F&E), works and other services, applicant welfare NGOs are required to follow quotation and tender procedures by making reference to the Lotteries Fund Manual on the SWD Homepage at the following link (<http://www.swd.gov.hk/en/index/>) → NGO Corner → Lotteries Fund :
